

PIC CIRCULAR XIV – December 2001

CONTENTS

1.	THE PURPOSE OF THE PIC CIRCULAR	1
2.	IMPLEMENTATION OF THE INTERIM PIC PROCEDURE	2
2.1	Designated national authorities	2
2.2	Notifications of final regulatory action to ban or severely restrict a chemical	2
2.3	Proposals for inclusion of severely hazardous pesticide formulations received under the interim PIC procedure	3
2.4	Chemicals subject to the interim PIC procedure and distribution of decision guidance documents (DGDs)	3
2.5	Transmittal of a response concerning future import of a chemical	3
2.6	Information on responses received concerning future import of a chemical	4
2.7	Information on transit movements	4
3.	ADDITIONAL INFORMATION FOR DNAs	4
3.1	Information on status of signature and ratification of the Convention	4
3.2	Documents available under the interim PIC procedure	5

Appendices

I.	Synopsis of notifications of final regulatory action received under the interim PIC procedure	6
II.	Proposals for inclusion of severely hazardous pesticide formulations received under the interim PIC procedure	25
III.	Chemicals currently subject to the interim PIC procedure	27
IV.	Listing of all importing country responses received from Parties	29

1. THE PURPOSE OF THE PIC CIRCULAR

The Conference of Plenipotentiaries, held in Rotterdam on 10 and 11 September 1998, adopted the text of the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals in International Trade. The Conference also considered that interim arrangements were required to continue to operate a voluntary PIC procedure, in order to protect human health and the environment from certain hazardous chemicals and pesticides, pending the entry into force of the Convention and to prepare for its effective operation once it enters into force. The Conference, therefore, changed the original, voluntary procedure to bring it into line with the procedure established by the Convention with effect from the date on which the Convention was opened for signature (11 September 1998). The original PIC procedure with these changes is hereinafter referred to as the "interim PIC procedure".

The purpose of the PIC Circular is to provide all Parties¹, through their designated national authorities (DNAs), with the information required to be circulated by the Secretariat under the interim PIC procedure, in line with Articles 4, 5, 6, 7, 10, 11 and 14 of the Convention. However, the decision guidance documents to be dispatched to Parties¹ in line with Article 7, paragraph 3, are sent out in a separate communication.

The PIC Circular will be published every six months, in June and December. In order to allow adequate time for processing of the information received in preparation of this Circular, information received after 31 October 2001 has not generally been included in this Circular, but will be reflected in the next Circular scheduled for June 2002.

Considerable efforts have been made by the Secretariat to ensure that the information included in this Circular is both complete and accurate. DNAs are requested to review the information for their country and to bring any errors or omissions to the attention of the Secretariat as soon as possible.

2. IMPLEMENTATION OF THE INTERIM PIC PROCEDURE

2.1 Designated national authorities (in line with Article 4 of the Convention)

In line with Article 4, paragraph 4 of the Convention, the Secretariat shall inform the Parties¹ of new nominations or changes in nominations of designated national authorities (DNAs). Since the last PIC Circular was distributed in June 2001, no State has nominated, for the first time, a DNA for participation in the interim PIC procedure, 2 States (Angola and Estonia) have nominated additional DNAs and 16 parties have provided changes (Australia, Bahrain, Barbados, Canada, Comoros, European Community, Fiji, Germany, India, Jordan, Malaysia, Malta, Nigeria, Portugal, Sweden, Thailand). A complete list of DNAs under the interim PIC procedure is being distributed together with the present Circular. DNAs are requested to review the information for their country and to bring any errors or omissions to the attention of the Secretariat as soon as possible.

2.2 Notification of final regulatory action to ban or severely restrict a chemical (in line with Article 5 of the Convention)

In line with Article 5, paragraph 3 of the Convention, the Secretariat is to circulate summaries of notifications of final regulatory action received, and which the Secretariat has verified contain the information required by Annex I of the Convention. In line with Article 5, paragraph 4 of the Convention, the Secretariat is to circulate a synopsis of the notifications of final regulatory action received, including information regarding those notifications that do not contain all the information required by Annex I of the Convention. Such a synopsis of notifications received under the interim PIC procedure, including the summaries of the notifications the Secretariat has verified contain the information required by Annex I of the Convention and information regarding those notifications that have been verified not to contain all the information required by said Annex, is provided as Appendix I, parts A and B of this Circular.

Parties¹ that have submitted notifications, which are still under verification by the Secretariat, are listed in Appendix I, part C of this Circular.

In order to facilitate the submission of notifications by Parties, a *Form for notification of final regulatory action to ban or severely restrict a chemical* (UNEP/FAO/PIC/FORM/1/E/4-99) was sent to all DNAs in June 1999. When a notification is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its legal status.

¹ During the interim period before the Convention enters into force, a "Party" is understood to mean any State or regional economic integration organization having nominated a designated national authority or authorities for the purpose of participating in the interim PIC procedure.

2.3 **Proposal for inclusion of severely hazardous pesticide formulations received under the interim PIC procedure** (in line with Article 6 of the Convention)

In line with Article 6, paragraph 2 of the Convention, the Secretariat is to circulate summaries of those proposals for inclusion of severely hazardous pesticide formulations in the interim PIC procedure, which the Secretariat has verified contain the information required by part 1 of Annex IV of the Convention. Such summaries are provided as Appendix II, part A of this Circular.

Parties¹ that have submitted proposals, which are still under verification by the Secretariat, are listed in Appendix II, part B of this Circular.

The documentation required from a proposing Party in support of a proposal for inclusion of a severely hazardous pesticide formulation is listed in Part 1 of Annex IV of the Convention. When a proposal is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual proposal to ensure its legal status.

2.4 **Chemicals subject to the interim PIC procedure and distribution of decision guidance documents** (in line with Article 7 of the Convention)

Appendix III of this Circular lists all chemicals that are currently subject to the interim PIC procedure and the date of first dispatch of the corresponding decision guidance document (DGD) to DNAs. To date, there are 21 pesticides, five severely hazardous pesticide formulations and five industrial chemicals. These include the chemicals binapacryl and toxaphene for which the Intergovernmental Negotiating Committee (INC), at its 6th session in July 1999, adopted the corresponding decision guidance documents, with the effect that these two chemicals became subject to the interim PIC procedure.

In November 2000, the INC, at its 7th session, adopted DGDs for the chemicals *ethylene dichloride* and *ethylene oxide*, with the effect that these chemicals are now subject to the interim PIC procedure. The DGDs were dispatched to all Parties¹, through their DNAs, on 1 February 2001.

2.5 **Transmittal of a response concerning future import of a chemical** (in line with Article 10, paragraphs 2, 3 and 4 of the Convention)

In line with Article 10, paragraph 2 of the Convention, each Party¹ shall transmit to the Secretariat, as soon as possible, and in any event no later than nine months after the date of dispatch of the DGD, a response concerning the future import of the chemical concerned. In line with Article 10, paragraph 4 of the Convention, the response shall consist of either a final decision or an interim response. The interim response may include an interim decision regarding import. The response must relate to the category or categories specified for the chemical in Appendix III of this Circular.

In order to facilitate the submission of responses regarding import a *Form for importing country response* (UNEP/FAO/PIC/FORM/2/E/4-99) was sent in June 1999 to all DNAs. When an import response is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its legal status.

In line with Article 10, paragraph 2 of the Convention, if a Party¹ modifies this response, the DNA shall forthwith submit the revised response to the Secretariat.

In line with Article 10, paragraph 3 of the Convention, the Secretariat shall, at the expiration of the time period given in Article 10, paragraph 2, forthwith address to a Party¹ that has not provided such a response, a written request to do so, through its DNA. Where the phrase "Cases of failure to transmit a response" is listed in Appendix IV for a Party¹, the DNA should consider this to represent the written request for that Party¹ to provide a response for that chemical in line with Article 10, paragraph 3.

2.6 Information on responses received concerning future import of a chemical (in line with Article 10, paragraph 10 and Article 11, paragraph 2 of the Convention)

In line with Article 10, paragraph 10 of the Convention, the Secretariat shall, every six months, inform all Parties¹ of the responses received regarding future import, including a description of the legislative or administration measures on which the decisions have been based, where available, and information on cases of failure to transmit a response. A listing of all importing country responses received from Parties¹ as of 31 October 2001 is provided as Appendix IV. The responses listed relate to the category or categories specified for each chemical in Appendix III of this Circular. Please note that any response not addressing importation is considered as an interim response that does not contain an interim decision.

Parties¹ that had nominated a DNA by 11 September 1998, but had not provided an import response for the 27 chemicals subject, at that time, to the interim PIC procedure by 30 May 1999, were identified in Circular IX (dated 12 June 1999) as having failed to transmit a response for those chemicals.

In addition to the above, each Party¹ that has failed to transmit an import response for a chemical listed in Appendix III of this Circular within 9 months of the date of dispatch of the DGD to the Party¹, through the DNA, is identified in Appendix IV of this Circular. For each chemical, a separate list entitled "Cases of failure to transmit a response" identifies each Party and gives the date on which the Secretariat first informed the Parties, through publication of the PIC Circular, that the Party had failed to transmit a response.

The Secretariat wishes to draw the attention of DNAs to Article 11, paragraph 2 of the Convention, in relation to the failure to transmit a response or an interim response that does not contain an interim decision.

2.7 Information on transit movements (in line with Article 14, paragraph 5)

Since the last Circular, no Party¹ has reported to the Secretariat its need for information on transit movements through its territory of chemicals included in the interim PIC procedure.

3. ADDITIONAL INFORMATION FOR DNAs

3.1 Information on status of signature and ratification of the Convention

The Convention was adopted at the Conference of the Plenipotentiaries in Rotterdam on 10 September 1998 and opened for signature on 11 September 1998. It remained open for signature for one year at the UN Headquarters in New York till 10 September 1999. During the signature period, 72 States and one regional economic integration organization signed the Convention.

The Convention will enter into force 90 days after the deposit of 50 instruments of ratification, acceptance, approval or accession. As of 31 November 2001, 17 States (Bulgaria, Czech Republic, El Salvador, Germany, Guinea, Hungary, Kyrgyzstan, Mongolia, Netherlands, Nigeria, Norway, Oman, Panama, Saudi Arabia, Senegal, Slovenia and Suriname) had ratified, accepted, approved or acceded to the Convention.

3.2 Documents available under the interim PIC procedure

The following materials can be obtained from the Secretariat:

- ✓ The Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade (available in Arabic, Chinese, English, French, Russian and Spanish);
- ✓ Final Act of the Conference of Plenipotentiaries on the Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade (available in Arabic, Chinese, English, French, Russian and Spanish);
- ✓ Decision guidance documents for aldrin, DDT, dieldrin, dinoseb and dinoseb salts, fluoroacetamide and HCH (mixed isomers) (available in English, French and Spanish);
- ✓ Decision guidance documents for chlordane, EDB, heptachlor, chlordimeform and mercury compounds (available in English, French and Spanish);
- ✓ Decision guidance documents for captafol, chlorobenzilate, hexachlorobenzene, lindane, pentachlorophenol and 2,4,5-T (available in English, French and Spanish);
- ✓ Decision guidance documents for binapacryl and toxaphene (available in English, French and Spanish);
- ✓ Decision guidance documents for ethylene dichloride and ethylene oxide (available in English, French and Spanish);
- ✓ Decision guidance documents for severely hazardous formulations of methamidophos, methyl parathion, monocrotophos, parathion and phosphamidon (available in English, French and Spanish);
- ✓ Decision guidance documents for crocidolite, polybrominated biphenyls, polychlorinated biphenyls, polychlorinated terphenyls and tris(2,3-dibromopropyl) phosphate (available in English, French and Spanish);
- ✓ Register of designated national authorities under the interim PIC procedure (English only);
- ✓ Form for notification of final regulatory action to ban or severely restrict a chemical (available in English, French and Spanish);
- ✓ Instructions for submission of notification of final regulatory action to ban or severely restrict a chemical (available in English, French and Spanish);
- ✓ Form for importing country response (available in English, French and Spanish);
- ✓ Instructions for submission of importing country response (available in English, French and Spanish).

Most of these documents can also be obtained from the Rotterdam Convention homepage at <http://www.pic.int>.

Should you have any queries regarding aspects of the development and operation of the PIC procedure, please do not hesitate to contact the Secretariat at the following addresses:

APPENDIX I

SYNOPSIS OF NOTIFICATIONS OF FINAL REGULATORY ACTION
RECEIVED UNDER THE INTERIM PIC PROCEDUREPart A: SUMMARY OF EACH NOTIFICATION OF FINAL REGULATORY ACTION
THAT HAS BEEN VERIFIED TO CONTAIN ALL THE INFORMATION
REQUIRED BY ANNEX I OF THE CONVENTION

CZECH REPUBLIC

Common Name: Asbestos fibres

CAS-number: 12001-28-4 (Crocidolite),
77536-66-4 (actinolite), 77536-67-5 (anthophyllite),
12172-73-5 (amosite), 77536-68-6 (tremolite)

Chemical Name: Crocidolite, actinolite, anthophyllite, amosite, tremolite

Final regulatory action has been taken for the category: Industrial

Final regulatory action: The chemical is severely restricted.

Summary of the final regulatory action: Production, import, export and distribution of the substance is banned with exception of its production and import for research, scientific and analytic purposes in quantity less than 100 g per year from one producer or importer.

Use or uses prohibited by the final regulatory action: All uses

Use or uses that remain allowed: For research purposes

The final regulatory action was based on a risk or hazard evaluation: No

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: Substance is carcinogenic to humans by inhalation.

Expected effect of the final regulatory action relevant to human health: To minimize exposure of humans to asbestos by inhalation.

Date of entry into force of the final regulatory action: 1 January 1999

CZECH REPUBLIC

Common Name: Polychlorinated biphenyls

CAS-number: 1336-36-3

Chemical Name: Polychlorinated biphenyls

Final regulatory action has been taken for the category: Industrial

Final regulatory action: The chemical is severely restricted.

Summary of the final regulatory action: Production, import, export and distribution of the preparations containing more than 0.005% by weight of the substance is banned (with exception of mono- and dichlorinated biphenyls). The production and import of the substance for research, scientific and analytic purposes in quantity less than 100 g per year from one producer or importer is permitted.

Use or uses prohibited by the final regulatory action: All uses except use of mono- and dichlorinated biphenyls.

Use or uses that remain allowed: For research purposes

The final regulatory action was based on a risk or hazard evaluation: No

The reasons for the final regulatory action were relevant to: Human health and Environment

Summary of known hazards and risks to human health: Substance is harmful to human health, it is probably carcinogenic.

Expected effect of the final regulatory action relevant to human health: To minimize exposure of humans and environment to PCBs.

Summary of known hazards and risks to the environment: Persistence in the environment, bioaccumulation in the food chain.

Expected effect of the final regulatory action relevant to the environment: To minimize exposure of the environment to PCBs.

