1. THE PURPOSE OF THE PIC CIRCULAR

The Conference of Plenipotentiaries, held in Rotterdam on 10 and 11 September 1998, adopted the text of the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals in International Trade. The Conference also considered that interim arrangements were required to continue to operate a voluntary PIC procedure, in order to protect human health and the environment from certain hazardous chemicals and pesticides, pending the entry into force of the Convention and to prepare for its effective operation once it enters into force. The Conference, therefore, changed the original, voluntary procedure to bring it into line with the procedure established by the Convention with effect from the date on which the Convention was opened for signature (11 September 1998). The original PIC procedure with these changes is hereinafter referred to as the "interim PIC procedure".

The purpose of the PIC Circular is to provide all Parties¹, through their designated national authorities (DNAs), with the information required to be circulated by the Secretariat under the interim PIC procedure, in line with Articles 4, 5, 6, 7, 10, 11 and 14 of the Convention. However, the decision guidance documents (DGDs) to be dispatched to Parties in line with Article 7, paragraph 3, are sent out in a separate communication.

The PIC Circular will be published every six months, in June and December. In order to allow adequate time for processing of the information received in preparation of this Circular, information received after 31 October 2002 has not generally been included in this Circular, but will be reflected in the next Circular scheduled for June 2003.

Considerable efforts have been made by the Secretariat to ensure that the information included in this Circular is both complete and accurate. DNAs are requested to review the information for their country and to bring any errors or omissions to the attention of the Secretariat as soon as possible.

2. IMPLEMENTATION OF THE INTERIM PIC PROCEDURE

2.1 Designated national authorities (in line with Article 4 of the Convention)

In line with Article 4, paragraph 4 of the Convention, the Secretariat shall inform the Parties of new nominations or changes in nominations of DNAs. Since the last PIC Circular was distributed in June 2002, one State (Kyrgyzstan) has nominated, for the first time, a DNA for participation in the interim PIC procedure, 2 States (Georgia and Slovakia) have nominated additional DNAs and 18 States have provided changes (Armenia, Bangladesh, Brazil, Bulgaria, Costa Rica, Finland, Guinea, Guinea Bissau, Hungary, Lebanon, Malaysia, Mexico, Mozambique, Portugal, Slovakia, Tanzania, Uruguay and Venezuela). One State (Malta) cancelled its DNA. A complete list of DNAs under the interim PIC procedure is being distributed together with the present Circular. DNAs are requested to review the information for their country and to bring any errors or omissions to the attention of the Secretariat as soon as possible.

2.2 Notification of final regulatory action to ban or severely restrict a chemical (in line with Article 5 of the Convention)

In line with Article 5, paragraph 3 of the Convention, the Secretariat is to circulate summaries of notifications of final regulatory action received, and which the Secretariat has verified contain the information required by Annex I of the Convention. In line with Article 5, paragraph 4 of the Convention, the Secretariat is to circulate a synopsis of the notifications of final regulatory action received, including information regarding those notifications that do not contain all the information required by Annex I of the Convention. Such a synopsis of notifications received under the interim PIC procedure, including the summaries of the notifications the Secretariat has verified contain the information required by Annex I of the Convention and information regarding those notifications that have been verified not to contain all the information required by said Annex, is provided in Appendix I, parts A and B of each Circular. In addition, submitted notifications that are still under verification by the Secretariat are listed in Appendix I, Part C of each Circular.

A synopsis of notifications received and verified after 30 April 2002 is provided in Appendix I, parts A and B of this Circular.

In order to facilitate the submission of notifications by Parties, a *Form for notification of final regulatory action to ban or severely restrict a chemical* (UNEP/FAO/PIC/FORM/1/E/4-99) has been developed. It is available on the Rotterdam Convention website (www.pic.int) or on request from the Secretariat. When a notification is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its legal status.

¹ During the interim period before the Convention enters into force, a "Party" is understood to mean any State or regional economic integration organization having nominated a designated national authority or authorities for the purpose of participating in the interim PIC procedure.

2.3 Proposal for inclusion of severely hazardous pesticide formulations received under the interim PIC procedure (in line with Article 6 of the Convention)

In line with Article 6, paragraph 2 of the Convention, the Secretariat is to circulate summaries of those proposals for inclusion of severely hazardous pesticide formulations in the interim PIC procedure, which the Secretariat has verified contain the information required by part 1 of Annex IV of the Convention. Such summaries are provided as Appendix II, part A of each Circular. Submitted proposals that are still under verification by the Secretariat are listed in Appendix II, Part B of each Circular.

Summaries of proposals received after 30 April 2002 are provided in Appendix II, part B of this Circular.

In order to facilitate the submission of notifications by Parties, a *Severely Hazardous Pesticide Formulation Report Form* (UNEP/FAO/PIC/FORM/3/E/7-02) has been developed. It is available on the Rotterdam Convention website (www.pic.int) or on request from the Secretariat. When a proposal is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual proposal to ensure its legal status.

2.4 Chemicals subject to the interim PIC procedure and distribution of decision guidance documents (in line with Article 7 of the Convention)

Appendix III of this Circular lists all chemicals that are currently subject to the interim PIC procedure and the date of first dispatch of the corresponding DGD to DNAs. To date, there are 22 pesticides, five severely hazardous pesticide formulations and five industrial chemicals.

