INFORMATION EXCHANGE ON CHEMICALS RECOMMENDED BY THE		

CHEMICAL REVIEW COMMITTEE FOR LISTING IN ANNEX III BUT FOR WHICH THE CONFERENCE OF THE PARTIES HAS YET TO TAKE A FINAL DECISION	489
--	------------

INTRODUCTION

1. THE PURPOSE OF THE PIC CIRCULAR

The Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals in International Trade entered into force on 24 February 2004.

The purpose of the PIC Circular is to provide all Parties, through their Designated National Authorities (DNAs), with the information required to be circulated by the Secretariat in line with Articles 4, 5, 6, 7, 10, 11, 13 and 14. The Decision Guidance Documents to be dispatched to Parties in line with Article 7, paragraph 3, are sent out in a separate communication.

The PIC Circular is published every six months, in June and December, respectively. The present Circular contains information related to and received in the period from 31 October 2013 to 30 April 2014. In order to allow time for processing the information received in preparation of the PIC Circular, information received after 30 April 2014 has generally not been included, and will be included in the next PIC Circular.

Considerable efforts have been made by the Secretariat to ensure that the information included in the PIC Circular is both complete and accurate. DNAs are requested to review the information relating to their countries and communicate any inconsistencies, errors or omissions to the attention of the Secretariat.

2. IMPLEMENTATION OF THE ROTTERDAM CONVENTION

2.1 Designated national authorities (Article 4 of the Convention)

In line with Article 4, paragraph 4 of the Convention, the Secretariat shall inform Parties of new nominations or changes in nominations of Designated National Authorities (DNAs). A complete Register of DNAs containing all contact details is distributed together with the present PIC Circular. DNAs can also access this information on the Rotterdam Convention website (www.pic.int).

2.2 Notifications of final regulatory action to ban or severely restrict a chemical (Article 5 of the Convention)

In line with Article 5, paragraph 3, of the Convention, the Secretariat circulates summaries of notifications of final regulatory action that have been verified to contain the information required by Annex I of the Convention. In addition, the Secretariat circulates a synopsis of all of the notifications of final regulatory action received, including information regarding those notifications that do not contain all the information required by Annex I of the Convention.

A synopsis of all notifications of final regulatory action to ban or severely restrict chemicals received from Parties since the last PIC Circular has been prepared. Part A of **Appendix I** of the PIC Circular contains a summary of the individual notifications verified to meet the information requirements of Annex I of the Convention. Part B contains a list of notifications received, over the same period, that have been verified not to meet the information requirements of Annex I of the Convention. Finally, Part C lists notifications received which are still under verification by the Secretariat.

Part A of **Appendix V** contains a tabular summary of all the notifications of final regulatory action for banned or severely restricted chemicals that are not listed in Annex III that were received from Parties from September 1998 to the present, and verified as meeting the information requirements of Annex I of the Convention. Once an additional notification verified as meeting the information requirements of Annex I has been submitted from a second PIC region for one of these chemicals, it will then be forwarded to the Chemical Review Committee for consideration as a candidate chemical for inclusion in Annex III of the Convention.

Parties that have adopted final regulatory actions are to notify the Secretariat within the timeframes established in Article 5, paragraphs 1 and 2. The Secretariat would like to draw the attention of Parties to the chemicals for which at least one complete notification already exists and encourage Parties to accord priority to those chemicals in preparing notifications of final regulatory action.

Part B of Appendix V contains a list of all notifications received, over the same period, that have been verified not to meet the information requirements of Annex I of the Convention.

Information on notifications submitted by Parties for the chemicals listed in Annex III of the Convention verified as meeting the information requirements of Annex I of the Convention have been included on the Convention website (www.pic.int) in the section titled “Database of notifications.”

Finally, a synopsis of all notifications received before the adoption of the Convention (under the original PIC procedure) was published in PIC Circular X in December 1999 and is available from the Rotterdam Convention website (www.pic.int). The notifications submitted before the adoption of the Convention do not meet the requirements of Annex I because the information requirements for notification under the original PIC procedure were different than those of the Convention. It is to be noted that although Parties are not obliged to resubmit notifications submitted under the original PIC procedure (paragraph 2 of Article 5 of the Convention), they may wish to consider doing so for those chemicals not presently listed in Annex III, in the event that sufficient supporting information is available.

In order to facilitate the submission of notifications, a *Form for notification of final regulatory action to ban or severely restrict a chemical* and guidance on how to complete it have been developed. Copies of the form and the instructions can be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat (pic@fao.org or pic@pic.int) upon request. When a notification of final regulatory action is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its official status.

2.3 Proposals for inclusion of severely hazardous pesticide formulations (Article 6 of the Convention)

In line with Article 6, paragraph 2, of the Convention, the Secretariat circulates summaries of those proposals for inclusion of severely hazardous pesticide formulations in the PIC procedure, which the Secretariat has verified to contain the information required by Part 1 of Annex IV of the Convention.

Summaries of proposals received from Parties are provided in Part A of **Appendix II** of the PIC Circular. Parties that have submitted proposals which are still under verification by the Secretariat are listed in Part B of this Appendix.

No proposals for the inclusion of a Severely Hazardous Pesticide Formulation have been submitted since the last PIC Circular.

In order to facilitate the submission of proposals, an *Incident report form for human health incidents involving Severely Hazardous Pesticide Formulations* and an *Incident report form for environmental incidents involving Severely Hazardous Pesticide Formulations* have been developed. Copies of these forms and instructions may be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat (pic@fao.org or pic@pic.int) upon request.

When a proposal is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its official status.

2.4 Chemicals subject to the PIC procedure and distribution of Decision Guidance Documents (Article 7 of the Convention)

Appendix III of the PIC Circular lists all chemicals that are currently listed in Annex III of the Convention and subject to the PIC procedure, their categories (pesticide, industrial chemical and severely hazardous pesticide formulation) and the date of first dispatch of the corresponding Decision Guidance Document to DNAs.

2.5 Export Notifications (Article 12 of the Convention)

Article 12 and Annex V of the Convention set out the provisions and information requirements related to export notifications. Where a chemical is banned or severely restricted by a Party, that Party shall provide an export notification to the importing Party. The importing Party has the obligation to acknowledge receipt of the export notification within 30 days.

The Conference of the Parties at its third meeting requested the Secretariat to develop a standard form for export notification in order to assist Parties in meeting their obligations under the Convention. Copies of the form may be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat upon request (pic@fao.org or pic@pic.int).

Parties are encouraged to use this form when making or acknowledging receipt of export notifications. Where there are forms that have been developed at the national level that meet the information requirements of Annex V of the Convention they may continue to be used.

2.6 Information to accompany exported chemicals (Article 13, paragraph 1, of the Convention)

In accordance with Article 13, paragraph 1, of the Convention, the World Customs Organization (WCO) has assigned specific Harmonized System (HS) customs codes to the individual chemicals or groups of chemicals listed in Annex III to the Rotterdam Convention. These codes entered into force on 1 January 2007.

Each Party shall require that for a chemical listed in Annex III and for which a HS customs code has been assigned, the shipping document carries this assigned code when the chemical is exported.

A table containing this information is also available on the Rotterdam Convention website (www.pic.int).

2.7 Transmittal of a response concerning future import of a chemical (Article 10, paragraphs 2, 3 and 4 of the Convention)

In accordance with Article 10, paragraph 2 of the Convention, each Party shall transmit to the Secretariat, as soon as possible, and in any event not later than nine months after the date of dispatch of the Decision Guidance Document, a response concerning the future import of the chemical concerned. If a Party modifies this response, the DNA shall forthwith submit the revised response to the Secretariat.

Article 10, paragraph 7, of the Convention states that, each Party shall, no later than the date of entry into force of the Convention for that Party; transmit import response to the Secretariat for each of the chemicals listed in Annex III of the Convention.

In line with Article 10, paragraph 4 of the Convention, the response shall consist of either a final decision or an interim response. The interim response may include an interim decision regarding import. The response must relate to the category or categories specified for the chemical in Annex III of the Convention.

As of 30 April 2014, 92 Parties have not yet provided import responses for one or more of the chemicals listed in Annex III to the Convention and, among these, the following 17 Parties have failed to provide any import responses: Afghanistan, Botswana, Cambodia, Djibouti, Equatorial Guinea, Lesotho, Maldives, Marshall Islands, Montenegro, Namibia, Russian Federation, Saint Vincent and the Grenadines, Sao Tome and Principe, Somalia, Swaziland, Tonga and Ukraine.

When the Convention enters into force for new Parties, the Secretariat sends a welcome package to the DNA. The package contains all information relevant to the implementation of the Convention together with the request for the submission of the outstanding import responses.

The list of “Cases of failure to transmit a response” in Appendix IV of the PIC Circular serves as a further reminder of the need to submit import responses for all chemicals in Annex III.

In order to facilitate the submission of responses regarding import, a *Form for import response* and guidance on how to complete it have been developed. Copies of the form and the instructions can be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat (pic@fao.org or pic@pic.int) upon request.

When an import response is submitted, the date of issue, signature of the DNA and official seal must be provided for each individual form to ensure its official status.

2.8 Information on responses received concerning future import of a chemical (Article 10, paragraph 10 and Article 11, paragraph 2, of the Convention)

Paragraph 10 of Article 10 states that the Secretariat shall, every six months, inform all Parties of the responses received regarding future import, including a description of the legislative or administration measures on which the decisions have been based, where available, and information on cases of failure on their part to transmit a response.

Appendix IV of the PIC Circular contains information on the import responses submitted by Parties for chemicals in Annex III of the Convention. Part 1 includes those import responses received in the period between 31 October 2013 and 30 April 2014. Part 2 includes a full listing of all of the import responses received from all Parties up to 30 April 2014 and Part 3 lists the cases of failure to transmit a response for each chemical and the date on which the Secretariat first informed all Parties, through publication of the PIC Circular, of the failure of a Party to transmit an import response.

The information in this appendix has been arranged according to the sequence of the individual chemicals as they are listed in Annex III of the Convention (and reproduced as Appendix III of the PIC Circular). The import responses relate to the category or categories specified for each chemical in Appendix III of the PIC Circular. Please note that any response not addressing importation is considered as an interim response that does not contain an interim decision.

The Secretariat encourages Parties to submit the outstanding import responses for each of the 47 chemicals listed in Annex III to the Convention and wishes to draw the attention of DNAs to Article 11, paragraph 2, of the Convention in relation to the failure to transmit a response or the transmission of an interim response that does not contain an interim decision.

2.9 Information exchange on chemicals recommended by the Chemical Review Committee for listing in Annex III but for which the Conference of the Parties has yet to take a final decision (COP decisions RC.3/3, RC.4/4 and RC.6/8)

Article 14, paragraph 1, states that each Party shall, as appropriate and in accordance with the objective of this Convention, facilitate: a) the exchange of scientific, technical, economic and legal information concerning the chemicals within the scope of this Convention, including toxicological, ecotoxicological and safety information; b) the provision of publicly available information on domestic regulatory actions relevant to the objectives of this Convention; and c) the provision of information to other Parties, directly or through the Secretariat, on domestic regulatory actions that substantially restrict one or more uses of the chemical, as appropriate.

The Conference of the Parties (COP), in decisions RC.3/3 and RC.4/4 on chrysotile asbestos and RC.6/8 on liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L, encouraged Parties

to make use of all information available on these chemicals, to assist others, in particular developing countries and countries with economies in transition, to make informed decisions regarding their import and management and to inform other Parties of these decisions using the information exchange provisions in Article 14 of the Convention. The full text of these decisions may be found in Annex I of the reports of the respective COP meetings (UNEP/FAO/RC/COP.3/26, UNEP/FAO/RC/COP.4/24, and UNEP/FAO/RC/COP.6/20).

In line with these decisions and in the interest of promoting information exchange on these chemicals, **Appendix VI** of the PIC Circular has been added to the Circular and divided into two parts:

Part 1 provides a reference to the information that has been provided by Parties on national decisions concerning the management of chrysotile asbestos and liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L. It is a tabular summary which provides details on the Party that submitted the information, the PIC Circular the information was circulated in, and the web link to the Rotterdam Convention website where the information may be found. In the section “Chemicals recommended for listing” on the Rotterdam Convention website, there is further information on this chemical including the notifications of final regulatory action and supporting documentation that was made available to the Chemical Review Committee and the draft Decision Guidance Documents.

Part 2 is a list of decisions on the future import of chrysotile asbestos and liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L that have been submitted by Parties under Article 14. These import decisions are circulated for information only and do not constitute part of the legally binding PIC procedure.

This information, as well as further information relevant to the work of the Chemical Review Committee on this chemical, may be accessed directly on the Rotterdam Convention website (www.pic.int).

2.10 Information on transit movements (Article 14, paragraph 5, of the Convention)

As outlined in Article 14, paragraph 5, of the Convention, any Party requiring information on transit movements through its territory of chemicals listed in Annex III may report its need to the Secretariat, which shall inform all Parties accordingly.

Since the last PIC Circular, no Party has reported to the Secretariat its need for information on transit movements through its territory of Annex III chemicals.

3. ADDITIONAL INFORMATION FOR DNAs

3.1 Information on the status of ratification of the Convention

The Convention entered into force on 24 February 2004, 90 days after the date of the deposit of the 50th instrument of ratification, acceptance, approval or accession. For each State or regional economic integration organization that ratifies, accepts or approves this Convention or accedes thereto after 24 February 2004, the Convention shall enter into force on the ninetieth day after the date of deposit by such State or regional economic integration organization of its instrument of ratification, acceptance, approval or accession.

As of 30 April 2014 there were 154 Parties to the Rotterdam Convention. The Parties are:

Afghanistan, Albania, Antigua and Barbuda, Argentina, Armenia, Australia, Austria, Bahrain, Belgium, Belize, Benin, Bolivia, Bosnia and Herzegovina, Botswana, Brazil, Bulgaria, Burkina Faso, Burundi, Cambodia, Cameroon, Canada, Cabo verde, Chad, Chile, China, Colombia, Congo

(Democratic Republic of), Congo (Republic of), Cook Islands, Costa Rica, Côte d'Ivoire, Croatia, Cuba, Cyprus, Czech Republic, Denmark, Djibouti, Dominica, Dominican Republic, Ecuador, El Salvador, Equatorial Guinea, Eritrea, Estonia, Ethiopia, European Union, Finland, France, Gabon, Gambia, Georgia, Germany, Ghana, Greece, Guatemala, Guinea, Guinea-Bissau, Guyana, Honduras, Hungary, India, Indonesia, Iran (Islamic Republic of), Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Korea (Democratic People's Republic of), Korea (Republic of), Kuwait, Kyrgyzstan, Lao People's Democratic Republic, Latvia, Lebanon, Lesotho, Liberia, Libyan Arab Jamahiriya, Liechtenstein, Lithuania, Luxembourg, Macedonia (the Former Yugoslav Republic of), Madagascar, Malawi, Malaysia, Maldives, Mali, Marshall Islands, Mauritania, Mauritius, Mexico, Moldova (Republic of), Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nepal, Netherlands, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Panama, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Russian Federation, Rwanda, Saint Kitts and Nevis, Saint Vincent and the Grenadines, Samoa, Sao Tome and Principe, Saudi Arabia, Senegal, Serbia, Singapore, Slovakia, Slovenia, Somalia, South Africa, Spain, Sri Lanka, Sudan, Suriname, Sweden, Swaziland, Switzerland, Syrian Arab Republic, Tanzania (United Republic of), Thailand, Togo, Tonga, Trinidad and Tobago, Uganda, Ukraine, United Arab Emirates, United Kingdom, Uruguay, Venezuela, Vietnam, Yemen, Zambia and Zimbabwe.

For those States that become Parties to the Convention after 30 April 2014, all information will be reported in the next PIC Circular.

The Convention website (www.pic.int) gives a complete and up to date list of the States and regional economic integration organizations that have ratified the Rotterdam Convention.

3.2 List of documents in support of the implementation of the Rotterdam Convention

The following are documents relevant to the implementation of Rotterdam Convention. They can be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat (pic@fao.org or pic@pic.int) upon request.

- Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade (*available in Arabic, Chinese, English, French, Russian and Spanish*);
- Decision guidance documents for each of the chemicals in Annex III of the Convention (*available in English, French and Spanish*);
- Form and instructions for notification of final regulatory action to ban or severely restrict a chemical (*available in English, French and Spanish*);
- Form and instructions for import response (*available in English, French and Spanish*);
- Form and instructions for reporting human health incidents and environmental incidents relating to Severely Hazardous Pesticide Formulations (SHPF) (*available in English, French and Spanish*);
- Export notification form and instructions (*available in English, French and Spanish*);
- Form for nomination of a Designated National Authority (*available in English, French and Spanish*);
- All past PIC Circulars (*available in English, French and Spanish*);
- Register of Designated National Authorities for the Rotterdam Convention (*available in English*).

3.3 Resource kit of information on the Rotterdam Convention

The Resource Kit is a collection of publications containing information on the Rotterdam Convention. It has been developed with a range of end-users in mind, including the general public, DNAs and stakeholders involved in the implementation of the Convention. It includes elements to assist in awareness-raising activities and detailed technical information and training materials aimed at facilitating implementation of the Convention. All documents contained in the Resource Kit can be obtained from the Rotterdam Convention website (www.pic.int) or the Secretariat upon request (pic@fao.org or pic@pic.int).

The Stepwise Guide is a document developed as an introduction to the Resource Kit and the publications it includes. It provides a brief outline of the content of each publication, indicates the target audience and lists the languages in which they are available (most publications are available in six languages).

Guidance to complete the form for notification of final regulatory action

A publication containing guidance is available to assist Designated National Authorities (DNAs) in completing the Form for Notification of Final Regulatory Action, with the objective of improving understanding of the information requested and facilitating the preparation and submission of notifications that are complete against the information requirements of Annex I of the Convention. The guidance is available on the Convention website at:

<http://www.pic.int/Implementation/ResourceKit/tabid/1064/language/en-US/Default.aspx>.

Under Article 5 of the Rotterdam Convention, Parties have an obligation to notify the Secretariat when they take a final regulatory action to ban or severely restrict a chemical. These notifications play an important role in the exchange of information on hazardous chemicals and identification of candidate chemicals for the PIC procedure.

The guidance to assist in completing the Form for Notification of Final Regulatory Action has been developed based on the experience of the Secretariat as well as the lessons learned by members of the Chemical Review Committee. This guidance is considered a work-in-progress that will continue to evolve and be updated as experience is gained and more feedback from Parties is received. Parties are encouraged to send comments on the guidance to the Secretariat at pic@fao.org or pic@pic.int.

The Secretariat can be contacted at the following addresses if there are any queries regarding aspects of the development and operation of the Rotterdam Convention:

**Secretariat for the Rotterdam Convention
(FAO)**

Viale delle Terme di Caracalla
00153 Rome, Italy
Fax: (+39 06) 5705 3224

E-mail: pic@fao.org

**Secretariat for the Rotterdam Convention
(UNEP Chemicals)**

11-13, Chemin des Anémones
CH – 1219 Châtelaine, Geneva, Switzerland
Fax: (+41 22) 917 8082

E-mail: pic@pic.int

APPENDIX I**SYNOPSIS OF NOTIFICATIONS OF FINAL REGULATORY ACTION
RECEIVED SINCE THE LAST PIC CIRCULAR**

This appendix consists of three parts:

Part A: Summary of each Notification of Final Regulatory Action that has been verified to contain all the information requirements of Annex I of the Convention

Notifications of final regulatory action that have been verified to contain all the information requirements of Annex I of the Convention, received between 01 November 2013 and 30 April 2014.

Part B: Information on Notifications of Final Regulatory Action that have been verified to not contain all the information requirements of Annex I of the Convention

Notifications of final regulatory action that have been verified to not contain all the information requirements of Annex I of the Convention, received between 01 November 2013 and 30 April 2014.

Part C: Notifications of Final Regulatory Action still under verification

Notifications of final regulatory action that have been received by the Secretariat but for which the verification process has not yet been completed.

Synopsis of Notifications of Final Regulatory Action Received Since the Last PIC Circular

PART A

SUMMARY OF EACH NOTIFICATION OF FINAL REGULATORY ACTION THAT HAS BEEN VERIFIED TO CONTAIN ALL THE INFORMATION REQUIREMENTS OF ANNEX I OF THE CONVENTION

Notifications of final regulatory action that have been verified to contain all the information requirements of by Annex I of the Convention, received between 01 November 2013 and 30 April 2014.

EUROPEAN UNION

Common Name(s): Diphenylamine	CAS number(s): 122-39-4
--------------------------------------	--------------------------------

Chemical Name: Benzenamine, N-phenyl-

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: All applications as a plant protection product.

Use or uses that remain allowed: Not relevant

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing diphenylamine. Diphenylamine is not included in the list of approved active substances under Regulation (EC) No 1107/2009, which replaces Directive 91/414/EEC. As a consequence, diphenylamine is not approved for placing on the market pursuant to Regulation (EC) No 1107/2009 concerning the placing of plant protection products on the market.

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: It was concluded that it was not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing diphenylamine satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC.

Based on the data provided it was not possible to perform a reliable consumer exposure assessment because information concerning residues in raw and processed apples was missing and because the presence of nitrosamines in apples could not be excluded. In particular, three metabolites could not be identified and thus their toxicological properties could not be assessed.

Furthermore, the processing study submitted by the applicant was not representative of the standard hydrolytic conditions and did not allow to identify breakdown and reaction products including the three unknown metabolites.

Finally, the additional evidence submitted on nitrosamines was inconclusive as the analytical method was not validated and had an insufficient resolution and a lack of selectivity.

Expected effect of the final regulatory action in relation to human health: Reduction of risk from the use of plant protection products containing diphenylamine.

Date of entry into force of the final regulatory action: 30/07/2012 Complete entry into force of all provisions of Regulation (EU) No 578/2012 of 29 June 2012 concerning the non-approval of the active substance diphenylamine, in accordance with Regulation (EC) No 1107/2009 was on 20 July 2012.

EUROPEAN UNION

Common Name(s): Propanil	CAS number(s): 709-98-8
---------------------------------	--------------------------------

Chemical Name: Propanamide, N-(3,4-dichlorophenyl)-

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: All applications as a plant protection product.

Use or uses that remain allowed: Not relevant

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing propanil. Propanil is not included in the list of approved active substances under Regulation (EC) No 1107/2009, which replaces Directive 91/414/EEC. As a consequence, propanil is not approved for placing on the market pursuant to Regulation (EC) No. 1107/2009 concerning the placing of plant protection products on the market.

The reasons for the final regulatory action were relevant to: Human health and environment

Summary of known hazards and risks to human health: It was concluded that it was not demonstrated that it may be expected that plant protection products containing propanil satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC. Based on the data provided by the applicants, it was not possible to set an acceptable operator exposure level. A reliable consumer exposure assessment could not be performed as data were missing on the toxicity of metabolite 3,4- DCA. Moreover, no maximum residue levels could be proposed for the supported use on rice, as the submitted trials have not been conducted according to the critical good agricultural practices.

Expected effect of the final regulatory action in relation to human health: Reduction of risk from the use of plant protection products containing propanil.

Summary of known hazards and risks to the environment: It was concluded that it was not demonstrated that it may be expected that plant protection products containing propanil satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC. A high long-term risk to mammals and high acute and long-term risk to birds were identified. Furthermore, a high risk to aquatic organisms and non-target arthropods could not be excluded on the basis of the data made available by the applicant. In addition concerns were identified with regard to potential for long-range transport through the atmosphere of propanil.

Expected effect of the final regulatory action in relation to the environment: Reduction of risk from the use of plant protection products containing propanil.

Date of entry into force of the final regulatory action: 15/11/2011 Complete entry into force of all provisions of Regulation (EU) No 1078/2011 of 25 October 2011 concerning the non-approval of the active substance propanil, in accordance with Regulation (EC) No 1107/2009 was 15 November 2011.

EUROPEAN UNION

Common Name(s): Flufenoxuron	CAS number(s): 101463-69-8
-------------------------------------	-----------------------------------

Chemical Name: Benzamide, N-[[[4-[2-chloro-4-(trifluoromethyl)phenoxy]-2-fluorophenyl]amino]carbonyl]-2,6-difluoro-

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: All applications as a plant protection product.

Use or uses that remain allowed: Not relevant

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing flufenoxuron. Flufenoxuron is not included in the list of approved active substances under Regulation (EC) No 1107/2009, which replaces Directive 91/414/EEC. As a consequence, flufenoxuron is not approved for placing on the market pursuant to Regulation (EC) No. 1107/2009 concerning the placing of plant protection products on the market. Disposal, storage, placing on the market and use of existing stocks of plant protection products containing flufenoxuron was prohibited as of 31 December 2012.

The reasons for the final regulatory action were relevant to: Human health and environment

Summary of known hazards and risks to human health: It was concluded that it was not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing flufenoxuron satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC.

During the risk assessment concerns were identified, in particular, as regards the consumer risk assessment. It was not possible to finalise the consumer risk assessment because consumer exposure could not be assessed reliably, in particular, with respect to magnitude and toxicological relevance of different metabolites.

Expected effect of the final regulatory action in relation to human health: Reduction of risk from the use of plant protection products containing flufenoxuron.

Summary of known hazards and risks to the environment: It was concluded that it was not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing flufenoxuron satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC.

The risk assessment on the environment identified a high long-term risk to small herbivorous mammals and a data gap to further address the risk for the representative use on grapevines.

A low risk to terrestrial vertebrates through the food chain could not be demonstrated for the use on grapevines. Furthermore the risk to aquatic organisms is considered high for all representative uses; in the case of grapevines even when applying the maximum admissible drift reduction.

According to the risk evaluation the potential risk for bioaccumulation along the aquatic food chain could not be considered fully addressed by the available data. Further risk refinement and data were required to assess the risk of flufenoxuron for aquatic organisms.

The risk for bees needs to be further assessed and mitigation measures would be needed to avoid any exposure of bees. The risk assessment for non-target arthropods could not be finalised since in-field and off-field recovery of *C. carnea* was not demonstrated for the representative use on grapevines and needs to be further addressed.

A high long-term risk is observed for soil-living organisms (collembola) on the basis of the accumulation in soil, and there is a data gap for the representative use on grapevines.

Expected effect of the final regulatory action in relation to the environment: Reduction of risk from the use of plant protection products containing flufenoxuron.

Date of entry into force of the final regulatory action: 31/12/2012

Complete entry into force of all provisions of Regulation (EU) No 942/2011 of 22 September 2011 concerning the non-approval of the active substance flufenoxuron, in accordance with Regulation (EC) No 1107/2009 was by 31 December 2012.

EUROPEAN UNION

Common Name(s): Naled	CAS number(s): 300-76-5
------------------------------	--------------------------------

Chemical Name: 1,2-dibromo-2,2-dichloroethyl dimethyl phosphate

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: All uses as a biocidal product. In addition, all uses as plant protection product are prohibited.

Use or uses that remain allowed: Not relevant

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: According to Commission Decision 2012/257/EU, naled shall not be included in Annex I, IA or IB to Directive 98/8/EC concerning the placing of biocidal products on the market, for product type 18 (i.e. insecticides, acaricides and products to control other arthropods). This means that it is prohibited to place on the market biocidal products containing naled as of 1 November 2012.

In addition, Commission Decision 2005/788/EC of 11 November 2005 concerning the non-inclusion of naled in Annex I to Council Directive 91/414/EEC and the withdrawal of authorisations for plant protection products containing that substance prohibited the placing on the market of plant protection products containing naled as of 12 May 2007.

The reasons for the final regulatory action were relevant to: Human health and environment

Summary of known hazards and risks to human health: The assessment has demonstrated that biocidal products used as insecticides, acaricides and products to control other arthropods and containing naled cannot be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC.

According to the human health risk evaluation, the use of naled as an insecticide results in an unacceptable risk for professionals exposed by respiratory and dermal routes, even when adequate protective equipment is used.

Concerning secondary exposure, based on data provided by the applicant, the risk evaluation could not demonstrate that the risk for man indirectly exposed to naled is acceptable.

Expected effect of the final regulatory action in relation to human health: Reduction of risk from the use of biocidal products that contain naled.

Summary of known hazards and risks to the environment: The assessment has demonstrated that biocidal products used as insecticides, acaricides and products to control other arthropods and containing naled cannot be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC.

The environmental risk assessment indicates that no safe use can be demonstrated for naled used as insecticide for the control of flying insects inside animal housings. An unacceptable risk has been identified for both the aquatic and terrestrial compartments. Moreover, there is no sufficient information to determine precisely the behaviour of naled in soil and manure: no rate of degradation could be extrapolated and the toxicity of the metabolites remains unknown, although some of them e.g. dichlorvos are known to be more toxic than the parent product.

Expected effect of the final regulatory action in relation to the environment: Reduction of risk from the use of biocidal products that contain naled.

Date of entry into force of the final regulatory action: 01/11/2012 Complete entry into force of all provisions of Commission Decision 2012/257/EU of 11 May 2012 concerning the non-inclusion of naled for product type 18 in Annex I, IA or IB to Directive 98/8/EC is 1 November 2012.

EUROPEAN UNION

Common Name(s): Propargite	CAS number(s): 2312-35-8
-----------------------------------	---------------------------------

Chemical Name: Sulfurous acid, 2-[4-(1,1-dimethylethyl)phenoxy]cyclohexyl 2-propynyl ester

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: All applications as a plant protection product

Use or uses that remain allowed: Not relevant

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: It is prohibited to place on the market or use plant protection products containing propargite. Propargite is not included in the list of approved active substances under Regulation (EC) No 1107/2009, which replaces Directive 91/414/EEC. As a consequence, propargite is not approved for placing on the market pursuant to Regulation (EC) No 1107/2009 concerning the placing of plant protection products on the market. Disposal, storage, placing on the market and use of existing stocks of plant protection products containing propargite was prohibited as of 31 December 2012.

The reasons for the final regulatory action were relevant to: Human health and environment

Summary of known hazards and risks to human health: It was concluded that it was not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing propargite satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC,

Due to the fact that propargite exerts carcinogenic potential on different organs in two strains of rats and a genotoxic mode of action cannot be disregarded, no reliable reference values can be set until a new valid genotoxicity data package with the proposed specification is available. Therefore, the risk assessment for consumers, operators, workers and bystanders could not be conducted.

Expected effect of the final regulatory action in relation to human health: Reduction of risk from the use of plant protection products containing propargite.

Summary of known hazards and risks to the environment: It was concluded that it was not demonstrated that it may be expected that, under the proposed conditions of use, plant protection products containing propargite satisfy in general the requirements laid down in Article 5 (1) (a) and (b) of Directive 91/414/EEC.

The information on the environmental fate and behaviour of propargite in relation to the representative use assessed was insufficient to complete the necessary environmental exposure assessment at EU level.

Many data gaps and four critical areas of concern were identified in the ecotoxicological risk assessment: A high risk of propargite to aquatic organisms was identified. A high long-term risk to mammals and a high risk to mammals from the consumption of contaminated water were identified. The risk from secondary poisoning to birds was identified as high, and the risk from secondary poisoning to mammals was assessed as high based on the available data.

Expected effect of the final regulatory action in relation to the environment: Reduction of risk from the use of plant protection products containing propargite.

Date of entry into force of the final regulatory action: 31/12/2012 Complete entry into force of all provisions of Regulation (EU) No 943/2011 of 22 September 2011 concerning the non-approval of the active substance propargite, in accordance with Regulation (EC) No 1107/2009 was by 31 December 2012.

NORWAY

Common Name(s): Decabromodiphenyl ether (decaBDE)	CAS number(s): 1163-19-5
--	---------------------------------

Chemical Name: 1,1'-Oxybis(pentabromobenzene)

Final regulatory action has been taken for the category: Industrial

Final regulatory action: The chemical is Banned

Use or uses prohibited by the final regulatory action: Decabromodiphenyl ether is regulated by §2-7 and 2a-3 of the Regulations relating to restrictions on the manufacture, import, export, sale and use of chemicals and other products hazardous to health and the environment (Product Regulations), Act no. 922 of 1 June 2004.

Chapter 2. Regulated substances, preparations and products

2-7. Brominated flame retardants

It is prohibited to manufacture, import, export, place on the market and use substances or preparations that contain 0.1 per cent by weight or more of decabromodiphenyl ether (CAS No. 1163-19-5).

It is prohibited to manufacture, import, export and place on the market products or flame retardant parts of products that contain 0.1 per cent by weight or more of decabromodiphenyl ether (CAS No. 1163-19-5).

The use of decabromodiphenyl ether in electrical and electronic products is regulated by chapter 2a.