Date of entry into force of the final regulatory action: 1 January 1999

CZECH REPUBLIC

Common Name: Polychlorinated terphenyls **CAS-number:** 61788-33-8

Chemical Name: Polychlorinated terphenyls

Final regulatory action has been taken for the category: Industrial

Final regulatory action: The chemical is severely restricted.

Summary of the final regulatory action: Production, import, export and distribution of the preparations containing more than 0.005% by weight of the substance is banned. The production and import of the substance for research, scientific and analytic purposes in quantity less than 100 g per year from one producer or importer is permitted.

Use or uses prohibited by the final regulatory action: All uses.

Use or uses that remain allowed: For research purposes

The final regulatory action was based on a risk or hazard evaluation: No

The reasons for the final regulatory action were relevant to: Human health and Environment

Summary of known hazards and risks to human health: Substance is harmful to human health.

Expected effect of the final regulatory action relevant to human health: To minimize exposure of humans to PCTs.

Summary of known hazards and risks to the environment: Persistence in the environment, bioaccumulation in the food chain.

Expected effect of the final regulatory action relevant to the environment: To minimize exposure of the environment to PCTs.

Date of entry into force of the final regulatory action: 1 January 1999

EUROPEAN UNION

Common Name: DNOC **CAS-number:** 534-52-1

Chemical Name: 4,6-dinitro-o-cresol (IUPAC); 2-methyl-4,6-dinitrophenol (CAS)

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing DNOC. DNOC is not included as an active ingredient in Annex I to Directive 91/414/EEC. The authorizations for plant protection products containing DNOC were withdrawn within a period of 6 months from the date of notification of the Commission Decision 1999/164/EC. From the date of the notification, no authorization for plant protection products containing DNOC will be granted or renewed.

Use or uses prohibited by the final regulatory action: All applications as plant protection product.

Use or uses that remain allowed: EU Member States may have granted a period of grace for disposal, storage, placing on the market and use of existing stocks, not longer than 15 months from the date of notification of Commission Decision 1999/164/EC of 17/02/1999.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health and Environment

Summary of known hazards and risks to human health: None of the intended uses are considered to be acceptable as regards operator exposure. Moreover insufficient data are available to assess consumer exposure to potential residues resulting from use.

Expected effect of the final regulatory action relevant to human health: complete risk reduction for plant protection use.

Summary of known hazards and risks to the environment: Insufficient data to assess the risk to aquatic and terrestrial organisms.

Expected effect of the final regulatory action relevant to the environment: complete risk reduction for plant protection use.

Date of entry into force of the final regulatory action: 16/08/1999 (Authorizations for plant protection products containing DNOC were withdrawn within a period of 6 months from the date of the final regulatory action)

EUROPEAN UNION

Common Name: Dinoterb

CAS-number: 1420-07-1

Chemical Name: 2-tert-butyl-4,6-dinitrophenol (IUPAC); 2-(1,1-dimethylethyl) 4-6-dinitrophenol (CAS)

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing dinoterb. Dinoterb is not included as an active ingredient in Annex I to Directive 91/414/EEC. The authorizations for plant protection products containing dinoterb were withdrawn within a period of 6 months from the Commission Decision 98/269/EC. From the date of the decision, no authorization for plant protection products containing dinoterb will be granted or renewed.

Use or uses prohibited by the final regulatory action: All applications as plant protection product are prohibited.

Use or uses that remain allowed: EU Member States may have granted a period of grace for disposal, storage, placing on the market and use of existing stocks, not longer than 18 months from the date of notification of Commission Decision 98/269/EC of 7 April 1998.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health and Environment

Summary of known hazards and risks to human health: Based on available data, none of the intended uses are considered acceptable as regards operator exposure to the active substance and consumers exposure to potential residues resulting from use.

Expected effect of the final regulatory action relevant to human health: complete risk reduction for plant protection use.

Summary of known hazards and risks to the environment: High risk or danger for terrestrial and aquatic organisms.

Expected effect of the final regulatory action relevant to the environment: complete risk reduction for plant protection use.

Date of entry into force of the final regulatory action: 6/10/1998 (Authorizations for plant protection products containing dinoterb were withdrawn within a period of 6 months from the date of the final regulatory action)

THE NETHERLANDS

Common Name:alachlor

CAS-number: 15972-60-8

Chemical Name: 2-chloro-N-(2,6-diethylphenyl)-N-(methoxymethyl)acetamide

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to sell, stock, store or usealachlor as a pesticide. The Pesticide Authorisation Board decided to withdraw all applications ofalachlor from 1.1.1987. In 1989, a request for re-authorisation ofalachlor was submitted. This request is still under discussion.

Use or uses prohibited by the final regulatory action: all applications are prohibited.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes.

The reasons for the final regulatory action were relevant to: Human health.

Summary of known hazards and risks to human health: In 1987, the Pesticide Authorisation Board (CTB) decided to withdraw all applications ofalachlor on the basis of carcinogenic properties attributed toalachlor and /or its metabolites. Two chronic studies in rats clearly showed thatalachlor is carcinogenic to rats. It is noted that there has been discussion whether the nasal tumors in rats are relevant for humans. It was postulated that the nasal

tumors in rats were caused by the metabolite 2,6-diethylalanine, which is specific to the rat, and is not formed in mice and apes and probably also not in humans. In view of the serious effects, it was however decided to prohibit alachlor until further evidence was submitted to prove that the nasal tumours were indeed rat-specific (CTB, 1986).

In view of the supposed carcinogenic effects, leaching to groundwater would be an unacceptable risk to the general population. In the Netherlands, groundwater must remain free from pesticides (precaution principle). Leaching of alachlor and/or its metabolites from soil to groundwater amounts to 40% of the applied dose. In soils containing a very low organic carbon amount (<3%), leaching can be even higher (up to 92%). Metabolites include 2,6-dethy-N-methoxymethyl-acetanilide and 2,6-diethyl-N-methoxymethyl-2-methyl-sulfonyl-acetanilide (CvF, 1980).

Expected effect of the final regulatory action relevant to human health: Prevention of carcinogenic effects and of contamination of drinking water derived from groundwater. The final regulatory action led to a complete risk reduction.

Date of entry into force of the final regulatory action: 1.1.1987.

THE NETHERLANDS

Common Name: bifenthrin **CAS-number:** 82657-04-3

Chemical Name: 2-methyl[1,1'-biphenyl]-3-yl)methyl-3-(2-chloro-3,3,3-trifluoro-1-propenyl)-2,2-dimethyl-cyclopropanecarboxylate.

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: the authorisation for the application of bifenthrin as a pesticide was cancelled.

In 1989 the use was already restricted to glasshouse-cultures with minimised emissions of effluents to the surface water. Use in the open field (orchards) had been forbidden, because of the high emission fractions (from the application areas to the environment) involved.

Use or uses prohibited by the final regulatory action: all agricultural applications are prohibited.

Use or uses that remain allowed: in the Netherlands, bifenthrin is allowed as a biocide under certain restrictions for pest control of crawling insects and flies in storage room and working accommodations using apparatus creating big droplets under low pressure with the restriction that humans, pet animals or unpacked material for the food industry are not present in the room. Based on the occupational risk evaluation it was concluded that the adverse health effect after dermal exposure to bifenthrin can not be excluded. The dermal exposure was assessed to be between 0.5 and 9.6 mg/day. Based on an AOEL (acceptable operator exposure level) of 4.2 mg/day the Risk index varies between 0.1 and 2.3. It is therefore recommended to take protective measures in case bifenthrin is manually sprayed. Considering the use of bifenthrin as a biocide (no application on vegetables or crops), no exposure of the general population is expected. It is however noted that bifenthrin is a synthetic pyrethroid. Since pyrethroids are known to cause negative effects on neurochemical and behavioural parameters in young mice, bifenthrin should be used in such way that young children can not be exposed to it.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health and environment.

Summary of known hazards and risks to human health: Human health risks have not been evaluated, because all agricultural applications of bifenthrin were withdrawn. In the Netherlands bifenthrin is only allowed as a biocide under certain restriction. Based on the occupational risk evaluation that adverse health effect after dermal exposure to bifenthrin can not be excluded.

Expected effect of the final regulatory action relevant to human health: the final regulatory action led to a complete risk reduction for all agricultural applications of bifenthrin.

Summary of known hazards and risks to the environment: The Pesticide Authorisation Board (CTB) decided to withdraw all agricultural applications of bifenthrin from 14 August 1999 because the manufacturers did not submit all relevant data on bifenthrin that are needed for an assessment within the "Decree for environmental admittance of pesticides" (Bmb). The "Bmb" is the Dutch Decision concerning the criteria that pesticides should meet in the environment. This decision is part of the Dutch Pesticides Act and it has therefore a legal status. The following items were missing:

- analytical method in water;

- effect on non-target arthropods;
- effect on nitrification;
- effects on earthworms;
- chronic effects on crustaceans;
- effects on micro-organisms of a sewage treatment plant.

Considering the use of bifenthrin as a biocide (pest control of insects indoor) and assuming legal use according to instructions, no exposure of environmental compartments is to be expected. Under these assumptions, there are no unacceptable risks to the environment.

Expected effect of the final regulatory action relevant to the environment: the final regulatory action led to a complete risk reduction for all applications of bifenthrin.

Date of entry into force of the final regulatory action: 14 August 2001.

THE NETHERLANDS

Common Name: chloral hydrate **CAS-number:** 302-17-0

Chemical Name: 2,2,2-trichloro-1,1-ethanediol.

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to sell, stock, store or use chloral hydrate as a pesticide.

Use or uses prohibited by the final regulatory action: all applications are prohibited.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health.

Summary of known hazards and risks to human health: The Pesticide Authorisation Board (CTB) decided to withdraw all applications of chloral hydrate on the basis of the leaching potential to groundwater. In the Netherlands groundwater can be used for drinking water and therefore groundwater must remain free from pesticides (precaution principle). In the Netherlands, the limit value for the leaching to groundwater is 0.1 µg/l, which was at that time based on the detection limit. In practice this leaching limit is used as a human health standard. Leaching of chloral hydrate from soil to groundwater is very likely to occur (20-50% of the dose) due to the mobility of chloral hydrate in soil, the moderate metabolism to trichloroacetic acid (TCA), the large extent of use, the recommended high dosage (50-75 kg a.s./ha) and the period of application (autumn).

Expected effect of the final regulatory action relevant to human health: prevention of contamination of drinking water derived from groundwater. The final regulatory action led to a complete risk reduction.

Date of entry into force of the final regulatory action: 1 November 1988.

THE NETHERLANDS

Common Name: sodium arsenite **CAS-number:** 7784-46-5

Chemical Name: arsenious acide, sodium salt.

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to sell, stock, store or use sodium arsenite as a pesticide.

Use or uses prohibited by the final regulatory action: all applications are prohibited.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes.

The reasons for the final regulatory action were relevant to: Human health and environment.

Summary of known hazards and risks to human health: The Pesticide Authorisation Board (CTB) decided to withdraw all applications of sodium arsenite mainly on the basis of the leaching potential to groundwater. In the Netherlands groundwater can be used for drinking water and therefore groundwater must remain free from pesticides (precaution principle). In the Netherlands, the limit value for the leaching to groundwater is 0.1 µg/l, which was at that time based on the detection limit. In practice this leaching limit is used as a human health standard.

In the (top) soil arsenite is usually converted into arsenate, which strongly absorbs to Fe, Al and Ca and clay particles in soil. Only at low pH values (in a reducing environment) arsenite is not converted into arsenate. Arsenate is very immobile in soil, is not further degradable and is therefore considered as persistent. The velocity of the increasing accumulation in soil is dependant on th input via spraying and the output via plants, volatilisation and leaching. The removal of the substance via plants and volatilisation appeared to be negligible. Leaching appeared to be the main removal. When sodium arsenite is applied frequently then an equilibrium is reached between the input via spraying and the output via leaching. The equilibrium concentrations in soil can reach dozens to some hundreds mg/kg on a dryweight basis. At equilibrium concentrations in soil the leaching to groundwater can be equal to the spraying dose. Because of this relatively large leaking potential it was advised to prohibit all uses of sodium arsenite as a pesticide.

Expected effect of the final regulatory action relevant to human health: prevention of contamination of drinking water derived from groundwater. The final regulatory action led to a complete risk reduction.

Summary of known hazards and risks to the environment: The Pesticide Authorisation Board (CTB) decided to withdraw all applications of sodium arsenite mainly on the basis of ecotoxicological properties.

In the (top) soil arsenite is usually converted into arsenate, which strongly absorbs to Fe, Al and Ca and clay particles in soil, Only at low pH values (in a reducing environment) arsenite is not converted into arsenate. Arsenate is very immobile in soil, is not further degradable and is therefore considered as persistent. The velocity of the increasing accumulation in soil is dependant on th input via spraying and the output via plants, volatilisation and leaching. The removal of the substance via plants and volatilisation appeared to be negligible. Leaching appeared to be the main removal. When sodium arsenite is applied frequently then an equilibrium is reached between the input via spraying and the output via leaching. The equilibrium concentrations in soil can reach dozens to some hundreds mg/kg on a dryweight basis. At these concentration phytotoxic effects can not be excluded. There are no quantitative data available about the possible phytotoxic effects.

Expected effect of the final regulatory action relevant to the environment: prevention of phytotoxic effects. The final regulatory action led to a complete risk reduction.

Date of entry into force of the final regulatory action: 11/11/1985.

THE NETHERLANDS

Common Name: sodium trichloroacetate **CAS-number:** 650-51-1

Chemical Name: sodium trichloroacetate

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to sell, stock, store or use sodium trichloroacetate as a pesticide.

Use or uses prohibited by the final regulatory action: all applications are prohibited.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health.

Summary of known hazards and risks to human health: The Pesticides Authorisation Board (CTB) decided to withdraw all applications of sodium trichloroacetate based on the leaching potential to groundwater. The leaching to groundwater was considered very high in view of the transformation rate in soil, the mobility in soil, the high application dosages and the application times. After application in autumn and winter dozens of the percentage of the dosage can leach to groundwater, under unfavourable conditions even more than 50% of the dosage (CTB, 1985). Therefore, unacceptable concentrations (i.e.>0.1 ug/l) of sodium trichloroacetate are expected in groundwater following application (CTB 1985, CTB 1988b, and CTB 1991). In the Netherlands, groundwater can be used for drinking water and therefore groundwater must remain free from pesticides (precaution principle). In the Netherlands, the limit value for the leaching to groundwater is 0.1 g/l which was at that time based on the detection limit. In practic this leaching limit is used as a human health standard.

The decision for a ban was based on submitted (confidential) environmental fate studies in soil. No studies on mutagenicity, reproduction toxicity and teratogenicity have been submitted for sodium trichloroacetate (CTB, 1988b).

Expected effect of the final regulatory action relevant to human health: prevention of contamination of drinking water derived from groundwater. The final regulatory action led to a complete risk reduction.