In October 2002, the INC, at its 9th session, adopted the DGD for the chemical monocrotophos, with the effect that this chemical is now subject to the interim PIC procedure. The DGD will be dispatched by the Secretariat to all Parties, through their DNAs, on 1 February 2003.

2.5 Transmittal of a response concerning future import of a chemical (in line with Article 10, paragraphs 2, 3 and 4 of the Convention)

In line with Article 10, paragraph 2 of the Convention, each Party shall transmit to the Secretariat, as soon as possible, and in any event no later than nine months after the date of dispatch of the DGD, a response concerning the future import of the chemical concerned. In line with Article 10, paragraph 4 of the Convention, the response shall consist of either a final decision or an interim response. The interim response may include an interim decision regarding import. The response must relate to the category or categories specified for the chemical in Appendix III of this Circular.

In order to facilitate the submission of responses regarding import a *Form for importing country response* (UNEP/FAO/PIC/FORM/2/E/4-99) has been developed. It is available on the Rotterdam Convention website (www.pic.int) or on request from the Secretariat. When an import response is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its legal status.

In line with Article 10, paragraph 2 of the Convention, if a Party modifies this response, the DNA shall forthwith submit the revised response to the Secretariat.

In line with Article 10, paragraph 3 of the Convention, the Secretariat shall, at the expiration of the time period given in Article 10, paragraph 2, forthwith address to a Party that has not provided such a response, a written request to do so, through its DNA. Where the phrase "Cases of failure to transmit a response" is listed in Appendix IV for a Party, the DNA should consider this to represent the written request for that Party to provide a response for that chemical in line with Article 10, paragraph 3.

2.6 Information on responses received concerning future import of a chemical (in line with Article 10, paragraph 10 and Article 11, paragraph 2 of the Convention)

In line with Article 10, paragraph 10 of the Convention, the Secretariat shall, every six months, inform all Parties of the responses received regarding future import, including a description of the legislative or administration measures on which the decisions have been based, where available, and information on cases of failure to transmit a response. A listing of all importing country responses received from Parties as of 31 October 2001 is provided as Appendix IV. The responses listed relate to the category or categories specified for each chemical in Appendix III of this Circular. Please note that any response not addressing importation is considered as an interim response that does not contain an interim decision.

Parties that had nominated a DNA by 11 September 1998, but had not provided an import response for the 27 chemicals subject, at that time, to the interim PIC procedure by 30 May 1999, were identified in Circular IX (dated 12 June 1999) as having failed to transmit a response for those chemicals.

In addition to the above, each Party that has failed to transmit an import response for a chemical listed in Appendix III of this Circular within 9 months of the date of dispatch of the DGD to the Party, through the DNA, is identified in Appendix IV of this Circular. For each chemical, a separate list entitled "Cases of failure to transmit a response" identifies each Party and gives the date on which the Secretariat first informed the Parties, through publication of the PIC Circular, that the Party had failed to transmit a response.

The Secretariat wishes to draw the attention of DNAs to Article 11, paragraph 2 of the Convention, in relation to the failure to transmit a response or an interim response that does not contain an interim decision.

2.7 Information on transit movements (in line with Article 14, paragraph 5)

Since the last Circular, no Party has reported to the Secretariat its need for information on transit movements through its territory of chemicals included in the interim PIC procedure.

Chemical Name: Plumbane, tetraethyl-

Final regulatory action has been taken for the category: Industrial

Final regulatory action: The chemical is severely restricted

Summary of the final regulatory action: As from 1 January 2000, the placing on the market of leaded petrol for vehicles was banned.

Use or uses prohibited by the final regulatory action: All uses as an anti-knock agent in vehicles.

Use or uses that remain allowed: The latest regulatory action provided for certain limited derogations. Member States may be allowed to continue to permit the marketing of leaded petrol containing not more than 0.15 g/L lead within their territory until 1 January 2005, provided that it can be demonstrated that a ban would result in severe socio-economic problems or would not lead to overall environmental or health benefits. Member States may also allow a derogation for small quantities of leaded petrol containing not more than 0.15 g/L lead, up to a maximum of 0.5% of total sales, for collectors' old cars. The lead content of petrol for aircraft is not covered by the regulatory action.

The final regulatory action was based on a risk or hazard evaluation: Yes

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: TEL has been assessed to be very acutely toxic by inhalation, in contact with skin and if swallowed. It may cause harm to the unborn child, and a possible risk of impaired fertility has been identified. In addition, TEL is eliminated only very slowly and there is a danger of cumulative effects.

Occupational exposure to alkyllead compounds, either by inhalation or by absorption through the skin, poses particular risks. Overexposure of the general population to alkyllead may also occur during car tank refill. Moreover, the combustion of alkyllead additives in motor fuels accounted for the major part of all lead emissions, which is also known to produce adverse effects on the health of the general population.

Expected effect of the final regulatory action in relation to human health: Prevention of the above listed health effects for workers and the general public.

Date of entry into force of the final regulatory action: 01 January 2000

The regulatory action entered into force on the day of its publication in the Official Journal of the European Communities (*i.e.* 28/12/1998). The Member States of the European Community were required to apply the measures as from 1 January 2000.