2a-3 Restricted substances in EEE

It is prohibited to produce, import, export and make available on the market **EEE** in which the content of lead, mercury, hexavalent chromium, polybrominated biphenyls (PBBs) or polybrominated diphenyl ethers (PBDEs) in homogeneous materials exceeds 0.1 per cent by weight or of cadmium exceeds 0.01 per cent by weight.

Homogeneous material means one material of uniform composition throughout or a material, consisting of a combination of materials that cannot be disjointed or separated into different materials by mechanical actions such as unscrewing, cutting, crushing, grinding and abrasive processes.

For EEE in following categories the restriction of substances shall apply from:

- a) Category 8 and 9: 22 July 2014
- b) Category 8 in vitro diagnostic medical devices: 22 July 2016
- c) Category 9 industrial monitoring and control instruments: 22 July 2017
- d) EEE that have not previously been regulated and are not covered by a) to c): 22 July 2019.

Use or uses that remain allowed:

2-7. Brominated flame retardants

The prohibitions in the first and second paragraph do not apply if the substance is used in

- a) vehicles that are approved under the currently prevailing version of the regulations of 4 October 1994 No. 918 regarding technical requirements and approval of vehicles, parts and equipment,
- b) aircraft registered in the Aircraft Register pursuant to Act of 11 June 1993 No. 101 relating to aviation,
- c) vessels registered in the Shipping Register pursuant to the Norwegian Maritime Code of 24 June 1994 No. 39 or the Norwegian International Ship Register pursuant to Act of 12 June 1987 No. 48 relating to the Norwegian International Ship Register or
- d) rolling stock for use on railways, including tramways, underground railways, suburban lines and

similar forms of rail transport.

2a-3 Restricted substances in EEE

The restriction of substances does not apply to applications listed in Appendix 1 and 2. Exemptions for EEE in category 1-7, 10 and 11 are valid for up to five years, and category 8 and 9 up to seven years.

The restriction of substances does not apply to reused spare parts, recovered from EEE placed on the EEA market before 1 July 2006 and used in equipment placed on the EEA market before 1 July 2016, provided that reuse takes place in auditable closed-loop business-to-business return systems, and that the reuse of parts is notified to the consumer.

The importer and the distributor shall notify all previous sales personnel and the Norwegian Environment Agency if they believe or have reason to believe that an EEE does not comply with the requirement in the first paragraph.

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: It is prohibited to produce, import, export, sell and use decabromodiphenyl ether in pure form, in preparations, in products, and in parts of products containing greater than or equal to 0,1 % by weight of decabromodiphenyl ether.

The reasons for the final regulatory action were relevant to: Human health and environment

Summary of known hazards and risks to human health: On the basis of a general concern over the use of brominated flame retardants (BFR), a national action plan was set up by the Norwegian authorities in 2002 (later updated in 2009) focusing on five priority substances including c-decaBDE. BFRs, including c-decaBDE, were also officially included in the national goal for substantially reducing emission of certain hazardous substances by 2020 as described in a white paper to the parliament (Ministry of Environment, Norway, 2003).

Norwegian monitoring data show detectable levels in several environmental compartments. High concentrations of BDE209 the main component of decaBDE, is detected at some locations. In sediments and water BDE209 is the domination PBDE congener. BDE209 is also detected in biota (mussels and fish) and in leakage from landfills (TA-2006). BDE209 is also present in terrestrial environment; moss samples from locations covering Norway from north to south, west to east reveal that BDE209 is the predominant congener. BDE209 was also present in moose (Mariussen et al., 2008).

PBDE exposure through food and the resulting serum levels have been investigated in Norway. In food samples analyzed for BDE209 high levels were found in eggs, vegetable oil, ice cream and biscuits, while the highest amounts were found in dairy products, which include milk, cheese, and butter. The calculated exposure to BDE209 was 1.5 (mean) and 1.4 (median) ng/kg bw per day, which is higher than the exposure to ΣPBDEs of other PBDE. Results indicate that intake of BDE209 and ΣPBDEs have different dietary sources and that dairy products proved to be the most important dietary source of BDE209 exposure. Serum levels of BDE209 were not analyzed in these samples (Knutsen et al., 2008).

Thomsen et al. 2007 found high levels of BDE209 (10 ng / g lipid) in pooled serum samples from Norwegian humans. A similar study detected an average of 2.26 ng / g lipid in plasma from pregnant women from the Bodø region (TA-2303). The reason for this large difference in BDE 209 levels is not known. Thomsen et al. have previously reported BDE209 as the dominant congener of PBDE congeners analyzed and this was also confirmed in the study of women from Bodø. These results are much higher than found in a similar study on blood plasma from Swedish men. The above information is summarized in (TA-2303).

Household dust and occupational exposure is thought to be the main sources for exposure to BDE-209 and other congeners present in c-decaBDE. Toddlers and infants have a higher daily intake of dust and

dairy products than adults, and higher serum levels of BDE209 have been found in children less than 5 years compared to their parents. PBDE congener composition was also different in the children compared to their parents indicating possible debromination to more bioaccumulative and toxic congeners (US EPA 2010).

Some professions are exposed to higher decaBDE than the average population and other workers. Foam recycling workers, carpet installer and PC technicians are reported to have higher serum levels of BDE209 than control groups. In a Swedish study employees at a recycling plant and rubber mixers had higher levels of BDE209 in serum than control. Samples taken during and after 5 weeks of vacation revealed that BDE-209 and other highly brominated PBDE congeners had lower half-life than the lower brominated congeners. (US EPA 2010).

In animal studies of amphibian, fish and rodents exposed to BDE209 at vulnerable stages such as the developmental phase, effects on hormonal axis as the thyroid and steroid is of concern (EU RAR 2004, 2007 and 2012, UK EA 2007, UNEP/POPS/POPRC.9.2). Although the toxicology data of BDE209 is ambiguous, some studies indicate negative effect on neurological development at low doses.

Norwegian authorities banned decaBDE based on its potential PBT properties and the general concern about the ubiquitous presence and increase of decaBDE in the environment including the Norwegian Arctic and a concern for presence of decaBDE in human matrices and human health. The concern for increased levels of persistent PBDEs due to continuously debromination from the pool of decaBDE in the environment.

Expected effect of the final regulatory action in relation to human health: Reduction of risk to human health.

Summary of known hazards and risks to the environment: The evaluation of decaBDE gives rise to concern for long term effects in the environment. In Norway BDE209 has been investigated and detected in a number of studies. Furthermore BDE209 has been found in various environmental compartments in the Arctic, including the Norwegian Arctic, and can undergo long-range environmental transport (Hermanson et al., 2010, Environment Canada 2010a, Mariussen et al. 2008).

Norwegian monitoring data shows that BDE209 deposited to the Arctic environment is bioavailable to the organisms living there and that BDE-209 is widespread in Arctic food webs (de Wit et al 2006, 2010).

Norwegian environmental monitoring studies investigating congener pattern and levels of PBDEs in eggs and plasma of glaucous gulls breeding at Bjørnøya in the Arctic revealed detectable levels of BDE209 in bird plasma comparable to levels found in liver samples of birds located at more southern parts of Europe (TA-2006). Similar results were reported in liver samples from glaucous gulls from Svalbard (RAR update, 2004). The concerns about occurrence of decaBDE in the environment have now been further strengthened. These recent studies from the Arctic document the occurrence of decaBDE in birds from remote areas in the Arctic.

In Norway, high levels of BDE209 were detected in sediments and BDE209 represented up to 90% of ΣPBDEs (TA-2252). A study conducted in Lake Mjøsa in the Southern part of Norway revealed that BDE209 was the dominant congener (50-90%) in sediments and waste water in many areas (TA-2104).

DecaBDE (BDE-209) dominates completely in all sediment samples, representing more than 97% of ΣPBDE all sediment sites in Åsefjorden and surrounding areas in the western part of Norway. PBDEs are also found in the lower trophic levels of the food chain in Åsefjorden (TA-2146).

The interquartile range of ΣPBDE in sediments sludge from landfills and sewage sludge treatment plants was 3-800 ng/g d.w. (dry weight), with the highest concentrations in sewage sludge. BDE-209

was the dominating congener, but BDE-47 and BDE-99 were also found in relatively high proportions. Furthermore, in all marine sediment samples BDE-209 were the most dominant congeners and for 7 of the samples BDE-209 represented more than 90% of Σ PBDE (TA-2096).

Sediment samples from outside a marina downstream (Muusøya, close of the city of Drammen, southern Norway) showed significantly elevated concentrations with a high percentage of BDE-209. In all the fish samples from the inner Drammensfjord was BDE-209 detected. The concentrations were in general low (0.1-20% of Σ PBDE), but the results are in accordance with new knowledge about BDE-209 as a bioavailable substance (TA-2051).

BDE209 is also detected in aquatic biota such as mussels, fish and in leakage from landfills (TA-2006).

BDE209 is also present in terrestrial environment; moss samples from locations covering Norway from north to south, west to east reveal that BDE209 is the predominant congener. DecaBDE was also present in moose and lynx (Mariussen et al., 2008).

In animal studies of amphibian, fish and rodents exposed to BDE209 at vulnerable stages as the developmental phase, effects on hormonal axis as the thyroid and steroid is of concern. Although the toxicology data of BDE209 is ambiguous, some studies indicate negative effect on neurological development at low doses.

The general concern about the ubiquitous presence and increase of decaBDE in the environment and the concern for increased levels of persistent PBDEs due to continuously debromination from the pool of decaBDE in the environment, together with the risk for endocrine disrupting effects of the mix of PBDE congeners to organisms at vulnerable stages, led Norwegian authorities to ban further use of decaBDE.

Expected effect of the final regulatory action in relation to the environment: Reduction of risk to the environment.

Date of entry into force of the final regulatory action: 01/07/2013

NORWAY

Common Name(s): Pymetrozine	CAS number(s): 123312-89-0
------------------------------------	-----------------------------------

Chemical Name: 6-methyl-4-[(E)-(pyridin-3-ylmethylene)amino]-4,5-dihydro-2H-[1,2,4]-triazin-3-one

Final regulatory action has been taken for the category: Pesticide

Final regulatory action: The chemical is Banned

The final regulatory action was based on a risk or hazard evaluation: Yes

Summary of the final regulatory action: The application for registration of the plant protection product Plenum 50 WG was rejected due to the lack of demonstration of a clear mechanism of action regarding the oncongenic effects seen in rats and mice, as well as the possible genotoxic effects and ionability to establish an AOEL for the metabolite CGA 300407.

The reasons for the final regulatory action were relevant to: Human health

Summary of known hazards and risks to human health: The Norwegian scientific committee for food safety (VKM) concluded with the following: exposure to pymetrozine resulted in increased incidences of liver tumours in female rats that were above the historical control data and in male and female mice. An increase in lung adenoma plus carcinoma was reported in female mice that were above the historical control data.

Several arguments are presented to suggest that the tumors observed are not related to the exposure to pymetrozine. VKM has however not been convinced by these arguments, and have the opinion that it cannot be excluded that the observed tumors are relevant to human exposure. A central question is whether the tumors result from a non-genotoxic mechanism, considering that pymetrozine has not been shown to be genotoxic. A complicating finding is however that of a genotoxic metabolite, CGA 300407. The metabolite CGA 300407 gave positive response in vitro for chromosomal aberrations in CHO cells and human lymphocytes, and in vivo in a Comet assay in mouse forestomach. It is argued that the metabolite could be considered as a locally acting genotoxin in the forestomach, and thus not be involved in the formation of the liver tumors. However, the metabolite may also be formed by direct transformation of the mother substance in the liver. It is the opinion of VKM that it cannot be excluded that a genotoxic mechanism could be involved in the formation of the liver tumors, which would have implications for risk assessment. It should therefore be considered to test pymetrozine in more sensitive in vivo genotoxic endpoints in liver.

The metabolite is found as residue in the plant metabolism studies. The notifier has submitted an exposure assessment, considering that this metabolite acts through a threshold process with the possibility to set an AOEL. The metabolite is however not sufficiently studied in vivo and a possible genotoxic effect cannot be ruled out. It is at the moment not possible to set an AOEL for this metabolite. A risk assessment for the metabolite CGA 300407 cannot be performed as it is not sufficiently studied and a possible in vivo genotoxic effect cannot be ruled out.

Expected effect of the final regulatory action in relation to human health: Precautionary approach to protect human health.

Date of entry into force of the final regulatory action: 01/10/2013

Synopsis of Notifications of Final Regulatory Action Received Since the Last PIC Circular

PART B

INFORMATION ON NOTIFICATIONS OF FINAL REGULATORY ACTION THAT HAVE BEEN VERIFIED TO NOT CONTAIN ALL THE INFORMATION REQUIREMENTS OF BY ANNEX I OF THE CONVENTION

Notifications of final regulatory action that have been verified to not contain all the information requirements of Annex I of the Convention, received between 1 November 2013 and 30 April 2014.

Chemical name	CAS No.	Category	Country	Region	Annex III
1,3 Dichloropropene	542-75-6	Pesticide	Oman	Near East	No
Acephate	30560-19-1	Pesticide	Oman	Near East	No

Dicrotophos	141-66-2	Pesticide	Oman	Near East	No
Dieldrin	60-57-1	Pesticide	Oman	Near East	Yes
Difenacoum	56073-07-5	Pesticide	Oman	Near East	No
Diflubenzuron	35367-38-5	Pesticide	Oman	Near East	No
Dimefox	115-26-4	Pesticide	Oman	Near East	No
Dimethoate	60-51-5	Pesticide	Oman	Near East	No
Dinitro-ortho-cresol (DNOC) and its salts (such as ammonium salt, potassium salt and sodium salt)	534-52-1	Pesticide	Oman	Near East	Yes
Dinoseb and its salts	88-85-7	Pesticide	Oman	Near East	Yes

and esters					
Disulfoton	298-04-4	Pesticide	Oman	Near East	No
EDB (1,2-dibromoethane)	106-93-4	Pesticide	Oman	Near East	Yes
Endosulfan	115-29-7	Pesticide	Oman	Near East	Yes
Endrin	72-20-8	Pesticide	Oman	Near East	No
EPN	2104-64-5	Pesticide	Oman	Near East	No
Ethoprophos	13194-48-4	Pesticide	Oman	Near East	No
Ethylene dichloride	107-06-2	Pesticide	Oman	Near East	Yes
Ethylene oxide	75-21-8	Pesticide	Oman	Near East	Yes
Fenamiphos	22224-92-6	Pesticide	Oman	Near East	No
Fensulfothion	115-90-2	Pesticide	Oman	Near East	No
Fenthion	55-38-9	Pesticide	Oman	Near East	No
Fipronil	120068-37-3	Pesticide	Oman	Near East	No
Flucythrinate	70124-77-5	Pesticide	Oman	Near East	No
Fluorine compounds	-	Pesticide	Oman	Near East	No
Fluoroacetamide	640-19-7	Pesticide	Oman	Near East	Yes
Folpet	133-07-3	Pesticide	Oman	Near East	No
Fonofos	944-22-9	Pesticide	Oman	Near East	No
Fosthietan	21548-32-3	Pesticide	Oman	Near East	No
HCH (mixed isomers)	608-71-1	Pesticide	Oman	Near East	Yes
Heptachlor	76-44-8	Pesticide	Oman	Near East	Yes
Hexachlorobenzene	118-74-1	Pesticide	Oman	Near East	Yes
Imidacloprid	138261-41-3	Pesticide	Oman	Near East	No
Isazophos	42509-80-8	Pesticide	Oman	Near East	No
Isobenzan	297-78-9	Pesticide	Oman	Near East	No
Isodrin	465-73-6	Pesticide	Oman	Near East	No
Kelevan	4234-79-1	Pesticide	Oman	Near East	No
Lead compounds	7439-92-1	Pesticide	Oman	Near East	No
Leptophos	21609-90-5	Pesticide	Oman	Near East	No
Lindane	58-89-9	Pesticide	Oman	Near East	Yes
Linuron	330-55-2	Pesticide	Oman	Near East	No
Magnesium phosphide	12057-74-8	Pesticide	Oman	Near East	No
Mancozeb	8018-01-7	Pesticide	Oman	Near East	No
Maneb	12427-38-2	Pesticide	Oman	Near East	No
Mephosfolan	950-10-7	Pesticide	Oman	Near East	No
Mercury compounds, including inorganic mercury compounds, alkyl mercury compounds and alkyloxyalkyl and aryl mercury compounds	-	Pesticide	Oman	Near East	Yes
Methamidophos	10265-92-6	Pesticide	Oman	Near East	No
Methomyl	16752-77-5	Pesticide	Oman	Near East	No
Methidathion	950-37-8	Pesticide	Oman	Near East	No
Methiocarb	2032-65-7	Pesticide	Oman	Near East	No
Methoxychlor	72-43-5	Pesticide	Oman	Near East	No
Methyl bromide	74-83-9	Pesticide	Oman	Near East	No
Mevinphos	26718-65-0	Pesticide	Oman	Near East	No

Mirex	2385-85-5	Pesticide	Oman	Near East	No
Monocrotophos	6923-22-4	Pesticide	Oman	Near East	Yes
Morfamquat	7411-47-4	Pesticide	Oman	Near East	No
Nicotine	54-11-5	Pesticide	Oman	Near East	No
Nitrofen	1836-75-5	Pesticide	Oman	Near East	No
Oxamyl	23135-22-0	Pesticide	Oman	Near East	No
Oxydemeton-methyl	301-12-2	Pesticide	Oman	Near East	No
Oxydeprofos	2674-91-1	Pesticide	Oman	Near East	No
Paraquat dichloride	1910-42-5	Pesticide	Oman	Near East	No
Parathion-ethyl	56-38-2	Pesticide	Oman	Near East	No
Parathion-methyl	298-00-0	Pesticide	Oman	Near East	Yes
Pentachlorophenol and its salts and esters	87-86-4	Pesticide	Oman	Near East	Yes
Permethrin	52645-53-1	Pesticide	Oman	Near East	No
Phorate	298-02-2	Pesticide	Oman	Near East	No
Phosfolan	947-02-4	Pesticide	Oman	Near East	No
Phosphamidon	13171-21-6	Pesticide	Oman	Near East	Yes
Picloram	1918-02-1	Pesticide	Oman	Near East	No
Profenophos	41198-08-7	Pesticide	Oman	Near East	No
Pronamide	23950-58-5	Pesticide	Oman	Near East	No
Propargite	2312-35-8	Pesticide	Oman	Near East	No
Propetamphos	31218-83-4	Pesticide	Oman	Near East	No
Propoxur	114-26-1	Pesticide	Oman	Near East	No
Prothoate	2275-18-5	Pesticide	Oman	Near East	No
Quintozene	82-68-8	Pesticide	Oman	Near East	No
Rotenone	83-79-4	Pesticide	Oman	Near East	No
Schradan	152-16-9	Pesticide	Oman	Near East	No
Simazine	122-34-9	Pesticide	Oman	Near East	No
Sodium cyanide	143-33-9	Pesticide	Oman	Near East	No
Sodium methyl- dithiocarbamate	137-42-8	Pesticide	Oman	Near East	No
Sodium Fluoroacetate	62-74-8	Pesticide	Oman	Near East	No
Strobane	8001-50-1	Pesticide	Oman	Near East	No
Starlicide	95-74-9	Pesticide	Oman	Near East	No
Strychnine	57-24-9	Pesticide	Oman	Near East	No
Sulfotep	3689-24-5	Pesticide	Oman	Near East	No
Sulfuryl fluoride	2699-79-8	Pesticide	Oman	Near East	No
Sulprofos	35400-43-2	Pesticide	Oman	Near East	No
Toxaphene	8001-35-2	Pesticide	Oman	Near East	Yes
TDE	72-54-8	Pesticide	Oman	Near East	No
Tebupirimfos	96182-53-5	Pesticide	Oman	Near East	No
Tefluthrin	79538-32-2	Pesticide	Oman	Near East	No
TEPP	107-49-3	Pesticide	Oman	Near East	No
Tergitol	127087-87-0	Pesticide	Oman	Near East	No
Terbufos	13071-79-9	Pesticide	Oman	Near East	No
Tetradifon	116-29-0	Pesticide	Oman	Near East	No
Thallium sulphate	7446-18-6	Pesticide	Oman	Near East	No
Thionazin	297-97-2	Pesticide	Oman	Near East	No
Thiram	137-26-8	Pesticide	Oman	Near East	No
Tributyltin	688-73-3	Pesticide	Oman	Near East	Yes
Tributyltin hydroxide	80889-02-9	Pesticide	Oman	Near East	No

Zinc Phosphide	1314-84-7	Pesticide	Oman	Near East	No
Zineb	12122-67-7	Pesticide	Oman	Near East	No

Synopsis of Notifications of Final Regulatory Action Received Since the Last PIC Circular

PART C

NOTIFICATIONS OF FINAL REGULATORY ACTION STILL UNDER VERIFICATION

Chemical name	CAS No.	Category	Country	Region	Annex III
Atrazine	1912-24-9	Pesticide	Togo	Africa	No
Carbofuran	55285-14-8	Pesticide	Togo	Africa	No
Fipronil	120068-37-3	Pesticide	Togo	Africa	No
Lead arsenate	3687-31-8	Pesticide	Togo	Africa	No
Paraquat	4685-14-7	Pesticide	Togo	Africa	No
Triazophos	24017-47-8	Pesticide	Togo	Africa	No
Trichlorfon	52-68-6	Pesticide	Togo	Africa	No

APPENDIX II

**PROPOSALS FOR INCLUSION OF SEVERELY HAZARDOUS PESTICIDE
FORMULATIONS IN THE PIC PROCEDURE**

PART A

**SUMMARY OF EACH PROPOSAL FOR INCLUSION OF A SEVERELY HAZARDOUS
PESTICIDE FORMULATION THAT HAS BEEN VERIFIED TO CONTAIN ALL
INFORMATION REQUESTED BY ANNEX IV, PART 1, OF THE CONVENTION**

No proposals for inclusion of severely hazardous pesticide formulations in the PIC procedure, in line with Article 6, paragraph 2, have been received by the Secretariat.

PART B

**PROPOSALS FOR INCLUSION OF SEVERELY HAZARDOUS PESTICIDE
FORMULATIONS STILL UNDER VERIFICATION**

No proposals for inclusion of severely hazardous pesticide formulations in the PIC procedure are currently under verification by the Secretariat.

APPENDIX III

CHEMICALS LISTED IN ANNEX III OF THE CONVENTION

Chemical	Relevant CAS number(s)	Category	Date of first dispatch of decision guidance document
2,4,5-T and its salts and esters	93-76-5*	Pesticide	Prior to adoption of Convention
Alachlor	15972-60-8	Pesticide	24 October 2011
Aldicarb	116-06-3	Pesticide	24 October 2011
Aldrin	309-00-2	Pesticide	Prior to adoption of Convention
Azinphos-methyl	86-50-0	Pesticide	10 August 2013
Binapacryl	485-31-4	Pesticide	1 February 2005
Captafol	2425-06-1	Pesticide	Prior to adoption of Convention
Chlordane	57-74-9	Pesticide	Prior to adoption of Convention
Chlordimeform	6164-98-3	Pesticide	Prior to adoption of Convention
Chlorobenzilate	510-15-6	Pesticide	Prior to adoption of Convention
DDT	50-29-3	Pesticide	Prior to adoption of Convention
Dieldrin	60-57-1	Pesticide	Prior to adoption of Convention
Dinitro- <i>ortho</i> -cresol (DNOC) and its salts (such as ammonium salt, potassium salt and sodium salt)	534-52-1 2980-64-5 5787-96-2 2312-76-7	Pesticide	1 February 2005
Dinoseb and its salts and esters	88-85-7*	Pesticide	Prior to adoption of Convention
1,2-dibromoethane (EDB)	106-93-4	Pesticide	Prior to adoption of Convention
Endosulfan	115-29-7	Pesticide	24 October 2011
Ethylene dichloride	107-06-2	Pesticide	1 February 2005
Ethylene oxide	75-21-8	Pesticide	1 February 2005
Fluoroacetamide	640-19-7	Pesticide	Prior to adoption of Convention
HCH (mixed isomers)	608-73-1	Pesticide	Prior to adoption of Convention
Heptachlor	76-44-8	Pesticide	Prior to adoption of Convention
Hexachlorobenzene	118-74-1	Pesticide	Prior to adoption of Convention
Lindane (gamma-HCH)	58-89-9	Pesticide	Prior to adoption of Convention
Mercury compounds, including inorganic mercury compounds, alkyl mercury compounds and alkyloxyalkyl and aryl mercury compounds		Pesticide	Prior to adoption of Convention

Chemical	Relevant CAS number(s)	Category	Date of first dispatch of decision guidance document
Monocrotophos	6923-22-4	Pesticide	1 February 2005
Parathion	56-38-2	Pesticide	1 February 2005
Pentachlorophenol and its salts and esters	87-86-5*	Pesticide	Prior to adoption of Convention
Toxaphene	8001-35-2	Pesticide	1 February 2005
All tributyltin compounds including: – Tributyltin oxide – Tributyltin fluoride – Tributyltin methacrylate – Tributyltin benzoate – Tributyltin chloride – Tributyltin linoleate – Tributyltin naphthenate	56-35-9 1983-10-4 2155-70-6 4342-36-3 1461-22-9 24124-25-2 85409-17-2	Pesticide	1 February 2009
Dustable powder formulations containing a combination of: – Benomyl at or above 7%, – Carbofuran at or above 10%, – Thiram at or above 15%	17804-35-2 1563-66-2 137-26-8	Severely hazardous pesticide formulation	1 February 2005
Methamidophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	10265-92-6	Severely hazardous pesticide formulation	Prior to adoption of Convention
Phosphamidon (Soluble liquid formulations of the substance that exceed 1000 g active ingredient/l)	13171-21-6 (mixture, (E)&(Z) isomers) 23783-98-4 ((Z)-isomer) 297-99-4 ((E)-isomer)	Severely hazardous pesticide formulation	Prior to adoption of Convention
Methyl-parathion (Emulsifiable concentrates (EC) at or above 19.5% active ingredient and dusts at or above 1.5% active ingredient)	298-00-0	Severely hazardous pesticide formulation	Prior to adoption of Convention
Actinolite asbestos	77536-66-4	Industrial	1 February 2005
Anthophyllite asbestos	77536-67-5 17068-78-9	Industrial	1 February 2005
Amosite asbestos	12172-73-5	Industrial	1 February 2005
Crocidolite asbestos	12001-28-4	Industrial	Prior to adoption of Convention
Tremolite asbestos	77536-68-6	Industrial	1 February 2005
Commercial octabromodiphenyl ether including: – Hexabromodiphenyl ether – Heptabromodiphenyl ether	36483-60-0 68928-80-3	Industrial	10 August 2013
Commercial pentabromodiphenyl ether including: – Tetrabromodiphenyl ether – Pentabromodiphenyl ether	40088-47-9 32534-81-9	Industrial	10 August 2013

Chemical	Relevant CAS number(s)	Category	Date of first dispatch of decision guidance document
Perfluorooctane sulfonic acid, perfluorooctane sulfonates, perfluorooctane sulfonamides and perfluorooctane sulfonyls including: - Perfluorooctane sulfonic acid - Potassium perfluorooctane sulfonate - Lithium perfluorooctane sulfonate - Ammonium perfluorooctane sulfonate - Diethanolammonium perfluorooctane sulfonate - Tetraethylammonium perfluorooctane sulfonate - Didecyldimethylammonium perfluorooctane sulfonate - N-Ethylperfluorooctane sulfonamide - N-Methylperfluorooctane sulfonamide - N-Ethyl-N-(2-hydroxyethyl) perfluorooctane sulfonamide - N-(2-Hydroxyethyl)-N-methylperfluorooctane sulfonamide - Perfluorooctane sulfonyl fluoride	1763-23-1 2795-39-3 29457-72-5 29081-56-9 70225-14-8 56773-42-3 251099-16-8 4151-50-2 31506-32-8 1691-99-2 24448-09-7 307-35-7	Industrial	10 August 2013
Polybrominated biphenyls (PBB)	36355-01-8 (hexa-) 27858-07-7 (octa-) 13654-09-6 (deca-)	Industrial	Prior to adoption of Convention
Polychlorinated biphenyls (PCB)	1336-36-3	Industrial	Prior to adoption of Convention
Polychlorinated terphenyls (PCT)	61788-33-8	Industrial	Prior to adoption of Convention
Tetraethyl lead	78-00-2	Industrial	1 February 2005
Tetramethyl lead	75-74-1	Industrial	1 February 2005
Tris (2,3-dibromopropyl) phosphate	126-72-7	Industrial	Prior to adoption of Convention

* Only the CAS numbers of parent compounds are listed. For a list of other relevant CAS numbers, reference may be made to the relevant Decision Guidance Document.

APPENDIX IV**LISTING OF ALL IMPORT RESPONSES RECEIVED FROM PARTIES AND CASES OF FAILURE TO SUBMIT RESPONSES**

The information in this Appendix has been arranged according to the sequence of the individual chemicals as they are listed in Annex III of the Convention (and reproduced in Appendix III of the PIC Circular).

For each chemical there are three tabular summaries:

Part 1 is an overview of new import responses received since the last PIC Circular (between 01 November 2013 to 30 April 2014) and which are published for the first time in the current PIC Circular. Detailed information concerning the responses can be found in the list of all import responses received from Parties contained in Part 2 of this Appendix.

Part 2 is a compilation of all the import responses received from Parties by the Secretariat as of 30 April 2014. The listed responses relate to the category or categories specified for each chemical in Annex III of the Convention. The date on which the import response was first published in the PIC Circular is also indicated.

Part 3 is a list of those Parties which have failed to provide a response regarding future import of a chemical within 9 months of the date of dispatch of the Decision Guidance Document. It also includes the date on which the Secretariat first informed all Parties, through publication in the PIC Circular, of cases of failure to transmit a response.