Date of entry into force of the final regulatory action: 1.11.1991

NORWAY

Common Name: Bromoxynil octanoate *CAS-number:* 1689-99-2

Chemical Name: 2,6-dibromo-4-cyanophenyl octanoate

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to import, sell and use bromoxynil as a pesticide.

Use or uses prohibited by the final regulatory action: the product Oxitril.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes.

The reasons for the final regulatory action were relevant to: Human health and Environment.

Summary of known hazards and risks to human health: bromoxynil is labeled with many risk phrases, including may cause cancer, and possible risk of harm to the unborn child. The risks to the applicator are judged to be too high to be found acceptable. In addition, an important reason to not accept bromoxynil is that there are already alternatives on the market that pose a lower risk to human health.

Expected effect of the final regulatory action relevant to human health: reduction of risk to human health.

Summary of known hazards and risks to the environment: extremely toxic to aquatic organisms.

Expected effect of the final regulatory action relevant to the environment: reduction of environmental risk.

Date of entry into force of the final regulatory action: Decree of the Norwegian Agricultural Inspection Service of 2000.

NORWAY

Common Name: Imazapyr *CAS-number:* 81334-34-1

Chemical Name: 2-(4-isopropyl-4-methyl-5-oxo-2-imidazolin-2-yl)nicotinic acid

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to import, sell and use imazapyr as a pesticide.

Use or uses prohibited by the final regulatory action: the formulation Arsenal 250, all areas of use.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes.

The reasons for the final regulatory action were relevant to: Environment.

Summary of known hazards and risks to the environment: Arsenal 250 was denied re-registration due to unacceptable risk for ground water contamination, caused by high mobility and persistence in soil.

Expected effect of the final regulatory action relevant to the environment: reduction of risk for groundwater contamination.

Date of entry into force of the final regulatory action: 31.12.2001.

NORWAY

Common Name: Linuron *CAS-number:* 330-55-2

Chemical Name: 3-(3,4-dichlorophenyl)-1-methoxy-1-methylurea

Final regulatory action has been taken for the category: Pesticide.

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: it is prohibited to import, sell and use linuron as a pesticide.

Use or uses prohibited by the final regulatory action: the formulation that was denied re-approval was Afalon F.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes.

The reasons for the final regulatory action were relevant to: Environment.

Summary of known hazards and risks to the environment: Relatively low degradation in soil and possible accumulation in soil. Risk of adverse effects on birds, risk for groundwater contamination (based on results from monitoring programmes).

Expected effect of the final regulatory action relevant to the environment: reduction of groundwater contamination from the use of pesticides.

Date of entry into force of the final regulatory action: 01.01.2004

THAILAND

Common Name: aramite **CAS-number:** 140-57-8

Chemical Name: 2-(4-tert-butylphenoxy)-1-methylethyl 2-chloroethyl

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: azinphos ethyl **CAS-number:** 2642-71-9

Chemical Name: S-(3,4-dihydro-4-oxobenzo[d]-[1,2,3]-triazin-3-ylmethyl O,O-diethyl phosphorodithioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: very high acute toxicity, extremely hazardous and risk to workers in formulation plant and during application by spraying.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by azinphos-ethyl is reported.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: azinphos methyl **CAS-number:** 86-50-0

Chemical Name: S-(3,4-dihydro-4-oxobenzo [d]-[1,2,3]triazin-3-ylmethyl O,O-dimethyl phosphorodithioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: very high acute toxicity, extremely hazardous and risk to workers in formulation plant and during application by spraying.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by azinphos methyl is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: calcium arsenate **CAS-number:** 7778-44-1

Chemical Name: calcium ortharsenate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as an agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: none.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health.

Summary of known hazards and risks to human health: calcium arsenate is one of inorganic arsenical compounds which have been classified as Class A oncogens based on sufficient human epidemiological evidence. They have been assayed for mutagenic activity in variety of tests ranging from bacterial cells to peripheral lymphocytes of exposed humans. The weight of evidence indicates that they are mutagenic. Intravenous and intraperitoneal routes of exposure indicates that they are teratogenic and fetotoxic.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by calcium arsenate is reported and also reduce introduction of oncogenic, mutagenic, teratogenic and fetotoxic agent into the country.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: chlordecone **CAS-number:** 143-50-0

Chemical Name: perchloropentacyclo[5.3.O.O^{2,6}.O^{4,8}] decan-5-one

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: chlorophenols (dichlorophen) **CAS-number:** 97-23-4

Chemical Name: 4,4'-dichloro-2,2'-methylene diphenol

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: chlorthiophos **CAS-number:** 60238-56-4

Chemical Name: O-2,5-dichloro-4-methylthiophenyl O,O-diethyl phosphorothioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by chlorthiophos is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: Cycloheximide **CAS-number:** 66-81-9
Chemical Name: 4-[(2R)-2-[(1S, 3S, 5S)-(3,5-dimethyl-2-oxocyclohexyl)]-2-hydroxyethyl] piperidine-2,6-dione

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by cycloheximide is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: DBCP **CAS-number:** 96-12-8
Chemical Name: (1,2-dibromo-3-chloropropane)

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: demephion **CAS-number:** 682-80-4

Chemical name: O,O-dimethyl O-2-dimethylthioethyl phosphorothioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by demephion is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: dimefox **CAS-number:** 115-26-4

Chemical Name: tetramethyl phosphorodiamidic fluoride

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by dimefox is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: dinoterb **CAS-number:** 1420-07-1

Chemical Name: 2-tert-butyl-4,6-dinitrophenol

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by dinoterb is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: disulfoton **CAS-number:** 298-04-4

Chemical Name: O,O-diethyl S-2-ethylthioethyl phosphorothioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by disulfoton is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: DNOC **CAS-number:** 534-52-1

Chemical Name: 4,6-dinitro-o-cresol

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by DNOC is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: fensulfothion **CAS-number:** 115-90-2

Chemical Name: O,O-diethyl O-4-methylsulfinyl phenyl phosphorothioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: fensulfothion is acutely toxic and extreme caution is necessary for handling of contaminated articles during mixing, loading and application.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by fensulfothion is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: fonofos *CAS-number:* 944-22-9

Chemical Name: O-ethyl S-phenyl (RS)-ethylphosphonodithioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by fonofos is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: 2,4,5-TP (fenoprop) *CAS-number:* 93-72-1

Chemical Name: +- 2-(2,4,5-trichlorophenoxy)propionic acid

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: MCPB *CAS-number:* 94-81-5

Chemical Name: 4-(4-chloro-O-tolyloxy)butyric acid

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: MCPB is possibly carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: MCPA-thioethyl (phenothiol) **CAS-number:** 25319-90-8

Chemical Name: S-ethyl 4-chloro-O-tolyoxythioacetate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: mecoprop **CAS-number:** 7085-19-0

Chemical Name: (RS)-2-(4-chloro-o-tolyoxy) propionic acid

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: possible carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: mephospholan **CAS-number:** 950-10-7

Chemical Name: diethyl 4-methyl-1,3-dithiolan-2-ylidene phosphoramidate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous to workers during formulating and application by spraying because of very high acute toxicity. Evidence of reduction in erythrocyte and brain cholinesterase activity in animal test indicates very high risk to human.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by mephospholan is reported. Risk of reduction in erythrocyte and brain cholinesterase activity is reduced.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: mevinphos **CAS-number:** 26718-65-0

Chemical Name: 2-methoxycarbonyl-1-methylvinyl dimethyl phosphate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: very high acute toxicity, extremely hazardous and risk to workers in formulation plant and during application by spraying.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by mevinphos is reported.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: paris green **CAS-number:** 12002-03-8

Chemical Name: tetracopper bis (acetate) hexakis (arsenite)

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: paris green is carcinogenic to humans.

Expected effect of the final regulatory action relevant to human health: reduce introduction of carcinogenic agent into the country.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: phorate **CAS-number:** 298-02-2

Chemical Name: O,O-diethyl S-ethylthiomethyl phosphorodithioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by phorate is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: phosphamidon **CAS-number:** 13171-21-6

Chemical Name: 2-chloro-2-diethylcarbamoyl-1-methylvinyl dimethyl phosphate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: very high acute toxicity, extremely hazardous and risk to workers in formulation plant and during application by spraying.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by phosphamidon is reported.

Date of entry into force of the final regulatory action: 9 May 2000.

THAILAND

Common Name: prothoate **CAS-number:** 2275-18-5

Chemical Name: O,O-diethyl S-isopropylcarbamolmethyl phosphorodithioate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by prothoate is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: schradan **CAS-number:** 152-16-9

Chemical Name: octamethylpyrophosphoric tetra-amide

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by schradan is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

THAILAND

Common Name: sulfotep **CAS-number:** 3689-24-5

Chemical Name: O,O,O',O'-tetraethyl dithiopyrophosphate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is banned.

Summary of the final regulatory action: banned for import, production, having in possession and use as agricultural pesticide.

Use or uses prohibited by the final regulatory action: all formulations and uses were prohibited by the final regulatory action.

Use or uses that remain allowed: None.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: extremely hazardous and risk to workers in formulation plant and during application by spraying because of very high acute toxicity.

Expected effect of the final regulatory action relevant to human health: no poisoning case caused by sulfotep is reported.

Date of entry into force of the final regulatory action: 24 June 2000.

Part B: INFORMATION ON NOTIFICATIONS OF FINAL REGULATORY ACTION THAT HAS BEEN VERIFIED NOT TO CONTAIN ALL THE INFORMATION REQUIRED BY ANNEX I OF THE CONVENTION

None of the notifications received during this period were verified not to contain all the information required by Annex I of the Convention.

Part C: NOTIFICATIONS OF FINAL REGULATORY ACTION STILL UNDER VERIFICATION

None of the notifications of final regulatory action received by the Secretariat are still under verification by the Secretariat in accordance with Article 5, paragraph 3 of the Convention:

APPENDIX II

**PROPOSALS FOR INCLUSION OF SEVERELY HAZARDOUS PESTICIDE FORMULATIONS
RECEIVED UNDER THE INTERIM PIC PROCEDURE**

**Part A : SUMMARY OF EACH PROPOSAL OF SEVERELY HAZARDOUS PESTICIDE
FORMULATION THAT HAS BEEN VERIFIED TO CONTAIN ALL INFORMATION
REQUIRED BY ANNEX IV, PART I, OF THE CONVENTION**

SENEGAL

Name of the hazardous pesticide formulation: Granox T.B.C.

Name of the active ingredient or ingredients in the formulation: thiram, benomyl and carbofuran

Relative amount of each active ingredient in the formulation: thiram: 15%, benomyl: 7% and carbofuran 10%

Type of formulation: dustable powder

Trade names and name of the producers, if available: Granox T.B.C. by Senchim A.G. (Senegal)

Common and recognised patterns of use of the formulation within the proposing Party: treatment of peanut seeds to prevent damping-off; 100 g of powder by 100 kg of seeds to ensure protection until 50 days after sprouting. The formulation is registered in Senegal and its use is authorised for peanut seed treatment only.. There are no specific restrictions on use The production volume is 53000 kg/year.

A clear description of incidents related to the problem, including the adverse effects and the way in which the formulation was used: the 10 incidents reported involved 10 males between 22 and 60 years old who used the product from the end of July to mid-September as a seed treatment for shelled peanuts in line with the recommendations on the label. The incidents involved 1 to 4 seed treatment applications in June and 1 to 2 applications in September for sowing. The quantity of pesticide applied varied from 1 to 4 bags of 100g. The length of exposure ranged from 1 h for the seed treatment to 3-4 days for the sowing of the treated seeds. The product was applied by hand. No protective equipment was worn. . The adverse effects were observed within a few hours to 2-3 months after handling the formulation.. The adverse effects reported for seven of the 10 cases reported included dyspnea, oedema, chest pain, urine modification in both flow and aspect, dizziness, vomiting and tachycardiaThe three remaining incidents involved three fatalities.

Any regulatory, administrative or other measure taken, or intended to be taken, by the proposing Party in response to such incidents:

the following administrative measures will be taken:

- organize sessions to “restitute” the results of the investigations to the Ministry of Health, to the Kolda Regional Development Committee,
- strengthen the poisoning surveillance system for pesticides in the regions involved including informing health personnel on the risks of poisoning related to pesticides, on the symptoms and antidotes to be used in case of poisoning and an evaluation of the recording system for health care centers in the Kolda region
- inform agricultural workers on the proper use of fungicides and insecticides, on the risks associated with the improper use of pesticides and provide personnel protective equipment (mask and gloves) to those handling treated seed.

SENEGAL

Name of the hazardous pesticide formulation: Spinox T

Name of the active ingredient or ingredients in the formulation: thiram, benomyl and carbofuran

Relative amount of each active ingredient in the formulation: thiram: 15%, benomyl: 7% and carbofuran 10%

Type of formulation: dustable powder

Trade names and name of the producers, if available: Spinox T by S.P.I.A. (Senegal)

Common and recognised patterns of use of the formulation within the proposing Party: treatment of of peanut seeds to prevent damping-off; 100 g of powder by 100 kg of seeds to ensure protection until 50 days after sprouting. The formulation is registered in Senegal and its use is authorised for peanut seed treatment only. There are no specific restrictions on use. . The production volume is 55000 kg/year.

A clear description of incidents related to the problem, including the adverse effects and the way in which the formulation was used: the 12 reported incidents involved 10 males and 1 female between 19 and 48 years old who used the product from February through October as a seed treatment for shelled peanuts in line with the recommendations on the label. The incidents occurred involved 1 to 4 seed treatment applications in June-July and 1 to 2 applications in September for sowing. The quantity of pesticide applied varied from 1 to 4 bags of 100g. The length of exposure ranged from 1 to 5h for the seed treatment to 3-4 days for the sowing of the treated seeds. The product was applied by hand. . The adverse effects were observed from 2 days to 4 months after handling the formulation. . The adverse effects reported for 10 of the 12 cases included excessive sweating, fever, oedema, chest pain, coughing, vertigo, headache, dyspnea, tachycardia and abdominal pain, . The two remaining incidents involved two fatalities.

Any regulatory, administrative or other measure taken, or intended to be taken, by the proposing Party in response to such incidents:

the following administrative measures will be taken:

- organize sessions to “restitute” the results of the investigations to the Ministry of Health, to the Kolda Regional Development Committee,
- strengthen the poisoning surveillance system for pesticides in the regions involved including informing health personnel on the risks of poisoning related to pesticides, on the symptoms and antidotes to be used in case of poisoning and an evaluation of the recording system for health care centers in the Kolda region
- inform agricultural workers on the proper use of fungicides and insecticides, on the risks associated with the improper use of pesticides and provide personnel protective equipment (mask and gloves) to those handling treated seed.

Part B : PROPOSALS OF SEVERELY HAZARDOUS PESTICIDE FORMULATIONS STILL UNDER VERIFICATION

No proposal for inclusion of severely hazardous pesticide formulations in the interim PIC procedure have been received or are under verification by the Secretariat, in line with Article 6, paragraph 2.