APPENDIX IV - PART 1

OVERVIEW OF NEW IMPORT RESPONSES RECEIVED SINCE THE LAST PIC CIRCULAR

Pesticides

2,4,5-T and its salts and esters
Benin
Alachlor
Chad
Iran (Islamic Republic of)
Aldicarb
Chad
Iran (Islamic Republic of)
Aldrin
Antigua and Barbuda
Azinphos-methyl
Australia
Canada
Chad
China
Colombia
Iran (Islamic Republic of)
Japan
Malaysia
Morocco
Niger
Saint Kitts and Nevis
Togo
Binapacryl
Benin
Chad
Captafol
Benin
Chlordane
Antigua and Barbuda
Benin
Chlordimeform
Benin
Chlorobenzilate
Benin
DDT
Antigua and Barbuda
Dieldrin
Antigua and Barbuda
Dinitro-ortho-cresol (DNOC) and its salts (such as ammonium salt, potassium salt and sodium salt)

Benin
EDB (1,2-dibromoethane)
Benin
Endosulfan
Burundi
Chad
Iran (Islamic Republic of)
Ethylene dichloride
Benin
Chad
Liechtenstein
Switzerland
Ethylene oxide
Benin
Chad
Heptachlor
Antigua and Barbuda
Benin
Hexachlorobenzene
Antigua and Barbuda
Benin
Lindane (gamma-HCH)
Benin
Monocrotophos
Benin
Chad
Parathion
Benin
Chad
Pentachlorophenol and its salts and esters
Benin
Toxaphene (Camphechlor)
Antigua and Barbuda
Benin
Chad
Tributyl tin compounds
Chad
Colombia
Iran (Islamic Republic of)

Severely hazardous pesticide formulations

Dustable powder formulations containing a combination of benomyl at or above 7%, carbofuran at or above 10% and thiram at or above 15%

Benin

Industrial Chemicals

Actinolite asbestos

Morocco

Amosite asbestos

Morocco

Anthophyllite

Morocco

Crocidolite

Morocco

Tremolite

Morocco

Commercial octabromodiphenyl ether (including Hexabromodiphenyl ether and Heptabromodiphenyl ether)

Australia

Canada

China

Japan

Malaysia

Niger

Panama

Saint Kitts and Nevis

Commercial pentabromodiphenyl ether (including tetrabromodiphenyl ether and pentabromodiphenyl ether)

Australia

Canada

China

Japan

Malaysia

Niger

Panama

Saint Kitts and Nevis

Perfluorooctane sulfonic acid, perfluorooctane sulfonates, perfluorooctane sulfonamides and perfluorooctane sulfonyls

Australia

Canada

China

Japan

Jordan

Malaysia

Niger

Norway

Panama

Polychlorinated Biphenyls (PCBs)

Antigua and Barbuda

Tetraethyl lead

Morocco

Tetramethyl lead

Morocco

APPENDIX IV - PARTS 2 AND 3

**LISTING OF ALL IMPORT RESPONSES RECEIVED FROM PARTIES
AND CASES OF FAILURE TO SUBMIT RESPONSES**

Pesticides

2,4,5-T and its salts and esters	40
Alachlor	49
Aldicarb	57
Aldrin	65
Azinphos-methyl	75
Binapacryl.....	79
Captafol.....	89
Chlordane	99
Chlordimeform.....	108
Chlorobenzilate	117
DDT	127
Dieldrin	137
Dinitro-ortho-cresol (DNOC) and its salts (such as ammonium salt, potassium salt and sodium salt)	147
Dinoseb and its salts and esters.....	157
EDB (1,2-dibromoethane)	167
Endosulfan	177
Ethylene dichloride	185
Ethylene oxide	196
Fluoroacetamide.....	207
HCH (mixed isomers)	216
Heptachlor	225
Hexachlorobenzene	235
Lindane (gamma-HCH).....	244
Mercury compounds, including inorganic mercury compounds, alkyl mercury compounds and alkyloxyalkyl and aryl mercury compounds.....	255
Monocrotophos.....	265
Parathion	276
Pentachlorophenol and its salts and esters	286
Toxaphene (Camphechlor).....	296
Tributyl tin compounds	306

Severely hazardous pesticide formulations

Dustable powder formulations containing a combination of benomyl at or above 7%, carbofuran at or above 10% and thiram at or above 15%	315
Methamidophos (Soluble liquid formulations of the substance that exceed 600 g active ingredient/l)	324
Methyl-parathion (Emulsifiable concentrates (EC) at or above 19.5% active ingredient and dusts at or above 1.5% active ingredient).....	334
Phosphamidon (Soluble liquid formulations of the substance that exceed 1000 g active ingredient/l)	344

Industrial Chemicals

Actinolite asbestos	354
Amosite asbestos	364
Anthophyllite	374
Crocidolite	385
Tremolite	396
Commercial octabromodiphenyl ether (including Hexabromodiphenyl ether and Heptabromodiphenyl ether)	406
Commercial pentabromodiphenyl ether (including tetrabromodiphenyl ether and pentabromodiphenyl ether)	408
Perfluorooctane sulfonic acid, perfluorooctane sulfonates, perfluorooctane sulfonamides and perfluorooctane sulfonyls	410
Polybrominated Biphenyls (PBBs)	413
Polychlorinated Biphenyls (PCBs)	423
Polychlorinated Terphenyls (PCTs)	434
Tetraethyl lead	443
Tetramethyl lead	455
Tris(2,3 dibromopropyl)phosphate	466

Part 2 - Listing of all importing responses received from Parties

2,4,5-T and its salts and esters

CAS: 93-76-5

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service," as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, 2,4,5-T and its salts and esters are not included.	Published: 06/2013	no consent
Argentina	Final decision on import Conditions for Import: Prohibited for use in agriculture are explicitly those products formulated on the basis of butyl ester of 2,4,5-T Legislative or administrative measures: Decree No.2121/90 Published on the Congressional Record October 16,1990. Prohibits: importation, manufacturing, processing, commercialisation and use of agriculture applications products, on the basis of butyl ester of 2,4,5-T	Published: 12/2002	consent under conditions
Armenia	Interim decision on import	Published: 06/2001	no consent
Australia	Final decision on import Conditions for Import: Subject to approval, registration, exemption or permit under the <i>Agricultural and Veterinary Chemical Code Act 1994</i> , noting that Australian use of 2,4,5-T ended in the late 1980s and the herbicide is not currently approved for use Legislative or administrative measures: <i>Agricultural and Veterinary Chemical Code Act 1994</i> .	Published: 12/2004	consent under conditions
Belize	Final decision on import Legislative or administrative measures: Classified as a prohibited pesticide in Schedule IV of the Pesticides Control Act of 1985, Chapter 181B of the Laws of Belize, and in the Pesticides Control (replacement of Schedules) Order, 1995.	Published: 12/2005	no consent
Benin	Interim decision on import Conditions for Import: Authorization of the Ministry of the Environment after opinion of the National Committee for the Approval and the Control of Plant Protection Products. Statement of active consideration: Information available on accidents caused by this pesticide	Published: 06/2014	consent under conditions
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Remarks: There is no pesticide registered for any purpose. Legislative or administrative measures: Directive No. 326 of 16 August 1974 - Prohibits the use of the herbicides containing 2,4,5-T in forests, in any culture which products are intended for human feed and near household installation recreation sites as much as river, lakes, water side places and pathways within forests. Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use.	Published: 12/2004	no consent

Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelien Pesticides Committee (CSP) meeting	Published: 12/2006	no consent
Burundi	Final decision on import	Published: 06/1999	no consent
Cameroon	Final decision on import Legislative or administrative measures: Act n° 66/9/COR of 8 November 1966 Decree n° 77/171 of 03 June 1977 Decree n° 83-661 of 27 December 1983 Order n° 0002/MINAGRI/DIRAGRI/SDPV of 17/01/1989	Published: 12/2008	no consent
Canada	Final decision on import	Published: 01/1998	no consent
Cabo Verde	Final decision on import Legislative or administrative measures: The pesticide has not been registered by the Sahelian Pesticide Committee which is the regional organization in charge of pesticides registration according to national legislation, Act n° 26/97	Published: 12/2008	no consent
Chad	Interim decision on import Remarks: Final decision pending passage of pesticide control decree.	Published: 01/1998	no consent
Chile	Final decision on import Legislative or administrative measures: Legislative or administrative measures - Through the Resolution No. 2179 of 17 July 1998, it was decided to prohibit to import, to manufacture, to sell, to distribute, and to use 2,4,5-T in agriculture.	Published: 01/1998	no consent
China	Final decision on import Legislative or administrative measures: <ul style="list-style-type: none"> Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: No consent to import. 	Published: 01/1998 Revised: 10/2008	no consent
Colombia	Final decision on import Legislative or administrative measures: ICA resolution 749/79 cancels the registration of herbicides based on 2,4,5-T and 2,4,5-TP.	Published: 01/1998	no consent
Costa Rica	Final decision on import Legislative or administrative measures: Legislative or administrative measures - Banned by the "Decreto Ejecutivo No. 17486 MAG-S".	Published: 06/1999	no consent
Côte d'Ivoire	Final decision on import Legislative or administrative measures: It is prohibited to import, locally produce, place on the market, sell or use this product in order to protect human health and the environment. The product has not been registered since 1998.	Published: 06/2004	no consent
Cuba	Final decision on import Remarks: The adopted decision does not include the use of the product as a reference pattern or reactive used for the development of research and analysis activities. Legislative or administrative measures: National Decision in force under Resolution 268/1990 of the Ministry of Public Health	Published: 12/2008	no consent
Democratic	Final decision on import	Published: 12/2004	no consent

People's Republic of Korea	Legislative or administrative measures: The use of this pesticide for plant protection is prohibited by "The Law for Environment Protection" (April 9, 1984) and "The National Regulation of Pesticide Management", because of its high toxicity to human and animals, and also its residual property.		
Democratic Republic of the Congo	Final decision on import	Published: 06/2012	no consent
	Legislative or administrative measures: Circular note No. 5011/0195/AGRI/PE.EL/2012 of 16 February 2012 concerning the implementation of the Rotterdam Convention, Section V, Article 19 : the use of all chemicals listed in Annex III of the Rotterdam Convention is prohibited in the DRC.		
Ecuador	Final decision on import	Published: 06/2001	no consent
El Salvador	Final decision on import	Published: 06/2000	no consent
Eritrea	Final decision on import	Published: 06/2010	no consent
	Legislative or administrative measures: Legal Notice N° 113/2006. Regulations for Importation, Handling, Use, Storage and Disposal of Pesticides.

Alachlor

CAS: 15972-60-8

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, alachlor is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision is based primarily on the fact that alachlor is a highly hazardous pesticide based on the WHO classification. It poses an unacceptably high risk to human health and the environment. The pesticides and Toxic Chemicals Control Board is committed to registering only lowest risk pesticides for use in the country unless viable alternatives are unavailable. Viable alternatives are available for this product.	Published: 12/2012	no consent
Australia	Interim decision on import	Published: 12/2012	response did not address importation
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in List of active substances allowed for use in plant protection products in Bosnia and Herzegovina (Official Gazette of BiH No 03/12)	Published: 06/2012	no consent
Brazil	Final decision on import Conditions for Import: According to the Law 7802/89, Decree 4074/2002, no pesticide shall be manufactured, imported, exported, traded or used unless it has been registered in Brazil. The active ingredient Alaclor is registered for agricultural purpose in crops of cotton, groundnuts, coffee, sugar cane, sunflower, corn and soybeans. Legislative or administrative measures: Law no. 7802/89, Decree 4074/2002 and other complementary acts of the registrant agencies.	Published: 12/2012	consent under conditions
Canada	Final decision on import Legislative or administrative measures: Alachlor is banned in Canada since 1985. Therefore, it is not registered under the Pest Control Products Act.	Published: 06/2012	no consent
Chad	Final decision on import Remarks: None Legislative or administrative measures: The product has carcinogenic effects and presents possible risks of irreversible effects. The product is not registered in the sub-region CLISS CEMAC.	Published: 06/2014	no consent
Chile	Final decision on import Conditions for Import: On exceptional basis, the use of analytical patterns will be allowed to determine the analytes corresponding to the pure active substance and the metabolites used in a monitoring program, in studies of residues in different matrix related with forestry, agriculture and cattle, or in scientific investigation, depending on the national standards. Remarks: On an exceptional basis, the use of analytical patterns will be allowed to determine the analytes corresponding to the pure active substance and the metabolites used in a monitoring program, in studies of residues in different matrix related with forestry, agriculture and cattle, or in scientific investigation, depending on the national standards. Legislative or administrative measures: Agricultural and Livestock Service, Resolution No.8231, 19th December 2011.	Published: 06/2012	consent under conditions

China	Interim decision on import Conditions for Import: Only if have been registered and used in China, the chemicals could be imported.	Published: 12/2013	consent under conditions
Colombia	Final decision on import Conditions for Import: In line with the information from the Technical Department of Agricultural Inputs Safety of ICA, the Alachlor holds sales record No.1346 of 25th June 1991, and No.434 of January 2001. Authorised uses are as herbicide to control weeds (arvensis) in: soybean, sorghum, cotton, peanuts, sesame, maize and cassava. Remarks: Decree No. 2820 of 2010, published in the Official Journal No. 47792 of 5th August 2010, Title II, on the exigibility of Environmental Licenses, in Article 8, established that the Ministry of Environment, Housing and Territorial Development, may permanently grant or deny such environmental license for the activities (...) "11. The import and/or manufacturing of those substances, materials or products subject to controls pursuant to treaties, conventions and international protocols, of environmental nature, except in cases where these rules point out a special authorisation for such purpose. Since they are LMO's (Living Modified Organisms), for which only the procedure established in Act 740 of 2002 and its regulatory decrees or rules that modify, replace or repeal it will be applied in their evaluation and decision" Legislative or administrative measures: In line with the Andean Decision of Nations No.436; Andean Standard for the Registration and Control of Chemical Pesticides for Agricultural use, published in Official Journal (Year XIV, No.347, in Lima, Peru, on 17th June 1988, on the Cartagena Agreement), and the Resolution of the Colombian Institute for Agriculture and Farming (ICA) No.03759 of 16th December 2003, to enact provisions for the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and marketed in the country. IMPORTANT NOTE: According to information from the Technical Department of Agricultural Inputs Safety of ICA, the product holds sales Register No.1346 of 25th June 1991, and 434 of 29th January 2001, and consequently it can be imported in Colombia as herbicide to control weeds (arvensis) in: soybean, sorghum, cotton, peanuts, sesame, maize and cassava. Only the company owning the mentioned register may import the product.	Published: 06/2012	consent under conditions
Costa Rica	Final decision on import Conditions for Import: The pesticide must be previously registered with the State Phytosanitary Service. Legislative or administrative measures: 1. Plant Protection Act No. 7664: "Article 24. - Registration of substances. No person or entity may import, export, manufacture, formulate, store, distribute, transport, repackaging, rebottling, announce, handle, mix, sell or use chemicals, biological or related for agricultural use, which are not registered under this Act. " 2. Executive Decree No. 33495-MAG-S- MINAE-MEIC "Regulation on Registration, Use and Control of Formulated Synthetic Pesticides, Technical Grade Active Ingredient, Coadjuvants and Related Substances for Agricultural Purposes". Part 2 - Listing of all importing responses received from Parties

Aldicarb

CAS: 116-06-3

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, aldicarb is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision is based primarily on the fact that aldicarb is a highly hazardous pesticide based on the WHO classification. It poses an unacceptably high risk to human health and the environment. The pesticides and Toxic Chemicals Control Board is committed to registering only lowest risk pesticides for use in the country unless viable alternatives are unavailable. Viable alternatives are available for this product.	Published: 12/2012	no consent
Australia	Interim decision on import	Published: 12/2012	response did not address importation
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in List of active substances allowed for use in plant protection products in Bosnia and Herzegovina (Official Gazette of BiH No 03/12)	Published: 06/2012	no consent
Brazil	Final decision on import Conditions for Import: According to the Law 7802/89, Decree 4074/2002, no pesticide shall be manufactured, imported, exported, traded or used unless it has been registered in Brazil. The active ingredient Aldicarb is registered for agricultural purpose in crops of coffee, citrus and sugar cane, only to certified farmers and registered properties by the manufacturers companies in the following Brazilian states: São Paulo, Minas Gerais and Bahia. Legislative or administrative measures: Law no. 7802/89, Decree 4074/2002 and other complementary acts of the registrant agencies.	Published: 12/2012	consent under conditions
Canada	Final decision on import Legislative or administrative measures: Aldicarb registrations under the Pest Control Products Act in Canada expired in 1996.	Published: 06/2012	no consent
Chad	Final decision on import Remarks: None Legislative or administrative measures: The product is toxic for the skin and highly toxic if inhaled and swallowed. It is also highly toxic for aquatic organisms and can lead in the long term to adverse effects on the environment. The product is not registered in the sub-region CLISS CEMAC	Published: 06/2014	no consent
Chile	Final decision on import Conditions for Import: On exceptional basis, the use of analytical patterns will be allowed to determine the analytes corresponding to the pure active substance and the metabolites used in a monitoring program, in studies of residues in different matrix related with forestry, agriculture and cattle, or in scientific investigation, depending on the national standards. Remarks: On an exceptional basis, the use of analytical patterns will be allowed to determine the analytes corresponding to the pure active substance and the metabolites used in a monitoring program, in studies of residues in different matrix related with forestry, agriculture and cattle, or in scientific investigation, depending on the national standards. Aldrin

CAS: 309-00-2

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, aldrin is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision based on the policy of the Pesticides and Toxic Chemicals Control Board of Antigua and Barbuda, not to register for use in the country chemicals listed in annexes A, B or C of the Stockholm Convention once viable alternatives are readily available.	Published: 06/2014	no consent
Argentina	Final decision on import Legislative or administrative measures: Decree No.2121/90 Published on the Congressional Record October 16,1990. Prohibits: importation, manufacturing, processing, commercialisation and use of agriculture applications products, on the basis of Aldrin (active ingredient)	Published: 12/2002	no consent
Armenia	Interim decision on import	Published: 06/2001	no consent
Australia	Final decision on import Remarks: As a Party to the Stockholm Convention on Persistent Organic Pollutants, legislation has been introduced prohibiting import, manufacture, use and export. Import is only permitted for environmentally sound disposal. Legislative or administrative measures: Agricultural and Veterinary Chemicals (Administration) Regulations 1995 Customs (Prohibited Import) Regulations 1956.	Published: 12/2004	no consent
Bahrain	Final decision on import	Published: 07/1996	no consent
Belize	Final decision on import Legislative or administrative measures: Classified as a prohibited pesticide in Schedule IV of the Pesticides Control Act of 1985, Chapter 181B of the Laws of Belize, and in the Pesticides Control (replacement of Schedules) Order, 1995.	Published: 12/2005	no consent
Benin	Final decision on import	Published: 07/1993	no consent
Bolivia	Final decision on import	Published: 07/1993	no consent
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Remarks: There is no pesticide registered for any purpose. Legislative or administrative measures: Directive nº 63 of 15 June 1992 - Prohibits the production, import, export, trade and use of active ingredient Aldrin, for application in livestock and agriculture.	Published: 12/2004	no consent

Directive n° 11 of 8 January 1998 -- Exclude the Aldrin from the list of toxics substances, which can be authorized as pesticides.

Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use.

Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelien Pesticides Committee (CSP) meeting.	Published: 12/2006	no consent
Burundi	Final decision on import Legislative or administrative measures: Its high toxicity, its bio accumulation and persistence in the environment led to it being prohibited. It is prohibited to import, to place on the market or use Aldrine as an agricultural pesticide by Ministerial Decree n 710/838 of 29/10/2001 under n 2001-01-P001.	Published: 12/2003	no consent
Cameroon	Final decision on import Legislative or administrative measures: Act n° 66/9/COR of 18 November 1966 Decree n° 77/171 of 03 June 1977 Decree n° 83-661 of 27 December 1983 Order n° 0002/MINAGRI/DIRAGRI/SDPV of 17/01/1989	Published: 12/2008	no consent

Australia	Interim decision on import	Published: 06/2014	response did not address importation
Canada	Final decision on import Legislative or administrative measures: Under authority of the Pest Control Products Act, Health Canada's Pest Management Regulatory Agency concluded that the use of azinphos-methyl and its associated end-use products entailed unacceptable risk of harm to agricultural workers (<i>Re-evaluation Decision Document RRD2004-05, Azinphos-methyl</i>). As a result, all uses of azinphos-methyl were phased out effective December 31, 2012 (<i>Re-evaluation Note REV2007-08, Updated opf Re-evaluation of Azinphos-methyl</i>).	Published: 06/2014	no consent
Chad	Final decision on import Remarks: None Legislative or administrative measures: The use of the product can entail the risk of water pollution and can be highly dangerous for the environment. The product is not registered in the sub-region CLISS CEMAC	Published: 06/2014	no consent
China	Final decision on import Legislative or administrative measures: According to the <i>Regulations on Pesticide Management</i> , the chemicals could not be imported and used unless been registered in China. Azinphos-methyl has not been registered and not allowed to register in the future.	Published: 06/2014	no consent
Colombia	Interim decision on import Remarks: According to the information of the Colombian Agricultural Institute, Technical Department of Safety and Agricultural Inputs, the azinphos-methyl in Colombia, has the Sales Register No. 321 of August 22, 1994, owned by Bayer CropScience SA with trade name Gusathion (EC) 200, and authorized concentration 200 g/l. Toxicity Category II, highly toxic. Below are described the authorized uses as insecticide (crops and pest control): Cotton: Indian pink bollworm and Anthonomus grandis. Tomato: armyworm, epitrix cucumeris Potato: muque, psyllids, tostón. Tobacco: leafminer, flea beetles, epitrix cucumeris, hornworms, thrips. Beans: green parrot, epitrix cucumeris. Citrus: white louse, selenaspidius articulatus, blackfly and whitefly. Despite the previous, this interim response does not temporarily allow imports of azinphos-methyl; it is considered as a prevention and protection measure or mechanism on unwanted/unintended imports of the product, while performing the process of re-evaluation/study to make a final decision on the approval of the register of sale. Malgré ce qui est indiqué en haut, cette réponse provisoire ne permet pas temporairement l'importation de l'azinphos méthyl, une mesure ou Consequently, the country may be subjected to excessive imports of azinphos-methyl, with the potential risk of creating obsolete stocks of hazardous waste and /or environmental liabilities that may be hazardous for the health and the environment. To better justify this interim decision preventing imports of azinphos-methyl, official sources as the Unified Counter for Foreign Trade (Ventanilla Unica de Comercio Exterior - VUCE) and the trading statistics of chemical pesticides for agricultural use, were consulted; with the result that it is more than 6 years that the substance is not imported in Colombia. In addition, this measure of temporarily banning imports of azinphos-methyl is based on the decision of the Andean Community of Nations No. 785 of March 11, 2013, which extends the deadline for the reassessment of chemical pesticides for agricultural use (Modification of Decisions 436, 684 and 767). This decision provides that "the records of chemical pesticides for agricultural use granted before the entry into force of Decision 436 of 1998, which at June 25, 2019 will not have an administrative act shall have no effect and will be automatically cancelled. To make it clear, Re-evaluation of a pesticide means the technical process	Published: 06/2014	no consent

	<p>through which the Pertinent National Authority (ICA in Colombia), and upon request of the party interested for purposes of inscription of that pesticide on the Subregional Register, evaluates again the risks and the benefits of the pesticide as it had been registered before Decision 436 was enforced in 1998. The National Competent Authority also applies this process for pesticide reviews in order to perform post registration programs. Furthermore, Decree 2820 of 2010 (August 5, 2010), regulating the Title VIII, Law 99 of 1993 on environmental licensing, in Title II, on the enforceability of Environmental Licenses, in Article 8 identifies the competence of the Ministry of Environment, Housing and Territorial Development to grant or exclusively deny the environmental license for the following activities:</p> <p>10 Production and import of pesticides in the following cases:</p> <p>a) Pesticides for agricultural use, with the exception of biological origin pesticides from natural extracts. The import of chemical pesticides for agricultural use shall follow the procedure established in the Andean Decision 436 of 1998, or the act that would amend or replace this decision;</p> <p>b) Pesticides or veterinary pesticides, except those for pet topical use and accessories such as earrings, necklaces, nose rings, etc.;</p> <p>c) Pesticides for public health use;</p> <p>d) Pesticides for industrial use;</p> <p>e) Pesticides for household use, except those for domestic use individually packaged.</p> <p>11. The import and /or production of those substances, materials or products subject to control under international environmental treaties, conventions and protocols, except in cases of special authorizations. In case of evaluation and decision of Living Modified Organisms - LMOs, procedures laid down by Law 740 of 2002 (and the regulatory decrees or rules that would modify, replace or derogate this law), will be only applied.</p>		
Georgia	Final decision on import	Published: 12/2013	no consent
	<p>Legislative or administrative measures: Restricted and strictly limited chemical substances and pesticides' import-export in Georgia is regulated by the Rotterdam Convention "On The Prior Informed consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade", Georgian Law of 1998 on "Pesticides and Agrochemicals".</p>

Captafol

CAS: 2425-06-1

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, captafol is not included.	Published: 06/2013	no consent
Argentina	Final decision on import Legislative or administrative measures: Decree No.2121/90 Published on the Congressional Record October 16,1990. Prohibits: importation, manufacturing, processing, commercialisation and use of agriculture applications products, on the basis of Captafol (active ingredient)	Published: 12/2002	no consent
Armenia	Interim decision on import	Published: 06/2001	no consent
Australia	Final decision on import Conditions for Import: Subject to approval, registration, exemption or permit under the <i>Agricultural and Veterinary Chemical Code Act 1994</i> , noting that the pesticide is not currently approved for use. Legislative or administrative measures: <i>Agricultural and Veterinary Chemical Code Act 1994</i> .	Published: 12/2004	consent under conditions
Belize	Final decision on import Legislative or administrative measures: Not classified as an approved pesticide in the Official Register of Pesticides for Belize.	Published: 12/2005	no consent
Benin	Interim decision on import Conditions for Import: Authorization of the Ministry of the environment after opinion of the National Committee for the Approval and the Control of Plant Protection Products. Statement of active consideration: Information available on accidents caused by this pesticide.	Published: 06/2014	consent under conditions
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Remarks: There is no pesticide registered for any purpose. Legislative or administrative measures: Directive No. 4 of 19 February 1987 - Ministry of Agriculture - Prohibit register, trade and use of all products and formulations containing active ingredient captafol. Directive No. 4 of 05 February 1987 - Ministry of Health, National Surveillance - exclude the Captafol from the list of toxics substances, which can be authorized as pesticides. Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use. Pakistan	Final decision on import Legislative or administrative measures: Agricultural Pesticide Ordinance 1971. Agricultural Pesticide Rules 1971.	Published: 01/1998	no consent
Panama	Final decision on import	Published: 01/1998	no consent
Paraguay	Interim decision on import Remarks: Requests technical assistance to reach final decision.	Published: 01/1998	no consent

Peru	Final decision on import	Published: 06/1999	no consent
Philippines	Final decision on import Conditions for Import: Only in cases of emergency as determined by FPA.	Published: 07/1998	no consent
Qatar	Final decision on import Legislative or administrative measures: Ministry of Environment to perform all the tasks and actions to protect the environment in the country, according to the law No. 30 of 2002 Article (26), prohibiting the import or handling of transport of hazardous materials, without authorization from the competent administrative authority, and article (29) of law No. 30 of 2002 prohibiting the use of pesticides or other chemical compounds for agriculture, public health or other purposes.	Published: 12/2010	no consent
Republic of Korea	Final decision on import Remarks: Banned in 1990 because of carcinogenicity.	Published: 01/1998	no consent
Republic of Moldova	Interim decision on import Remarks: The chemical has never been manufactured in the Republic of Moldova.	Published: 06/2012	no consent
Rwanda	Final decision on import Remarks: All uses are forbidden in the country. Product never registered	Published: 12/2002	no consent
Samoa	Final decision on import	Published: 01/1998	no consent
Saudi Arabia	Final decision on import Remarks: It was registered in the past, but its registration was cancelled because it was proven risky to human health, animal and the environment. Legislative or administrative measures: Ministerial decision based on recommendation from the relevant technical departments.	Published: 12/2007	no consent
Senegal	Final decision on import Legislative or administrative measures: Chlorobenzilate has not been registered by the Sahelian Pesticides Committee and is not listed in the National Profile of Chemicals management of Senegal.	Published: 12/2006	no consent
Serbia	Final decision on import Legislative or administrative measures: Cannot be placed on the market according to the Law on Plant Protection Products ("Official Gazette RS" No 41/09)	Published: 12/2011	no consent
Singapore	Final decision on import Conditions for Import: A hazardous Substance License is required for the import of the chemical. Legislative or administrative measures: The chemical is controlled as a Hazardous Substance under the Environmental Protection and Management Act (EPMA) and its regulations. A license is required for the import, use and sale of the chemical.	Published: 12/2003 Revised: 10/2008	consent under conditions
South Africa	Interim decision on import Statement of active consideration: Engaging all relevant stakeholders for a complete ban of the pesticide. Final decision can be reached: two years	Published: 06/2006	no consent
Sri Lanka	Final decision on import Remarks: no history of registration or use	Published: 06/1999	no consent

Sudan	Final decision on import Legislative or administrative measures: The Pesticides and Plant Protection Materials Act, 1994; the National Council for Pesticides. Not registered.	Published: 01/1998	no consent
Suriname	Final decision on import Legislative or administrative measures: Decree negative list imports and exports, September 1, 1999, SB 34 (State Gazette).	Published: 12/2003	no consent
Switzerland	Final decision on import Legislative or administrative measures: Chlorobenzilate is banned as agricultural chemical (it is not listed on annex I of the Ordinance on Plant Protection Products, which entered into force in August 2005). Chlorobenzilate is not on the list of active substances to be examined under the EU review programme (Annex II of the COMMISSION REGULATION (EC) No 1451/2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market). The Swiss Ordinance on Biocide Products (entered into force in May 2005) adopts the same biocide active ingredients as the EU. Chlorobenzilate is not authorized in biocide preparations.	Published: 06/2010	no consent
Syrian Arab Republic	Final decision on import	Published: 07/1998	no consent
Thailand	Final decision on import Legislative or administrative measures: The Notification of Ministry of Industry entitled "List of Hazardous Substances (No. 2)". In this list, chlorobenzilate has been identified as type 4 hazardous substance which is prohibited for import, production, distribution, possession or use in Thailand.	Published: 12/2005	no consent
The former Yugoslav Republic of Macedonia	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in R. Macedonia (Official Gazette of RM 159/2010).	Published: 06/2012	no consent
Togo	Interim decision on import Conditions for Import: For scientific experiments. Legislative or administrative measures: Law 96-007/PR of 3 July 1996 concerning plant protection in Togo.	Published: 01/1998	consent under conditions
Trinidad and Tobago	Final decision on import Legislative or administrative measures: The Pesticides and Toxic Chemicals Act, 1979 allows importation of registered pesticides only. No permission will be granted to import into Trinidad and Tobago.	Published: 06/2001	no consent
Uganda	Final decision on import Remarks: Not registered	Published: 06/1999	no consent
United Arab Emirates	Final decision on import	Published: 07/1998	no consent
United Republic of Tanzania	Final decision on import Remarks: Not registered / importation prohibited.	Published: 01/1998	no consent
Uruguay	Final decision on import Legislative or administrative measures: There is no legislative or administrative measure banning the use of Chlorobenzilate, it is not registered in the country and therefore cannot be imported for marketing under Decree 149/977.	Published: 06/2006	no consent

Venezuela (Bolivarian Republic of)	Interim decision on import Remarks: No import/export records found for this chemical	Published: 06/2010	no consent
Viet Nam	Final decision on import Legislative or administrative measures: Decision No 165/1999/QD-BNN-BVTV dated on 13th January 1999, issued by the Ministry of Agriculture and Rural Development (MARD). Not registered.	Published: 06/2001	no consent
Yemen	Final decision on import Legislative or administrative measures: List of Banned and Severely Restricted Pesticides in Yemen.	Published: 12/2007	no consent
Zimbabwe	Final decision on import	Published: 12/2001	no consent

DDT

CAS: 50-29-3

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, DDT is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision based on the policy of the Pesticides and Toxic Chemicals Control Board of Antigua and Barbuda, not to register for use in the country chemicals listed in annexes A, B or C of the Stockholm Convention once viable alternatives are readily available.	Published: 06/2014	no consent
Argentina	Final decision on import Legislative or administrative measures: 1) Decree NO.2121/90 Published on the Congressional Record October 16, 1990. Prohibits: importation, manufacturing, processing, commercialisation and use of agriculture application products, on the basis of DDT active ingredient (Dichlorodiphenil-trichloroetane). 2) Resolution SS NO.133/91 November 19, 1991. Prohibits use of DDT in human medicine.	Published: 12/2002	no consent
Armenia	Interim decision on import	Published: 06/2001	no consent
Australia	Final decision on import Remarks: As a Party to the Stockholm Convention on Persistent Organic Pollutants, legislation has been introduced prohibiting import, manufacture, use and export. Import is only permitted for environmentally sound disposal. Legislative or administrative measures: Agricultural and Veterinary Chemicals (Administration) Regulations 1995 Customs (Prohibited Import) Regulations 1956.	Published: 12/2004	no consent
Bahrain	Final decision on import	Published: 07/1996	no consent
Belize	Interim decision on import Statement of active consideration: Not classified as an approved pesticide in the Official Register of Pesticides for Belize. Agreement needs to be sought with the Ministry of Health regarding the use of alternatives to DDT in their vector control program. Not currently being imported nor used by the Ministry of Health.	Published: 12/2005	no consent
Benin	Final decision on import	Published: 07/1993	no consent
Bolivia	Final decision on import Conditions for Import: Only when certified by Ministry of Health for public health use. Remarks: Vector control in malaria; prohibited for agricultural use.	Published: 07/1994	consent under conditions
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent

Brazil	Final decision on import Legislative or administrative measures: Directive No. 329 of 2 September 1985 - Ministry of Agriculture - Prohibit the trade, use and distribution of the pesticides for agricultural use, including DDT. Directive nº 11, from January 8, 1998 - Ministry of Health, National Surveillance - exclude the DDT from the list of toxics substances, which can be authorized as pesticides. Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 4 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use.	Published: 12/2004	no consent
Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelian Pesticides Committee (CSP) meeting.	Published: 12/2006	no consent
Burundi	Final decision on import Legislative or administrative measures: Its long persistence, the bioaccumulation in animal tissues and milk as well as its carcinogenic effects have determined the prohibition of the importation and use of DDT. It is prohibited by Ministerial Ordinance N. 710-838 of 29th October 2001 and is listed in the register under N. 2001-01-P002	Published: 06/2003	no consent
Cameroon	Interim decision on import Remarks: Please send us the reasons and studies leading to DDT being listed in Annex III.	Published: 12/2008	consent under conditions
Canada	Final decision on import	Published: 01/1998	no consent
Cabo Verde	Final decision on import	Published: 07/1993	no consent
Chad	Final decision on import	Published: 01/1994	no consent
Chile	Final decision on import Legislative or administrative measures: This action is based on the absence, for this chemical substance, of the authorization as a pesticide in agriculture, without which it is not allowed to import, manufacture, distribute, sell or use this substance in Chile. To obtain this authorization, it is necessary to follow strict national regulations that reflect many procedures and information needed to obtain the permission.	Published: 07/1995	no consent
China	Final decision on import Legislative or administrative measures: <ul style="list-style-type: none"> Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: No consent to import. 	Published: 07/1993 Revised: 10/2008	no consent
Colombia	Final decision on import Legislative or administrative measures: Agricultural uses prohibited by Decree 704 of 1986 by Ministry of Agriculture. Registration cancelled by Resolution 891 of 1986 (ICA). Antimalarial uses prohibited by Resolution 10255 of 1993.	Published: 01/1998	no consent
Congo	Final decision on import	Published: 07/1993	no consent
Cook Islands	Final decision on import	Published: 01/1995	no consent

Costa Rica	Final decision on import Legislative or administrative measures: Banned by the "Decreto Ejecutivo No. 18345-MAG-S".	Published: 07/1993	no consent
Côte d'Ivoire	Final decision on import Legislative or administrative measures: The use of DDT in agriculture has been banned since 1988 to protect human health and the environment. As for its medical use, DDT was replaced in 1997 by other products to combat malaria. Since that date, the use of DDT for any purpose has been banned in the Côte d'Ivoire.	Published: 06/2004	no consent
Cuba	Final decision on import Remarks: The adopted decision does not include the use of the product as a reference pattern or reactive used for the development of research and analysis activities. Legislative or administrative measures: National Decision in force under Resolution 268/1990 of the Ministry of Public Health	Published: 12/2008	no consent
Democratic Republic of the Congo	Final decision on import Legislative or administrative measures: Circular note No. 5011/0195/AGRI/PE.EL/2012 of 16 February 2012 concerning the implementation of the Rotterdam Convention, Section V, Article 19 : the use of all chemicals listed in Annex III of the Rotterdam Convention is prohibited in the DRC.	Published: 06/2012	no consent

Endosulfan

CAS: 115-29-7

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, endosulfan is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision is based primarily on the fact that endosulfan is a highly hazardous pesticide based on the WHO classification. It poses an unacceptably high risk to human health and the environment. The Pesticides and Toxic Chemicals Control Board is committed to registering only lowest risk pesticides for use in the country unless viable alternatives are unavailable. Viable alternatives are available for this product.	Published: 12/2012	no consent
Australia	Interim decision on import	Published: 12/2012	response did not address importation
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in List of active substances allowed for use in plant protection products in Bosnia and Herzegovina (Official Gazette of BiH No 03/12)	Published: 06/2012	no consent
Brazil	Final decision on import Legislative or administrative measures: The Resolution RDC nº 28, of August, 09, 2010 of the National Health Surveillance Agency (ANVISA) established a phased ban of the active ingredient endosulfan to be concluded in 2014, when the registration of the pesticide will be cancelled. The imports are not allowed since 31 July 2011.	Published: 12/2012	no consent
Burundi	Final decision on import Remarks: Until its ban, endosulfan 50 WP had been used in bean maggot control, <i>Ophiomyia spp.</i> Alternative products are available, in particular Deltamethrin 25 EC, Chlorpyrifos-ethyl 48 EC. Legislative or administrative measures: It is prohibited to import and use Endosulfan, in all its forms in Burundi under Ministerial order nº 710/1464 of 16 October 2013. The reasons underlying its ban are : i) high acute oral toxicity; ii) operators' exposure higher than the acceptable level, even for operators using standard personal protective equipment; iii) unclear degradation pathway since unknown metabolites have been observed during studies conducted in the soil and in water/sediment systems; iv) volatile compound which main metabolite is persistent and traces of which are found in regions where it had not been used, according to surveillance data. Endosulfan is listed in the register of banned pesticides under nº 2013-01-P-001.	Published: 06/2014	no consent
Canada	Final decision on import Remarks: In 2010 Canada announced the phase out of endosulfan. The last date of registrant sale under phase out is December 31, 2014. All remaining uses of endosulfan are to be discontinued by the end of 2016. Legislative or administrative measures: Endosulfan is currently registered under the Pest Control Products Act in Canada.	Published: 06/2012	consent

Colombia	<p>Final decision on import</p> <p>Published: 06/2012</p> <p>no consent</p> <p>Remarks: Decree No. 2820 of 2010, published in the Official Journal No. 47792 of 5th August 2010, Title II, on the exigibility of Environmental Licenses, in Article 8, established that the Ministry of Environment, Housing and Territorial Development, may permanently grant or deny such environmental license for the activities (...) "11. The import and/or manufacturing of those substances, materials or products subject to controls pursuant to treaties, conventions and international protocols, of environmental nature, except in cases where these rules point out a special authorisation for such purpose. Since they are LMO's (Living Modified Organisms), for which only the procedure established in Act 740 of 2002 and its regulatory decrees or rules that modify, replace or repeal it will be applied in their evaluation and decision". Also, in line with the Andean Decision of Nations No.436; Andean Standard for the Registration and Control of Chemical Pesticides for Agricultural use, published in Official Journal (Year XIV, No.347, in Lima, Peru, on 17th June 1988, on the Cartagena Agreement), and the Resolution of the Colombian Institute for Agriculture and Farming (ICA) No.03759 of 16th December 2003, to enact provisions for the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and marketed in the country.</p> <p>IMPORTANT NOTE: According to information from the Technical Department of Agricultural Inputs Safety of ICA, the product is not registered for domestic sales in the Colombian Institute for Agriculture and Farming (ICA), and consequently it can't be imported, manufactured, formulated, distributed, marketed or used in Colombia as a chemical pesticide in agriculture.</p> <p>Legislative or administrative measures: Health Ministry Resolution 1669, Article I, 27th May 1997, issued on May 27th 1997, prohibiting import, manufacturing, marketing and use of products formulated with mixtures of Endosulfan and other active ingredients. This ban was reinforced by the State Council Decision N° 11001-03-24-000-1999-5483-01 (5483), Section One, of March 23, 2001. During the Fifth Meeting of the Parties (COP-5) to the Stockholm Convention, on Persistent Organic Pollutants, held from 25th to 29th of April 2001 in Geneva, Switzerland, the Representatives of 127 governments, agreed to include Endosulfan, technical grade and its isomers in the Annex A of the Convention, i.e. in the list of chemicals which production and use must be eliminated. Specific exemptions to the amendment to Annex A that will enter into force in one year were also defined. Likewise, the Fifth Conference of the Parties (COP-5) to the Rotterdam Convention, on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade, held in Geneva, Switzerland, from 20th to 24th June 2011, unanimously agreed to include Alachlor, Aldicarb and Endosulfan in the list of pesticides in Annex III of the Convention, included them in the list of chemicals subject to the PIC Procedure as well. In line with the Decisions RC-573, RC-5/4 and RC-5/5, entered into force on 24 October 2011.</p>		
Costa Rica	<p>Final decision on import</p> <p>Published: 06/2013</p> <p>consent under conditions</p> <p>Conditions for Import: The pesticide must be previously registered with the State Phytosanitary Service.</p> <p>Legislative or administrative measures: 1. Plant Protection Act No. 7664:</p>

Ecuador	Final decision on import Legislative or administrative measures: Resolution No.178 of 11 October 2011, signed by the Executive Director of AGROCALIDAD, banning the import of products containing Endosulfan and its mixtures, cancelling all registration procedures and re-evaluation of products containing Endosulfan and its mixtures, Registers of products containing Endosulfan and its mixtures will be cancelled as from the 30 of June 2012, and a six months grace period will be granted from the cancellation of the records (31 December 2012) for Endosulfan products and mixtures to be recalled from the Ecuador market.	Published: 06/2012	no consent
El Salvador	Interim decision on import Conditions for Import: It needs to be registered in the Ministry of Agriculture and Livestock. Restricted use regulated under Agreement No. 18 of Ministry of Agriculture and Livestock.	Published: 06/2012	consent under conditions
European Union	Final decision on import Remarks: In accordance with Regulation (EC) No 1272/2008, which implements the UN Globally Harmonised System of Classification and Labelling of Chemicals in the EU, endosulfan is classified as: Acute Tox. 2* - H 330 - Fatal if inhaled. Acute Tox. 2* - H 300 - Fatal if swallowed. Acute Tox. 4* - H 312 - Harmful in contact with skin. Aquatic Acute 1 - H 400 - Very toxic to aquatic life. Aquatic Chronic 1 - H 410 - Very toxic to aquatic life with long lasting effects. (* = This classification shall be considered as a minimum classification) In accordance with Council Directive 67/548/EEC endosulfan is classified as: T+; R26/28 - Very toxic by inhalation and if swallowed. Xn; R21 - Harmful in contact with skin. N (dangerous for the environment); R50/53 - Very toxic to aquatic organisms, may cause long-term adverse effect in the aquatic environment. Legislative or administrative measures: It is prohibited to place on the market or use plant protection products containing endosulfan, since this active substance is not approved under Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC (OJ L 309, 24.11.2009, p. 1), pursuant to Commission Decision 2005/864/EC of 2 December 2005 concerning the non-inclusion of endosulfan in Annex I to Council Directive 91/414/EEC and the withdrawal of authorisations for plant protection products containing this active substance (OJ L 317, 3.12.2005, p. 25). Furthermore, it is prohibited to place on the market or use biocidal products containing endosulfan since this active substance is not authorized under Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market (OJ L 123, 24.04.1998, p. 1),	Published: 12/2012	no consent

pursuant to Commission Regulation (EC) No 1451/2007 of 4 December 2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market (OJ L 325, 11.12.2007, p. 3).

** : These countries are currently PARTICIPATING STATES to the Rotterdam Convention. They are however listed here since they are Member States of the European Community (EC), which is a Party and whose import responses, in accordance with EC legislation, cover all its Member States

Georgia	Final decision on import	Published: 06/2012	no consent
	Legislative or administrative measures: Restricted and strictly limited chemical substances and pesticides' import-export in Georgia is regulated by the Rotterdam Convention "On The Prior Informed consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade", Georgian Law of 1998 on "Pesticides and Agrochemicals" and Decree N184 of Government of Georgia of 28th September, 2006 "On Statute about Transit Permit Issuance, Limited Circulating Material Production, Transportation, Import, Export, Re-export, and on Approval of the List of Limited Circulating Materials".

	Legislative or administrative measures: Banned for use, production and import as pesticide product based on the resolution of 23 September 2010 under the Pesticides Control Act 1968.		
Japan	Final decision on import	Published: 06/2012	no consent
	Legislative or administrative measures: Agricultural Chemicals Regulation Law.		
Kuwait	Final decision on import	Published: 06/2013	no consent
	Legislative or administrative measures: Based on the ministerial decree (95 of the year 1995) that states forbidding the registration and commercial use of the substance in the state of Kuwait due to its health and environmental hazardous effects.		
Liechtenstein	Final decision on import	Published: 12/2012	no consent
	Legislative or administrative measures: Endosulfan is banned as agricultural chemical (it is not listed on annex I of the Ordinance on Plant Protection Products, which entered into force in July 2011). Endosulfan is not on the list of active substances to be examined under the EU review programme (Annex II of the COMMISSION REGULATION (EC) No 1451/2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market). The Swiss Ordinance on Biocide Products (entered into force in May 2005) adopts the same biocide active ingredients as the EU. Endosulfan is not authorized in biocide preparations.		
Madagascar	Final decision on import	Published: 06/2012	no consent
	Legislative or administrative measures: Interministerial Decree N°45.555/2011 of 28/12/2011 banning the import, distribution, sale, use and manufacturing of some pesticide active materials in agriculture and of chemicals of the industrial sector.		
Malawi	Final decision on import	Published: 12/2012	no consent
	Remarks: Endosulfan is no longer used in the tea and coffee industry, following complaints about residues found in the products the industry stopped using it. Nobody imports it any longer.		

Malaysia	Final decision on import Published: 12/2012 consent under conditions Conditions for Import: Importation of small quantities of endosulfan active ingredient for research and educational purposes may be permitted provided approval is obtained from the Pesticides Board. Remarks: Endosulfan has been deregistered since 15/11/2005. As such, no endosulfan is permitted to be imported, manufactured, exported, used and sold. Legislative or administrative measures: Pesticides Act 1974 Customs (Prohibition of Import/Export) 2008
Mauritania	Final decision on import Published: 12/2012 no consent Legislative or administrative measures: This product has not been authorized by the Sahelian Committee on Pesticides (Regional Authority for Pesticides Registration for the 9 CILSS countries, among which Mauritania).
Mexico	Final decision on import Published: 06/2012 consent under conditions Conditions for Import: Registration issued by the Mexican Authority and import license, are required. Legislative or administrative measures: Regulation on Registration, Import - Export Authorizations, and Export Certificates for: Pesticides, Fertilizers and Substances, and Toxic or Hazardous Materials. Agreement establishing classification and codification of goods, which import and export is subject to regulation by Agencies of the Inter Secretariat Commission for the Control Process and Use of Pesticides, Fertilizers and Toxic Substances.
Morocco	Final decision on import Published: 06/2013 no consent Legislative or administrative measures: The pesticide has been withdrawn from the market (Opinion of the Commission for agricultural pesticides, meeting of 22 April 2010). <u>Act No. 42-95 concerning the supervising and management of trade of agricultural pesticides (21st January 1997:</u> Article 5 : if, following a new event or because of its use or following new examination a product no longer meets the requirements of efficacy and harmlessness for men, animals and their environment, registration or sale authorization are withdrawn.
New Zealand	Final decision on import Published: 12/2012 no consent Legislative or administrative measures: On 15 December 2008, the Environmental Risk Management authority of New Zealand, under the Hazardous Substances and New Organisms Act (HSNO), revoked all approvals for the import, manufacture or use of endosulfan and endosulfan products. The ban (including on use) took effect from 16 January 2009 and all existing stocks had to be disposed of by 16 January 2010. The revocation of approvals followed a reassessment carried out under the provisions of section 63 of HSNO, which included a determination that the environmental and human health risks associated with the use of the products outweighed the benefits obtained from its use. In August 2011, HSNO was amended to expressly prohibit the import of endosulfan.
Niger	Interim decision on import Published: 06/2012 no consent
Norway	Final decision on import Published: 12/2012 no consent Legislative or administrative measures: In a Decree of the Norwegian Agricultural Inspection Service of 20.12.94 it was decided to ban all use, import and marketing of endosulfan compounds in Norway after 01.01.1999. Pesticide registration in Norway is regulated by the Pesticide Act of 5 April 1963.
Panama	Final decision on import Published: 12/2013 consent Remarks: According to Resolution No.32, of 8 June 2006, the use of Endosulfan active ingredient has been restricted given the high toxicity to aquatic fauna. This restriction includes the following: 1) Do not allow aerial

	<p>applications; 2) Do not allow applications in rice farming areas or other applications that may contaminate water sources by improper use.</p> <p>Legislative or administrative measures: By Executive Decree No. 305 of September 4th, 2002, of the Ministry of Health, published in the Official Gazette No. 24634 of September 9th, 2002, it was established a national legislative action. In its third article it states: "The substances or products described in Annex 1, are considered controlled hazardous substances and materials; and their residues are hazardous wastes". Endosulfan is the substance No. 336 of Annex 1 to this Decree.</p> <p>Endosulfan active ingredient, in all its forms, is of restricted use in agriculture by Resolution No.32, of 8 June 2006, of the Ministry of Agriculture, and published in the Official Gazette No. 25584 of 10 Julio 2006.</p>		
Peru	Final decision on import	Published: 06/2013	no consent
	<p>Legislative or administrative measures: Administrative Resolution No. 013-2012-AG-SENASA published in the Official Journal on 1.2.2012.</p>		
Philippines	Interim decision on import	Published: 06/2013	response did not address importation
Republic of Moldova	Interim decision on import	Published: 06/2012	no consent
	<p>Remarks: The chemical has never been manufactured in the Republic of Moldova.</p>		
Serbia	Final decision on import	Published: 12/2012	no consent

Ethylene dichloride

CAS: 107-06-2

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, ethylene dichloride is not included.	Published: 06/2013	no consent
Argentina	Final decision on import Conditions for Import: The Degree 3489/1958 established that all products determined for treatment and control of enemies of animals and plants cultivated or used, which are commercialized in the country, have to be registered in the National Register of Plant Therapy. The Resolution SAGPy A No.; 350/99 established the registration requirements for phytosanitary products in the Republic of Argentina. Remarks: Product not commercialized in Argentina.	Published: 12/2002	consent under conditions
Armenia	Final decision on import Remarks: The chemical has never been manufactured, formulated in the Republic of Armenia. The chemical is not included in the "List of chemical and biological plant protection measures allowed for use in the Republic of Armenia", approved by the Order of the Minister of Agriculture of the Republic of Armenia No 198 dated 18 November 2003. Legislative or administrative measures: The chemical is included in the "List of regulated under the Rotterdam Convention chemicals and pesticides banned in the Republic of Armenia" approved by the Governmental Decision of the Republic of Armenia (No293-N dated 17 March 2005)	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Subject to registration, exemption or permit under the Agricultural and veterinary Chemical Code Act 1994.	Published: 06/2002	consent under conditions
Belize	Final decision on import Legislative or administrative measures: Classified as a prohibited pesticide in Schedule IV of the Pesticides Control Act of 1985, Chapter 181B of the Laws of Belize, and in the Pesticides Control (replacement of Schedules) Order, 1995.	Published: 12/2005	no consent
Benin	Interim decision on import Statement of active consideration: Information available on accidents caused by this pesticide	Published: 06/2014	no consent
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Legislative or administrative measures: Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or	Published: 12/2004	no consent

	use.		
Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelian Pesticides Committee (CSP) meeting.	Published: 12/2006	no consent
Burundi	Final decision on import Remarks: Such as for ethylene oxide, ethylene dichloride has never been traded or used in Burundi. Considering its carcinogenicity , it was decided to include it on the list of banned products in Burundi.	Published: 12/2001	no consent
Canada	Final decision on import Legislative or administrative measures: Chemical not registered for pest control in Canada.	Published: 06/2003	no consent
Cabo Verde	Final decision on import Legislative or administrative measures: The pesticide has not been registered by the Sahelian Pesticide Committee which is the regional organization in charge of pesticides registration according to national legislation, Act n° 26/97	Published: 12/2008	no consent
Chad	Final decision on import Remarks: RAS Legislative or administrative measures: The product is toxic, especially by inhalation due to its high vapor pressure, it is corrosive to the eyes, to the respiratory tract and the skin ; it is highly inflammable. The product is not registered in the CLISS CEMAC sub-region	Published: 06/2014	no consent
Chile	Final decision on import Remarks: The measure is based on the absence of authorisation as an agricultural pesticide for this substance; such authorisation can be obtained from the Agricultural and Husbandry Service; without authorisation, it is not possible to import, manufacture, distribute, sell or use this pesticide in Chile. To get the authorisation, it is necessary to comply with strict norms at the national level, indicating the procedures, evaluations and information necessary to get the authorisation.	Published: 06/2002	no consent
China	Final decision on import Legislative or administrative measures: Regulations on Pesticide Administration. <ul style="list-style-type: none">Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: No consent to import. European Union	Final decision on import	Published: 12/2001	no consent
Member States: <i>Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta**, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom of Great Britain and Northern Ireland</i>		Revised: 10/2008	
	Remarks: Ethylene dichloride is classified under Council Directive 67/548/EEC of 27 June 1967 on the approximation of Laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances (OJ L 196, 16.8.1967, p.1) as F; R11-Carc.Cat.2; R45-Xn; R22-Xi; R36/37/38. R45: May cause cancer. R11: Highly flammable. R22: Harmful if swallowed. R36/37/38: Irritating to eyes, respiratory system and skin. It has been classified by the EC as a category 2 carcinogen (probably carcinogenic to humans).		
	Legislative or administrative measures: It is prohibited to use or place on the market all plant protection products containing 1,2-dichloroethane as an active ingredient according to Council Directive 79/117/EEC of 21 December 1978 prohibiting the placing on the market and use of plant protection products containing certain active substances (OJ L33, 8.2.1979, p. 36), as last amended by Regulation (EC) 850/2004 of 29/04/2004 (OJ L 229 of 29/06/2004, p.5).		
	**: These countries are currently PARTICIPATING STATES to the Rotterdam Convention. They are however listed here since they are Member States of the European Community (EC), which is a Party and whose import responses, in accordance with EC legislation, cover all its Member States		
Gabon	Final decision on import	Published: 12/2001	no consent
	Remarks: Considering the protective measures taken for this chemical product and also our under-equipment, we are not in a position to authorize its import.		
Gambia	Final decision on import	Published: 12/2008	no consent
	Legislative or administrative measures: Hazardous Chemicals and pesticides Control Management Act of 1994 The pesticide is not registered by the Sahelian Pesticide Committee of which the Gambia is a member.		
Ghana	Interim decision on import	Published: 12/2004	consent under conditions
	Conditions for Import: The import should obtain import permit from the Environmental Protection Agency of Ghana containing information including but no limited to: - Quantity of chemical to be imported; - Source of chemical (exporting country); - End use(s) of the chemical within Ghana.		
	Statement of active consideration: A survey needs to be conducted to determine if the chemical is currently being used in Ghana or if it would be required in the country and for what proposes.		
Guinea	Interim decision on import	Published: 06/2006	no consent
	Statement of active consideration: A final decision should be taken, two years		

Guinea-Bissau	Final decision on import Legislative or administrative measures: The product has not been authorized by the Sahelien Pesticide Committee (CSP).	Published: 12/2010	no consent
Guyana	Final decision on import Legislative or administrative measures: Administrative decision of the Pesticides and Toxic Chemicals Control Board. The product is not registered nor any application for registration has been received for this product as a pesticide.	Published: 12/2007	no consent
India	Final decision on import Conditions for Import: The import of ethylene dichloride is permitted only in the form of ethylene dichloride + carbon tetrachloride mixture in the ratio of 3:1. Remarks: Decision of the Registration Committee in its meeting. The registration Committee is a statutory body which registers pesticides for import/manufacture in the country.	Published: 12/2001	consent under conditions
Iran (Islamic Republic of)	Final decision on import Conditions for Import: Allowed to be used in industry but prohibited for use as plant protection product. Legislative or administrative measures: Banned for use and import as a plant protection product based on the Resolution of 29 August 1999, under "The Pesticide Control Act" 1968.	Published: 06/2005	consent under conditions
Israel	Final decision on import Legislative or administrative measures: 1. Plant Protection Law, 1956 2. Hazardous Substances Regulations (Registration of Formulations for the Control of Pests Harmful to Man), 1994 3. Free Import Order, 2006	Published: 06/2012	no consent
Jamaica	Final decision on import Legislative or administrative measures: Legislative or administrative measures - The pesticides Act of 1975 allows importation of registered pesticides only. This pesticide was registered as an active ingredient with ethylene oxide and is due for registration. Issued by the Pesticides Control Authority.	Published: 06/2001	no consent
Japan	Final decision on import Conditions for Import: For agricultural pesticide, a domestic importer is required to register with both the Minister of Agriculture, Forestry and Fisheries. No consent to import of pesticide except agricultural uses. Legislative or administrative measures: 1. Agricultural Chemicals Regulation Law 2. Pharmaceutical Affairs Law	Published: 12/2004	consent under conditions
Jordan	Final decision on import Remarks: The decision was taken by the Pesticide registration committee due to the information received from the PIC.	Published: 12/2001	no consent
Kenya	Final decision on import Remarks: Ethylene dichloride is banned for use in the country Legislative or administrative measures: The pest control products act cap 346 - laws of kenya empowers The pest control products board to make final decisions	Published: 06/2007	no consent
Kyrgyzstan	Final decision on import	Published: 06/2007	no consent
Lebanon	Final decision on import Legislative or administrative measures: Ministerial decision # 94/1 Dated 20/05/1998	Published: 12/2003	no consent

Ethylene oxide

CAS: 75-21-8

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, ethylene oxide is not included.	Published: 06/2013	no consent
Argentina	Final decision on import Conditions for Import: The Degree 3489/1958 established that all products determined for treatment and control of enemies of animals and plants cultivated or used, which are commercialized in the country, has to be registered in the National Register of Plant Therapy. The Resolution SAGPy A No.; 350/99 established the registration requirements for phytosanitary products in the Republic of Argentina. Remarks: Product not commercialized in Argentina.	Published: 12/2002	consent under conditions
Armenia	Final decision on import Remarks: The chemical has never been manufactured, formulated in the Republic of Armenia. The chemical is not included in the "List of chemical and biological plant protection measures allowed for use in the Republic of Armenia", approved by the Order of the Minister of Agriculture of the Republic of Armenia No 198 dated 18 November 2003. Legislative or administrative measures: The chemical is included in the "List of regulated under the Rotterdam Convention chemicals and pesticides banned in the Republic of Armenia" approved by the Governmental Decision of the Republic of Armenia (No293-N dated 17 March 2005)	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Subject to approval, registration, exemption or permit under the <i>Agricultural and Veterinary Chemical Code Act 1994</i> . Remarks: Industrial use of this chemical also occurs in Australia. Legislative or administrative measures: <i>Agricultural and Veterinary Chemical Code Act 1994</i> .	Published: 12/2004	consent under conditions
Belize	Final decision on import Legislative or administrative measures: Classified as a prohibited pesticide in Schedule IV of the Pesticides Control Act of 1985, Chapter 181B of the Laws of Belize, and in the Pesticides Control (replacement of Schedules) Order, 1995.	Published: 12/2005	no consent
Benin	Interim decision on import Statement of active consideration: Information available on accidents caused by this pesticide	Published: 06/2014	no consent
Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Legislative or administrative measures: Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use.	Published: 12/2004	no consent

Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelian Pesticides Committee (CSP) meeting.	Published: 12/2006	no consent
Burundi	Final decision on import Remarks: Ethylene oxide has never been imported, traded, nor used in Burundi. Considering its adverse effects (carcinogenicity and mutagenicity) on human beings, it was decided to include it on the list of banned products in Burundi.	Published: 12/2001	no consent
Canada	Final decision on import Legislative or administrative measures: Ethylene oxide is currently registered for use under the Pest Control Products Act in Canada.	Published: 06/2012	consent
Cabo Verde	Final decision on import Legislative or administrative measures: The pesticide has not been registered by the Sahelian Pesticide Committee which is the regional organization in charge of pesticides registration according to national legislation, Act n° 26/97	Published: 12/2008	no consent
Chad	Final decision on import Remarks: RAS Legislative or administrative measures: Epidemiological studies in humans have shown a high rate of lymphocytic and stomach cancer in people exposed to ethylene oxide. The product is not registered in the CLISS CEMAC sub-region	Published: 06/2014	no consent
Chile	Final decision on import Remarks: The measure is based on the absence of authorisation as an agricultural pesticide for this substance; such authorisation can be obtained from the Agricultural and Husbandry Service; without authorisation, it is not possible to import, manufacture, distribute, sell or use this pesticide in Chile. To get the authorisation, it is necessary to comply with strict norms at the national level, indicating the procedures, evaluation and information necessary to get the authorisation.	Published: 06/2002	no consent
China	Final decision on import Remarks: Only permit to use as fumigant for empty storehouses, containers and cabins in China. Legislative or administrative measures: Regulations on Pesticide Administration. <ul style="list-style-type: none">Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: No consent to import.	Published: 12/2004 Revised: 10/2008	no consent
Colombia	Final decision on import Conditions for Import: The product is not registered for domestic sale to the Colombian Agricultural Institute (ICA), thus can't be imported, manufactured, formulated, distributed, commercialised or used in Colombia as Chemical Pesticide for Agricultural use. However, the only permitted use is as a sanitizer under the conditions laid down in Decree 1669 of 2002, "Article 8": Amended Decree 2676 of 2000, Article 15, which reads: "Use of Ethylene Oxide and Hexachlorophene. The manufacturers regulated by this Decree, shall remove in a period not exceeding 3 years, the use of Ethylene Oxide in mixtures with chlorofluorocarbons CFC and in mixtures with hydrochlorofluorocarbons HCFC compounds, as well as in non-automated systems". In any case must be ensured that the maximum occupational exposure allowed should not be exceed in any area within the Health System, as identified by the American Association of Industrial Hygienists ACGIH, for the Ethylene Oxide. Remarks: Decree No.1220 published in Official Gazette No.45890 of 25 April	Published: 12/2010	consent under conditions

	<p>2005, Title II, on the need of Environmental Licenses, in its Article 8th determined that the Ministry of Environment, Housing and Territorial Development is the one and only authority to grant or deny environmental licenses for the activities: "12. The import and production of pesticides and substances, materials or products subject to control under International Agreements, Conventions and Protocols, and the import of chemical pesticides for agricultural use shall follow the procedure outlined in the Andean Decision 436 of the Cartagena Agreement and its regulations".</p> <p>Legislative or administrative measures: Legislative or administrative measure: In compliance with Andean Nations Decision No.436; Andean Regulation for the Registration and Control of Chemical Pesticides for Agricultural Use, published in Official Gazette (year XIV, No.347, in Lima, Peru, 17 June 1988, regarding Cartagena Agreement) and Resolution ICA No.03759, of 16 December 2003, enacting provisions on the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and commercialised in the country.</p> <p>Decree 1669 of 2002, "which partially modified Decree 2676 of 2000", published in Official Gazette 44892 of 6 August 2002..</p>

Monocrotophos

CAS: 6923-22-4

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, monocrotophos is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Interim decision on import Statement of active consideration: Revision of the pesticide board control act 1973 in preparation of the pesticides and toxic chemicals control act 2002.	Published: 12/2003	no consent
Argentina	Final decision on import Remarks: Prior to the prohibition, it was formulated for use in the national territory Legislative or administrative measures: Resolution SAGPyA N° 181/99. Published in the Official Bulletin: 24 June 1999. Ban the import, trade and use of the active ingredient. Monocrotophos and its formulations, in all the territory of the Argentine Republic.	Published: 12/2006	no consent
Armenia	Final decision on import Remarks: The chemical has never been manufactured, formulated in the Republic of Armenia. The chemical is not included in the "List of chemical and biological plant protection measures allowed for use in the Republic of Armenia", approved by the Order of the Minister of Agriculture of the Republic of Armenia No 198 dated 18 November 2003. Legislative or administrative measures: The chemical is included in the "List of regulated under the Rotterdam Convention chemicals and pesticides banned in the Republic of Armenia" approved by the Governmental Decision of the Republic of Armenia (No293-N dated 17 March 2005)	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: The conditions in the Agricultural and Veterinary Chemical Code Act 1994 Remarks: Potential exporters should note that the Australian National Registration Authority for Agricultural and Veterinary Chemicals (NRA) cancelled the registrations and all relevant approvals (including the active constituent approval) for monocrotophos in 1999. The NRA indicated in the NRA Gazette No. NRA 1, 4 January 2000 that it 'has not, and does not intend to, issue any approvals under s.69B of the Agricultural and Veterinary Chemicals (Administration) Act 1992 in respect of monocrotophos or products containing monocrotophos'. Legislative or administrative measures: Agricultural and Veterinary Chemical Code Act 1994	Published: 12/2003	consent under conditions
Belize	Final decision on import Legislative or administrative measures: One monocrotophos formulation (60%) currently registered in Belize, and is included in the Official Register of Pesticides.	Published: 12/2005	consent under conditions

Colombia	Final decision on import Conditions for Import: In line with the information from the Technical Department of Agricultural Inputs Safety of ICA, Monocrotophos holds the following Sales Records: 1251, 1603, 1636, 2270, 2411, 2461, 2597, 3322, and 3528. These are the only authorised uses as insecticide-acaricide, for pests in cotton, rice, beans, tobacco, soybean, sesame, peanuts, cassava, snap beans and potato. Remarks: Decree No. 2820 of 2010, published in the Official Journal No. 47792 of 5th August 2010, Title II, on the exigibility of Environmental Licenses, in Article 8, established that the Ministry of Environment, Housing and Territorial Development, may permanently grant or deny such environmental license for the activities (...) "11. The import and/or manufacturing of those substances, materials or products subject to controls pursuant to treaties, conventions and international protocols, of environmental nature, except in cases where these rules point out a special authorisation for such purpose". Legislative or administrative measures: In line with the Andean Decision of Nations No.436; Andean Standard for the Registration and Control of Chemical Pesticides for Agricultural use, published in Official Journal (Year XIV, No.347, in Lima, Peru, on 17th June 1988, on the Cartagena Agreement), and the Resolution of the Colombian Institute for Agriculture and Farming (ICA) No.03759 of 16th December 2003, to enact provisions for the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and marketed in the country. IMPORTANT NOTE: According to information from the Technical Department of Agricultural Inputs Safety of ICA, Monocrotophos formulations, registered in concentrations of 400 and 600 g/l, can be imported in Colombia as insecticide-acaricide to control pests in crops of: cotton, rice, beans, tobacco, soybean, sesame, peanuts, cassava, snap beans and potato. Only the company owning the mentioned register may import the product.	Published: 06/2012	consent under conditions