APPENDIX III

CHEMICALS CURRENTLY SUBJECT TO THE INTERIM PIC PROCEDURE

Chemical	Relevant CAS number(s)	Category	Date of first dispatch of decision guidance document
Aldrin	309-00-2	Pesticide	Prior to adoption of Convention
Binapacryl	485-31-4	Pesticide	1 September 1999
Captafol	2425-06-1	Pesticide	Prior to adoption of Convention
Chlordane	57-74-9	Pesticide	Prior to adoption of Convention
Chlordimeform	6164-98-3	Pesticide	Prior to adoption of Convention
Chlorobenzilate	510-15-6	Pesticide	Prior to adoption of Convention
DDT	50-29-3	Pesticide	Prior to adoption of Convention
Dieldrin	60-57-1	Pesticide	Prior to adoption of Convention
Dinoseb and dinoseb salts	88-85-7	Pesticide	Prior to adoption of Convention
1,2-dibromoethane (EDB)	106-93-4	Pesticide	Prior to adoption of Convention
Ethylene dichloride	107-06-2	Pesticide	1 February 2001
Ethylene oxide	75-21-8	Pesticide	1 February 2001
Fluoroacetamide	640-19-7	Pesticide	Prior to adoption of Convention
HCH (mixed isomers)	608-73-1	Pesticide	Prior to adoption of Convention
Heptachlor	76-44-8	Pesticide	Prior to adoption of Convention
Hexachlorobenzene	118-74-1	Pesticide	Prior to adoption of Convention
Lindane	58-89-9	Pesticide	Prior to adoption of Convention
Mercury compounds, including inorganic mercury compounds, alkyl mercury compounds and alkyloxyalkyl and aryl mercury compounds		Pesticide	Prior to adoption of Convention
Pentachlorophenol	87-86-5	Pesticide	Prior to adoption of Convention

Chemical	Relevant CAS number(s)	Category	Date of first dispatch of decision guidance document
2,4,5-T	93-76-5	Pesticide	Prior to adoption of Convention
Toxaphene	8001-35-2	Pesticide	1 September 1999
Methamidophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	10265-92-6	Severely hazardous pesticide formulation	Prior to adoption of Convention
Methyl-parathion (emulsifiable concentrates (EC) with 19.5%, 40%, 50%, 60% active ingredient and dusts containing 1.5%, 2% and 3% active ingredient)	298-00-0	Severely hazardous pesticide formulation	Prior to adoption of Convention
Monocrotophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	6923-22-4	Severely hazardous pesticide formulation	Prior to adoption of Convention
Parathion (all formulations - aerosols, dustable powder (DP), emulsifiable concentrate (EC), granules (GR) and wettable powders (WP) - of this substance are included, except capsule suspensions (CS))	56-38-2	Severely hazardous pesticide formulation	Prior to adoption of Convention
Phosphamidon (Soluble liquid formulations of the substance that exceed 1000 g active ingredient/l)	13171-21-6 (mixture, (E)&(Z) isomers) 23783-98-4 ((Z)-isomer) 297-99-4 ((E)-isomer)	Severely hazardous pesticide formulation	Prior to adoption of Convention
Crocidolite	12001-28-4	Industrial	Prior to adoption of Convention
Polybrominated biphenyls (PBB)	36355-01-8 (hexa-) 27858-07-7 (octa-) 13654-09-6 (deca-)	Industrial	Prior to adoption of Convention
Polychlorinated biphenyls (PCB)	1336-36-3	Industrial	Prior to adoption of Convention
Polychlorinated terphenyls (PCT)	61788-33-8	Industrial	Prior to adoption of Convention
Tris (2,3-dibromopropyl) phosphate	126-72-7	Industrial	Prior to adoption of Convention

APPENDIX IV

LISTING OF ALL IMPORTING COUNTRY RESPONSES RECEIVED FROM PARTIES¹

The information in this Appendix has been arranged according to the sequence of the individual chemicals as they are listed in Appendix III of this Circular. For each chemical there are two tabular summaries:

- **Part 1** is a list of all of the complete import responses received from Parties by the Secretariat as of 31 October 2001. The responses listed relate to the category or categories specified for each chemical in Appendix III of this Circular. The date on which the import response was first published in a PIC Circular is also indicated.
- **Part 2** is a list of those Parties which have failed to provide a response regarding future import of the chemical within 9 months of the date of dispatch of the decision guidance document. It also includes the date on which the Secretariat first informed each individual Party, through publication in the PIC Circular, that they had failed to transmit a response.

APPENDIX IV

**LISTING OF ALL IMPORTING COUNTRY RESPONSES RECEIVED
FROM PARTIES AS OF NOVEMBER 2001**

Aldrin.....	31
Binapacryl.....	39
Captafol.....	45
Chlordane.....	51
Chlordimeform.....	59
Chlorobenzilate.....	67
DDT.....	73
EDB (1,2-dibromoethane).....	81
Dieldrin.....	88
Dinoseb and Dinoseb Salts.....	96
Ethylene dichloride.....	104
Ethylene oxide.....	109
Fluoroacetamide.....	113
HCH (mixed isomers).....	121
Heptachlor.....	128
Hexachlorobenzene.....	135
Lindane (gamma-HCH).....	142
Mercury Compounds.....	149
Pentachlorophenol.....	156
2,4,5-T.....	163
Toxaphene (Camphechlor).....	170
Methamidophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	176
Methyl-parathion (emulsifiable concentrates (EC) with 19.5%, 40%, 50%, 60% active ingredient and dusts containing 1.5%, 2% and 3% active ingredient).....	182
Monocrotophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	188
Parathion (all formulations - aerosols, dustable powder (DP), emulsifiable concentrate (EC), granules (GR) and wettable powders (WP) - of this substance are included, except capsule suspensions (CS))	194
Phosphamidon (Soluble liquid formulations of the substance that exceed 1000 g active ingredient/l)	201
Crocidolite.....	207
Polybrominated Biphenyls (PBBs).....	213
Polychlorinated Biphenyls (PCBs).....	219
Polychlorinated Terphenyls (PCTs).....	226

Binapacryl

CAS: 485-31-4

AUSTRALIA	<i>Final decision on import</i> Remarks: Agricultural and Veterinary Chemicals Code Act 1994	<i>Published: 12/2001</i>	no consent
BRAZIL	<i>Final decision on import</i> Remarks: Law No. 7.802 of 11 July 1989 and Decree No. 98.816 of 11 January 1990. Conditions for Import: Import permitted only for use as a pesticide, for technical material as well as formulations based on technical material, registered with by the Ministry of Agriculture and Procurement, after a joint evaluation agronomic efficiency human toxicology and ecotoxicology by the Agricultural, Health and Environmental sectors, respectively.	<i>Published: 12/2001</i>	consent
CHILE	<i>Final decision on import</i> Remarks: Legislative or administrative measures – This action is based on the absence, for this chemical substance, of the authorization as a pesticide in agriculture, without which it is not allowed to import, manufacture, distribute, sell or use this substance in Chile. To obtain this authorization, it is necessary to follow strict national regulations that reflect many procedures and information needed to obtain the permission.	<i>Published: 12/2000</i>	no consent
COSTA RICA	<i>Final decision on import</i> Remarks: This product has never been registered in Costa Rica.	<i>Published: 06/2000</i>	no consent
CYPRUS	<i>Final decision on import</i> Remarks: Decision is based on the Pest Control Products Law of 1993, N1 (I) / 93. Decision of the Pest Control Products Board, dated 12/12/1987.	<i>Published: 06/2000</i>	no consent
CZECH REPUBLIC	<i>Final decision on import</i> Remarks: Import of the substance is banned by the Act No. 147/1996 Code, on phytosanitary care and its implementing Decree No. 84/1997 Code, as last amended. The import of the substance for research purposes is permitted.	<i>Published: 12/2001</i>	no consent
ECUADOR	<i>Interim decision on import</i> Remarks: Legislative or administrative measures – Convene meeting of the National Technical Committee of Pesticides and Veterinarian Products for the analysis of the technical information on the product. Issed by the "Servicio Ecuatoriano de Sanidad Agropecuaria".	<i>Published: 06/2001</i>	no consent

European Union	<p><i>Final decision on import</i> <i>Published: 12/2000</i></p> <p>Remarks: Legislative or administrative measure- Binapacryl is listed in Annex I of Council Regulation (EEC) No 2455/92 of 23 July 1992 concerning the export and import of certain dangerous chemicals (OJ L 251 of 29.08.1992, p. 13) as banned for use as a plant protection product. It is prohibited to use or place on the market all plant protection products containing binapacryl as an active ingredient according to Council Directive 79/117/EEC of 21 December 1978 prohibiting the placing on the market and use of plant protection products containing certain active substances (OJ L 33 of 8/2/79, p. 36) as amended by Directive 90/533/EEC of 15/10/90 (OJ L 296 of 27/10/90, p.63).</p> <p>Binapacryl is classified under Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances (OJ L 196 of 16.8.1967, p. 1) as: Repr. Cat. 2; R 61 (Reproductive toxicity in category 2; May cause harm to the unborn child.) - Xn; R 21/22 (Harmful in contact with skin and if swallowed.)</p>	no consent
GAMBIA	<p><i>Final decision on import</i> <i>Published: 12/1999</i></p> <p>Remarks: The decision is based on the Acting under the Hazardous Chemicals and Pesticide Control and Management Act 1994, the Hazardous Chemicals and Pesticide Management Board came up with the conclusions.</p>	no consent
JAMAICA	<p><i>Final decision on import</i> <i>Published: 06/2000</i></p> <p>Remarks: The Pesticides Act, 1975 allows importation of registered pesticides only. This pesticide is not registered nor has any application for registration been received.</p>	no consent
JAPAN	<p><i>Interim decision on import</i> <i>Published: 06/2000</i></p> <p>Remarks: Currently not registered. A final decision regarding import will be taken only when the chemical is examined as a new chemical after the first notification.</p> <p>Conditions for Import: Registration with the Minister of Health and Welfare or Prefectural Governor as an importer required. For uses other than agricultural chemical, notification to the Minister of International Trade and Industry and the Minister of Health and Welfare is required. Registration with the Minister of Agriculture, Forestry and Fisheries required for sale as an agricultural chemical.</p>	consent
JORDAN	<p><i>Final decision on import</i> <i>Published: 12/2001</i></p> <p>Remarks: The decision was taken by the Pesticide registration committee due to the information received from the PIC.</p>	no consent
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<p><i>Final decision on import</i> <i>Published: 12/1999</i></p>	no consent
LIBERIA	<p><i>Interim decision on import</i> <i>Published: 12/2001</i></p>	no consent

MALAYSIA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Import and manufacture of all pesticides are controlled under the Pesticides Act 1974 through a registration scheme and the Act is implemented by the Pesticides Board of Malaysia. No binapacryl is permitted to be imported, manufactured, sold or used in the country except for purposes of research or education, where certain conditions apply.	<i>Published: 12/2000</i>	no consent
MAURITIUS	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
NEW ZEALAND	<i>Final decision on import</i> Remarks: The decision is based on the Pesticides Act 1979 (under which only registered pesticides can be imported or sold). Registrations of pesticides containing Binapacryl were withdrawn by the registrant 1st September 1986. No manufacture, import or sale of pesticides are permitted unless they are registered under the Pesticides Act 1979. No binapacryl – based pesticides currently registered.	<i>Published: 06/2000</i>	no consent
NIGER	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
NIGERIA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Decree 58 of (1988) as amended by decree 59 of (1992) S.I.9 National Environmental Protection Regulations (1991)	<i>Published: 06/2001</i>	no consent
NORWAY	<i>Final decision on import</i> Remarks: Legislative or administrative measures - Plant protection products Act and Regulations relating to plant protection products.	<i>Published: 12/2000</i>	no consent
PERU	<i>Final decision on import</i> Remarks: The decision is based on the "Resolución Jefatural N° 014 – 2000 – AG – SENASA", of 28 January 2000.	<i>Published: 06/2000</i>	no consent
SAMOA	<i>Final decision on import</i> Remarks: Legislative or administrative measures - Pesticides Regulations 1990 and decision of the Pesticide Technical Committee (PTC) on 20 April 2000.	<i>Published: 12/2000</i>	no consent
SLOVAKIA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Decree No. 33/1999 on Plant Protection Products of Ministry of Agriculture of Slovak Republic.	<i>Published: 12/2000</i>	no consent
SRI LANKA	<i>Interim decision on import</i>	<i>Published: 06/2001</i>	no consent
SRI LANKA	<i>Final decision on import</i> Remarks: Formal declaration of prohibition of this pesticide was issued on 29 March 2001 (Pesticide Technical and Advisory Committee 15/2001).	<i>Published: 12/2001</i>	no consent
SUDAN	<i>Final decision on import</i> Remarks: Legislative or administrative measures – The Pesticides and Plant Protection Materials Act of 1994. The decision of "No consent for import of binapacryl" was taken by The Pesticides Council as its periodical meeting No. 499, in the 21st of December, 1999.	<i>Published: 12/2000</i>	no consent

SWITZERLAND	<i>Final decision on import</i> Remarks: Legislative or administrative measures – No products or formulations containing Binapacryl are authorized by the competent authority. For authorized products and uses see Index of Plant Protection Products, which is re-edited each year. Only formulated products and their specific uses are authorized for plant treatment, not active ingredients as such. Only products that are adequately effective and have no substantial adverse effects on users, consumers of food or the environment are authorized. Permanent re-evaluation of the authorization is part of the Swiss registration scheme; adaptations are possible any time.	<i>Published: 12/2000</i>	no consent
TANZANIA, UNITED REPUBLIC OF	<i>Interim decision on import</i> Remarks: The chemical will be forwarded to the National PIC Committee for consideration. Recommendations will be discussed by the Pesticides Approval and Registration Technical Committee. No application for registration of this chemical has ever been submitted.	<i>Published: 06/2000</i>	consent
THAILAND	<i>Final decision on import</i> Remarks: Decision made by the Toxic Substance Controlling Board, effective by February 1991, which has been replaced by decision made by the Hazardous Substances Board, effective by 2 May 1995.	<i>Published: 06/2000</i>	no consent
TRINIDAD AND TOBAGO	<i>Final decision on import</i> Remarks: Legislative or administrative measures – The Pesticides and Toxic Chemicals Act, 1979 allows importation of registered pesticides only. No permission will be granted to import into Trinidad and Tobago.	<i>Published: 06/2001</i>	no consent
TURKEY	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
URUGUAY	<i>Final decision on import</i> Remarks: Legislative or administrative measures – There is no legislative or administrative measure to prohibit the use of binapacryl. Binapacryl is not registered in the country and therefore can not be imported for supply according to the decree 149/977. It was withdrawn voluntarily by the manufacturer. There is no registration in force.	<i>Published: 12/2000</i>	no consent
VIET NAM	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Decision No 165/1999/QĐ-BNN-BTVT dated 13th January 1999, issued by the Ministry of Agriculture and Rural Development (MARD). Not registered.	<i>Published: 06/2001</i>	no consent
ZIMBABWE	<i>Final decision on import</i>	<i>Published: 12/2001</i>	no consent