United Arab Emirates	Final decision on import	Published: 07/1998	no consent
United Republic of Tanzania	Final decision on import Remarks: Not registered.	Published: 01/1998	no consent
Uruguay	Interim decision on import Remarks: The only existing legislative measure which specifically refers to sodium pentachlorophenolate is: Resolution of Animal Sanitary Direction (Ministry of Livestock, Agriculture and Fisheries MGAP) 2 February 1990: - Import banned of sodium pentachlorophenolate, registered in this Direction with No 2661, 3936, 5053 and 4565 from 1 February 1990. - Product banned for bathing sheep, to prevent or treat parasites from 1 July 1990. This resolution concerns only formulations and uses indicated, and can't be extended to other formulations and possible agricultural and industrial uses. There's another MGAP resolution 23 September 1997, general for organochlorine, establishing "to revoke the register and sale authorization for organochlorine insecticides for all agricultural uses" with exception of dodecachloro and endosulfan. Thus it is presently impossible to register products for agricultural use with pentachlorophenol and its salts. These solutions restrict their preparations register; however, the import for any destination or use not implying registration is possible. At present sodium pentachlorophenolate preparations are imported for wood treatment, formulations are no imported at a national level. These do not have to meet any special condition before being imported. In the past pentachlorophenol formulations have been elaborated, there's no evidence of use actually. Uses are: leather treatment, sheep baths and wood treatment. Imports have been registered until 1998 included, in the customs register for corresponding pentachlorophenol and its salts in chapter 29 of common external Custom.	Published: 12/2006	consent

Toxaphene (Camphechlor)

CAS: 8001-35-2

Albania	Final decision on import Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, toxaphene is not included.	Published: 06/2013	no consent
Antigua and Barbuda	Final decision on import Legislative or administrative measures: Final decision based on the policy of the Pesticides and Toxic Chemicals Control Board of Antigua and Barbuda, not to register for use in the country chemicals listed in annexes A, B or C of the Stockholm Convention once viable alternatives are readily available.	Published: 06/2014	no consent
Argentina	Final decision on import Legislative or administrative measures: Resolution SAGP and A, NO.750/2000 Published on the Congressional Record, November 2, 2000. Prohibits: importation, manufacturing, processing commercialisation and use of active ingredient Camphechlor, and all the phytosanitary products formulated on basis of it.	Published: 12/2002	no consent
Armenia	Final decision on import Remarks: The chemical has never been manufactured, formulated in the Republic of Armenia. The chemical was not included in the "List of chemicals, biological substances, heavy metals or their compounds and other substances, which have negative impact on the ecosystem of Lake Sevan" approved by the Governmental Decision No.57 dated 24 January 2002. The chemical is not included in the "List of chemical and biological plant protection measures allowed for use in the Republic of Armenia", approved by the Order of the Minister of Agriculture of the Republic of Armenia No 198 dated 18 November 2003. Legislative or administrative measures: The chemical is included in the "List of regulated under the Rotterdam Convention chemicals and pesticides banned in the Republic of Armenia" approved by the Governmental Decision of the Republic of Armenia (No293-N dated 17 March 2005).	Published: 12/2006	no consent
Australia	Final decision on import Remarks: Agricultural and Veterinary Chemicals Code Act 1994	Published: 12/2001	no consent
Belize	Final decision on import Legislative or administrative measures: Classified as a prohibited pesticide in Schedule IV of the Pesticides Control Act of 1985, Chapter 181B of the Laws of Belize, and in the Pesticides Control (replacement of Schedules) Order, 1995.	Published: 12/2005	no consent
Benin	Interim decision on import Conditions for Import: Authorization of the Ministry of the environment after opinion of the National Committee for the Approval and the Control of Plant Protection Products. Legislative or administrative measures: List of pesticides authorized by the National Committee for the Approval and the Control of Plant Protection Products. Statement of active consideration: Information available on accidents caused by this pesticide.	Published: 06/2014	consent under conditions

Bosnia and Herzegovina	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)	Published: 12/2011	no consent
Brazil	Final decision on import Remarks: There is no pesticide registered for any purpose. Legislative or administrative measures: Directive No. 329 of 2 September 1985 - Prohibit the trade, use and distribution of the pesticides for agricultural use, including toxaphene. Law No. 7.802 of 11 July 1989 and Decree No. 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use.	Published: 12/2004	no consent
Burkina Faso	Final decision on import Legislative or administrative measures: Results of the Sahelian Pesticides Committee (CSP) meeting.	Published: 12/2006	no consent
Burundi	Final decision on import Legislative or administrative measures: The use of toxaphene as a pesticide for agricultural purposes has been prohibited in Burundi because of its persistence in the environment, the bioaccumulation of residuals in the food chain and its carcinogenic and mutagenic effects. It is prohibited in Burundi under N. 2003-01-P001 by Ministerial Ordinance N. 710/405 of 24th March 2003.	Published: 06/2003	no consent
Canada	Final decision on import Legislative or administrative measures: Chemical not registered for pest control in Canada.	Published: 06/2003	no consent
Cabo Verde	Final decision on import Legislative or administrative measures: The pesticide has not been registered by the Sahelian Pesticide Committee which is the regional organization in charge of pesticides registration according to national legislation, Act n° 26/97	Published: 12/2008	no consent
Chad	Final decision on import Remarks: None Legislative or administrative measures: The contamination of the aquatic environment may be a threat to human beings. Exposure to the product may have considerable effects on human health The product is not registered in the sub-region CLISS CEMAC	Published: 06/2014	no consent
Chile	Final decision on import Legislative or administrative measures: Legislative or administrative measures - Through the Resolution No. 2179 of 27 July 1998, the Service of Agriculture and Husbandry, from the Ministry of Agriculture, prohibited to import, to manufacture, to sell, to distribute and to use the agricultural pesticides based on toxaphene or camphechlor.	Published: 12/1999	no consent

Part 2 - Listing of all importing responses received from Parties

Tributyl tin compounds

CAS: 1461-22-9, 1983-10-4, 2155-70-6, 24124-25-2, 4342-36-3, 56-35-9, 85409-17-2

Albania	Final decision on import	Published: 06/2013	no consent
<p>Legislative or administrative measures: Law no. 9362 dated 24/03/2005 on "Plant Protection Service", as amended. Decision of the Council of Ministers no. 1555, dated 12.11.2008 "On approval of rules of registration and assessment criteria of Plant Protection Products (PPP)." According to paragraph 7.2, Chapter II, PPP may be registered for trade and use in the Republic of Albania, if its active substance(s) is/are included in Appendix II, attached to this decision. In this Annex, all tributyltin compounds are not included.</p>			
Argentina	Interim decision on import	Published: 12/2009	consent
Australia	Final decision on import	Published: 06/2011	consent under conditions
<p>Conditions for Import: The importation of unapproved active constituents and unregistered chemical products is prohibited under section 69B of the Agricultural and Veterinary Chemicals (Administration) Act 1992. TBT may be imported into Australia without restriction if associated with an approved active constituent or registered product(s). The status of registrations and approvals may change. Companies intending to import into Australia are advised to consult http://services.apvma.gov.au/PubcrisWebClient/welcome.do for currently registered products.</p> <p>Remarks: It is unknown if the manufacturer/formulator intends to export the product. Any proposed export would be assessed against country import responses in the PIC Circular.</p> <p>Legislative or administrative measures: Agricultural and Veterinary Chemicals (Administration) Act 1992. More information at http://www.apvma.gov.au/about/legislation/index.php</p>			
Bosnia and Herzegovina	Final decision on import	Published: 12/2011	no consent
<p>Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in Bosnia and Herzegovina ("Official Gazette of BiH" No 11/11)</p>			
Brazil	Final decision on import	Published: 12/2009	no consent
<p>Legislative or administrative measures: There is no pesticide registered for any purpose, no intention of acceptance. Federal Law n° 7.802 of 11 July 1989 and Decree n° 4.074 of 04 January 2002 - Pesticides and its compounds need to be registered by the Federal Authority prior to produce, export, import, trade or use, according to the guidelines and requirements of ministry responsible for the sectors of health, environment and agriculture.</p>			
Burkina Faso	Final decision on import	Published: 12/2010	no consent
<p>Legislative or administrative measures: The Sahelien Committee on Pesticides (SCP) did not authorize the product. Burkina Faso applies the decisions taken by the SCP.</p>			
Burundi	Final decision on import	Published: 12/2010	no consent
<p>Remarks: Pesticides which are Tributylétain compounds have never been imported, sold, stocked or used in agriculture in Burundi. Legislative or administrative measures: Considering the risk to non targeted aquatic organisms, its persistence in the environment et its accumulation in aquatic organisms, the exposure of operators and the risks linked to the consumption of contaminated food, the use of all Tributyletain compounds as pesticide in agriculture has been banned in Burundi by ministerial order n°</p>			

	710/690 of 21th April 2010. These compounds are registered in the register of banned pesticides under the respective following numbers: 2010-10-P001; 2010-10-P002; 2010-10-P003; 2010-10-P004; 2010-10-P005; 2010-10-P006; 2010-10-P007.		
Canada	Final decision on import Conditions for Import: As a result of regulatory action, no tributyl tin compounds are registered under the Pest Control Products Act except tributyltin oxide. Remarks: Only tributyltin oxide is registered under the Pest Control Products Act and to be phased out by December 31, 2014, with a last date of registrant sale of December 31, 2012. The other tributyl tin products are not registered under the Pest Control Products Act.	Published: 06/2012	consent under conditions
Chad	Final decision on import Remarks: RAS Legislative or administrative measures: The product is a pollutant, an endocrine disrupter and is toxic. The product is not registered in the CLISS CEMAC sub-region.	Published: 06/2014	no consent
Chile	Interim decision on import Conditions for Import: Importation is allowed only for the chemical Tributyltin Naphtenate, CAS 85409-17-2, because is the only one registered in the Pesticide Register for Agricultural Use of the Agricultural and Livestock Service (SAG). Remarks: At present in Chile, there's only one pesticide for agriculture and forestry use with this active ingredient authorised by the SAG, which is the pesticide PROTIM S 65, SAG Authorisation N° 2603. The company Comercial Osmose Chile Ltd, holder of this pesticide register, through a letter dated May 28, 2009 informed this Service that additional imports of this product are not considered.	Published: 06/2011	consent under conditions
Colombia	Final decision on import Remarks: Decree 2820 of 2010 (August 5, 2010), regulating the Title VIII, Law 99 of 1993 on environmental licensing, in Title II, on the enforceability of Environmental Licenses, in Article 8 identifies the competence of the Ministry of Environment, Housing and Territorial Development to grant or exclusively deny the environmental license for the following activities: 10 Production and import of pesticides in the following cases: a) Pesticides for agricultural use, with the exception of biological origin pesticides from natural extracts. The import of chemical pesticides for agricultural use shall follow the procedure established in the Andean Decision 436 of 1998, or the act that would amend or replace this decision; b) Pesticides or veterinary pesticides, except those for pet topical use and accessories such as earrings, necklaces, nose rings, etc.; c) Pesticides for public health use; d) Pesticides for industrial use; e) Pesticides for household use, except those for domestic use individually packaged. 11. The import and /or production of those substances, materials or products subject to control under international environmental treaties, conventions and protocols, except in cases of special authorizations. In case of evaluation and decision of Living Modified Organisms (LMOs), procedures laid down by Law 740 of 2002 (and the regulatory decrees or rules that would modify, replace or derogate this law), will be only applied. Legislative or administrative measures: Legislative or administrative measure. Pursuant to the Andean Nations Decision No. 436 of 1998; Andean Regulation for the Registration and Control of Chemical Pesticides for Agricultural Use, published in the Official Gazette (year XIV, No. 347, in Lima, Peru on June 17, 1998, on the Cartagena Agreement) and Resolution of the Agricultural Colombian Institute (ICA) No. 03759 of 16 December 2003, laying down the provisions for the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and marketed in the country. IMPORTANT NOTE: According to the information of the Technical Directorate of Safety and Agricultural Inputs (ICA), the product is not registered for domestic sale in the Colombian Agricultural Institute (ICA), and imports, manufacture, formulation, distribution, sale or use are banned in Colombia.	Published: 06/2014	no consent

Democratic Republic of the Congo	Final decision on import Legislative or administrative measures: Circular note No. 5011/0195/AGRI/PE.EL/2012 of 16 February 2012 concerning the implementation of the Rotterdam Convention, Section V, Article 19 : the use of all chemicals listed in Annex III of the Rotterdam Convention is prohibited in the DRC.	Published: 06/2012	no consent
Dominican Republic	Final decision on import	Published: 12/2010	consent
El Salvador	Interim decision on import	Published: 12/2009	consent
Eritrea	Final decision on import Legislative or administrative measures: Legal Notice N° 113/2006. Regulations for Importation, Handling, Use, Storage and Disposal of Pesticides	Published: 06/2010	no consent
Ethiopia	Final decision on import Legislative or administrative measures: Pesticide Registration and Control Special decree N° 20 1990 does not allow the importation of unregistered pesticide for use.	Published: 06/2010	no consent
European Union <i>Member States:</i> <i>Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta**, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom of Great Britain and Northern Ireland</i>	Final decision on import Remarks: In accordance with Council Directive 67/548/EEC tributyltin compounds are classified as: T (toxic): R25 - toxic if swallowed; R48/23/25 - toxic, danger of serious damage to health by prolonged exposure through inhalation and if swallowed; N (dangerous for the environment): R50/53 - very toxic to aquatic organisms, may cause long-term adverse effect in the aquatic environment; Xn (harmful): R21 - harmful in contact with skin; Xi (irritant): R36/38 - irritating to eyes and skin. Legislative or administrative measures: It is prohibited to place on the market or use plant protection products containing tributyltin compounds, since these active substances are not included in Annex I to Directive 91/414/EEC concerning the placing of plant protection products on the market (OJ L 230, 19.08.1991, p. 1) and in accordance with Commission Regulation (EC) No 2076/2002 of 20 November 2002 extending the time period referred to in Article 8(2) of Council Directive 91/414/EEC and concerning the non-inclusion of certain active substances in Annex I to that Directive and the withdrawal of authorisations for plant protection products containing these substances (OJ L 319, 23.11.2002, p. 3). It is prohibited to place on the market or use biocidal products containing tributyltin compounds since these active substances are not included in Annex I to Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market (OJ L 123, 24.04.1998, p. 1) and in accordance with Commission Regulation (EC) No 1451/2007 of 4 December 2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market. (OJ L 325, 11.12.2007, p. 3). Furthermore, it is prohibited to place on the market or use all organostannic compounds for treatment of industrial waters in accordance with point 20 of Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC. (OJ L 396, 30.12.2006, p. 1). **: These countries are currently PARTICIPATING STATES to the Rotterdam Convention. They are however listed here since they are Member States of the European Community (EC), which is a Party and whose import responses, in accordance with EC legislation, cover all its Member States	Published: 12/2009	no consent

Guinea-Bissau	Final decision on import Legislative or administrative measures: The product has not been authorized by the Sahelien Pesticide Committee (CSP).	Published: 12/2010	no consent
India	Final decision on import Legislative or administrative measures: Tributyl tin compounds are not included in the schedule and not registered for use and import under the Insecticides Act, 1968.	Published: 06/2010	no consent
Iran (Islamic Republic of)	Final decision on import Legislative or administrative measures: Inter-ministerial Chemical Safety Commission Decision of 22 December 2013.	Published: 06/2014	no consent
Israel	Final decision on import Legislative or administrative measures: 1. Plant Protection Law, 1956 2. Hazardous Substances Regulations (Registration of Formulations for the Control of Pests Harmful to Man), 1994 3. Free Import Order, 2006	Published: 12/2012	no consent
Japan	Final decision on import Conditions for Import: (1) Tributyltin fluoride Tributyltin methacrylate Tributyltin chloride Tributyltin naphthenate [Consent to import only subject to the following specified conditions] For agricultural pesticides, a domestic importer is required to register with the Minister of Agriculture, Forestry and Fisheries. For pesticides except agriculture uses, person who imports the substance or the product in which these listed chemical substances are used shall, for each substance or each product, notify the Minister of Economy, Trade and Industry, each fiscal year, of the planned quantity of import of the substance or the planned quantity of the product using the substance, etc. (2) Tributyltin linoleate [Consent to import only subject to the following specified conditions] For agricultural pesticides, a domestic importer is required to register with the Minister of Agriculture, Forestry and Fisheries. For pesticide except agricultural uses, prior notification to and prior approval by the Ministry of Health Labour and Welfare, the Ministry of Economy Trade and Industry, and the Ministry of the Environment. (3) Tributyltin benzoate [Consent to import only subject to the following specified conditions] For agricultural pesticides, a domestic importer is required to register with the Minister of Agriculture, Forestry and Fisheries. (4) Tributyltin oxide [No consent to import] No consent to import under Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. Import of the chemical from all sources is simultaneously prohibited. Domestic production of the chemical for domestic use is simultaneously prohibited. Remarks: (1) Tributyltin fluoride Tributyltin methacrylate Tributyltin chloride Tributyltin naphthenate Tributyltin benzoate Not registered under Agricultural Chemical Regulation Law Registered under Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. (2) Tributyltin linoleate Not registered under Agricultural Chemical Regulation Law Not Registered under Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. (3) Tributyltin oxide Not registered in the country	Published: 06/2010	consent under conditions

	Not manufactured in the country Legislative or administrative measures: Agricultural Chemicals Regulation Law Act of the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc.		
Kenya	Final decision on import Legislative or administrative measures: The Pest Control Products Act CAP 346 - Laws of Kenya empowers the Pest Control Products Board to make final decisions.	Published: 12/2009	no consent
Kyrgyzstan	Final decision on import Legislative or administrative measures: Ordinance of the Government of the Kyrgyz Republic of June 6, 2011 No. 289 about entering additions and changes to the Ordinance of the Government of the Kyrgyz Republic from July 27, 2001 No. 376 on measures for environmental protection and public health from the adverse effects of certain hazardous chemicals and pesticides.	Published: 06/2012	no consent
Libya	Final decision on import Legislative or administrative measures: Not registration in the pesticide list for Libyan agriculture pesticide	Published: 12/2010	no consent
Liechtenstein	Final decision on import Legislative or administrative measures: Tributyl tin compounds are not on the list of active substances to be examined under the EU review programme (Annex II of the COMMISSION REGULATION (EC) No 1451/2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market). The Swiss Ordinance on Biocide Products (entered into force on May 2005) adopts the same biocide active ingredients as the EU. Tributyl tin compounds are not authorized in Biocide preparations. Tributyl tin compounds are prohibited in paints, varnishes, antifouling products or in industrial water as mentioned in annex 2.4 of the Ordinance on Risk Reduction related to Chemical Products which entered into force in May 2005. All tributyl tin compounds are banned as agricultural chemicals (they are not listed on Annex I of the Ordinance on Plant Protection Products, which entered into force in August 2005).	Published: 06/2010	no consent
Madagascar	Final decision on import Legislative or administrative measures: Interministrial Decree N°45.555/2011 of 28/12/2011 banning the import, distribution, sale, use and manufacturing of some pesticide active materials in agriculture and of chemicals of the industrial sector.	Published: 06/2012	no consent
Malaysia	Interim decision on import Conditions for Import: Product to be imported must be registered with the Pesticides Board, Malaysia and must possess valid registration at time of import	Published: 06/2010	consent under conditions
Mauritania	Final decision on import Legislative or administrative measures: This product has not been authorized by the Sahelian Committee on Pesticides (Regional Authority for Pesticides Registration for the 9 CILSS countries, among which Mauritania).	Published: 12/2012	no consent
Mexico	Final decision on import Legislative or administrative measures: Any substance that is used as a pesticide must obtain a health registration, according to the General Health Law, the regulation concerning the registration, import and export licenses and export licenses for pesticides, plant nutrients and toxic substances or hazardous materials . So its importation is not authorised	Published: 12/2009	no consent

Niger	Interim decision on import	Published: 06/2012	no consent
Norway	Final decision on import Remarks: In accordance with Norwegian regulation on classification and labelling of hazardous substances tributyltin compounds are classified as: T (toxic): R25 - toxic if swallowed; R48/23/25 - toxic, danger of serious damage to health by prolonged exposure through inhalation and if swallowed; N (dangerous for the environment): R50/53 - very toxic to aquatic organisms, may cause long-term adverse effect in the aquatic environment; Xn (harmful): R21 - harmful in contact with skin; Xi (irritant): R36/38 - irritating to eyes and skin. Legislative or administrative measures: According to § 2-8 of "Regulations relating to restrictions on the manufacture, import, export, sale and use of chemicals and other products hazardous to health and the environment (Product Regulations)", Act no 922 of 1 June 2004, it is prohibited to produce, import, export, sell and use tributyltin compounds and preparations containing tributyl compounds. It is also prohibited to produce, import, export sell and use other organostannic compound as a substance as such or in mixtures: a) to prevent the fouling by micro organisms, plants and animals on ship hulls and equipment fully or partly submerged into water and b) for treatment of industrial water, independent of the intended use of the water. Further, in accordance with the Norwegian Biocides Regulation, Act no 1848 of 18 December 2003, all tributyltin compounds, including bis(tributyltin)oxide were not allowed to be used and placed on the market in biocidal products as from 1 September 2006. Plant protection products Act and Regulations relating to plant protection products: Tributyltin compounds are not authorised for use, import or marketing in Norway.	Published: 12/2009	no consent
Pakistan	Final decision on import Remarks: No person shall import, manufacture, formulate, sell, offer for sale, hold any stock for sale or in any manner advertise any pesticide which has not been registered in the manner provided by this Act or the rules framed thereunder. The Tributyltin compounds are never registered as agriculture pesticide before Annex III. Legislative or administrative measures: Agricultural Pesticides Ordinance 1971.	Published: 06/2010	no consent
Panama	Final decision on import Conditions for Import: Executive decree n° 305 of September 4, 2002 published in the Official Bulletin N°24634 of September 9, 2002, a national legislative measure. In its fifth article states: "All substances banned or severely restricted in at least four states, will also be in our country" Is the substance n° 387 as Tributyltin florure of Annex I o this Executive Order.	Published: 06/2011	consent under conditions
Peru	Interim decision on import	Published: 06/2010	consent
Philippines	Final decision on import Legislative or administrative measures: PD 1144 Creation of Fertilizer and Pesticides Authority (FPA) with its mandates. FPA identified the banned pesticides in the Philippines naming organotin (which include tributyltin compounds).	Published: 12/2009	no consent
Qatar	Final decision on import Legislative or administrative measures: Ministry of Environment to perform all the tasks and actions to protect the environment in the country, according to the law No. 30 of 2002 Article (26), prohibiting the import or handling of transport of hazardous materials, without authorization from the competent administrative authority, and article (29) of law No. 30 of 2002 prohibiting the use of pesticides or other chemical compounds for agriculture, public health or other purposes.	Published: 12/2010	no consent

Republic of Moldova	Interim decision on import Remarks: The chemical has never been manufactured in the Republic of Moldova.	Published: 06/2012	no consent
Saudi Arabia	Final decision on import Legislative or administrative measures: Pesticide Act M/67.	Published: 12/2009	no consent
Serbia	Final decision on import Legislative or administrative measures: Cannot be placed on the market according to the Law on Plant Protection Products ("Official Gazette RS" No 41/09)	Published: 12/2011	no consent
Singapore	Final decision on import Conditions for Import: A Hazardous Substance license is required for the import of the chemical. Legislative or administrative measures: The chemical is controlled as a Hazardous Substance under the Environmental Protection and Management Act (EPMA) and its regulations. A license is required for the import, use and sale of the chemical.	Published: 12/2009	consent under conditions
Sri Lanka	Final decision on import Legislative or administrative measures: The Pesticides Technical and Advisory Committee in Sri Lanka has decided at its 56th meeting, held on the 7 th October 2011, to not to consent to import this pesticide to Sri Lanka.	Published: 12/2012	no consent
Sudan	Final decision on import Legislative or administrative measures: Decision of National Pesticide Council No. 4/2009 dated 15/7/2009.	Published: 12/2009	no consent
Switzerland	Final decision on import Legislative or administrative measures: Tributyl tin compounds are not on the list of active substances to be examined under the EU review programme (Annex II of the COMMISSION REGULATION (EC) No 1451/2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market). The Swiss Ordinance on Biocide Products (entered into force on May 2005) adopts the same biocide active ingredients as the EU. Tributyl tin compounds are not authorized in Biocide preparations. Tributyl tin compounds are prohibited in paints, varnishes, antifouling products or in industrial water as mentioned in annex 2.4 of the Ordinance on Risk Reduction related to Chemical Products which entered into force in May 2005. All tributyl tin compounds are banned as agricultural chemicals (they are not listed on Annex I of the Ordinance on Plant Protection Products, which entered into force in August 2005).	Published: 12/2009	no consent
Syrian Arab Republic	Final decision on import Remarks: This pesticide is not registered in Syria.	Published: 12/2009	no consent
The former Yugoslav Republic of Macedonia	Final decision on import Legislative or administrative measures: Chemical is not included in the List of active substances allowed for use in Plant Protection Products in R. Macedonia (Official Gazette of RM 159/2010).	Published: 06/2012	no consent
Togo	Interim decision on import Remarks: A final decision is under active consideration.	Published: 12/2009	no consent

United Arab Emirates	Final decision on import Legislative or administrative measures: Tributyl tin compounds are banned as a pesticide in UAE according to the ministerial decree No. 13 for the year 2012 concerning banned and restricted-use pesticides in UAE.	Published: 12/2013	no consent
United Republic of Tanzania	Final decision on import Legislative or administrative measures: Plant Protection Act 1997, Plant Protection Regulations of 1999 and National Advisory Committee do not allow registration of chemicals listed under Annex III.	Published: 06/2010	no consent
Uruguay	Interim decision on import Remarks: • Maritime Provision No. 103 Naval National Prefecture of October 6th, 2005. INTERNATIONAL CONVENTION ON THE CONTROL OF HARMFUL ANTIFOULING SYSTEMS ON SHIPS. It specifies that Uruguay is in process of ratifying the International Convention on the control of harmful Antifouling Systems on ships (AFS Convention-Anti Fouling System) of 2001, which arises from serious problems to the marine environment caused by the presence of high concentrations of organotin (organ-stannic compounds) derived from the application of antifouling paints for boats hulls preservation. On the other hand, it is considered that major providers of this type of paints in the Uruguayan market do not sell paints containing these harmful compounds since September 2002. Therefore, the use of paints with organ-stannic compounds for ship hulls preservation larger than 10 GRT (gross registered tons), which covers most of the national flag ships, is banned. The nature of this provision is temporary and revocable, but to date there's no other provision to annul it, therefore it is in full force. Full name of institution/authority responsible for issuing this national administrative or legislative measure: ARMADA NACIONAL. PREFECTURA NACIONAL NAVAL. MINISTERIO DE DEFENSA. REPÚBLICA ORIENTAL DEL URUGUAY. Address/Phone: Rambla 25 de Agosto de 1825 S/N y Marciel 4º piso, Montevideo. Colombia	Final decision on import Remarks: Decree No.1220 published in Official Gazette No.45890 of 25 April 2005, Title II, on the need of Environmental Licenses, in its Article 8th determined that the Ministry of Environment, Housing and Territorial Development is the one and only authority to grant or deny environmental licenses for the activities: "12. The import and production of pesticides and substances, materials or products subject to control under International Agreements, Conventions and Protocols, and the import of chemical pesticides for agricultural use shall follow the procedure outlined in the Andean Decision 436 of the Cartagena Agreement and its regulations". Legislative or administrative measures: Legislative or administrative measure: In compliance with Andean Nations Decision No.436; Andean Regulation for the Registration and Control of Chemical Pesticides for Agricultural Use, published in Official Gazette (year XIV, No.347, in Lima, Peru, 17 June 1988, regarding Cartagena Agreement) and Resolution ICA No.03759, of 16 December 2003, enacting provisions on the Registration and Control of Chemical Pesticides for Agricultural use, pesticides must be registered to be used and commercialised in the country. IMPORTANT NOTE: According to ICA's Technical Department of Safety and Agricultural Inputs, the product is not registered for domestic sale to the Colombian Agricultural Institute (ICA), therefore it can't be imported, manufactured, formulated, distributed, commercialised or used in Colombia as Chemical Pesticide for Agricultural use. Actinolite asbestos

CAS: 77536-66-4

Albania	Final decision on import Legislative or administrative measures: Law No. 9108, dated 17.07.2003 "On substances and preparations", prohibits the manufacture, import, export and distribution in the Republic of Albania for substances included in Appendix II of this Law. Actinolite asbestos fibers are part of this Appendix.	Published: 06/2013	no consent
Antigua and Barbuda	Interim decision on import Statement of active consideration: Revision of the Pesticides Act which will take approximately 1 year.	Published: 06/2005	no consent
Argentina	Final decision on import Legislative or administrative measures: Resolution MS, NO.845/00 Published in the Congressional Record, October 17, 2000. Prohibits: production, importation, commercialization and use of Asbestos fibres Amphiboles forms (Crocidolites, Amosite, Actinolite, Tremolite, Anthophyllite) and products formulated on its basis.	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Import prohibited for uses that would contravene State, Territory or Commonwealth legislation. All forms of actinolite asbestos are severely restricted in Australia. Please note the following: <p>The Australia wide ban on all new uses of asbestos and materials containing asbestos starts today (31 December 2003).</p> <p>It will be illegal under the laws of each state and territory to use, re-use or sell any products containing asbestos, including automotive brake pads and gaskets</p> <p>The same prohibition applies in the Australian government sector and it will be complemented by a Customs regulation banning imports and exports.</p> <p>The ban does not apply to asbestos products and materials that are already in place. But when they are replaced, non-asbestos alternatives must be used.</p> <p>Any stockpiles of asbestos-containing products must be safely disposed of under the applicable state and territory regulations.</p> <p>The few exemptions to the ban are restricted in scope and will operate for a limited time. They only apply where there are much greater risks to safety is asbestos is not used. Protection for exposure is still required in these cases.</p> <p>For more information, visit the latest news on NOHSC's website at www.nohsc.gov.au.</p> Legislative or administrative measures: <ol style="list-style-type: none"> 1) <i>Work Health (Occupational Health and Safety) Regulations 2003</i> and <i>Schedule 7 - Prohibited Substances</i> - under the <i>Work Health Act 2002</i> (Northern Territory) 2) <i>Workplace Health and Safety Regulation Amended Regulation (No. 4) 2003</i> and <i>Schedule 7 - Prohibited Substances</i> under the <i>Work Health Act 1995</i> (Queensland) 3) <i>Occupational Health and Safety (Chrysotile Asbestos) Variation Regulations 2003</i> under the <i>Occupational Health and Safety and Welfare Act 1986</i> (South Australia) 4) <i>Workplace Health and Safety Regulations 1988</i> under the <i>Workplace Health and Safety Act 1995</i> (Tasmania) 5) <i>Occupational Health and Safety (Asbestos) Regulations 2003</i> under the <i>Occupational Health and Safety Act 1985</i> and the <i>Dangerous Goods Act 1985</i> (Victoria) 6) <i>Occupational Health and Safety Regulations 1996</i> (Western Australia) 7) <i>Health (Asbestos) Regulations 1992</i> (Western Australia) 8) <i>Occupational Health and Safety Regulation 2001 - Sec 163</i> (New South Wales) 9) <i>Occupational Health and Safety (Maritime Industry) (National Standards) Regulations 2003</i> under the <i>Occupational Health and Safety (Maritime Industry) Act 1993</i> 10) <i>Customs (Prohibited Imports) Regulations 1956</i> 	Published: 12/2004	consent under conditions

	<p>Conditions for Import: An asbestos consumer product that contains actinolite asbestos and that is set out in column 1 of the table may be imported if it meets the requirements set out in column 2.</p> <p>A consumer product is defined as a product, including its components, parts or accessories, that may reasonably be expected to be obtained by an individual to be used for non-commercial purposes, including for domestic, recreational and sports purposes, and includes its packaging.</p>		
	<p>Column 1 Non-crocidolite asbestos products A textile fibre consumer product that is worn on the person</p> <p>A consumer product that is used by a child in learning or play Drywall joint cement or compound, or spackling or patching compound, that is used in construction, repair or renovation A consumer product that is applied by spraying</p>	<p>Column 2 Requirements (a) The consumer product provides protection from fire or heat hazards. (b) A person who uses the consumer product in a reasonably foreseeable manner cannot come into contact with airborne asbestos from the consumer product. Asbestos cannot become separated from the consumer product. Asbestos cannot become separated from the product during its post-manufacture preparation, application or removal. (a) The asbestos is encapsulated with a binder during spraying. (b) The materials that result from the spraying are not friable after drying.</p>	
	<p>Import of the following actinolite consumer products is prohibited: (a) a consumer product for use in modeling or sculpture. (b) a consumer product for use in simulating ashes or embers. (c) a consumer product that is composed entirely of asbestos.</p> <p>Legislative or administrative measures: The <i>Asbestos Products Regulations</i> (SOR/2007-260) (<http://laws-lois.justice.gc.ca/eng/regulations/SOR-2007-260/FullText.html>) under the <i>Canada Consumer Product Safety Act</i> (CCPSA) (<http://laws-lois.justice.gc.ca/eng/acts/C-1.68/index.html>) applies to the import, advertising and sale of consumer products that contain asbestos. The</p>		

import of a consumer product containing asbestos is permitted subject to the conditions of the CCPSA and its Regulations.			
Chile	Final decision on import	Published: 12/2005	no consent
<p>Remarks: Supreme Decree Not 656 of 2000, that prohibits asbestos use in indicated products, establishes as follow:</p> <ol style="list-style-type: none"> 1. The use of crocidolite is prohibited in absolute form and without exceptions. 2. The use of all type of asbestos in construction equipment is prohibited in absolute form and without exceptions 3. The asbestos use will be only authorized, by Express Sanitary Resolution, in fabrication of products or elements that are not construction equipment and that is not crocidolite, when the interested part demonstrates that it does not exist any tecnic nor economic feasibility that allows to replace it in a especific use by another material. <p>Legislative or administrative measures: Supreme decree no. 656 of 2000, prohibits the asbestos use in products indicated. This legislative national measure prohibits in the country the production, import, distribution, sale and use of crocidolite and any material or product that contain it. Additionally, it prohibits the production, import, distribution and sale of construction equipments that contain any type of asbestos and, finally, it prohibits the production, import, distribution, sale and use of crisotile, actinolite, amosite, antofilite, tremolite and another type of asbestos, or any mix of them for any thing, element or product, with some exceptions specified, whenever these do not concern to construction equipment.</p>

Guinea	Interim decision on import Conditions for Import: The conditions are as follow: - to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001,	Published: 12/2005	consent under conditions

concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinee Republic);

- to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001)
- asbestos actinolite only can be imported by industrial unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997.
- importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001.
- name, address of the competent authority from which the previous autorisation should be obtained:

M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax: (224) 46 85 46

Remarks: Differents forms of asbestos are used in Guinea among which the actinolite asbestos could exist and, particularly, in the industrial units, mining societies, real estate constructions, power stations and networks of production and electricity, distribution, laboratories and research centers, etc. Although this product is dangerous for the health and the environment, for economic reasons it would be used at the moment in the sectors of activities sus cites. Some existence of asbestos remainders that can contain asbestos physically exists or has been hidden in some electrical power stations and mining societies, thus it is a potential danger for the workers of these sectors of activities, the workers of the informal sector and even the populations that are exposed to these dangerous and bad known products and all the implications of risks and dangers for their health, their families and to the environment. Before this situation, and awaiting the final decision concernign the actinolite asbestos, the Government, with the purpose of reducing the field of use of this dangerous product and reducing the exhibition of the populations, workers and workers of the different sectors of activities, decided to classify this product in the national list of severely restricted chemicals (Annexed II of the A/2001/4784/decision MMGE/SGG of 26 October 2001.

Statement of active consideration: Any actinolite asbestos import can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Argentina	Final decision on import Legislative or administrative measures: Resolution MS, NO.845/00 Published in the Congressional Record, October 17, 2000. Prohibits: production, importation, commercialization and use of Asbestos fibres amphiboles forms (Crocidolites, Amosite, Actinolite, Tremolite, Anthophyllite) and products formulated on its basis.	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Import prohibited for uses that would contravene State, Territory or Commonwealth legislation. All forms of amphibole asbestos are severely restricted in Australia. Please note the following: The Australia wide ban on all new uses of asbestos and materials containing asbestos starts today (31 December 2003). It will be illegal under the laws of each state and territory to use, re-use or sell any products containing asbestos, including automotive brake pads and gaskets The same prohibition applies in the Australian government sector and it will be complemented by a Customs regulation banning imports and exports. The ban does not apply to asbestos products and materials that are already in place. But when they are replaced, non-asbestos alternatives must be used. Any stockpiles of asbestos-containing products must be safely disposed of under the applicable state and territory regulations. The few exemptions to the ban are restricted in scope and will operate for a limited time. They only apply where there are much greater risks to safety is asbestos is not used. Protection for exposure is still required in these cases. For more information, visit the latest news on NOHSC's website at www.nohsc.gov.au . Ghana	Interim decision on import Conditions for Import: The importer should obtain import permit from the Environmental Protection Agency of Ghana containing information including but not limited to: Quantity of chemical to be imported; Source of chemical (Exporting country) End use(s) of the chemical within Ghana Statement of active consideration: A survey needs to be conducted to determine if the chemical is currently being used in Ghana or if it would be required in the country in the future and for what purpose. The time required before a final decision can be reached is approximately one year.	Published: 12/2004	consent under conditions
Guinea	Interim decision on import Conditions for Import: The conditions are as follow: -to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinea Republic);	Published: 12/2005	consent under conditions

- to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 October 2001)
 - asbestos amosite only can be imported by industrial unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997.
 - importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001).
 - name, address of the competent authority from which the previous autorisation should be obtained:
 M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax (224) 46 85 46

Remarks: Differents forms of asbestos are used in Guinea among which the amosite asbestos could exist and, particularly, in the industrial unities, mining societies, real estate constructions, power stations and networks of production and electricity, distribution, laboratories and research centers, etc. Although this product is dangerous for the health and the environment, for economic reasons it would be used at the moment in the sectors of activities sus cites. Some existence of asbestos remainders that can contain asbestos physically exists or has been hidden in some electrical power stations and mining societies, thus it is a potential danger for the workers of these sectors of activities, the workers of the informal sector and even the populations that are exposed to these dangerous and bad known products and all the implications of risks and dangers for their health, their families and to the environment. Before this situation, and awaiting the final decision concernign the actinolita asbestos, the Government, with the purpose of reducing the field of use of this dangerous product and reducing the exhibition of the populations, workers and workers of the different sectors of activities, decided to classify this product in the national list of severely restricted chemicals (Annexed II of the A/2001/4784/decision MMGE/SGG of 26 October 2001).

Statement of active consideration: Any amosita asbestos import can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Australia	Final decision on import Conditions for Import: Import prohibited for uses that would contravene State, Territory or Commonwealth legislation. All forms of amphibole asbestos are severely restricted in Australia. Please note the following: The Australia wide ban on all new uses of asbestos and materials containing asbestos starts today (31 December 2003). It will be illegal under the laws of each state and territory to use, re-use or sell any products containing asbestos, including automotive brake pads and gaskets The same prohibition applies in the Australian government sector and it will be complemented by a Customs regulation banning imports and exports. The ban does not apply to asbestos products and materials that are already in place. But when they are replaced, non-asbestos alternatives must be used. Any stockpiles of asbestos-containing products must be safely disposed of under the applicable state and territory regulations. The few exemptions to the ban are restricted in scope and will operate for a limited time. They only apply where there are much greater risks to safety is asbestos is not used. Protection for exposure is still required in these cases. For more information, visit the latest news on NOHSC's website at www.nohsc.gov.au . Legislative or administrative measures: 1) <i>Work Health (Occupational Health and Safety) Regulations 2003</i> and <i>Schedule 7 - Prohibited Substances</i> - under the <i>Work Health Act 2002</i> (Northern Territory) 2) <i>Workplace Health and Safety Regulation Amended Regulation (No. 4) 2003</i> and <i>Schedule 7 - Prohibited Substances</i> under the <i>Work Health Act 1995</i> (Queensland) 3) <i>Occupational Health and Safety (Chrysotile Asbestos) Variation Regulations 2003</i> under the <i>Occupational Health and Safety and Welfare Act 1986</i> (South Australia) 4) <i>Workplace Health and Safety Regulations 1988</i> under the <i>Workplace Health and Safety Act 1995</i> (Tasmania) 5) <i>Occupational Health and Safety (Asbestos) Regulations 2003</i> under the <i>Occupational Health and Safety Act 1985</i> and the <i>Dangerous Goods Act 1985</i> (Victoria) 6) <i>Occupational Health and Safety Regulations 1996</i> (Western Australia) 7) <i>Health (Asbestos) Regulations 1992</i> (Western Australia) 8) <i>Occupational Health and Safety Regulation 2001 - Sec 163</i> (New South Wales) 9) <i>Occupational Health and Safety (Maritime Industry) (National Standards) Regulations 2003</i> under the <i>Occupational Health and Safety (Maritime Industry) Act 1993</i>	Published: 12/2004	consent under conditions

10) *Customs (Prohibited Imports) Regulations 1956*
 11) *Customs (Prohibited Exports) Regulations 1958*
 12) *National Model Regulations for the Control of Workplace Hazardous Substances (National Occupational Health and Safety Commission: 1004(1994) Schedule 2 - Substances prohibited for specific uses.*

The importation into Australia of amphibole asbestos or goods containing amphibole asbestos is prohibited unless under conditions specified in the *Customs (Prohibited Imports) Regulations 1956* are met. Responsible institution or authority would be specified for each State or Territory. Initial contact for queries should be to Australia's DNA for industrial chemicals.

Ghana	Interim decision on import Conditions for Import: The importer should obtain import permit from the Environmental Protection Agency of Ghana containing information including but not limited to: Quantity of chemical to be imported; Source of chemical (Exporting country) End use(s) of the chemical within Ghana Statement of active consideration: A survey needs to be conducted to	Published: 12/2004	consent under conditions

	determine if the chemical is currently being used in Ghana or if it would be required in the country in the future and for what purpose. The time required before a final decision can be reached is approximately one year.		
Guinea	Interim decision on import Conditions for Import: The conditions are as follow: - to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinee Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - asbestos anthophyllite only can be imported by industrial unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. - importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001. - name, address of the competent authority from which the previous autorisation should be obtained: M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax (224) 46 85 46 Remarks: Differents forms of asbestos are used in Guinea among which the anthophyllite asbestos could exist and, particularly, in the industrial units, mining societies, real estate constructions, power stations and networks of production and electricity, distribution, laboratories and research centers, etc. Although this product is dangerous for the health and the environment, for economic reasons it would be used at the moment in the sectors of activities sus cites. Some existence of asbestos remainders that can contain asbestos physically exists or has been hidden in some electrical power stations and mining societies, thus it is a potential danger for the workers of these sectors of activities, the workers of the informal sector and even the populations that are exposed to these dangerous and bad known products and all the implications of risks and dangers for their health, their families and to the environment. Before this situation, and awaiting the final decision concernign the actinolita asbestos, the Government, with the purpose of reducing the field of use of this dangerous product and reducing the exhibition of the populations, workers and workers of the different sectors of activities, decided to classify this product in the national list of severely restricted chemicals (Annexed II of the A/2001/4784/decision MMGE/SGG of 26 October 2001. Statement of active consideration: Any anthophyllite asbestos import can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.	Published: 12/2005	consent under conditions

Legislative or administrative measures: The Industry Safety and Health Law	Published: 12/2009	consent under conditions
Jordan	Final decision on import Conditions for Import: The import country should obtain a permit from the Ministry of Health on the import of this chemical. This chemical is allowed to be imported and used in brake linings and clutch pads exposed to friction and temperature until 16/8/2006. Remarks: A proposal was submitted by the Ministry of Health to consider the ban of all forms of asbestos to the technical committee for the management of hazardous and harmful substances, which is represented by all concerned institutions in the field of chemicals management and headed by the Ministry of Environment. The argument was based on the fact that Jordan is not a producer of asbestos, the availability of alternatives for asbestos on the global market less hazardous than asbestos products. Legislative or administrative measures: A new decree by the Minister of Health was issued and published in the official journal No 4717 date 16/8/2005 which prohibited all uses of all forms of asbestos except for the use of tremolite, chrysotile, anthophyllite and actinolite which will continue to be formulated and used in Jordan in the following applications: friction products: Brake linings and clutch pads exposed to friction and temperature, until 16/8/2006, after this specified date all forms of asbestos in all applications will be banned. Part 2 - Listing of all importing responses received from Parties

Crocidolite

CAS: 12001-28-4

Albania	Final decision on import Legislative or administrative measures: Law No. 9108, dated 17.07.2003 "On substances and preparations", prohibits the manufacture, import, export and distribution in the Republic of Albania for substances included in Appendix II of this Law. Crocidolite is part of this Appendix.	Published: 06/2013	no consent
Antigua and Barbuda	Interim decision on import Statement of active consideration: Revision of the present Pesticides Act, which will take approximately 1 year.	Published: 06/2005	no consent
Argentina	Final decision on import Legislative or administrative measures: Resolution MS, NO.845/00 Published on the Congressional Record, October 17, 2000. Prohibits: production, importation, commercialisation and use of Asbestos fibres Amphiboles forms (Crocidolites, Amosite, Actinolite, Tremolite, Anthophyllite) and products formulated on its basis, in the Republic of Argentine.	Published: 12/2002	no consent
Armenia	Interim decision on import Remarks: A final decision is under active consideration.	Published: 06/2001	no consent
Australia	Final decision on import Conditions for Import: Consent to import only subject to specific conditions. Import prohibited for uses that would contravene State, Territory or Commonwealth legislation. Crocidolite is severely restricted in Australia. There is no mining and future mining would not be approved. Responsible institution or authority would be specified for each State, or Territory. Initial contact for queries should be to Australia's DNA for Industrial chemicals.	Published: 06/2002	consent under conditions
Bahrain	Final decision on import	Published: 07/1996	no consent
Belize	Final decision on import Legislative or administrative measures: Environmental Protection Act, Schedule of Hazardous Substances, Part I, Subpart A.	Published: 12/2009	no consent
Brazil	Final decision on import Legislative or administrative measures: Law No. 9.055 of 1 July 1995 - prohibits extraction, production, use and trade of the chemicals amosite, actinolite, anthophyllite, crocidolite and tremolite asbestos, as well as products containing such minerals.	Published: 12/2004	no consent
Burkina Faso	Final decision on import Legislative or administrative measures: Law n° 005/97/ADP dated 30 January 1997 concerning the Burkina Faso Environmental Code	Published: 12/2006	no consent
Canada	Final decision on import Conditions for Import: An asbestos consumer product that contains crocidolite asbestos may be imported if it is one of the following consumer products and requirements (a), (b) and (c) are met. 1 Asbestos cement pipes 2 Torque converters 3 Diaphragms for chloralkali production 4 Acid and temperature resistant seals, gaskets, gland packings and flexible couplings 5 A product that is composed of or contains	Published: 06/2012	consent under conditions

one or more of the asbestos products set out in items 1 to 4

A consumer product is defined as a product, including its components, parts or accessories, that may reasonably be expected to be obtained by an individual to be used for non-commercial purposes, including for domestic, recreational and sports purposes, and includes its packaging.

Requirements:

- (a) the consumer product is not composed entirely of crocidolite asbestos; or
- Unless the consumer product composed entirely of crocidolite asbestos is imported for the purpose of manufacturing a product set out in item 3 or 4, above. In this case, the Canadian importer will have to meet obligations of section 5 of the *Asbestos Product Regulations* <<http://laws-lois.justice.gc.ca/eng/regulations/SOR-2007-260/FullText.html>>.
- (b) a person who uses the consumer product in a reasonably foreseeable manner cannot come into contact with airborne asbestos from the consumer product; and
- (c) in the case of a consumer product set out in any of items 1 to 4 of the table to this section, the following statement is legibly printed and prominently displayed on the consumer product's container or, if the consumer product has no container, on the consumer product itself or on a label affixed to it: "CONTAINS CROCIDOLITE ASBESTOS - CONTIENT DE L'AMIANTE CROCIDOLITE". This label must be printed in bold-faced type that has the following minimum height:
 - In the case of an asbestos consumer product that is in a container whose main display panel area is set out in column 2 of the table below, the height set out in column 2;
 - In the case of an asbestos consumer product that is not in a container, that is rectangular or cylindrical in shape and whose main display panel area is set out in column of the table below, the height set out in column 2;
 - In the case of an asbestos consumer product that is not in a container and that is not rectangular or cylindrical in shape, 12mm

Item	Column 1 Area of the main display panel	Column 2 Minimum height of type (mm)
1	250 cm ² or less	2
2	More than 250 cm ² but not more than 1 000 cm ²	6
3	More than 1 000 cm ² but not more than 3 500 cm ²	12
4	More than 3 500 cm ²	24

Legislative or administrative measures: The *Asbestos Products Regulations* (SOR/2007-260) (<<http://laws-lois.justice.gc.ca/eng/regulations/SOR-2007-260/FullText.html>>) under the *Canada Consumer Product Safety Act* (CCPSA) (<<http://laws-lois.justice.gc.ca/eng/acts/C-1.68/index.html>>) applies to the import, advertising and sale of consumer products that contain asbestos. The import of a consumer product containing asbestos is permitted subject to the conditions of the CCPSA and its Regulations.

Chad	Interim decision on import Remarks: Additional time is needed to reach a final decision.	Published: 01/1995	no consent
Chile	Final decision on import	Published: 12/2005	no consent
China	Final decision on import Conditions for Import: Legislative or administrative measures: <ul style="list-style-type: none"> • Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: No consent to import. 	Complete name and address of the institution / authority in charge of this legislative or administrative measure at national level.		
	* Ministerio del Ambiente, Av. Amazonas y Eloy Alfaro, Edif. MAG, Piso 7 - Quito.		
	** Ministerio de Comercio Exterior, Industrialización, Pesca y Competitividad Consejo de Comercio Exterior e Inversiones (COMEXI), Av. Amazonas y Eloy Alfaro, Piso 1 - Quito.		
El Salvador	Final decision on import	Published: 06/2009	consent under conditions
	Conditions for Import: The import is allowed for 25 grams of weight or volume, as quantity limits. Quantity limits: refers to less or equal amount, of		

weight or volume, which does not require the submission of environmental documentation. For quantities above this, it should be submitted to the Ministry of Environment and Natural Resources (MARN), the environmental documentation in order to obtain the response to determine that It is not required to elaborate an Environmental Impact Study, through an Environmental Permit Resolution to import and/or transport in the national territory.

Legislative or administrative measures: Executive Decision No: 40 published in the Official Journal n°83, volume n°375 of 9 May 2007, Annex 1: List of Regulated Substances.

Eritrea	Final decision on import	Published: 06/2010	no consent
	Legislative or administrative measures: Legal Notice No 52/ 2001, Customs Tariff Regulations		
European Union	Final decision on import	Published: 12/2004 Revised: 10/2008	no consent
Member States: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta**, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom of Great Britain and Northern Ireland			
	Legislative or administrative measures: It is prohibited to place on the market and use all forms of asbestos fibres and products containing them. The chemicals were banned by a series of regulatory actions dating from 1983, the latest of which is Commission Directive 1999/77/EC (Official Journal of the European Communities (OJ) L207 of 6 August 1999, p18) adapting to technical progress for the sixth time Annex I to Council Directive 76/769/EEC relating to the approximation of the laws, regulations and administrative provisions of the Member States relating to restrictions on the marketing and use of certain dangerous substances and preparations.		
	** : These countries are currently PARTICIPATING STATES to the Rotterdam Convention. They are however listed here since they are Member States of the European Community (EC), which is a Party and whose import responses, in accordance with EC legislation, cover all its Member States		
Gambia	Interim decision on import	Published: 01/1997	consent under conditions
	Conditions for Import: Severely restricted to construction work. Legislative or administrative measures: Crocidolite has been placed on the list of severely restricted chemicals in Gambia. Regulated by the Hazardous Chemicals and Pesticides Control and Management Act of 1994. Alternatives: cement fibres in construction.		
Ghana	Final decision on import	Published: 06/2010	consent under conditions
	Conditions for Import: Importer should obtain an import permit from the Environmental Protection Agency of Ghana containing information including but not limited to: <ul style="list-style-type: none"> -Quantity of chemical to be imported -Sources of chemical (exporting country) -End uses of the chemical within Ghana. 		
	Legislative or administrative measures: Environmental Protection Agency Act, 1994. (Act. 490)		
Guinea	Interim decision on import	Published: 12/2005	no consent
	Conditions for Import: The conditions are as follow: <ul style="list-style-type: none"> -to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinea Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - asbestos crocidolite only can be imported by industrial units, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. 		

- importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001.
- name, address of the competent authority from which the previous autorisation should be obtained:
M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax (224) 46 85 46

Remarks: Differents forms of asbestos are used in Guinea among which the crocidolite could exist and, particularly, in the industrial units, mining societies, real estate constructions, power stations and networks of production and electricity, distribution, laboratories and research centers, etc. Although this product is dangerous for the health and the environment, for economic reasons it would be used at the moment in the sectors of activities sus cites. Some existence of asbestos remainders that can contain asbestos physically exists or has been hidden in some electrical power stations and mining societies, thus it is a potential danger for the workers of these sectors of activities, the workers of the informal sector and even the populations that are exposed to these dangerous and bad known products and all the implications of risks and dangers for their health, their families and to the environment. Before this situation, and awaiting the final decision concernign the actinolita asbestos, the Government, with the purpose of reducing the field of use of this dangerous product and reducing the exhibition of the populations, workers and workers of the different sectors of activities, decided to classify this product in the national list of severely restricted chemicals (Annexed II of the A/2001/4784/decision MMGE/SGG of 26 October 2001.

Statement of active consideration: Any crocidolite asbestos import can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Guinea-Bissau	Final decision on import	Published: 12/2010	no consent

	<p>import of restricted and banned chemicals to Jordan. A special permission is required from the Ministry of Health for chemicals prior to their entry into the country. The regulation is under the process of modification after issuing new law for "import and export" No 21 for 2001. The institution responsible for issuing the Law and regulation for import is the Ministry of Industry and Trade. The import of chemicals is regulated by the Ministry of Health which is the focal point for chemicals in Jordan and the DNA (C) for the PIC procedure. In 1996 the Ministry of Health adopted a list of banned and restricted chemicals, after consulting the international agencies and authorities to improve control of chemicals entering the market. The list was updated in 2001. This chemical was included in the list in 1996 as a banned chemical.</p>

By the way of derogation form Paragraph 1 of this point placing on the market and use shall be allowed for: a) reinforced asbestos klingerit; b) asbestos graphite braids, which are necessary for functioning in conditions of extremely high temperature, pressure and aggressive mediums, until the technological process is changed or technological changes of the equipment in which they are used are conducted. Legislative or administrative measures: Severely restricted by Serbian Regulation on Bans and Restrictions of Production, Placing on the Market and Use of Chemicals which Represent Unacceptable Risk on Human Health and Environment ("Official Gazette RS", No 89/10)
Singapore	Final decision on import Published: 12/2003 consent under conditions

Revised: 10/2008

Conditions for Import: A Hazardous Substance Licence is required for the import of asbestos in the form of crocidolite asbestos and products containing this form of asbestos.

Legislative or administrative measures: Asbestos in the form of crocidolite, amosite, chrysotile, and amphiboles and products containing these forms of asbestos are controlled as Hazardous Substances under the Environmental Protection and Management Act (EPMA) and its Regulations. A licence is required for their import, use and sale.

Asbestos in the above forms and the products containing the above forms of asbestos have been banned from import for local use except for:

- asbestos products containing chrysotile other than roofing sheets, refuse chutes, ceiling boards, partition boards, fire barriers, doors, paints, cement, floor tiles and putty since 1989;
- asbestos in the form of chrysotile in any vehicle brake or clutch lining not installed in any vehicle if the packaging of the vehicle brake or clutch lining is affixed with the appropriate label or in any vehicle brake or clutch lining installed in any vehicle registered before 1st April 1995.

South Africa	Interim decision on import	Published: 06/2006	no consent
	Statement of active consideration: Draft regulations for banning production of and trading with all types of asbestos in the country were published on the 4 November 2005 and public comments currently under review before promulgation.		
Sri Lanka	Final decision on import	Published: 12/2005	no consent
	Legislative or administrative measures: Blue asbestos was brought under control under the provisions of the Import and Exports Control Act No. 1 of 1969. The requisite regulations are gazetted in Extraordinary Gazette notifications No. 452/4 published on 06.05.1987		
Switzerland	Final decision on import	Published: 06/2010	no consent
	Legislative or administrative measures: It is prohibited: a. to use crocidolite; b. to place preparations and articles containing crocidolite on the market; c. to export preparations and articles containing crocidolite. (Ordinance on Risk Reduction related to the Use of certain particularly dangerous Substances, Preparations and Articles of August 2005, Annex 1.6)		
Thailand	Final decision on import	Published: 01/1995	no consent
The former Yugoslav Republic of Macedonia	Final decision on import	Published: 06/2012	consent under conditions
	Conditions for Import: 1. The Production, placing on the market and use of these fibres and of articles containing these fibres is prohibited. By the way of derogation from Paragraph 1 of this point placing on the market and use shall be allowed for: a) reinforced asbestos klingerit; b) asbestos graphite braids, which are necessary for functioning in conditions of extremely high temperature, pressure and aggressive mediums, until the technological process is changed or technological changes of the equipment in which they are used are conducted. Legislative or administrative measures: List on Bans and Restrictions of the use of chemicals (Official Gazette of RM 57/2011)		
Trinidad and Tobago	Interim decision on import	Published: 06/2001	consent
	Remarks: A final decision is under active consideration by the Pesticides and Toxic Chemicals Control Board, Chemistry, Food and Drugs Division. The following administrative action is being undertaken during the period a final decision is being considered: the enacting into law of the toxic chemical regulations. The legislation will require imported to obtain license to import. Approximate time needed before a final decision can be reached: 2 years. At present there is no registration of toxic chemicals (only pesticides) and there		

	is no government agency responsible for the control of importation and usage of this chemical. There is no information on whether the chemicals is imported into Trinidad and Tobago.		
United Arab Emirates	Final decision on import Legislative or administrative measures: Crocidolite is banned based on the Cabinet Decree No. (39) of 2006 banning the Import, Production and Use of Asbestos Boards in UAE.	Published: 12/2013	no consent
United Republic of Tanzania	Interim decision on import Conditions for Import: Under restriction - permission must be sought from the Registrar of industrial and consumer chemicals (Chief Government Chemist) prior to import. Remarks: The new industrial and consumer chemicals legislation has recently entered into force. Comprehensive monitoring of types of chemicals, products and records is expected to be established under this legislation. Statement of active consideration: The following administration action is being undertaken: Establishment of a mechanism for assessment and decision-making under the new legislation on Industrial and Consumer Chemicals (Ref. Section 7) PIC chemicals placed in schedule of new legislation Seeking for information on alternatives. Approximately 2 year before a final decision can be reached. Tremolite

CAS: 77536-68-6

Albania	Final decision on import Legislative or administrative measures: Law No. 9108, dated 17.07.2003 "On substances and preparations", prohibits the manufacture, import, export and distribution in the Republic of Albania for substances included in Appendix II of this Law. Tremolite is part of this Appendix.	Published: 06/2013	no consent
Antigua and Barbuda	Interim decision on import Statement of active consideration: Revision of the present Pesticides Act is required, which will take approximately 1 year.	Published: 06/2005	no consent
Argentina	Final decision on import Legislative or administrative measures: Resolution MS, NO.845/00 Published in the Congressional Record, October 17, 2000. Prohibits: production, importation, commercialization and use of Asbestos fibres Amphiboles forms (Crocidolites, Amosite, Actinolite, Tremolite, Anthophyllite) and products formulated on its basis.	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Import prohibited for uses that would contravene State, Territory or Commonwealth legislation. All forms of asbestos tremolite are severely restricted in Australia. Please note the following: <p>The Australia wide ban on all new uses of asbestos and materials containing asbestos starts today (31 December 2003).</p> <p>It will be illegal under the laws of each state and territory to use, re-use or sell any products containing asbestos, including automotive brake pads and gaskets</p> <p>The same prohibition applies in the Australian government sector and it will be complemented by a Customs regulation banning imports and exports.</p> <p>The ban does not apply to asbestos products and materials that are already in place. But when they are replaced, non-asbestos alternatives must be used.</p> <p>Any stockpiles of asbestos-containing products must be safely disposed of under the applicable state and territory regulations.</p> <p>The few exemptions to the ban are restricted in scope and will operate for a limited time. They only apply where there are much greater risks to safety is asbestos is not used. Protection for exposure is still required in these cases.</p> <p>For more information, visit the latest news on NOHSC's website at www.nohsc.gov.au.</p> Legislative or administrative measures: <ol style="list-style-type: none"> 1) <i>Work Health (Occupational Health and Safety) Regulations 2003</i> and <i>Schedule 7 - Prohibited Substances</i> - under the <i>Work Health Act 2002</i> (Northern Territory) 2) <i>Workplace Health and Safety Regulation Amended Regulation (No. 4) 2003</i> and <i>Schedule 7 - Prohibited Substances</i> under the <i>Work Health Act 1995</i> (Queensland) 3) <i>Occupational Health and Safety (Chrysotile Asbestos) Variation Regulations 2003</i> under the <i>Occupational Health and Safety and Welfare Act 1986</i> (South Australia) 4) <i>Workplace Health and Safety Regulations 1988</i> under the <i>Workplace Health and Safety Act 1995</i> (Tasmania) 5) <i>Occupational Health and Safety (Asbestos) Regulations 2003</i> under the <i>Occupational Health and Safety Act 1985</i> and the <i>Dangerous Goods Act 1985</i> (Victoria) 6) <i>Occupational Health and Safety Regulations 1996</i> (Western Australia) 7) <i>Health (Asbestos) Regulations 1992</i> (Western Australia) 8) <i>Occupational Health and Safety Regulation 2001 - Sec 163</i> (New South Wales) 9) <i>Occupational Health and Safety (Maritime Industry) (National Standards) Regulations 2003</i> under the <i>Occupational Health and Safety (Maritime Industry) Act 1993</i> 	Published: 12/2004	consent under conditions

Morocco	Interim decision on import Conditions for Import: Comply with the provisions of the Decree of the Minister of Trade No. 2916-11 of 12 October 2011 establishing the list of goods subject to measures of quantitative restrictions on imports and exports , published in BO No. 5996 of 17 November 2011. Remarks: The import is subject to import license since October 2011. The health safety of asbestosat work is regulated (protection of workers exposed to asbestos dust, medical prevention). : Decree No. 2-98-975 of 23 January 2001 (Official Gazette , 2001-02-01 , No. 4870 , p. 192-194) amended and completed by Decree No. 2-12-387 of 14 September 2012 (Bulletin Official , 2012-10-04 , No. 6088 , p. 2647-2648) on the protection of workers exposed to asbestos dust . Article 3 : The use of asbestos belong to the amphibole group (anthophyllite , amosite (brown asbestos), crocidolite (blue asbestos) , actinolite and tremolite) or products containing it, shall be prohibited in the work of manufacturing and processing of products asbestos-based . Article 4: The use of asbestos in all its forms is prohibited in flocking work. The Joint Order No. 3352-10 of 26 October 2010 from the Minister of Employment and Vocational Training, Minister of Health , the Minister of Industry, Trade and New Technologies and the Minister of Energy, Mines , Water and Environment , sets the average value of exposure to asbestos fibers in the workplace . (Official Gazette , 2011-01-06 , No. 5906 , p. 7).	Published: 06/2014	consent under conditions
New Zealand	Interim decision on import Remarks: There is no domestic manufacture of any form or asbestos in New Zealand. Tremolite asbestos can be legally imported.	Published: 06/2005	consent
Nicaragua	Interim decision on import	Published: 06/2010	consent under conditions
Norway	Final decision on import Legislative or administrative measures: Regulations concerning Asbestos (order no 235) laid down 15 August 1991 in pursuance of the Act relating to Worker Protection and Working Environment and the Product Control Act.	Published: 12/2004	no consent
Oman	Final decision on import Legislative or administrative measures: It is based on the unified Customs law of the Gulf Cooperation Council and law of Ministry of Environment and Climate Affairs.	Published: 06/2008	no consent
Panama	Final decision on import Conditions for Import: Pursuant to resolution n° 50 of June 23, 1999 which approves the health rules for the management, storage and transport of asbestos in the Republic of Panama.	Published: 12/2010	consent under conditions