Listing of all importing country responses

Ethylene dichloride

CAS: 107-06-2

BRAZIL	<i>Final decision on import</i> Remarks: Law No. 7.802 of 11 July 1989 and Decree No. 98.816 of 11 January 1990. Conditions for Import: Import permitted only for use as a pesticide, for technical material as well as formulations based on technical material, registered with by the Ministry of Agriculture and Procurement, after a joint evaluation agronomic efficiency human toxicology and ecotoxicology by the Agricultural, Health and Environmental sectors, respectively.	<i>Published: 12/2001</i>	consent
BURUNDI	<i>Final decision on import</i> Remarks: Such as for ethylene oxide, ethylene dichloride has never been traded or used in Burundi. Considering its carcinogenicity , it was decided to include it on the list of banned products in Burundi.	<i>Published: 12/2001</i>	no consent
CZECH REPUBLIC	<i>Final decision on import</i> Remarks: Import of the substance is banned by the Act No. 147/1996 Code, on phytosanitary care and its implementing Decree No. 84/1997 Code, as last amended. The import of the substance for research purposes is permitted.	<i>Published: 12/2001</i>	no consent
European Union	<i>Final decision on import</i> Remarks: Ethylene dichloride (1,2-dichloroethane) is listed in Annex I to Council Regulation (EEC) No. 2455/92 of 23 July 1992 concerning the export and import of certain dangerous chemicals (OJ L 251, 29.8.1992, p.13), as amended by Council Regulation (EEC) No 3135/94 of 15 December 1994 (OJ L 332, 22.12.1994, p.1) as banned for use as a plant protection product. It is prohibited to use or place on the market all plant protection products containing 1,2-dichloroethane as an active ingredient according to Council Directive 79/117/EEC of 21 December 1978 prohibiting the placing on the market and use of plant protection products containing certain active substances (OJ L33, 8.2.1979, p. 36), as amended by Council Directive 87/181/EEC of 9 March 1987 (OJ L 71, 14.3.1987, p. 33).	<i>Published: 12/2001</i>	no consent
GABON	<i>Final decision on import</i> Remarks: Considering the protective measures taken for this chemical product and also our under-equipment, we are not in a position to authorize its import.	<i>Published: 12/2001</i>	no consent
GAMBIA	<i>Interim decision on import</i> Remarks: The following administrative action is being undertaken during the period a final decision is being considered: the Hazardous Chemicals and Pesticides Control and Management Board will meet to take regulatory action.	<i>Published: 12/2001</i>	no consent
INDIA	<i>Final decision on import</i> Remarks: Decision of the Registration Committee in its meeting. The registration Committee is a statutory body which registers pesticides for import/manufacture in the country. Conditions for Import: The import of ethylene dichloride is permitted only in the form of ethylene dichloride + carbon tetrachloride mixture in the ratio of 3:1.	<i>Published: 12/2001</i>	consent

JAMAICA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – The pesticides Act of 1975 allows importation of registered pesticides only. This pesticide was registered as an active ingredient with ethylene oxide and is due for registration. Issued by the Pesticides Control Authority.	<i>Published: 06/2001</i>	no consent
JAPAN	<i>Final decision on import</i> Remarks: Poisonous and Deleterious Substances Control Law; Agricultural Chemicals Regulations Law. Conditions for Import: Registration with the Minister of Health, Labour and Welfare or Prefectural Governor as an importer required.	<i>Published: 12/2001</i>	consent
JORDAN	<i>Final decision on import</i> Remarks: The decision was taken by the Pesticide registration committee due to the information received from the PIC.	<i>Published: 12/2001</i>	no consent
LIBERIA	<i>Interim decision on import</i>	<i>Published: 12/2001</i>	no consent
MALAYSIA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Import and manufacture of all pesticides are controlled under the Pesticides Act 1974 through a registration scheme, and the Act is implemented by the Pesticides Board of Malaysia. No ethylene dichloride is permitted for import, manufacture, sale or use in the country except for purposes of research or education, where certain conditions apply.	<i>Published: 06/2001</i>	no consent
NORWAY	<i>Final decision on import</i> Remarks: Plant protection products Act and Regulations relating to plant protection products.	<i>Published: 12/2001</i>	no consent
SAMOA	<i>Final decision on import</i> Remarks: Pesticides regulations 1990 and decision of the Pesticides Technical Committee (PTC) on 10th May 2001. Agenda 24/6B.	<i>Published: 12/2001</i>	no consent
SOLOMON ISLANDS	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Current legislation (1940's) not updated so item not covered. Currently seeking technical assistance to assist with updating poisons registration. Issued by Pharmacy and Poisons Board.	<i>Published: 06/2001</i>	no consent
SUDAN	<i>Final decision on import</i> Remarks: The Pesticides and Plant Protection Materials Act, 1994. The decision of "no consent" was taken by the National Pesticides Council at its meeting No. 3/2001 dated 3/7/2001.	<i>Published: 12/2001</i>	no consent
TANZANIA, UNITED REPUBLIC OF	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Tropical Pesticides Research Institute Act (1979) and Pesticides Registration and Control Regulation (1984). Issued by the Tropical Pesticides Research Institute.	<i>Published: 06/2001</i>	no consent
THAILAND	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Requires import and production registration and also import license. Conditions for Import: Restricted use. Allowed to use in industry but prohibited for use as an agricultural pesticide.	<i>Published: 06/2001</i>	consent

TRINIDAD AND TOBAGO	<i>Final decision on import</i> Remarks: Legislative or administrative measures – The Pesticides and Toxic Chemicals Act, 1979 allows importation of registered pesticides only. Issued by the Pesticides and Toxic Chemicals Control Board.	<i>Published: 06/2001</i>	no consent

VIET NAM	<i>Final decision on import</i> Remarks: Legislative or administrative measures – With Decision No 23/BVTV-KHKT/QD dated 20 January 1992 and decision No 165/1999/QD-BNN-BVTV dated 13th January 1999, issued by the Ministry of Agriculture and Rural Development (MARD).	<i>Published: 06/2001</i>	no consent

European Union Member States: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, United Kingdom	<i>Final decision on import</i> Remarks: legislative or administrative measure - Pentachlorophenol is listed in Annex I of Council Regulation (EEC) No 2455/92 of 23 July 1992 concerning the export and import of certain dangerous chemicals as a severely restricted chemical (OJ L 251 of 29.8.1992, p. 13). The placing on the market and use of products containing pentachlorophenol, its salts and esters, are prohibited by Council Directive 76/769/EEC of 27/7/76 on the approximation of the laws, regulations and administrative provisions of the Member States relating to restrictions on the marketing and use of certain dangerous substances and preparations (O.J.L262/201 of 27/9/76, p. 201) as amended by Directive 91/173/EEC of 21/3/91 (OJ L85 of 5/4/91, p. 34) and Directive 1999/51/EC (OJ L 142 of 5/6/99, p. 22). Pentachlorophenol is classified under Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances (OJ L 196 of 16.8.1967, p. 1) as: Carc. Cat. 3; R 40 (Carcinogen in category 3; Possible risks of irreversible effects.) - T+; R 26 (Very Toxic; Very toxic by inhalation.) - T; R 24/25 (Toxic; Toxic in contact with skin and if swallowed.) - Xi; R 36/37/38 (Irritant; Irritating to eyes, respiratory system and skin.) - N; R 50/53 (Dangerous to the environment; Very Toxic to aquatic organisms, may cause long-term adverse effects in Conditions for Import: Member States that do not consent to import: Austria, Belgium, Denmark, Finland, Germany, Greece, Italy, Luxembourg, the Netherlands, Sweden and the members of the EEA Agreement: Iceland and Liechtenstein. Member States that consent to import for restricted uses by way of derogation until 31st December 2008: France, Ireland, Portugal and the United Kingdom. Member State that consents to import for restricted uses by way of derogation until 1st January 2004: Spain. The following conditions apply: Substances and preparations containing PCP, its salts or esters may be placed on the market for use in industrial installations not permitting the emission and/or discharge of PCP in quantities greater than those prescribed by existing legislation: (a) in the treatment of wood. Treated wood may not be used inside buildings or for the manufacture or re-treatment of containers intended for growing purposes, packaging that may come into contact with raw materials, intermediate or finished products destined for human and/or animal consumption (b) in the impregnation of fibres and heavy-duty textiles not intended in any case for clothing or for decorative furnishings (c) for special exceptions authorised on a case-by-case basis In any case, PCP used alone or as a component of preparations employed within the framework of the above exceptions must have a total hexachlorodibenzoparadioxin (HCDD) content of less than 2 ppm, may not be placed on the market in packages of less than 20 litres and may not be sold to the general public. Without prejudice to other labelling requirements, the packaging of such preparations should be marked clearly and indelibly: 'Reserved for industrial and professional use'.	<i>Published: 12/2000</i>	consent

Listing of all importing country responses

Toxaphene (Camphechlor)

CAS: 8001-35-2

AUSTRALIA	<i>Final decision on import</i> Remarks: Agricultural and Veterinary Chemicals Code Act 1994	<i>Published: 12/2001</i>	no consent
BRAZIL	<i>Final decision on import</i> Remarks: Law No. 4.797, of 20 October 1965 and "Portaria Interministerial" No. 292 of 28 April 1989. "Portaria" No. 329 of 2 September 1985 of the Ministry of Agriculture and Resupply. Conditions for Import: Production, import, trade and use are restricted as wood preservative in the country, with the condition of a previous registration by the Federal body of Environment, after a evaluation of the toxicological and ecotoxicological aspects both by the health and the environmental sectors, respectively. Agricultural use is prohibited.	<i>Published: 06/2001</i>	consent
CHILE	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Through the Resolution No. 2179 of 27 July 1998, the Service of Agriculture and Husbandry, from the Ministry of Agriculture, prohibited to import, to manufacture, to sell, to distribute and to use the agricultural pesticides based on toxaphene or camphechlor.	<i>Published: 12/1999</i>	no consent
COSTA RICA	<i>Final decision on import</i> Remarks: Legislative or administrative measures - Banned by the "Decreto Ejecutivo No. 18346 MAG-S-TSS", dated 10 August 1988.	<i>Published: 06/2000</i>	no consent
CYPRUS	<i>Final decision on import</i> Remarks: Decision is based on the Pest Control Products Law of 1993, N1 (I) / 93.	<i>Published: 06/2000</i>	no consent
CZECH REPUBLIC	<i>Final decision on import</i> Remarks: Import of the substance is banned by the Act No. 147/1996 Code, on phytosanitary care and its implementing Decree No. 84/1997 Code, as last amended. The import of the substance for research purposes is permitted.	<i>Published: 12/2001</i>	no consent
ECUADOR	<i>Final decision on import</i>	<i>Published: 06/2001</i>	no consent
EL SALVADOR	<i>Final decision on import</i> Remarks: Legislative or administrative measures – "R/ Decreto ejecutivo No. 151, del 28 de junio de 2000".	<i>Published: 12/2000</i>	no consent

European Union	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
<p>Remarks: Legislative or administrative measure- Toxaphene is listed in Annex I of Council Regulation (EEC) No 2455/92 of 23 July 1992 concerning the export and import of certain dangerous chemicals as banned for use as a plant protection product. It is prohibited to use or place on the market all plant protection products containing toxaphene as an active ingredient according to Council Directive 79/117/EEC of 21/12/1978 prohibiting the placing on the market and use of plant protection products containing certain active substances (OJ L 33 of 8/2/79, p. 36) as amended by Directive 83/131/EEC of 14/3/1983 (OJ L 91 of 9/4/83, p. 35). Toxaphene is classified under Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances (OJ L 196 of 16.8.1967, p. 1) as: Carc. Cat. 3; R 40 (Carcinogen in category 3; Possible risks of irreversible effects.) - T; R 25 (Toxic; Toxic if swallowed.) – Xn; R 21 (Harmful; Harmful in contact with skin.) – Xi; R 37/38 (Irritant; Irritating to respiratory system and skin.) - N; R 50/53 (Dangerous to the environment; Very Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment).</p>			
GAMBIA	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
<p>Remarks: The decision is based on the Acting under the Hazardous Chemicals and Pesticide Control and Management Act 1994, the Hazardous Chemicals and Pesticide Management Board came up with the conclusions.</p>			
JAMAICA	<i>Final decision on import</i>	<i>Published: 06/2000</i>	no consent
<p>Remarks: Decision is based on the Pesticides Act 1975, Section 14 Subsection (1).</p>			
JAPAN	<i>Interim decision on import</i>	<i>Published: 06/2000</i>	consent
<p>Remarks: Currently not registered. A final decision regarding import will be taken only when the chemical is examined as a new chemical after the first notification. Conditions for Import: For uses other than agricultural chemical, notification to the Minister of International Trade and Industry and the Minister of Health and Welfare is required. Registration with the Minister of Agriculture, Forestry and Fisheries required for sale as an agricultural chemical.</p>			
JORDAN	<i>Final decision on import</i>	<i>Published: 12/2001</i>	no consent
<p>Remarks: The decision was taken by the Pesticide registration committee due to the information received from the PIC.</p>			
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
LIBERIA	<i>Interim decision on import</i>	<i>Published: 12/2001</i>	no consent

MALAYSIA	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
Remarks: Legislative or administrative measures – Import and manufacture of all pesticides are controlled under the Pesticides Act 1974 through a registration scheme and the Act is implemented by the Pesticides Board of Malaysia. No toxaphene is permitted to be imported, manufactured, sold or used in the country except for purposes of research or education, where certain conditions apply.			
MAURITIUS	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
NEW ZEALAND	<i>Final decision on import</i>	<i>Published: 06/2000</i>	no consent
Remarks: The decision is based on the Agriculture Chemicals Act 1959 (replaced by the Pesticides Act 1979). Under both Acts, only registered pesticides are / were permitted to be imported or sold. Agriculture Chemicals Board Minutes of April 1970 (general policy on phase-out of organochlorine pesticides). The single Toxaphene-based product, registered for field testing only, was withdrawn by the registrant on 8th March 1968. No Toxaphene-based pesticides currently registered.			
NIGER	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
NIGERIA	<i>Final decision on import</i>	<i>Published: 06/2001</i>	no consent
Remarks: Legislative or administrative measures – Decree 58 of (1988) as amended by decree 59 of (1992) S.I.9 National Environmental Protection Regulations (1991)			
NORWAY	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
Remarks: Legislative or administrative measures - Plant protection products Act and Regulations relating to plant protection products.			
PERU	<i>Final decision on import</i>	<i>Published: 06/2000</i>	no consent
Remarks: The decision is based on the "Decreto Supremo N° 037-91-AG", of 12 September 1991.			
SAMOA	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
Remarks: Legislative or administrative measures - Pesticides Regulations 1990 and decision of the Pesticide Technical Committee (PTC) on 20 April 2000.			
SLOVAKIA	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
Remarks: Legislative or administrative measures – Decree No. 33/1999 on Plant Protection Products of Ministry of Agriculture of Slovak Republic.			
SRI LANKA	<i>Interim decision on import</i>	<i>Published: 06/2001</i>	no consent
SRI LANKA	<i>Final decision on import</i>	<i>Published: 12/2001</i>	no consent
Remarks: Formal declaration of prohibition of this pesticide was issued on 29 March 2001 (Pesticide Technical and Advisory Committee 15/2001).			
SUDAN	<i>Final decision on import</i>	<i>Published: 07/1997</i>	no consent
Remarks: Legislative or administrative measures – The Pesticides and Plant Protection Materials Act of 1994. The decision of "No consent for import of binapacryl" was taken by The Pesticides Council in its periodical meeting No. 4/99, on the 21st of December, 1999. Stopped use since 1982, following the Pesticide Committee decision to prohibit the use of DDT, containing mixtures and some hazardous organochlorines in agriculture.			

SWITZERLAND	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Ordinance relating to Environmentally Hazardous Substances, Annex3.1 Manufacture, supply, import, and use of the substances and of products containing the substances are prohibited.	<i>Published: 12/2000</i>	no consent
TANZANIA, UNITED REPUBLIC OF	<i>Interim decision on import</i> Remarks: The chemical will be forwarded to the National PIC Committee for consideration. Recommendations will be discussed by the Pesticides Approval and Registration Technical Committee. The chemical was formerly registered in Tanzania as Liprophene 75EC, Sapatox 75EC and Coppertox cattle dip for use as acaricide. All registrants withdrawn the chemical voluntarily.	<i>Published: 06/2000</i>	consent
THAILAND	<i>Final decision on import</i> Remarks: Decision made by the Toxic Substance Controlling Board, effective by March 1983, which has been replaced by decision made by the Hazardous Substances Board, effective by 2 May 1995.	<i>Published: 06/2000</i>	no consent
TRINIDAD AND TOBAGO	<i>Final decision on import</i> Remarks: Legislative or administrative measures – The Pesticides and Toxic Chemicals Act, 1979 allows importation of registered pesticides only. No permission will be granted to import into Trinidad and Tobago.	<i>Published: 06/2001</i>	no consent
TURKEY	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
UNITED ARAB EMIRATES	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Decision of the UAE Minister of Agriculture and Fisheries No. 97 (1993), amended December 1997.	<i>Published: 12/2000</i>	no consent
URUGUAY	<i>Final decision on import</i> Remarks: Legislative or administrative measures – Ministerial resolution of 23/09/1997. It is not allowed to register substances based on organochlorinated compounds for agricultural use, except endosulfan. Although it is a general measure, toxaphene is included in it.	<i>Published: 12/2000</i>	no consent
VIET NAM	<i>Final decision on import</i> Remarks: Decision No. 165/1999/QA/BNN-BVTV dated on 13th December 1999.	<i>Published: 06/2000</i>	no consent
ZIMBABWE	<i>Final decision on import</i>	<i>Published: 12/2001</i>	consent

Parathion (all formulations - aerosols, dustable powder (DP), emulsifiable concentrate (EC), granules (GR) and wettable powders (WP) - of this substance are included, except capsule suspensions (CS))

CAS: 56-38-2

ARMENIA	<i>Interim decision on import</i>	<i>Published: 06/2001</i>	no consent
AUSTRALIA	<i>Final decision on import</i>	<i>Published: 12/1999</i>	no consent
BOLIVIA	<i>Final decision on import</i> Remarks: Not registered. Art. 134 of D.S. 10283 considers agrochemicals containing parathion in their formulation as EXTREMELY TOXIC and Art. 60 of the same D.S. prohibits trade of agrochemicals in this toxicological category. The regularization of the registration and use of parathion is foreseen via Biministerial (Health, Agriculture) Resolution using the exception given in Art. 135 of the same D.S. and it will be classified as STRICTLY LIMITED for the control of cotton bollweevil, <i>Autonomus grandis</i> , which has been declared a quarantine pest. Parathion-ethyl has been registered and used in Bolivia since 1996 because of the incompleteness of D.S. 10283 but from this year onwards all import and trade in this substance are suspended.	<i>Published: 07/1998</i>	no consent
BOSNIA AND HERZEGOVINA	<i>Final decision on import</i> Remarks: Not registered.	<i>Published: 07/1998</i>	no consent

Listing of all importing country responses

Crocidolite

CAS: 12001-28-4

ALBANIA	<i>Final decision on import</i> Remarks: This chemical is not used in the country or in the local economy. Law on Environmental Protection No. 7664 of 21.1.1993; Decision on Hazardous Wastes and Residues No. 26 of 31.1.94 of the Council of Ministers.	<i>Published: 07/1996</i>	no consent
ALGERIA	<i>Interim decision on import</i> Remarks: Decree 95-39 of 28.1.95 on prior authorisations for production of toxic products or products which present particular risk. Conditions for Import: Crocidolite is banned for use in production of consumer goods.	<i>Published: 07/1996</i>	consent
ARMENIA	<i>Interim decision on import</i> Remarks: A final decision is under active consideration.	<i>Published: 06/2001</i>	no consent
AUSTRALIA	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	-
BAHRAIN	<i>Final decision on import</i>	<i>Published: 07/1996</i>	no consent
BRAZIL	<i>Final decision on import</i> Remarks: National legislative or administrative measure: only import of the variety of asbestos chrysotile is allowed. Law No. 9.055 of 1 July 1995 and Decree No. 2.350 of 15 October 1997. Institution/authority responsible for issuing this measure: Ministério das minas y energia, Departamento nacional de producción mineral - DNPM.	<i>Published: 06/2001</i>	no consent
CANADA	<i>Final decision on import</i> Remarks: Legislative or administrative measures – "Hazardous Products (Crocidolite Asbestos) Regulations" (SOR/89-440) under the "Hazardous Products Act". Imports into Canada of products composed of crocidolite asbestos and products containing crocidolite asbestos are subject to the conditions described below. Institution responsible for issuing the legislative measure is Health Canada. Conditions for Import: The following conditions apply to products composed of crocidolite asbestos fibres: a) the product is imported for the purposes of manufacturing diaphragms for chloroalkali production or acid and temperature resistant seals, gaskets, gland packings or flexible couplings; b) a written notice is given with information required in the Regulations; c) a label be affixed to the container to indicate that it contains crocidolite asbestos fibres. The following conditions apply to asbestos cement pipes, torque converters, diaphragms for chloroalkali production, acid and temperature resistant seals, gaskets, gland packings or flexible couplings: a) the product is constructed in such a way that, upon reasonably foreseeable use, the crocidolite asbestos fibres will not be released into the ambient air; b) a label be affixed to the container to indicate that it contains crocidolite	<i>Published: 12/2000</i>	consent

LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Ministry of Industry and Handicraft. Approximate time needed before a final decision can be reached - one year.	<i>Published: 12/1999</i>	no consent
MALAYSIA	<i>Final decision on import</i> Remarks: Customs (Prohibition of Import) Order 1988, first schedule, under Customs Act 1967.	<i>Published: 01/1998</i>	no consent
MAURITIUS	<i>Final decision on import</i> Remarks: Legislative or administrative measures – "Supplies (Control of Imports) Regulations", 1991; "Consumer Protection Act".	<i>Published: 12/2000</i>	no consent
NIGER	<i>Response did not address importation</i> Remarks: A final decision is under active consideration. Approximate time needed before a final decision can be reached - 6 months.	<i>Published: 12/1999</i>	
NIGERIA	<i>Final decision on import</i> Remarks: The chemical is not manufactured, approved or used in the country. Legislative acts - Federal Environmental Protection Act, CAPN, 131, LFN, 1990 as amended by Decree No. 59 of 1992; Management of Solid and	<i>Published: 01/1998</i>	no consent
OMAN	<i>Response did not address importation</i> Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Oman requests exporting countries to inform the DNA of address of companies/agencies in Oman to which this chemicals is being exported.	<i>Published: 01/1995</i>	-
PAPUA NEW GUINEA	<i>Response did not address importation</i> Remarks: Additional time is needed to take a final decision. The current status of the chemical in the country is unclear. DNA requests assistance from exporting countries in providing addresses of companies/agencies in Papua New Guinea to which Crocidolite is being imported.	<i>Published: 07/1996</i>	-

PHILIPPINES	<i>Interim decision on import</i> Remarks: No final decision has been taken regarding PIC chemicals (see DENR Administrative order No. 29 on the implementation of rules and regulations on chemicals). Under the Republic Act 6969 (Toxic Chemical Legislation), a Review Committee will be formed in order to evaluate chemicals to be included in the Priority Chemicals List, and to make recommendations on chemicals for which Chemical Control Orders (CCO) will be issued. Conditions for Import: An Interim Importation Clearance has to be obtained from the Department of Environment and Natural Resources (under Republic Act 6969). The issuance of such and Interim Importation Clearance may be denied based on the evaluation of data required.	<i>Published: 07/1996</i>	consent
SAINT LUCIA	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent
SAMOA	<i>Final decision on import</i> Remarks: Insulation removed from the Parliament building and disposed locally (some disturbance of the container reported).	<i>Published: 01/1996</i>	no consent
SLOVAKIA	<i>Final decision on import</i> Conditions for Import: Conditions are specified in Ordinance No. 8, § 11b, of the Ministry of Health of Slovakia, 1990.	<i>Published: 07/1996</i>	consent
SWITZERLAND	<i>Final decision on import</i> Remarks: Most uses are banned, but some special uses are still allowed (see Ordinance relating to Environmentally Hazardous Substances, Annex Conditions for Import: If the intended use is still permitted according to the provisions of Annex 3.3. of the Ordinance relating to Environmentally Hazardous Substances.	<i>Published: 01/1995</i>	consent
TANZANIA, UNITED REPUBLIC OF	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision. Crocidolite is not used in the manufacture of asbestos. Industry is using chrysotile fiber. Conditions for Import: Crocidolite is a chemical which is registered/approved/currently being used in the country.	<i>Published: 01/1995</i>	-
THAILAND	<i>Final decision on import</i>	<i>Published: 01/1995</i>	no consent
TRINIDAD AND TOBAGO	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board, Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require imported to obtain license to import. Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there is not government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is	<i>Published: 06/2001</i>	consent
URUGUAY	<i>Response did not address importation</i> Remarks: Need more time to take a final decision. No special restrictions exist on importation of products until otherwise decided.	<i>Published: 01/1997</i>	-

These Regulations prohibit the manufacture, use, processing, sale, offering for sale and import of certain toxic substances such as PBBs that appear on the list of toxic substances in Schedule I to the CEPA. These Regulations do not apply in respect of the manufacture, use, processing, sale, offering for sale or import of a prohibited toxic substance for use in a laboratory for scientific research purposes or as a laboratory analytical standard. Institution responsible for issuing the legislative measure is Environment Canada.	<i>Published: 12/2000</i>	no consent
CHAD	<i>Interim decision on import</i> Remarks: The decision applies to hexabromobiphenyl only. Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	no consent
CHILE	<i>Final decision on import</i> Remarks: Legislative or administrative measures - No express legislative measure of prohibition has been issued by the public health authorities or other authority. An authorisation is needed for its import into the country.	<i>Published: 12/2000</i>	consent
CHINA	<i>Final decision on import</i> Conditions for Import: Permission must be obtained from the National Environmental Protection Agency (NEPA) of China.	<i>Published: 01/1995</i>	consent
CUBA	<i>Final decision on import</i> Conditions for Import: Can only be imported with permission of the DNA. Import is not permitted if the substance is intended to be used in textile production.	<i>Published: 01/1995</i>	consent

CYPRUS	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	no consent
Remarks: The import, use, etc., of PBBs in Cyprus is controlled by the Dangerous Substances Law of 1991 and regulations that are under preparation, expected to be enacted in 1994. At present the import is regulated by the Ministry of Commerce and Industry, which is the import licensing authority and which refuses to grant such license for import of this substance.			
ECUADOR	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
Remarks: Additional time is needed to reach a final decision.			
European Union	<i>Final decision on import</i>	<i>Published: 01/1995</i>	consent
Member States: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, United Kingdom	Remarks: For Austria, Finland and Sweden, decision published 07/95. Conditions for Import: Permit, except for use in textile articles intended to come into contact with the skin (e.g. garment, undergarment, linen).		
Members of the EEA Agreement	<i>Final decision on import</i>	<i>Published: 07/1995</i>	consent
Iceland, Liechtenstein, Norway	Conditions for Import: Permit, except for use in textile articles intended to come into contact with the skin (e.g. garment, undergarment, linen).		
GAMBIA	<i>Interim decision on import</i>	<i>Published: 01/1997</i>	no consent
Remarks: Regulated by the Hazardous Chemicals and Pesticides Control and Management Act of 1994. Alternatives: CO ₂ , foams as fire retardants.			
GUINEA	<i>Interim decision on import</i>	<i>Published: 01/1996</i>	consent
Remarks: The final decision on this substance will be taken only after the approval and signature of the draft decree on the regulation of the control of hazardous and dangerous chemicals which is presently being considered at the Governmental level. Any import or delivery without prior authorization of the National Department of the Environment (Direction nationale de l'environnement) presents a violation of Art. 76, 77 and 78 of the Ordinance No. 045/PRG/87 of 28 May 1987 on the Code of Environment of the Republic of Guinea.			
Conditions for Import: For industrial uses on the basis of a prior authorization of the National Department of the Environment.			
HUNGARY	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
Remarks: Additional time is needed to reach a final decision. While the data necessary for a final decision is being collected, in 1994 PBBs were included in the "List of items subject to license and list of goods the export and import of which are subject to the permission of the Ministry of International Economic Relations."			
Conditions for Import: Permission must be obtained from the National Public Health and Medical Officer Service. PBBs may not be used in textile articles (garments, linen, etc.) intended to come in contact with the skin.			
INDIA	<i>Final decision on import</i>	<i>Published: 01/1995</i>	consent
Conditions for Import: License on the recommendation of the Department of Chemicals and Petrochemicals.			