	Executive Decree n° 305 of September 4, 2002 published in Official Gazette n° 24634 29 September 2002, a national legislative measure, established at its fifth article: "All substances banned or severely restricted in at least four States, will also be banned in our country". The substance friable asbestos n°81 of annex I to this executive decree.		
Peru	Final decision on import Legislative or administrative measures: Law n° 29662 bans amphibole asbestos and regulates the use of chrysotile asbestos published on 09/02/2011	Published: 06/2011	no consent
Qatar	Final decision on import Legislative or administrative measures: Article 26 Environment Law (30) 2002	Published: 12/2005	no consent
Republic of Moldova	Interim decision on import	Published: 06/2012	no consent
Serbia	Final decision on import Conditions for Import: The Production, placing on the market and use of these fibres and of articles containing these fibres is prohibited. 2. By the way of derogation from Paragraph 1 of this point placing on the market and use shall be allowed for: a) reinforced asbestos klingerit; b) asbestos graphite braids, which are necessary for functioning in conditions of extremely high temperature, pressure and aggressive mediums, until the technological process is changed or technological changes of the equipment in which they are used are conducted. Legislative or administrative measures: Severely restricted by Serbian Regulation on Bans and Restrictions of Production, Placing on the Market and Use of Chemicals which Represent Unacceptable Risk on Human Health and Environment ("Official Gazette RS", No 89/10)	Published: 12/2011	consent under conditions
Singapore	Final decision on import Legislative or administrative measures: Asbestos in the form of crocidolite, amosite, chrysotile and amphiboles and products containing these forms of asbestos are controlled as Hazardous Substances under the Environmental Protection and Management Act (EPMA) and its Regulations. Asbestos in the above forms and the products containing the above forms of asbestos have been banned from import for local use except for: asbestos products containing chrysotile other than roofing sheets, refuse chutes, ceiling boards, partition boards, fire barriers, doors, paints, cement, floor tiles and putty since 1989: asbestos in the form of chrysotile in any vehicle brake or clutch lining not installed in any vehicle if the packaging of the vehicle brake or clutch lining is affixed with the appropriate label or in any vehicle brake or clutch lining installed in any vehicle registered before 1st April 1995.	Published: 12/2004 Revised: 10/2008	no consent
South Africa	Interim decision on import Statement of active consideration: Draft regulations for banning production of and trading with all types of asbestos in the country were published on the 4 November 2005 and public comments currently under review before promulgation.	Published: 06/2006	no consent
Switzerland	Final decision on import Legislative or administrative measures: It is prohibited: a. to use tremolite; b. to place preparations and articles containing tremolite on the market; c. to export preparations and articles containing tremolite. (Ordinance on Risk Reduction related to the Use of certain particularly dangerous Substances, Preparations and Articles of August 2005, Annex 1.6)	Published: 06/2010	no consent

Thailand	Interim decision on import Statement of active consideration: The draft decision to prohibit import, export, use of having in possession in the country has been submitted to the Hazardous substances Committee for consideration.	Published: 12/2005	no consent
The former Yugoslav Republic of Macedonia	Final decision on import Conditions for Import: 1. The Production, placing on the market and use of these fibres and of articles containing these fibres is prohibited. By the way of derogation form Paragraph 1 of this point placing on the market and use shall be allowed for: a) reinforced asbestos klingerit; b) asbestos graphite braids, which are necessary for functioning in conditions of extremely high temperature, pressure and aggressive mediums, until the technological process is changed or technological changes of the equipment in which they are used are conducted. Legislative or administrative measures: List on Bans and Restrictions of the use of chemicals (Official Gazette of RM 57/2011)	Published: 06/2012	consent under conditions
United Arab Emirates	Final decision on import Legislative or administrative measures: Tremolite is banned based on the Cabinet Decree No. (39) of 2006 banning the Import, Production and Use of Asbestos Boards in UAE.	Published: 12/2013	no consent
United Republic of Tanzania	Interim decision on import Conditions for Import: Under restriction - permission must be sought from the Registrar of industrial and consumer chemicals (Chief Government Chemist) prior to import. Remarks: The new industrial and consumer chemicals legislation has recently entered into force. Comprehensive monitoring of types of chemicals, products and records is expected to be established under this legislation. Statement of active consideration: Approximately 2 year before a final decision can be reached.	Published: 06/2005	consent under conditions
Uruguay	Final decision on import Conditions for Import: The conditions defined are: An approval should be requested to the Ministry of Public Health , which will be able to grant it with previous decision of the Honorary Commission of Insalubrious Works Legislative or administrative measures: It is banned the manufacture and introduction in the national territory, ill its forms are banned, as well as the marketing of products packagings of asbestos or asbestos under acts 6811 and in the item 6812.26.00.00 of the Common Nomenclature of MERCOSUR. For manufacture, introduction in the national territory in all forms and comercialisation of asbestos either asbestos or its products are banned, but for other products different from wich are mentioned here above an autorisation from the Ministry of Public Health should be obtained. Legislation can be consult at http://www.dinama.gub.uy/descargus/decretos/Dec154_02.pdf	Published: 12/2006	consent under conditions
Venezuela (Bolivarian Republic of)	Final decision on import	Published: 12/2007	no consent

Commercial octabromodiphenyl ether (including Hexabromodiphenyl ether and Heptabromodiphenyl ether)

CAS: 36483-60-0, 68928-80-3

Australia	Interim decision on import Remarks: None	Published: 06/2014	response did not address importation
Canada	Final decision on import Remarks: The following exceptions apply to this import response: Does not apply to any polybrominated diphenyl ether contained in a pest control product within the meaning of subsection 2(1) of the Pest Control Products Act. Does not apply to any polybrominated diphenyl ether, or to any resin, polymer or other mixture containing a polybrominated diphenyl ether set out in the schedule, that is for use a) in a laboratory for analysis; b) in scientific research; c) as a laboratory analytical standard. Does not apply to a product that is formed into a specific physical shape or design during its manufacture and that has, for its final use, a function or functions dependent in whole or in part on its shape or design, if that product contains a polybrominated diphenyl ether. Does not apply to any polybrominated diphenyl ether that is present as a contaminant in a chemical feedstock used in a process from which there are no releases of the polybrominated diphenyl ether, provided that the polybrominated diphenyl ether is destroyed or completely converted in that process to a substance that is not a polybrominated diphenyl ether. Legislative or administrative measures: Polybrominated Diphenyl Ethers Regulations (SOR/SOR/2008-218) made under the Canadian Environmental Protection Act, 1999. The above-named regulations prohibit the manufacture, use, sale, offer for sale and import of the hexabromodiphenyl ether congener that is contained in commercial octabromodiphenyl ether.	Published: 06/2014	no consent

Australia	Interim decision on import Remarks: None	Published: 06/2014	response did not address importation
Canada	Final decision on import Conditions for Import: The following conditions apply to the import of: (a) perfluorooctane sulfonate and its salts; and (b) compounds that contain one of the following groups: C ₈ F ₁₇ SO ₂ , C ₈ F ₁₇ SO ₃ or C ₈ F ₁₇ SO ₂ N The import of the following products containing these substances is permitted: (a) photoresists or anti-reflective coatings for photolithography processes; and (b) photographic films, papers and printing plates. The import of aviation hydraulic fluid containing these substances is permitted. Remarks: The following exceptions apply to this import response: This import response does not apply to these substances when: <ul style="list-style-type: none"> contained in a hazardous waste, hazardous recyclable material or non-hazardous waste to which Division 8 of Part 7 of the Canadian Environmental Protection Act, 1999 applies; contained in a pest control product within the meaning of subsection 2(1) of the Pest Control Products Act; present as a contaminant in a chemical feedstock used in a process from which there are no releases of the substance and provided that, in that process, the substance is destroyed or completely converted to a substance other than one referred to in section 1; or is incidentally present. This import response does not apply to these substances or to any product containing such a substance that is for use <ul style="list-style-type: none"> in a laboratory for analysis; in scientific research; or as a laboratory analytical standard. Legislative or administrative measures: Perfluorooctane Sulfonate and its Salts and Certain Other Compounds Regulations (SOR/2008-178) made under the Canadian Environmental Protection Act, 1999. The Regulations prohibit the manufacture, use, sale, offer for sale and import of the following substances, as well as products containing these substances with certain exemptions: (a) perfluorooctane sulfonate and its salts; and compounds that contain one of the following groups: C ₈ F ₁₇ SO ₂ , C ₈ F ₁₇ SO ₃ or C ₈ F ₁₇ SO ₂ N	Published: 06/2014	consent under conditions
China	Final decision on import Conditions for Import: The trading companies should apply to the MEP of China for registration of environmental management on import of these chemicals. The trading companies must comply with other chemical management regulations in China. Legislative or administrative measures: These chemicals were administered	Published: 06/2014	consent under conditions

according to announcement No. 85, 2013 and No. 21, 2014 issued by MEP.

Eritrea	Final decision on import Legislative or administrative measures: Administrative measure	Published: 12/2013	no consent
Japan	Final decision on import Conditions for Import: Import of Perfluorooctane sulfonic acid j Perfluorooctane sulfonates, and Perfluorooctane sulfonyl fluoride is prohibited in principle (See 4.4) . It is prohibited to import products specified by Cabinet Order .and in which Perfluorooctane sulfonic acid and Perfluorooctane sulfonates are used. The specified products are as follows: (i) Aircraft hydraulic oils (ii) Oils used to spin thread (iii) Etching agents used in metal machining (iv) Etching agents used in the manufacture of semiconductors (excluding compound semiconductors that enable wireless devices that transmit/receive electrical waves of a frequency of 3 megahertz or more) (v) Surface treatment agents and other prepared additives for plating use (vi) Anti-reflection agent used in the manufacture of semiconductors (vii) Abrasives (viii) Fire extinguishers, fire-extinguishing agents for use in fire extinguishers use and fire extinguishing foam (ix) Insecticides (limited to those used in the extermination of termites or ants.) (x) Photographic paper Import of Perfluorooctane sulfonamides is subject to examination under the Law Concerning the Examination and Regulation of Manufacture, etc. of Chemical Substances, when the chemical substance to be imported is a new chemical substance in Japan. There is no specified condition for importing products in which Perfluorooctane sulfonamides are used. Legislative or administrative measures: The following chemicals are designated as Class I Specified Chemical Substances under the Law Concerning the Examination and Regulation of Manufacture, etc. of Chemical Substances (or the Chemical Substances Control Law (CSCL)). A person who intends to operate a business of manufacturing, import or use of a Class I Specified Chemical Substance shall obtain permission. (Manufacture, import or use of these chemical substances is prohibited in principle.) : - Perfluorooctane sulfonic acid - Perfluorooctane sulfonates - Perfluorooctane sulfonyl fluoride Certain essential uses under strict control are permitted as exceptions for Perfluorooctane sulfonic acid and Perfluorooctane sulfonates. Niger	Interim decision on import	Published: 06/2014	response did not address importation
Norway	Interim decision on import Conditions for Import: In Norway PFOS is regulated according to Regulation (EC) No 850/2004. See attachment. The production, placing on the market and use of substances listed in Annex I to Regulation (EC) No 850/2004, whether on their own, in preparations or as constituents of articles, shall be prohibited. Derogations that that apply in Norway are applicable for PFOS are listed in Annex I: In Norway approved specific exemptions and acceptable purposes under the Stockholm Convention. Use in the categories of: - Photo-imaging - Photo-resist and anti-reflective coatings for semi-conductors	Published: 06/2014	consent under conditions

-
- Etching agent for compound semiconductors and ceramic filters
 - Aviation hydraulic fluids
 - Metal plating (hard metal plating) only in closed-loop systems
 - Photo masks in the semiconductor and liquid crystal display (LCD) industries

PFOS in fire-fighting foam are regulated in the Norwegian Product Regulations §2-9:

It is prohibited to have firefighting foam that contains 0,001 per cent by weight or more of PFOS or PFOS related compounds.

Firefighting foam that contains 0,001 per cent by weight or more of PFOS or PFOS related compounds shall be delivered to an approved facility for destruction.

Canada	Final decision on import Conditions for Import: The import of PCBs and product containing PCBs in a concentration of 2 mg/kg or more is prohibited unless permitted by the exceptions listed below. Exceptions: · Import of PCBs or products containing PCBs for the purpose of laboratory analysis if the analysis is conducted: (a) in an authorized facility that is authorized for that purpose; or (b) in a facility that conforms to internationally recognized guidelines on best laboratory practices, if the authorities of the jurisdiction in which the facility is located do not have a mechanism in place to authorize the facility to conduct the analysis. · Aircraft, ships, trains and other vehicles that contain PCBs only in their communication, navigation or electronic control equipment or cables; · A colouring pigment containing PCBs produced incidentally if the concentration of the PCBs is less than 50 mg/kg. However, the annual average concentration of PCBs produced incidentally in colouring pigment that a person may import shall not exceed 25 mg/kg; · Fusion sealed capacitors containing PCBs for use in relation to communication tactical equipment or electronic control tactical equipment. The conditions above do not apply to: · Import of PCBs that are hazardous waste or hazardous recyclable material within the meaning of the <i>Export and Import of Hazardous Waste and Hazardous Recyclable Material Regulation</i> (http://laws-lois.justice.gc.ca/eng/regulations/SOR-2005-149/index.html); · Import of liquids containing PCBs for use in microscopy, including immersion oils, but not including refractive index oils, which is prohibited under section 4 of the <i>Hazardous Products Act</i> (http://laws-lois.justice.gc.ca/eng/acts/H-3/index.html). Legislative or administrative measures: The <i>PCB regulations</i> (http://laws-lois.justice.gc.ca/eng/regulations/SOR-2008-273/index.html) under the <i>Canadian Environmental Protection Act 1999</i> (http://laws-lois.justice.gc.ca/eng/acts/C-15.31/) regulate the manufacturing, sale, export, import and use of PCBs in Canada. Guinea	Interim decision on import	Published: 12/2005	consent under conditions
	<p>Conditions for Import: The conditions are as follow:</p> <ul style="list-style-type: none"> -to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinea Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - PCBs/or PCBs equipments only can be imported by industrials unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. 		

- importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001.
- name, address of the competent authority from which the previous autorisation should be obtained:
M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax: (224) 46 85 46

Remarks: Guinea has a certain number of plastic factories, of foam and painting that use diverse chemical agents like raw materials, between which the PCB could be found. This product imported and used in the industrial units under diverse commercial names, is very bad known by the workers and the populations in general.
In quality of substitute of the PCB, there is a possibility that fractions of PCB exist in the oil remainders of PCB that are in some electrical mining and central societies of the sector. The workers of these industrial units are regularly exposed to these products and dangerous remainders with the risks and dangers that it means for their health, their families' and the environment. The Government, finding a lack of instruments for the characterization, evaluation of the toxicity, ecotoxicity, cancerigenicity, etc, of these industrial products and their remainders, with the purpose of restricting the field of use of all the forms of PCB and to reduce the exhibition of the populations, workers and of the environment, etc, decided to classify this product PIC in the national list of chemical substances strictly regulated (Annexed II of the A/2001/4784/decisionMMGE/26 SGG of October 2001, until a final decision is taken on this matter.

Statement of active consideration: Any import of PCB can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Guinea-Bissau	Final decision on import	Published: 12/2010	no consent

Niger	Interim decision on import Remarks: A final decision is under active consideration by the Ministry of Agriculture. Approximate time needed before a final decision can be reached - 6 months. Additional information on use of the chemical is requested from the countries that notified final regulatory actions. Decision: Response did not address Importation	Published: 12/1999	Response did not address Importation
Nigeria	Interim decision on import Conditions for Import: Permit from FEPA (Federal Environmental Protection Agency) must be obtained. Remarks: Severely restricted for use in closed application in transformers. The chemical is not manufactured or formulated in the country. Additional time is needed to reach a final decision (3-5 years). FEPA has launched an awareness-raising programme for companies and authorities which use PCB-based transformers on hazards related to this chemicals, in order to phase out its use. There is an urgent move to assess the extent of PCB wastes in the country, identify target companies and the most environmentally sound manner of disposal. There is an awareness as to the need of non-PCB-based transformers but alternatives are not yet identified. Tetraethyl lead

CAS: 78-00-2

Albania	Interim decision on import	Published: 06/2013	no consent
Argentina	Interim decision on import Conditions for Import: Resolution No 54/1996 of the Work Secretary and Public Services, establishes technical specifications contained in Annexe I and II, for all fuels commercialized for use in the National Territory. These specifications will also be respected by the concerned fuels commercialized for consumption. The Disposition No 285/1998 of the Fuel Sub-secretariat, modified the Annexed I of Resolution SOSP no 54/1996, limiting the maximum Lead content to 0,013 grams by liter for all gasolines commercialized in the territory of the Argentinean Republic.	Published: 12/2006	consent under conditions
Armenia	Interim decision on import Remarks: The chemical is not manufactured or formulated in the Republic of Armenia. The import of both non-ethylized petrol containing lead at levels above 0.013 g/l and ethylized petrol containing lead at levels above 0.015 g/l was prohibited in the Republic of Armenia according to the 'On regulation of lead-containing petrol use' approved by the Governmental Decision no. 799 dated December 31 1999.	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Import and manufacture of tetraethyl lead for industrial uses prohibited unless prior authorisation is given by the Director of NICNAS except where it is introduced in aviation gasoline or to produce aviation gasoline or in leaded fuel or as a fuel additive, by a person holding an approval under the <i>Fuel Quality Standards Act 2000</i> . Export of tetraethyl lead for industrial uses prohibited unless prior authorisation is obtained from the Director of NICNAS. Legislative or administrative measures: <i>Industrial Chemicals (Notification and Assessment) Regulations 1990</i> under the <i>Industrial Chemicals (Notification and Assessment) Act 1989</i> . (<i>Commonwealth</i>) These came into law on 17 November 2005. Earlier controls regarding tetramethyl lead in automotive and aviation fuel were made under the <i>Fuel Quality Standards Act 2000 (Commonwealth)</i> and various legislation in the states and territories of Australia which remain in force. Canada	<p>Final decision on import</p> <p>Conditions for Import: Conditions are established on the import of Tetraethyl lead when contained in gasoline, or for the purpose of blending with gasoline. With the exception of the uses listed below, the maximum concentration of lead in gasoline produced, imported, sold or offered for sale in Canada is 5 mg/l. Exceptions: - Gasoline for use in aircraft - Gasoline for use in competition vehicles Legislative or administrative measures: The <i>Gasoline Regulations</i> (SOR/90-247) and its amendments (http://laws-lois.justice.gc.ca/eng/regulations/SOR-90-247/index.html) under the <i>Canadian Environmental Protection Act, 1999</i> (http://laws-lois.justice.gc.ca/eng/acts/C-15.31/index.html) limit the lead and phosphorous content in gasoline that is produced, imported or sold in Canada to 5 mg/L and 1.3 mg/L, respectively. The use of leaded gasoline was prohibited in cars in 1990 when the <i>Gasoline Regulations</i> (the Regulations) came into force under the <i>Canadian Environmental Protection Act</i>. An on-going exemption exists for leaded gasoline for use in aircraft and an indeterminate exemption for leaded gasoline for use in competition vehicles is currently in place.</p>	Published: 06/2012	consent under conditions
Chile	<p>Final decision on import</p> <p>Remarks: In Chile exists a rule of Primary Quality for Lead in the Air , Supreme Decree No. 136 of 2000, which establishes a value of 05 micrograms by meter cube normal (ug/m3N) as annual concentration. From 1994 the entrance to national territory of new vehicles that do not have catalytic converter technology is prohibit , which means that at the present the lead gasoline is not sold in all the country, as this one is incompatible with the catalytic technology. In our country there are three fuel refineries that produce gasoline with specific standards for sale in the Metropolitan Region, being the rule of gas discharge of combustion for vehicles the most strict of the country, which has meant a high rate of renovation of the park to vehicular towards technology with catalytic converters, and therefore, refineries had chosen to eliminate uses of lead compounds in the gasolines that produce, replacing these antidetonating by other types, as they are the oxygenated ones.</p>	Published: 12/2005	consent

Guinea	Interim decision on import	Published: 12/2005	no consent
	<p>Conditions for Import: The conditions are as follow: - to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinee Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - asbestos tremolite only can be imported by industrials unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. - importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001. - name, address of the competent authority from which the previous autorisation should be obtained:</p>		

M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax: (224) 46 85 46

Remarks: The lead tetraethyle (PTE) at the moment was not object of any import in its pure form. It is introduced in the country like a component of the kerosene, a frequently consumed fuel by civilian and military aviation in urban, rural, and suburbans zones and in the houses the kerosene is used for lamps of lighting system for case of storms, the fire in the kitchens. In both cases, the smoke and gases of combustion of the kerosene provoque lead emission and environment contamination on great scale by the lead.

The exhibition of the populations to the emitted lead and the contamination of the food chain by this product are dangerous for the health. However, we would need adapted means to regularly evaluate correctly and the consequences at sanitary and environmental levels of the exhibition to the lead by populations in general and specially by the most vulnerable social levels (pregnant women, young people, old people and children etc.) . Before these situations, the Government and the oil societies are promoting the import and the progressive use of the equipment with gas butane for the domestic.

Statement of active consideration: Any tetraethyl lead import can be done without previous autorisation of the environment service and the competent authority properly approuved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Guinea-Bissau	Final decision on import	Published: 12/2010	no consent

	<p>Conditions for Import: In Morocco , fuels used in motor vehicles since 2009 meet well-defined standards .The addition of any anti-knock additive is subject to the prior approval of the Ministry of Energy and Mines.</p> <p>• Decree n ° 2181-08 of 13 hijra 1429 (12 December 2008) of the Minister of Energy, Mines , Water and Environment amended and completed Decree of the Minister of Energy and mine No. 1546-1507 of 18 rejev 1428 (3 August 2007) on the characteristics of major petroleum products.</p> <p>Petroleum products : premium unleaded , diesel and 50 ppm fuels , shall, when they are held for sale, offered for sale or sold after delivery for domestic consumption , conform to the characteristics corresponding to their names (Table attached) .</p> <p>Characteristics of major petroleum products in Morocco</p> <p>Name: supercarburant/ premium gasoline</p> <p>Features:</p> <p>Distillation: Distillation test should collect the following volumes of distillates including losses : 10% before 70 ° C; 50 % before 140 ° C ; 95 % before 195 ° C;</p> <p>The final boiling point must be at most equal to 205 ° C and the distillation residue less than 3 % ;</p> <p>Density : it must be lower or equal to 0.760 to 20 ° C;</p> <p>Vapor Pressure : expressed in g/cm3 at 37.8 ° C must be less than or at most equal to 800 during the period from 15 October of one year and April 30 of the following year . It must be less than or equal to 650 during the period between May 1 and October 14 of the same year ;</p> <p>Gums : gums' content must be less than or at most equal to 10 mg per 100 cm3;</p> <p>Sulfur content: premium gasoline must not contain more than 0.15% total sulfur and must give a corrosion test negative to the copper strip (scale 1 B);</p> <p>Octane index : octane measured by the method CFR (Research Method) must be at least equal to 95 and a maximum equal to 97 ;</p> <p>Lead content : The maximum amount of tetraethyl lead can be blended with gasoline is established to 6 ten thousandth ;</p> <p>Color: premium gasoline must have a coloring as it may be, at first glance, differentiated from regular gasoline and "aviation" .</p> <p>Name: "gasoline " or " motor gasoline " or " ordinary gasoline " or " gasoline tourism"</p> <p>Features:</p> <p>Distillation: Distillation test should collect the following volumes of distillates including losses : 10% front 70 ° C; Before 50 % 140 ° C ; Before 95 % 195 ° C;</p> <p>The final boiling point must be at most equal to 205 ° C and the distillation residue is less than 2.5 % ;</p> <p>Density : it must be lower or equal to 0.750 to 20 ° C;</p> <p>Vapor Pressure : expressed in g/cm3 at 37.8 ° C must be less than or at most equal to 800 during the period from 15 October of one year and April 30 of the following year . It must be less than or equal to 650 during the period between May 1 and October 14 of the same year ;</p> <p>Gums : gums content must be less than or at most equal to 10 mg per 100 cm3 ;</p> <p>Sulfur content fuel must not contain more than 0.20 % total sulfur and must give a corrosion test negative to the copper strip (scale 1 B);</p> <p>Octane index: octane index gasoline measured by C.F.R method (Research Method) must be at least 87;</p> <p>Lead content : The maximum amount of tetraethyl lead can be blended with gasoline is established to 6 ten thousandth ;</p> <p>Color: gasoline must be colored pale yellow.</p> <p>Remarks: Morocco has a refinery SAMIR in Mohammedia. Its refining capacity is of 6.3 million t / year. Modernization Plan (2005-2009) has enabled the refinery to adapt its production configuration to the structure of the domestic market, improve the quality of petroleum products (gasoline 50 ppm introduction in April 2009) , reduce emissions of sulfur and lead and prepare for liberalization of the domestic market for petroleum products. These new</p>		

specifications applied since 2009, allowed Morocco to be positioned as 45th country in the world in ranking the quality of fuels with reduced emissions by 760 tonnes of lead per year.
In Morocco, tetraethyl lead and tetramethyl lead are not imported as pure substance as such but as antiknock preparations or as special gasolines that are subject to authorization from the Ministry of Energy and Mines.

Legislative or administrative measures: Decree n° 2181-08 of 13 hijra 1429 (12 December 2008) of the Minister of Energy, Mines, Water and Environment amending and supplementing Decree of the Minister of energy and mines n° 1546-1507 18 rejab 1428 (3 August 2007) on characteristics of major oil products.

Decree No. 2-09-286 of December 2009 establishes standards for air quality and procedures for air monitoring. Official Gazette No. 5806 of 31 January 2010).
For lead and its compounds in the dust, the emission limit value is 1 mg / m³. (Annual average value).

Uruguay	<p>Final decision on import</p> <p>Conditions for Import: Concerning automobile gasolines, in Law 17,775 of 31 may/2004 is indicated:</p> <p>Article 2: the commercialization is prohibited, in the national territory, from 31 December 2004, of gasolines whose total lead content, is more than 13 mg/l (thirteen milligrams per liter)</p> <p>Article 3: It applies to any import of fuel with the same limit indicated in the previous article, from the entry into force of this law.</p> <p>Remarks: The only imported product that contains lead tetraethyl is the gasoline for aviation of 100 octanes. The maximum content is 1,12 lead g/L (1,89 g of tetraethyl lead). It is imported by ANCAP, according to specifications of Norm ASTM D910.</p> <p>In 2004 the ANCAP refinery was transformed in order to be enabled to produce gasolines with lead additives, and gasolines are produced without lead and the gasoline premium 97 SP the MTBE is used as additive in one gasoline.</p> <p>Legislative or administrative measures: Law n° 17.775, Prevention of contamination by lead.</p>	Published: 12/2006	consent under conditions
Venezuela (Bolivarian Republic of)	<p>Interim decision on import</p> <p>Conditions for Import: The conditions expressed are:</p> <p>Description of the national legislative/administrative measures: Nevertheless, the permission of the Ministry of Energy and Petroleum for import of this chemical is required. In Venezuela there is currently a resolution from the Ministry of Energy and Petroleum to eliminate gasoline containing lead: GACETA OFICIAL DE LA REPUBLICA BOLIVARIANA DE VENEZUELA N° 340.979, MINISTERIO DE ENERGIA Y PETROLEO, DESPACHO DEL MINISTERIO, Caracas, 15 agosto 2006 N° 301 195° Y 146°</p> <p>Resolution:</p> <p>In accordance with Article 156, paragraph 16 of the Constitution of the Bolivarian Republic of Venezuela, and Articles 8 and 60 of the organic hydrocarbons law Decree, and also in accordance with Article 76 of the organic public administration law.</p> <p>The constitution of the Bolivarian Republic of Venezuela states in Article 127, that the State will protect the environment, biological diversity, energy resources, and ecological processes among others.</p> <p>As the Organic Law of Hydrocarbons states in Article 8 that the Ministry of Energy and Mines (now Energy and Oil) is concerned with the formulation of regulations, policy and planning, realization and control of activities in the field of the hydrocarbons, which includes matters relating to the development, conservation, management and control of resources, as well as market studies, the analysis and fixing of prices for oil and its products.</p> <p>As Article 19 of the Organic Law of Hydrocarbons, states that all persons engaged in activities related to the law, should do so in a continuous and efficient way, in accordance with the applicable rules and best practices available scientifically and technically on Occupational Safety and Health and environmental hygiene for the development of and rational use of hydrocarbons.</p> <p>Since it is necessary to withdraw from the domestic market leaded gasoline in order to preserve the environment, substituting this product with other varieties of unleaded petrol (gasoline ecological), which would result in reducing the emissions of carbon monoxide and nitrogen oxides (internal combustion products).</p> <p>Resolves:</p> <p>Article 1.- This resolution aims to establish the types of products to be sold in</p>	Published: 12/2007	consent under conditions

establishments authorized to carry out such activity, as well as prices to be applied to the sale to the public.

Article 2.- Sets throughout the country types and maximum prices for the public sale of motor gasoline sold in establishments authorized to carry out this activity. Unleaded petrol with an octane rating of 95 and an anti-explosion index rating of 91, refers to gasoline without the component Tetraethyl Lead (TEL), corresponding to the COVENIN standards. Unleaded petrol with an octane rating of 91 and an anti-explosion index rating of 87 refers to gasoline without the tetraethyl lead component. Corresponding to the values set by COVENIN.

Article 3.- The trade of the products mentioned in the previous article, will enter into force once this resolution is published.

Article 4.- Duration of the implementation of this resolution shall be determined by the Directorate of Commerce and the Directorate of Supply and Audit and Inspection of this Ministry

Article 5.- Violations of the provisions of this Resolution shall be punished as provided in the Organic Law of Hydrocarbons and the resolutions that apply in each case.