JAPAN	<i>Interim decision on import</i>	<i>Published: 12/1999</i>	consent
<p>Conditions for Import: Applicable to hexabromobiphenyl and octabromobiphenyl - notification to the Minister of International Trade and Industry and the Minister of Health and Welfare required. A final decision regarding import will be taken only when the chemical is examined as a new chemical after the first notification.</p>			
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Interim decision on import</i>	<i>Published: 12/1999</i>	no consent
<p>Remarks: A final decision is under active consideration by the Ministry of Industry and Handicraft. Approximate time needed before a final decision can be reached - one year.</p>			
LIBERIA	<i>Interim decision on import</i>	<i>Published: 12/2001</i>	no consent
<p>Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Liberia requests exporting countries to inform the DNA of address of companies/agencies in Liberia to which this chemical is being imported.</p>			
MALAYSIA	<i>Final decision on import</i>	<i>Published: 01/1998</i>	no consent
<p>Remarks: Customs (Prohibition of Imports) Order 1988, first schedule under Customs Act 1967.</p>			
MAURITIUS	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
<p>Remarks: Legislative or administrative measures – "Supplies (Control of Imports) Regulations", 1991; "Consumer Protection Act".</p>			
NIGER	<i>Response did not address importation</i>	<i>Published: 12/1999</i>	
<p>Remarks: A final decision is under active consideration. Approximate time needed before a final decision can be reached - 6 months.</p>			
NIGERIA	<i>Interim decision on import</i>	<i>Published: 01/1998</i>	consent
<p>Remarks: Placed under severe restriction. The chemical is not manufactured or formulated in the country. Additional time is needed to reach a final decision (3-5 years). It is recommended that a national survey be conducted urgently in order to identify the level of use for effective phase-out of the chemical in conjunction with users. Legislative acts - Federal Environmental Protection Act, CAPN, 131, LFN, 1990 as amended by Decree No. 59 of 1992; Management of Solid and Hazardous Wastes Regulation, S.1.15 of 1991. Conditions for Import: Permit by FEPA (Federal Environmental Protection Agency) must be obtained.</p>			
OMAN	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
<p>Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Oman requests exporting countries to inform the DNA of address of companies/agencies in Oman to which this chemical is being imported.</p>			
PAPUA NEW GUINEA	<i>Response did not address importation</i>	<i>Published: 07/1996</i>	-
<p>Remarks: Additional time is needed to take a final decision. The current status of the chemical in the country is unclear. DNA requests assistance from exporting countries in providing addresses of companies/agencies in Papua New Guinea to which PBBs are being imported.</p>			

SAINT LUCIA	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent
SAMOA	<i>Final decision on import</i>	<i>Published: 01/1996</i>	no consent
SWITZERLAND	<i>Final decision on import</i> Remarks: Manufacture, supply, import and use of the substance and of products which contain the substance are prohibited (Ordinance relating to Environmentally Hazardous Substances, Annex 3.1).	<i>Published: 01/1995</i>	no consent
TANZANIA, UNITED REPUBLIC OF	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	-
THAILAND	<i>Response did not address importation</i> Remarks: PBBs have never been imported into the country. Additional time is needed to reach a final decision. The chemical is under consideration for a control action by the Hazardous Substance Control Committee under the new Act (1992).	<i>Published: 01/1995</i>	-
TRINIDAD AND TOBAGO	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board, Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require imported to obtain license to import. Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there is not government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is	<i>Published: 06/2001</i>	consent
URUGUAY	<i>Response did not address importation</i> Remarks: Need more time to take a final decision. No special restrictions exist on importation of products until otherwise decided.	<i>Published: 01/1997</i>	-

Listing of all importing country responses

Polychlorinated Biphenyls (PCBs)

CAS: 1336-36-3

ALBANIA	<i>Final decision on import</i> Remarks: This chemical is not used in the country or in the local economy. Law on Environmental protection No. 7664 of 21.1.1993; Decision on Hazardous Wastes and Residues No. 26 of 31.1.94 of the Council of Ministers.	<i>Published: 07/1996</i>	no consent
ALGERIA	<i>Final decision on import</i> Remarks: Decree 98-182 of 18.8.87 on PCB-based oils, electric equipment containing these oils and materials contaminated by this product.	<i>Published: 07/1996</i>	no consent
ARMENIA	<i>Interim decision on import</i> Remarks: A final decision is under active consideration.	<i>Published: 06/2001</i>	no consent
AUSTRALIA	<i>Final decision on import</i> Conditions for Import: Permission of the Ministry for Trade must be obtained. Such permission would include conditions specified in the Customs (Prohibited Imports) Regulation.	<i>Published: 01/1995</i>	consent
BAHRAIN	<i>Final decision on import</i> Remarks: Action has been taken to substitute the chemical in the electrical facilities. Import of chlorinated pesticides is not allowed.	<i>Published: 01/1995</i>	no consent
BRAZIL	<i>Final decision on import</i> Conditions for Import: Virtually all uses of the product, like for example as fluid for electrical transformers, admixtures for dyes, plastics and other minor uses; have been banned within the national territory. There is still no legal prohibition of import. National legislative or administrative measure: Inter-ministry.... No. 19 of 29 January 1981 (Ministerios de las minas e energia, Interior y Industria y comercio). Institutions/authorities responsible for issuing this measure: Ministério das minas e energia; Agência nacional de energia eléctrica.	<i>Published: 06/2001</i>	consent
CANADA	<i>Final decision on import</i> Remarks: Legislative or administrative measures - "Chlorobiphenyls Regulations" (SOR/91-152) under the "Canadian Environmental Protection Act" (CEPA). These Regulations restrict the use of chlorobiphenyls (PCBs) to existing electrical equipment by prohibiting the import or manufacture of any PCB-filled equipment, the operation of PCB-filled electromagnets handling food or feed, and the use of PCBs as a new filling or make-up fluid in any equipment. The Regulations set a maximum concentration of 50 ppm by weight of PCBs that are imported, manufactured or offered for sale. The Regulations set 1 gram per day as the maximum quantity of PCBs that may be released into the environment in the course of commercial, manufacturing and processing activities involving specified equipment, and 50 ppm by weight as a general release prohibition, except for road oiling purposes, where the limit is 5 ppm. Institution responsible for issuing the legislative measure is Environment Canada.	<i>Published: 12/2000</i>	no consent
CHAD	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent

CHILE	<i>Interim decision on import</i> Remarks: A final decision is under active consideration. Approximate time needed before a final decision can be reached: six months. The institution responsible for the active consideration of a final decision is the Ministry of Health. The "Resolución de la Superintendencia de Servicios Eléctricos y Gas" of the Ministry of Interior (now called the perintendencia de Servicios Eléctricos y Combustibles") is presently in force, which prohibits the use of PCBs within the national territory as dielectric fluid in transformers, condensers and any other type of electrical equipment. Extended Resolution No. 610 of 3 September 1982, Ministry of Interior.	<i>Published: 12/2000</i>	consent
CHINA	<i>Final decision on import</i> Conditions for Import: Permission must be obtained from the National Environmental Protection Agency of China (including for import of electrical equipment containing PCBs).	<i>Published: 01/1995</i>	consent
CUBA	<i>Final decision on import</i> Conditions for Import: The substance itself and electrical equipment with a PCB content of more than 50 ppm are banned for import.	<i>Published: 01/1995</i>	no consent
CYPRUS	<i>Interim decision on import</i> Remarks: The import, use, etc. of PCBs in Cyprus is controlled by the Dangerous Substances Law of 1991 and regulations that are under preparation, expected to be enacted in 1994. At present, the import is regulated by the Ministry of Commerce and Industry, which refuses to grant such license for import of this substance.	<i>Published: 01/1995</i>	no consent
CZECH REPUBLIC	<i>Final decision on import</i> Remarks: Production, import, export and distribution of the preparations containing more than 0.005% by weight of the substance is banned (with exception of mono- and dichlorinated biphenyls) by the Act No. 157/1998 Code, on chemical substances and chemical preparations and amending some other Acts, as last amended, and its implementing Decree No. 301/1998 Code, as last amended. The production and import of the substance for research, scientific and analytic purposes in quantity less than 100 g per year from one producer or importer is permitted. The institution responsible for issuing this national measure is Ministry of Environment.	<i>Published: 12/2001</i>	no consent
ECUADOR	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent
European Union Member States: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, United Kingdom	<i>Final decision on import</i> Remarks: For Austria, Finland and Sweden, decision published 07/95. Exceptionally, derogation may be granted for primary and intermediate products on a case by case basis. Further to general prohibition of PCB, the import of any preparation with a PCB content of more than 0,005% is prohibited.	<i>Published: 01/1995</i>	no consent
Members of the EEA Agreement Iceland, Liechtenstein, Norway	<i>Final decision on import</i> Remarks: Exceptionally, derogation may be granted for primary and intermediate products on a case by case basis. Further to general prohibition of PCB, the import of any preparation with a PCB content of more than 0,005% is prohibited.	<i>Published: 07/1995</i>	no consent

GAMBIA	<i>Interim decision on import</i>	<i>Published: 01/1997</i>	consent
<p>Remarks: PCBs are supposedly imported in closed systems. Regulations on use and import are lacking. Regulated by the Hazardous Chemicals and Pesticides Control and Management Act of 1994.</p>			
GUINEA	<i>Interim decision on import</i>	<i>Published: 01/1996</i>	consent
<p>Remarks: The final decision on this substance will be taken only after the approval and signature of the draft decree on the regulation of the control of hazardous and dangerous chemicals which is presently being considered at the Governmental level. Any import or delivery without prior authorization of the National Department of the Environment (Direction nationale de l'environnement) presents a violation of Art. 76, 77 and 78 of the Ordinance No. 045/PRG/87 of 28 May 1987 on the Code of Environment of the Republic of Guinea.</p> <p>Conditions for Import: For industrial uses on the basis of a prior authorization of the National Department of the Environment .</p>			
HONDURAS	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
<p>Remarks: Uncertain whether the chemical has been imported into the country. Additional time is needed for a final decision. The use of the chemical is presently not regulated in Honduras. It is planned that a regulation will be issued and implemented by the Secretariat of Labour and Social Planning (Secretaria del Trabajo y Previsión Social).</p>			
HUNGARY	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
<p>Remarks: Additional time is needed to reach a final decision. While the data necessary for a final decision is being collected, in 1994 PCBs were included in the "List of items subject to license and list of goods the export and import of which are subject to the permission of the Ministry of International Economic Relations."</p> <p>Conditions for Import: Permission must be obtained from the National Public Health and Medical Officer Service. PCBs may not be used in formulations with a PCB content of more than 0,01% by weight.</p>			
INDIA	<i>Final decision on import</i>	<i>Published: 01/1995</i>	consent
<p>Conditions for Import: License on the recommendation of the Department of Chemicals and Petrochemicals.</p>			
JAPAN	<i>Final decision on import</i>	<i>Published: 12/1999</i>	consent
<p>Remarks: Decision is based on the Law concerning the Examination and Regulation on Manufacture, etc. of Chemical Substances.</p> <p>Conditions for Import: Permission from the Minister of International Trade and Industry required. However, so far not permission has been granted.</p>			
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Interim decision on import</i>	<i>Published: 12/1999</i>	no consent
<p>Remarks: A final decision is under active consideration by the Ministry of Industry and Handicraft. Approximate time needed before a final decision can be reached - one year.</p>			
MALAYSIA	<i>Final decision on import</i>	<i>Published: 01/1998</i>	no consent
<p>Remarks: Customs (Prohibition of Imports) order 1988, first schedule, under Customs Act 1967.</p>			

MAURITIUS	<i>Final decision on import</i> Remarks: Legislative or administrative measures – "Supplies (Control of Imports) Regulations", 1991; "Consumer Protection Act".	<i>Published: 12/2000</i>	no consent
NIGER	<i>Response did not address importation</i> Remarks: A final decision is under active consideration by the Ministry of Agriculture. Approximate time needed before a final decision can be reached - 6 months. Additional information on use of the chemical is requested from the countries that notified final regulatory actions.	<i>Published: 12/1999</i>	
NIGERIA	<i>Interim decision on import</i> Remarks: Severely restricted for use in closed application in transformers. The chemical is not manufactured or formulated in the country. Additional time is needed to reach a final decision (3-5 years). FEPA has launched an awareness-raising programme for companies and authorities which use PCB-based transformers on hazards related to this chemicals, in order to phase out its use. There is an urgent move to assess the extent of PCB wastes in the country, identify target companies and the most environmentally sound manner of disposal. There is an awareness as to the need of non-PCB-based transformers but alternatives are not yet identified. Legislative acts - Federal Environmental Protection Act, CAPN, 131, LFN, 1990 as amended by Decree No. 59 of 1992; Management of Solid and Hazardous Wastes Regulation, S.1.15 of 1991. Conditions for Import: Permit from FEPA (Federal Environmental Protection Agency) must be obtained.	<i>Published: 01/1998</i>	consent
OMAN	<i>Response did not address importation</i> Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Oman requests exporting countries to inform the DNA of address of companies/agencies in Oman to which this chemicals is being exported.	<i>Published: 01/1995</i>	-
PAPUA NEW GUINEA	<i>Response did not address importation</i> Remarks: Additional time is needed to take a final decision. The current status of the chemical in the country is unclear. DNA requests assistance from exporting countries in providing addresses of companies/agencies in Papua New Guinea to which PCB is being imported.	<i>Published: 07/1996</i>	-
PHILIPPINES	<i>Interim decision on import</i> Remarks: No final decision has been taken regarding PIC chemicals (see DENR Administrative order No. 29 on the implementation of rules and regulations on chemicals). Under the Republic Act 6969 (Toxic Chemical Legislation), a Review Committee will be formed in order to evaluate chemicals to be included in the Priority Chemicals List and to make recommendations on chemicals for which Chemical Control Orders (CCO) will be issued. Conditions for Import: An Interim Importation Clearance has to be obtained from the Department of Environment and Natural Resources (under Republic Act 6969). The issuance of such and Interim Importation Clearance may be denied based on the evaluation of data required.	<i>Published: 07/1996</i>	consent
SAINT LUCIA	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent

SAMOA	<i>Final decision on import</i> Remarks: Reportedly used in the 1970s for timber treatment. Residues found in marine shellfish and sediments.	<i>Published: 01/1996</i>	no consent
SLOVAKIA	<i>Final decision on import</i> Remarks: Ordinance No. 8/1990 of the Ministry of Health of Slovakia.	<i>Published: 07/1996</i>	no consent
SWITZERLAND	<i>Final decision on import</i> Remarks: Manufacture, supply, import and use of the substance and of products which contain the substance are prohibited (Ordinance relating to Environmentally Hazardous Substances, Annex 3.1).	<i>Published: 01/1995</i>	no consent
TANZANIA, UNITED REPUBLIC OF	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision. PCBs are used in electrical installations.	<i>Published: 01/1995</i>	-
THAILAND	<i>Final decision on import</i>	<i>Published: 01/1995</i>	no consent
TRINIDAD AND TOBAGO	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board, Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require imported to obtain license to import. Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there is not government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is	<i>Published: 06/2001</i>	consent
URUGUAY	<i>Response did not address importation</i> Remarks: Need more time to take a final decision. No special restrictions exist on importation of products until otherwise decided.	<i>Published: 01/1997</i>	-

Listing of all importing country responses

Polychlorinated Terphenyls (PCTs)

CAS: 61788-33-8

ALBANIA	<i>Final decision on import</i> Remarks: This chemical is not used in the country or in the local economy. Law on Environmental Protection No. 7664 of 21.1.1993; Decision on Hazardous Wastes and Residues No. 26 of 31.1.94 of the Council of Ministers.	<i>Published: 07/1996</i>	no consent
ARMENIA	<i>Interim decision on import</i> Remarks: A final decision is under active consideration.	<i>Published: 06/2001</i>	no consent
AUSTRALIA	<i>Final decision on import</i> Conditions for Import: Permission by the Ministry for Trade. Such a permission would include conditions specified in the Customs (Prohibited Imports) Regulation.	<i>Published: 01/1995</i>	consent
BAHRAIN	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision. Uncertain whether the chemical has been imported into the country. Banned for use as a pesticide in the country.	<i>Published: 01/1995</i>	-
BRAZIL	<i>Interim decision on import</i> Remarks: A final decision is under active consideration. Approximate time needed before a final decision can be reached: 2 years.	<i>Published: 06/2001</i>	consent
CANADA	<i>Final decision on import</i> Remarks: Legislative or administrative measures - "Prohibition of Certain Toxic Substances Regulations" (SOR/96-237) and "Regulations Amending the Prohibition of Certain Toxic Substances Regulations" (SOR/98-435) under the "Canadian Environmental Protection Act" (CEPA). These Regulations prohibit the manufacture, use, processing, sale, offering for sale and import of certain toxic substances such as PCTs that appear on the list of toxic substances in Schedule I to the CEPA These Regulations do not apply in respect of the manufacture, use, processing, sale, offering for sale or import of a prohibited toxic substance for use in a laboratory for scientific research purposes or as a laboratory analytical standard. Institution responsible for issuing the legislative measure is Environment Canada.	<i>Published: 12/2000</i>	no consent
CHAD	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	no consent
CHILE	<i>Final decision on import</i> Remarks: Legislative or administrative measures - No express legislative measure of prohibition has been issued by the public health authorities or other authority. An authorisation is needed for its import into the country	<i>Published: 12/2000</i>	consent
CHINA	<i>Final decision on import</i> Conditions for Import: Permission must be obtained from the National Environmental Protection Agency (NEPA) of China.	<i>Published: 01/1995</i>	consent
CUBA	<i>Final decision on import</i>	<i>Published: 01/1995</i>	no consent

CYPRUS	<i>Interim decision on import</i> Remarks: The import, use, etc., of PCTs in Cyprus is controlled by the Dangerous Substances Law of 1991 and regulations that are under preparation, expected to be enacted in 1994. At present the import is regulated by the Ministry of Commerce and Industry, which is the import licensing authority and which refuses to grant such license for import of this substance .	<i>Published: 01/1995</i>	no consent
CZECH REPUBLIC	<i>Final decision on import</i> Remarks: Production, import, export and distribution of the preparations containing more than 0.005% by weight of the substance is banned by the Act No. 157/1998 Code, on chemical substances and chemical preparations and amending some other Acts, as last amended, and its implementing Decree No. 301/1998 Code, as last amended. The production and import of the substance for research, scientific and analytic purposes in quantity less than 100 g per year from one producer or importer is permitted. The institution responsible for issuing this national legislative or administrative measure is Ministry of Environment.	<i>Published: 12/2001</i>	no consent
ECUADOR	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	consent
European Union Member States: Austria, Belgium, Denmark,Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, United Kingdom	<i>Final decision on import</i> Remarks: For Austria, Finland and Sweden, decision published 07/95. Exceptionally, derogation may be granted for primary and intermediate products on a case by case basis. Further to general prohibition of PCT, the import of any preparation with a PCT content of more than 0,005% is prohibited.	<i>Published: 01/1995</i>	no consent
Members of the EEA Agreement Iceland, Liechtenstein, Norway	<i>Final decision on import</i> Remarks: Exceptionally, derogation may be granted for primary and intermediate products on a case by case basis. Further to general prohibition of PCT, the import of any preparation with a PCT content of more than 0,005% is prohibited.	<i>Published: 07/1995</i>	no consent
GAMBIA	<i>Interim decision on import</i> Remarks: PCTs are supposedly imported in closed systems. Regulations on use and import are lacking. Regulated by the Hazardous Chemicals and Pesticides Control and Management Act of 1994.	<i>Published: 01/1997</i>	consent
GUINEA	<i>Interim decision on import</i> Remarks: The final decision on this substance will be taken only after the approval and signature of the draft decree on the regulation of the control of hazardous and dangerous chemicals which is presently being considered at the Governmental level. Any import or delivery without prior authorization of the National Department of the Environment (Direction nationale de l'environnement) presents a violation of Art. 76, 77 and 78 of the Ordinance No. 045/PRG/87 of 28 May 1987 on the Code of Environment of the Republic of Guinea. Conditions for Import: For industrial uses on the basis of a prior authorisation of the National Department of the Environment.	<i>Published: 01/1996</i>	consent

HONDURAS	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
	Remarks: Uncertain whether the chemical has been imported into the country. Additional time is needed to reach a final decision. The use of the chemical is presently not regulated in Honduras. It is planned that a regulation will be issued and implemented by the Secretariat of Labour and Social Planning (Secretaría del Trabajo y Previsión Social).		
HUNGARY	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
	Remarks: Additional time is needed to reach a final decision. While the data necessary for a final decision is being collected, in 1994 PCTs were included in the "List of items subject to license and list of goods the export and import of which are subject to the permission of the Ministry of International Economic Relations." Conditions for Import: Permission must be obtained from the National Public Health and Medical Officer Service. PCTs may not be used in preparations with a PCT content higher than 0,01% by weight.		
INDIA	<i>Final decision on import</i>	<i>Published: 01/1995</i>	consent
	Conditions for Import: License on the recommendation of the Department of Chemicals and Petrochemicals.		
JAPAN	<i>Interim decision on import</i>	<i>Published: 12/1999</i>	consent
	Conditions for Import: Notification to the Minister of International Trade and Industry and the Minister of Health and Welfare required. A final decision regarding import will be taken only when the chemical is examined as a new chemical after the first notification.		
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Interim decision on import</i>	<i>Published: 12/1999</i>	no consent
	Remarks: A final decision is under active consideration by the Ministry of Industry and Handicraft. Approximate time needed before a final decision can be reached - one year.		
MALAYSIA	<i>Final decision on import</i>	<i>Published: 01/1998</i>	no consent
	Remarks: Customs (Prohibition of Imports) Order 1988, first schedule, under Customs Act 1967.		
MAURITIUS	<i>Final decision on import</i>	<i>Published: 12/2000</i>	no consent
	Remarks: Legislative or administrative measures – "Supplies (Control of Imports) Regulations", 1991; "Consumer Protection Act".		
NIGERIA	<i>Interim decision on import</i>	<i>Published: 01/1998</i>	consent
	Remarks: Placed under severe restriction. The chemical is not manufactured or formulated in the country. Additional time is needed to reach a final decision (3-5 years). Phase-out programme and a three-year moratorium are being proposed. Legislative acts - Federal Environmental Protection Act, CAPN, 131, LFN, 1990 as amended by Decree No. 59 of 1992; Management of Solid and Hazardous Wastes Regulation, S.1.15 of 1991. Conditions for Import: Permit from FEPA (Federal Environmental Protection Agency) must be obtained.		

OMAN	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
<p>Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Oman requests exporting countries to inform the DNA of address of companies/agencies in Oman to which this chemical is being imported.</p>			
PAPUA NEW GUINEA	<i>Response did not address importation</i>	<i>Published: 07/1996</i>	-
<p>Remarks: Additional time is needed to take a final decision. The current status of the chemical in the country is unclear. DNA requests assistance from exporting countries in providing addresses of companies/agencies in Papua New Guinea to which PCT is being imported.</p>			
PHILIPPINES	<i>Interim decision on import</i>	<i>Published: 07/1996</i>	consent
<p>Remarks: No final decision has been taken regarding PIC chemicals (see DENR Administrative order No. 29 on the implementation of rules and regulations on chemicals). Under the Republic Act 6969 (Toxic Chemical Legislation), a Review Committee will be formed in order to evaluate chemicals to be included in the Priority Chemicals List, and to make recommendations on chemicals for which Chemical Control Orders (CCO) will be issued.</p> <p>Conditions for Import: An Interim Importation Clearance has to be obtained from the Department of Environment and Natural Resources, under Republic Act 6969. The issuance of such and Interim Importation Clearance may be denied based on the evaluation of data required.</p>			
SAMOA	<i>Final decision on import</i>	<i>Published: 01/1996</i>	no consent
SWITZERLAND	<i>Final decision on import</i>	<i>Published: 01/1995</i>	no consent
<p>Remarks: Manufacture, supply, import and use of the substance and of products which contain the substance are prohibited (Ordinance relating to Environmentally Hazardous Substances, Annex 3.1).</p>			
TANZANIA, UNITED REPUBLIC OF	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
<p>Remarks: Additional time is needed to reach a final decision.</p>			
THAILAND	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
<p>Remarks: The chemical has never been imported into the country. Additional time is needed to reach a final decision. The chemical is in the process of consideration for a control action by the Hazardous Substance Control Committee under the new Act (1992).</p>			
TRINIDAD AND TOBAGO	<i>Interim decision on import</i>	<i>Published: 06/2001</i>	consent
<p>Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board, Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require imported to obtain license to import.</p> <p>Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there is not government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is</p>			

URUGUAY

*Response did not address
importation*

Published: 01/1997

-

Remarks: Need more time to take a final decision. No special restrictions exist on importation of products until otherwise decided.

Listing of all importing country responses

Tris(2,3 dibromopropyl)phosphate

CAS: 126-72-7

ALBANIA	<i>Final decision on import</i> Remarks: This chemical is not used in the country or in the local economy. Law on Environmental Protection No. 7664 of 21.1.1993; Decision on Hazardous Wastes and Residues No. 26 of 31.1.94 of the Council of Ministers.	<i>Published: 07/1996</i>	no consent
ARMENIA	<i>Interim decision on import</i> Remarks: A final decision is under active consideration.	<i>Published: 06/2001</i>	no consent
AUSTRALIA	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	-
BAHRAIN	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision. Uncertain whether the chemical has been imported into the country previously.	<i>Published: 01/1995</i>	-
BRAZIL	<i>Interim decision on import</i> Remarks: A final decision is under active consideration. Approximate time needed before a final decision can be reached: 2 years. Institution/authority actively considering a final decision: IBAMA.	<i>Published: 06/2001</i>	consent
CANADA	<i>Final decision on import</i> Remarks: Legislative or administrative measures - "New Substances Notification Regulations" (SOR/94-260) under the "Canadian Environmental Protection Act" (CEPA). Institution responsible for issuing the legislative measure is Environment Canada. Conditions for Import: A notification has to be made before import according to the "New Substances Notification Regulations".	<i>Published: 12/2000</i>	consent
CHAD	<i>Interim decision on import</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	no consent
CHILE	<i>Final decision on import</i> Remarks: Legislative or administrative measures - No express legislative measure of prohibition has been issued by the public health authorities or other authority. An authorisation is needed for its import into the country.	<i>Published: 12/2000</i>	consent
CHINA	<i>Final decision on import</i> Conditions for Import: Permission must be obtained from the National Environmental Protection Agency (NEPA) of China.	<i>Published: 01/1995</i>	consent
CUBA	<i>Final decision on import</i> Conditions for Import: Can be imported only with permission of the DNA. Import is not permitted if the substance is intended to be used in textile production.	<i>Published: 01/1995</i>	consent

CYPRUS	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	no consent
Remarks: The import, use, etc., of Tris in Cyprus is controlled by the Dangerous Substances Law of 1991 and regulations that are under preparation, expected to be enacted in 1994. At present the import is regulated by the Ministry of Commerce and Industry, which is the import licensing authority and which refuses to grant license for import of this substance .			
ECUADOR	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
Remarks: Additional time is needed to reach a final decision.			
European Union	<i>Final decision on import</i>	<i>Published: 01/1995</i>	consent
Member States: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, United Kingdom	Remarks: For Austria, Finland and Sweden, decision published 07/95. Conditions for Import: Permit, except for use in textile articles intended to come into contact with the skin (garment, undergarment, linen).		
Members of the EEA Agreement	<i>Final decision on import</i>	<i>Published: 07/1995</i>	consent
Iceland, Liechtenstein, Norway	Conditions for Import: Permit, except for use in textile articles intended to come into contact with the skin (garment, undergarment, linen).		
GAMBIA	<i>Interim decision on import</i>	<i>Published: 01/1997</i>	no consent
Remarks: The DNA requests the following information on Tris: information on sources, uses and forms of Tris.			
GUINEA	<i>Interim decision on import</i>	<i>Published: 01/1996</i>	consent
Remarks: The final decision on this substance will be taken only after the approval and signature of the draft decree on the regulation of the control of hazardous and dangerous chemicals which is presently being considered at the Governmental level. Any import or delivery without prior authorization of the National Department of the Environment (Direction nationale de l'environnement) presents a violation of Art. 76, 77 and 78 of the Ordinance No. 045/PRG/87 of 28 May 1987 on the Code of Environment of the Republic of Guinea.			
Conditions for Import: For industrial uses on the basis of an authorization of the National Department of the Environment.			
HONDURAS	<i>Response did not address importation</i>	<i>Published: 01/1995</i>	-
Remarks: Uncertain whether the chemical has been imported into the country. Additional time is needed to reach a final decision. The use of the chemical is presently not regulated in Honduras. It is planned that a regulation will be issued by the Secretariat of Labour and Social Planning (Secretaría del Trabajo y Previsión Social).			
HUNGARY	<i>Interim decision on import</i>	<i>Published: 01/1995</i>	consent
Remarks: Additional time is needed to reach a final decision. While the data necessary for a final decision is being collected, in 1994 Tris was included in the "List of items subject to license and list of goods the export and import of which are subject to the permission of the Ministry of International Economic Relations."			
Conditions for Import: Permission must be obtained from the National Public Health and Medical Officer Service. Tris may not be used in textile articles intended to come in contact with the skin.			

INDIA	<i>Final decision on import</i> Conditions for Import: License on the recommendation on the Department of Chemicals and Petrochemicals.	<i>Published: 01/1995</i>	consent
JAPAN	<i>Final decision on import</i> Remarks: Decision is based on the "Law concerning the Examination and Regulation on Manufacture, etc. of Chemical Substances"	<i>Published: 12/1999</i>	consent
LAO PEOPLE'S DEMOCRATIC REPUBLIC	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Ministry of Industry and Handicraft. Approximate time needed before a final decision can be reached - one year.	<i>Published: 12/1999</i>	no consent

TANZANIA, UNITED REPUBLIC OF	<i>Response did not address importation</i> Remarks: Additional time is needed to reach a final decision.	<i>Published: 01/1995</i>	-
THAILAND	<i>Response did not address importation</i> Remarks: The chemical has never been imported into the country. Additional time is needed to reach a final decision. The chemical is in the process of consideration for a control action by the hazardous Substance Control Committee under the new Act (1992).	<i>Published: 01/1995</i>	-
TRINIDAD AND TOBAGO	<i>Interim decision on import</i> Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board - Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require importers to obtain license to import. Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there is not government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is	<i>Published: 06/2001</i>	consent
URUGUAY	<i>Response did not address importation</i> Remarks: Need more time to take a final decision. No special restrictions exist on importation of products until otherwise decided.	<i>Published: 01/1997</i>	-