Article 6.- Repealing resolutions No. 203 dated July 15, 1997, published in the Official Gazette No. 36248 dated July 15

Part 2 - Listing of all importing responses received from Parties

Tetramethyl lead			
CAS: 75-74-1			
Albania	Interim decision on import	Published: 06/2013	no consent
Argentina	Interim decision on import Conditions for Import: Resolution No 54/1996 of the Work Secretary and Public Services, establishes technical specifications contained in Annexe I and II, for all fuels commercialized for use in the National Territory. These specifications will also be respected by the concerned fuels commercialized for consumption. The Disposition No 285/1998 of the Fuel Sub-secretariat, modified the Annexed I of Resoution SOSP no 54/1996, limiting the maximum Lead content to 0,013 grams by liter for all gasolines commercialized in the territory of the Argentinean Republic.	Published: 12/2006	consent under conditions
Armenia	Interim decision on import Remarks: The chemical is not manufactured or formulated in the Republic of Armenia. The import of both non-ethylized petrol containing lead at levels above 0.013 g/l and ethylized petrol containing lead at levels above 0.015 g/l was prohibited in the Republic of Armenia according to the 'On regulation of lead-containing petrol use' approved by the Governmental Decision no. 799 dated December 31 1999.	Published: 12/2006	no consent
Australia	Final decision on import Conditions for Import: Prior authorisation is given by the Director of NICNAS Legislative or administrative measures: Regulations were made in the <i>Industrial Chemicals (Notification and Assessment) Regulations 1990</i> under the <i>Industrial Chemicals (Notification and Assessment) Act 1989. (Commonwealth)</i> These came into law on 17 November 2005. Earlier controls regarding tetramethyl lead in automotive and aviation fuel were made under the <i>Fuel Quality Standards Act 2000 (Commonwealth)</i> and various legislation in the states and territories of Australia which remain in force.	Published: 12/2006	consent under conditions
Belize	Final decision on import Legislative or administrative measures: Environmental Protect Act, Schedule of Hazardous Substances, Part I, Subpart B.	Published: 06/2009	no consent
Brazil	Final decision on import Statement of active consideration: A study of uses in the country is being undertaken, to allow import only for use permitted or after joint evaluation of human toxicology and exotoxicology by the Health and Environmental sectors respectively. A vehicle pollution control program which is underway in the country (PROCONVE), has as its main objective the pollutant emission reductions for vehicles, and technological developments both for engineering and pollution monitoring.	Published: 12/2011 Revised: 06/2011	consent
Burkina Faso	Final decision on import Legislative or administrative measures: Law no. 041/96/08 ADP of November 1996, which establishes a pesticide control in Burkina Faso and the law n°. 006-98/26 AN of March 1998 on the modification of law 041/96/ADP of the 08/11/96. Law no. 005/97/ADP of 30 January 1997, on the Environment Code in Burkina Faso	Published: 06/2006	no consent

Canada	Final decision on import Conditions for Import: Conditions are established on the import of Tetramethyl lead when contained in gasoline, or for the purpose of blending with gasoline. With the exception of the uses listed below, the maximum concentration of lead in gasoline produced, imported, sold or offered for sale in Canada is 5 mg/l. Exceptions: - Gasoline for use in aircraft - Gasoline for use in competition vehicles Legislative or administrative measures: The <i>Gasoline Regulations</i> (SOR/90-247) and its amendments (http://laws-lois.justice.gc.ca/eng/regulations/SOR-90-247/index.html) under the <i>Canadian Environmental Protection Act, 1999</i> (http://laws-lois.justice.gc.ca/eng/acts/C-15.31/index.html) limit the lead and phosphorous content in gasoline that is produced, imported or sold in Canada to 5 mg/L and 1.3 mg/L, respectively. The use of leaded gasoline was prohibited in cars in 1990 when the <i>Gasoline Regulations</i> (the Regulations) came into force under the <i>Canadian Environmental Protection Act</i> . An on-going exemption exists for leaded gasoline for use in aircraft and an indeterminate exemption for leaded gasoline for use in competition vehicles is currently in place.	Published: 06/2012	consent under conditions
Chile	Final decision on import Remarks: In Chile exists a rule of Primary Quality for Lead in the Air , Supreme Decree No. 136 of 2000, which establishes a value of 05 micrograms by meter cube normal (ug/m3N) as annual concentration. From 1994 the entrance to national territory of new vehicles that do not have catalitic converter tecnology is prohibit , which means that at the present the lead gasoline is not sold in all the country, as this one is incompatible with the catalitic technology. In our country there are three fuel refineries that produce gasoline with specific standards for sale in the Metropolitan Region, being the rule of gas discharge of combustion for vehicles the most strict of the country, which has meant a high rate of renovation of the park to vehicular towards tecnology with catalitic converters, and therefore, refineries had chosen to eliminate uses of lead compounds in the gasolines that produce, replacing these antidetonating by other types, as they are the oxygenated ones.	Published: 12/2005	consent
China	Final decision on import Conditions for Import: Permission must be obtained from the Ministry of Environmental Protection of the People's Republic of China. Legislative or administrative measures: Circular of the Administrative Office of the State Council on stopping the production, sales and use of leaded fuel before the designated time limit. (Enacted by the Administrative Office of the Slate Council on September 12, 1998, and came into force on September 12, 1998) Law on the Prevention and Control of Air Pollution (Article 34) The complete name and address of the institution/authority responsible for issuing this national legislative or administrative measure: Ministry of Environmental Protection of the People's Republic of China, No. 115 Xizhimennei Nanxiaojie, Beijing 100035, China. <ul style="list-style-type: none"> Additional information related to Hong Kong Special Administrative Region (HKSAR) related to the import response for Annex III chemicals: Published: 12/06/2009; Final decision on import: Consent under conditions; Conditions of import: Permission must be obtained from the Environmental Protection Department (EPD) of the HKSAR, China. 	Published: 06/2008 Revised: 10/2008	consent under conditions
Colombia	Final decision on import Conditions for Import: Pursuant to Article 1 of Decree 1530 of 2002: "Amendment to Article 40 of Decree 948 of 1995, as amended by Decree 1697 of 1997 and Decree 2622 of 2000 in accordance with what is stated in this Order, which statement is: Article 40. Content of lead and other contaminants in the fuel will not be allowed	Published: 12/2010	consent under conditions

	<p>to import, production or distribution in the country, gasoline containing tetraethyl lead in quantities exceeding those set internationally specified for unleaded petrol, with the exception of fuel for piston aircraft. "</p> <p>"Section 2". Exception for the region currently served by the refinery in Orito - Putumayo, concerning the prohibition of the production, importation, marketing, distribution, sale and use of leaded motor gasoline in the country, an authorization of the Ministry of the environment is necessary to get an authorized period, after having received a favorable opinion of the Ministry of Mines and Energy.</p> <p>Legislative or administrative measures: Regulated by Decree 1530 of 2002, which amends Article 40 of Decree 948 of 1995, as amended by Article 20 of Decree 1697 of 1997 and Decree 2622 of 2000, in relation to the prevention and control of air pollution and the protection of air quality. Regulations for the prevention and control of pollution by hazardous chemicals, hazardous and special waste, Official Gazette No. 631 of February 1, 2012 Art 163. "The Ministry of Environment will coordinate with the institutions charged by law to regulate dangerous chemicals, so that only those non-restricted or non-prohibited substances entering the country according to national lists of dangerous chemicals and its environmentally sound management is achieved , for which we establish the mechanisms and tools. " MINISTRY OF ENVIRONMENT OF ECUADOR. National lists of hazardous chemicals, hazardous and special waste, Official Gazette No. 856 of December 21, 2012 List No. 1: List of prohibited hazardous chemicals CAS No.: 78-00-2, Description: Tetraethyl lead</p>	<p>Published: 06/2013</p> <p>Revised: 02/2013</p>	no consent
El Salvador	<p>Final decision on import</p> <p>Conditions for Import: The express conditions are: In the request of Environmental Permission for Chemicals import the pertinent information that must be included should demonstrate that: 1) the importer has an installation with Environmental Permission of Operation and the substance is declared as a raw material for industrial use and is not considered as a substitute for the process. 2) The importer is registered to enter this type of substance; 3) That the remains and wastes generated during its use, will not</p>	Published: 06/2006	consent under conditions

generate damages to the health and the environment 4) Do not allow the import of tetramethyl lead and its mixtures for its use like fuel additive.

Legislative or administrative measures: Description of the legislative or administrative measurement of national character:

Official Newspaper, Volume No. 367, Published Monday, 13 June 2005. Agreement 14 "Listing of Regulated Substances which require the Environmental Permission of the Ministry of Environment and Natural Resources
Ministerial Agreement No. 279, Economy section, of 26 May 1995.

Eritrea	Final decision on import	Published: 06/2010	no consent
	Legislative or administrative measures: Due to administrative measures and market forces.		
European Union	Final decision on import	Published: 12/2005	consent under conditions
Member States: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta**, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom of Great Britain and Northern Ireland	<p>Conditions for Import: The use of the chemical as an anti-knock compound in leaded petrol for vehicles is banned since it is prohibited to place on the market leaded petrol for vehicles. However, Member States may allow a derogation for small quantities of leaded petrol containing not more than 0.15g lead/L, up to a maximum of 0.5% of total sales, for collectors' old cars.</p> <p>Legislative or administrative measures: It is prohibited to place on the market leaded petrol for vehicles pursuant to Directive 98/70/EC of the European Parliament and of the Council of 13 October 1998 relating to the quality of petrol and diesel fuels and amending Council Directive 93/12/EEC (Official Journal of the European Communities L350 of 28/12/1998, p. 58).</p> <p>** : These countries are currently PARTICIPATING STATES to the Rotterdam Convention. They are however listed here since they are Member States of the European Community (EC), which is a Party and whose import responses, in accordance with EC legislation, cover all its Member States</p>		
Guinea	Interim decision on import	Published: 12/2005	consent under conditions
	<p>Conditions for Import: The conditions are as follow:</p> <ul style="list-style-type: none"> - to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinea Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - asbestos tremolite only can be imported by industrial unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. - importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the decision A/2001/4785/MMGE/SGG of October 26, 2001. - name, address of the competent authority from which the previous autorisation should be obtained: <p>M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax: (224) 46 85 46</p> <p>Remarks: The lead tetramethyle (PTM) at the moment was not object of any import in its pure form. It is introduced in the country like a component of the kerosene, a frequently consumed fuel by civilian and military aviation in urban, rural, and suburban zones and in the houses the kerosene is used for lamps of lighting system for case of storms, the fire in the kitchens. In both cases, the smoke and gases of combustion of the kerosene provoke lead emission and environment contamination on great scale by the lead.</p> <p>The exhibition of the populations to the emitted lead and the contamination of the food chain by this product are dangerous for the health. However, we would need adapted means to regularly evaluate correctly and the consequences at sanitary and environmental levels of the exhibition to the lead by populations in general and specially by the most vulnerable social levels (pregnant women, young people, old people and children etc.) . Before these situations, the Government and the oil societies are promoting the import and the progressive use of the equipment with</p>		

	gas butane for the domestic.		
	Statement of active consideration: Any tetramethyl lead import can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.		
Guinea-Bissau	Final decision on import	Published: 12/2010	no consent
Guyana	Final decision on import Legislative or administrative measures: Administrative decision of the Pesticides and Toxic Chemicals Control Board. The product is not registered nor any application for registration has been received for this product.	Published: 12/2007	no consent
India	Final decision on import Conditions for Import: The import would be allowed subject to obtaining licence for import from the Government. Remarks: It is clarified that registration of pesticides and their formulations is mandatory under "The Insecticide Act." No such registration is required for industrial chemicals. Legislative or administrative measures: Notification No. 33 (RE-2005)/2004-09 dated 31 October 2005 issued by Ministry of Commerce and Industry, Department of Commerce	Published: 12/2005	consent under conditions

Malaysia	Final decision on import Conditions for Import: Permit from the Department of Environment, Malaysia Legislative or administrative measures: Import of tetramethyl lead is controlled under the Environmental Quality (Control of Lead Concentration in Motor Gasoline) Regulations 1985. Tetramethyl lead is permitted to be used in motor gasoline only.	Published: 06/2006	consent under conditions
Mauritius	Final decision on import Legislative or administrative measures: Tetramethyl lead has been listed as a prohibited chemical under the Dangerous Chemicals Control Act 2004	Published: 06/2006	no consent
Mexico	Final decision on import Conditions for Import: The tetramethyl lead is listed in the agreement that establishes the classification and codification of goods which import is subject to regulation from the dependencies that integrate the intersectorial commission for the control of the process and use of pesticides, fertilizers and toxic chemicals . Legislative or administrative measures: Agreement establishing the classification and codification of goods which import is subject to regulation from the dependencies that integrate the intersectorial commission for the control of the process and use of pesticides, fertilizers and toxic chemicals. Published in the official bulletin of the federation on 29 march 2002 (first section) 174.	Published: 12/2007	consent under conditions
Mongolia	Final decision on import Legislative or administrative measures: Government resolution No. 95/2007 Annex I - List of prohibited chemicals in Mongolia.	Published: 06/2010	no consent
Morocco	Final decision on import Conditions for Import: In Morocco , fuels used in motor vehicles since 2009 meet well-defined standards . The addition of any anti-knock additive is subject to the prior approval of the Ministry of Energy and Mines. • Decree n ° 2181-08 of 13 hijra 1429 (12 December 2008) of the Minister of Energy, Mines , Water and Environment amended and completed Decree of the Minister of Energy and mine No. 1546-1507 of 18 regeb 1428 (3 August 2007) on the characteristics of major petroleum products. Petroleum products : premium unleaded , diesel and 50 ppm fuels , shall, when they are held for sale, offered for sale or sold after delivery for domestic consumption , conform to the characteristics corresponding to their names (Table attached) .	Published: 06/2014	consent under conditions

Characteristics of major petroleum products in Morocco

Name: **supercarburant/ premium gasoline**

Features:

Distillation: Distillation test should collect the following volumes of distillates including losses : 10% before 70 ° C; 50 % before 140 ° C ; 95 % before 195 ° C;

The final boiling point must be at most equal to 205 ° C and the distillation residue less than 3 % ;

Density : it must be lower or equal to 0.760 to 20 ° C;

Vapor Pressure : expressed in g/cm³ at 37.8 ° C must be less than or at most equal to 800 during the period from 15 October of one year and April 30 of the following year . It must be less than or equal to 650 during the period between May 1 and October 14 of the same year ;

Gums : gums' content must be less than or at most equal to 10 mg per 100 cm³;

Sulfur content: premium gasoline must not contain more than 0.15% total sulfur and must give a corrosion test negative to the copper strip (scale 1 B);

Octane index : octane measured by the method CFR (Research Method) must be at least equal to 95 and a maximum equal to 97 ;

Lead content : The maximum amount of tetraethyl lead can be blended with gasoline is established to 6 ten thousandth ;

Color: premium gasoline must have a coloring as it may be, at first glance, differentiated from regular gasoline and "aviation" .

Name: **"gasoline " or " motor gasoline " or " ordinary gasoline " or " gasoline tourism"**

Features:

Distillation: Distillation test should collect the following volumes of distillates including losses : 10% front 70 ° C; Before 50 % 140 ° C ; Before 95 % 195 ° C; The final boiling point must be at most equal to 205 ° C and the distillation residue is less than 2.5 % ;

Density : it must be lower or equal to 0.750 to 20 ° C;

Vapor Pressure : expressed in g/cm³ at 37.8 ° C must be less than or at most equal to 800 during the period from 15 October of one year and April 30 of the following year . It must be less than or equal to 650 during the period between May 1 and October 14 of the same year ;

Gums : gums content must be less than or at most equal to 10 mg per 100 cm³ ;

Sulfur content fuel must not contain more than 0.20 % total sulfur and must give a corrosion test negative to the copper strip (scale 1 B);

Octane index: octane index gasoline measured by C.F.R method (Research Method) must be at least 87;

Lead content : The maximum amount of tetraethyl lead can be blended with gasoline is established to 6 ten thousandth ;

Color: gasoline must be colored pale yellow.

Remarks: Morocco has a refinery SAMIR in Mohammedia. Its refining capacity is of 6.3 million t / year. Modernization Plan (2005-2009) has enabled the refinery to adapt its production configuration to the structure of the domestic market, improve the quality of petroleum products (gasoline 50 ppm introduction in April 2009) , reduce emissions of sulfur and lead and prepare for liberalization of the domestic market for petroleum products. These new specifications applied since 2009, allowed Morocco to be positioned as 45th country in the world in ranking the quality of fuels with reduced emissions by 760 tonnes of lead per year.

In Morocco , tetraethyl lead and tetramethyl lead are not imported as pure substance as such but as antiknock preparations or as special gasolines that are subject to authorization from the Ministry of Energy and Mines.

Legislative or administrative measures: Decree n ° 2181-08 of 13 hja 1429 (12 December 2008) of the Minister of Energy, Mines, Water and Environment amending and supplementing Decree of the Minister of energy and mines n 1546-1507 18 rejb 1428 (3 August 2007) on characteristics of major oil products.

Decree No. 2-09-286 of December 2009 establishes standards for air quality and procedures for air monitoring . Official Gazette No. 5806 of 31 January 2010).

For lead and its compounds in the dust , the emission limit value is 1 mg / m³ . (Annual average value).

New Zealand	Final decision on import	Published: 06/2006	no consent

Switzerland	Final decision on import Published: 12/2005 consent under conditions Conditions for Import: Considering that tetraethyl and tetramethyl lead were used in gasoline, the legislative measures are based on requirements of the content of lead in gasoline. Gasoline: From 1 January 2000, gasoline shall be imported or supplied for commercial purposes only if the lead content does not exceed 0.005 g/L. Aviation fuel shall be imported or supplied for commercial purposes only if the lead content does not exceed 0.56 g/L and the benzene content does not exceed 1 percent (% volume). Aviation fuel that is to be marketed shall be tinted blue. (Luftreinhalte-Verordnung, 3 August 2004, SR 814.318.124.1; http://222.bk.admin.ch) Remarks: TEL or TML are currently not imported into Switzerland, nor is leaded gasoline or aviation fuel manufactured in Switzerland. Currently, only the aviation fuel Avgas 100LL (>0.1 - <0.5% Pb) is imported into Switzerland.
Thailand	Final decision on import Published: 12/2005 consent under conditions Conditions for Import: Required import and production registration and also import license. Legislative or administrative measures: The notification of Ministry of Industry under Hazardous Substance Act BE 2535 (1992) entitled list of Hazardous Substances. In this list, tetramethyl lead has been identified as type 3 hazardous substance, which the production, import, export or having in possession must obtain a permit.
The former Yugoslav Republic of Macedonia	Final decision on import Published: 06/2012 consent under conditions Conditions for Import: 1. The Production, placing on the market and use of these fibres and of articles containing these fibres is prohibited. By the way of derogation from Paragraph 1 of this point placing on the market and use shall be allowed for: a) reinforced asbestos klingerit; b) asbestos graphite braids, which are necessary for functioning in conditions of extremely high temperature, pressure and aggressive mediums, until the technological process is changed or technological changes of the equipment in which they are used are conducted. Legislative or administrative measures: List on Bans and Restrictions of the use of chemicals (Official Gazette of RM 57/2011)
United Arab Emirates	Interim decision on import Published: 12/2013 no consent
Uruguay	Final decision on import Published: 12/2006 consent under conditions Conditions for Import: Concerning automobile gasolines, in Law 17,775 of 31 may/2004 is indicated: Article 2: the commercialization is prohibited, in the national territory, from 31 December 2004, of gasolines whose total lead content, is more than 13 mg/l (thirteen milligrams per liter) Article 3: It applies to any import of fuel with the same limit indicated in the previous article, from the entry into force of this law. Remarks: In 2004 the ANCAP refinery was transformed in order to be enabled to produce gasolines with lead additives, and gasolines are produced without lead and the gasoline premium 97 SP the MTBE is used as additive in one gasoline. Legislative or administrative measures: Law n° 17.775, Prevention of lead contamination.
Venezuela (Bolivarian Republic of)	Interim decision on import Published: 12/2007 consent under conditions Conditions for Import: The conditions expressed are: Description of the national legislative/administrative measures: Nevertheless, the permission of the Ministry of Energy and Petroleum for import of this chemical is required. In Venezuela there is currently a resolution from the Ministry of Energy and Petroleum to eliminate gasoline containing lead: GACETA OFICIAL DE LA REPUBLICA BOLIVARIANA DE VENEZUELA N°

340.979, MINISTERIO DE ENERGIA Y PETROLEO, DESPACHO DEL MINISTERIO, Caracas, 15 agosto 2006 N°301 195° Y 146°

In accordance with Article 156, paragraph 16 of the Constitution of the Bolivarian Republic of Venezuela, and Articles 8 and 60 of the organic hydrocarbons law Decree, and also in accordance with Article 76 of the organic public administration law.

The constitution of the Bolivarian Republic of Venezuela states in Article 127, that the State will protect the environment, biological diversity, energy resources, and ecological processes among others. As the Organic Law of Hydrocarbons states in Article 8 that the Ministry of Energy and Mines (now Energy and Oil) is concerned with the formulation of regulations, policy and planning, realization and control of activities in the field of the hydrocarbons, which includes matters relating to the development, conservation, management and control of resources, as well as market studies, the analysis and fixing of prices for oil and its products.

As Article 19 of the Organic Law of Hydrocarbons, states that all persons engaged in activities related to the law, should do so in a continuous and efficient way, in accordance with the applicable rules and best practices available scientifically and technically on Occupational Safety and Health and environmental hygiene for the development of and rational use of hydrocarbons. Since it is necessary to withdraw from the domestic market leaded gasoline in order to preserve the environment, substituting this product with other varieties of unleaded petrol (gasoline ecological), which would result in reducing the emissions of carbon monoxide and nitrogen oxides (internal combustion products).

Resolves:

Article 1.- This resolution aims to establish the types of products to be sold in establishments authorized to carry out such activity, as well as prices to be applied to the sale to the public.

Article 2.- Sets throughout the country types and maximum prices for the public sale of motor gasoline sold in establishments authorized to carry out this activity. Unleaded petrol with an octane rating of 95 and an anti-explosion index rating of 91, refers to gasoline without the component Tetraethyl Lead (TEL), corresponding to the COVENIN standards. Unleaded petrol with an octane rating of 91 and an anti-explosion index rating of 87 refers to gasoline without the tetraethyl lead component. Corresponding to the values set by COVENIN.

Article 3.- The trade of the products mentioned in the previous article, will enter into force once this resolution is published.

Article 4.- duration of the implementation of this resolution shall be determined by the Directorate of Commerce and the Directorate of Supply and Audit and Inspection of this Ministry

Article 5.- violations of the provisions of this Resolution shall be punished as provided in the Organic Law of Hydrocarbons and the resolutions that apply in each case.

Article 6.- repealing resolutions No. 203 dated July 15, 1997, published in the Official Gazette No. 36248 dated July 15

Canada	Final decision on import Conditions for Import: Tris (2,3-dibromopropyl) phosphate is not specified on the Domestic Substances List. Canadian importers may be subject to notification obligations under the <i>New Substances Notifications Regulations (Chemicals and Polymers)</i> (http://laws-lois.justice.gc.ca/eng/regulations/SOR-2005-247/index.html) under the <i>Canadian Environmental Protection Act, 1999</i> (http://laws-lois.justice.gc.ca/eng/acts/C-15.31/). If subject to such a notification, the Canadian importer will be required to complete this step before import can occur. Legislative or administrative measures: The <i>New Substances Notifications Regulations (Chemicals and Polymers)</i> (http://laws-lois.justice.gc.ca/eng/regulations/SOR-2005-247/index.html) under the <i>Canadian Environmental Protection Act, 1999</i> (http://laws-lois.justice.gc.ca/eng/acts/C-15.31/index.html) regulate the import and manufacture of substances that are not listed on the Domestic Substances List (DSL). Those proposing to import or manufacture chemicals or polymers not listed on the DSL are responsible for providing specific information to the New Substances Program, as set out in the Schedules to the Regulations, prior to import or manufacture. Tris (2,3-dibromopropyl) phosphate is not regulated by any other regulations in Canada.	Published: 06/2012	consent under conditions

Chad	Interim decision on import Remarks: Additional time is needed to reach a final decision.	Published: 01/1995	no consent
Chile	Final decision on import Legislative or administrative measures: No express legislative measure of prohibition has been issued by the public health authorities or other authority. An authorisation is needed for its import into the country.	Published: 12/2000	consent

Guinea	Interim decision on import	Published: 12/2005	consent under conditions
	<p>Conditions for Import: The conditions are as follow: - to address a written request in order to obtain the previous authorization for import, to the responsible authority elected by the minister of the environment (reference: Articles 6 and 10 of the decision A/2001/4785/MMGE/SGG of October 26, 2001, concerning article 8 of the D/97/287/ decree PRGSGG of 24 december 1997, establishing the management and control of harmful and dangerous chemicals in Guinea Republic); - to obtain a previous authorization to import, delivered by competent authority (reference: Article 5 of the decision A/2001/4785/MMGE/SGG 26 october 2001) - tris (2,3 dibromopropyl) phosphate only can be imported by industrial unities, mining industry, building constructions companies, electricity centrals and production and distribution centers, laboratories and research centers, etc, and this, for certain uses when the need is justify, since this product appears in order no. 57 of appendix II of the decision A/2001/4784/MMGE/SGG of October 26, 2001, making reference for application to articles 3, 4 and 5 of the D/97/287/PRG/SGG of December 24, 1997. - importer obligation to present the stocks of import products once arrived at the terrestrial borders, maritime or air of the national territory, for a chemical and physical control by qualified agents of the service of the environment or by any other organization of control entitled for this procedure (reference: Article 12 of the</p>		

decision A/2001/4785/MMGE/SGG of October 26, 2001.

- name, address of the competent authority from which the previous autorisation should be obtained:

M. le directeur national, Direction nationale de la prevention et de la lutte contre les pollutions et nuisances, Ministere de l'Environnement, BP 3118, Conakry, Republique de Guinee. Fax: (224) 46 85 46

Remarks: Guinea has a certain number of plastic factories, of foam and painting that use diverse chemical agents like raw materials, between which the tris (2-3 dibromopropyl)phosphate could be found. These roa materials imported and used in the industrial units under diverse commercial names, are very bad known by the workers and the populations in general. In some factories of plastic and painting of the sector, there are stocks of resins remainders and crystals of reddish color whose physical characteristics are assimilated to those of tris (2-3 dibromopropyl)phosphate. The workers of these industrial units are regularly exposed to these products and dangerous remainders with the risks and dangers that it means for their health, their families' and the environment. The Government, finding a lack of instruments for the characterization, evaluation of the toxicity, ecotoxicity, cancerigenocity, etc, of these industrial products and their remainders, with the purpose of restricting the field of use of all the forms of PCB and to reduce the exhibition of the populations, workers and of the environment, etc, decided to classify this product PIC in the national list of chemical substances strictly regulated (Annexed II of the A/2001/4784/decisionMMGE/26 SGG of October 2001, until a final decision is taken on this matter.

Statement of active consideration: Any import of Tris phosphate can be done without previous autorisation of the environment service and the competent authority properly approved by the environment minister (ref Articles 1 and 5 of decision A/2001/4785/MMGE/26 SGG october 2001. The approximate period until the adoption of a final decision is not defined.

Guinea-Bissau	Final decision on import	Published: 12/2010	no consent

Madagascar	Final decision on import	Published: 06/2012	no consent
Malawi	Interim decision on import	Published: 06/2010	no consent
Malaysia	Final decision on import Legislative or administrative measures: Customs (Prohibition of Imports) Order 1988, first schedule, under Customs Act 1967.	Published: 01/1998	no consent
Mauritius	Final decision on import Legislative or administrative measures: "Supplies (Control of Imports) Regulations", 1991; "Consumer Protection Act".	Published: 12/2000	no consent
Mexico	Interim decision on import	Published: 12/2007	consent
Mongolia	Final decision on import Legislative or administrative measures: Government resolution No. 95/2007 Annex I - List of prohibited chemicals in Mongolia.	Published: 06/2010	no consent
New Zealand	Final decision on import Legislative or administrative measures: Hazardous Substances and New Organisms Act 1996 (under which only approved hazardous substances can be imported or used)	Published: 12/2004	no consent

Niger	Interim decision on import Remarks: Further documentation on the chemical requested from the Secretariat. Decision: Response did not address Importation	Published: 06/2000	Response did not address Importation
Nigeria	Final decision on import Remarks: The chemical is not manufactured, approved or used in the country. Legislative or administrative measures: Federal Environmental Protection Act, CAPN, 131, LFN, 1990 as amended by Decree No. 59 of 1992; Management of Solid and Hazardous Wastes Regulation, S.1.15 of 1991.	Published: 01/1998	no consent
Norway	Final decision on import Conditions for Import: Permit, except for use in textile articles intended to come into contact with the skin (e.g. garment, undergarment, linen).	Published: 07/1995	consent under conditions
Oman	Interim decision on import Remarks: It is unclear whether the chemical is being used or imported into the country. The DNA of Oman requests exporting countries to inform the DNA of address of companies/agencies in Oman to which this chemical is being imported. Decision: Response did not address Importation	Published: 01/1995	Response did not address Importation
Panama	Final decision on import	Published: 12/2010	consent
Peru	Interim decision on import	Published: 06/2006	consent
Philippines	Interim decision on import Conditions for Import: An Interim Importation Clearance has to be obtained from the Department of Environment and Natural Resources (under Republic Act 6969). The issuance of such an Interim Importation Clearance may be denied based on the evaluation of data required. Remarks: No final decision has been taken regarding PIC chemicals (see DENR Administrative order No. 29 on the implementation of rules and regulations on chemicals). Under the Republic Act 6969 (Toxic Chemical Legislation), a Review Committee will be formed in order to evaluate chemicals to be included in the Priority Chemicals List and to make recommendations on chemicals for which Chemical Control Orders (CCO) will be issued.	Published: 07/1996	consent under conditions
Qatar	Final decision on import Legislative or administrative measures: Article 26 Environment Law (30) 2002	Published: 12/2005	no consent
Republic of Korea	Final decision on import Remarks: Tris(2,3-dibromopropyl) phosphate and mixtures containing 0.1% or more of tris(2,3-dibromopropyl) phosphate are banned for manufacture, import and use as an industrial chemical, except for the use of the chemical for research or laboratory purposes. No remaining uses are allowed. The authority responsible for issuing the legislative measure is Ministry of Environment.	Published: 06/2002	no consent
Republic of Moldova	Interim decision on import	Published: 06/2012	no consent
Samoa	Final decision on import	Published: 01/1996	no consent
Serbia	Final decision on import Conditions for Import: Shall not be placed on the market or used in textile articles, such as garments, undergarments and linen, intended to come into contact with the skin.	Published: 12/2011	consent under conditions

APPENDIX V

NOTIFICATIONS OF FINAL REGULATORY ACTION FOR CHEMICALS NOT INCLUDED IN ANNEX III

This appendix consists of two parts:

Part A: Tabular summary of notifications of final regulatory actions for banned or severely restricted chemicals not included in Annex III and verified to contain the information requirements of Annex I of the Convention

The tabular summary lists each notification received during the interim PIC procedure and the current PIC procedure (September 1998 to 30 April 2014) verified as containing the information requirements of Annex I of the Convention. It also indicates in which PIC Circular the summary was published. The Rotterdam Convention website (www.pic.int) has information regarding all the PIC Circulars and summaries of notifications.

Summaries of notifications submitted by Parties for the chemicals listed in Annex III of the Convention verified as containing the information requirements of Annex I of the Convention have been included in the section “Notifications of final regulatory action database” on the Rotterdam Convention website (www.pic.int).

Part B: Tabular summary of notifications of final regulatory action for banned or severely restricted chemicals not included in Annex III and verified to not contain the information requirements of Annex I of the Convention

The tabular summary lists each notification received during the interim PIC procedure and the current PIC procedure (September 1998 to 30 April 2014) verified to not contain the information requirements of Annex I of the Convention. It also indicates in which Circular information was published. Further information can be found on the Convention website (www.pic.int).

Notifications of Final Regulatory Action for chemicals not included in Annex III**PART A****TABULAR SUMMARY OF NOTIFICATIONS OF FINAL REGULATORY ACTIONS FOR BANNED OR SEVERELY RESTRICTED CHEMICALS NOT INCLUDED IN ANNEX III AND VERIFIED TO CONTAIN THE INFORMATION REQUIREMENTS OF ANNEX I OF THE CONVENTION**

The Secretariat has verified that the following notifications contain the information requirements of Annex I of the Convention.

Chemical name	CAS number	Category	Country	Region	Published in PIC Circular
1,1,1,2-tetrachloroethane	630-20-6	Industrial chemical	Latvia	Europe	XX

Notifications of Final Regulatory Action for chemicals not included in Annex III

PART B

TABULAR SUMMARY OF NOTIFICATIONS OF FINAL REGULATORY ACTION FOR BANNED OR SEVERELY RESTRICTED CHEMICALS NOT INCLUDED IN ANNEX III AND VERIFIED TO NOT CONTAIN THE INFORMATION REQUIREMENTS OF ANNEX I OF THE CONVENTION

The Secretariat has verified that the following notifications do not contain the information requirements of Annex I of the Convention.

Chemical name	CAS	Category	Country	Region	Published in PIC Circular
1,2-dichloropropane	78-87-5	Pesticide	Saudi Arabia	Near East	XXXII
1,4-dichlorobenzene	106-46-7	Pesticide	Israel	Europe	XXXV
1-Bromo-2-chloroethane	107-04-0	Pesticide	Saudi Arabia	Near East	XXXII

APPENDIX VI**INFORMATION EXCHANGE ON CHEMICALS RECOMMENDED BY THE CHEMICAL REVIEW COMMITTEE FOR LISTING IN ANNEX III BUT FOR WHICH THE CONFERENCE OF THE PARTIES HAS YET TO TAKE A FINAL DECISION**

Appendix VI has been developed to facilitate information exchange on chemicals that have been recommended for listing in Annex III of the Convention by the Chemical Review Committee but for which the Conference of the Parties has yet to take a final decision.

This appendix provides a reference to the information submitted by Parties to the Secretariat in line with decisions RC.3/3, RC.4/4 and RC.6/8 of the Conference of the Parties and paragraph 1 of Article 14 of the Convention.

This appendix consists of two parts:

Part 1 provides a reference to the information that has been provided by Parties to the Secretariat on national decisions concerning the management of chrysotile asbestos and liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L. The table contains a summary of the information submitted by Parties for these chemicals, including the chemical name, Party, PIC Circular when the information was first circulated and a web link to the Rotterdam Convention website where the detailed information may be downloaded.

Part 2 is a list of decisions on the future import of chrysotile asbestos and liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L that have been submitted by Parties. These import decisions are circulated for information only and do not constitute part of the legally binding PIC procedure.

On the Rotterdam Convention website, in the section “Chemicals recommended for listing,” further information on these chemicals can be found, including the notifications of final regulatory action and supporting documentation available to the Chemical Review Committee and the draft Decision Guidance Documents.

PART 1

**INFORMATION PROVIDED BY PARTIES ON NATIONAL DECISIONS CONCERNING THE
MANAGEMENT OF CHRYSOTILE ASBESTOS AND LIQUID FORMULATIONS
(EMULSIFIABLE CONCENTRATE AND SOLUBLE CONCENTRATE) CONTAINING
PARAQUAT DICHLORIDE AT OR ABOVE 276 g/L, CORRESPONDING TO PARAQUAT ION
AT OR ABOVE 200 g/L**

CHRYSOTILE ASBESTOS

Chrysotile asbestos (CAS number: 12001-29-5)		
PARTY	PIC CIRCULAR	LINK
European Union	PIC Circular XXVII, June 2008	http://www.pic.int/TheConvention/Chemicals/RecommendedtoCOP/Chrysotileasbestos/tabid/1186/language/en-US/Default.aspx
Switzerland	PIC Circular XXVI, December 2007	http://www.pic.int/TheConvention/Chemicals/RecommendedtoCOP/Chrysotileasbestos/tabid/1186/language/en-US/Default.aspx

**LIQUID FORMULATIONS (EMULSIFIABLE CONCENTRATE AND
SOLUBLE CONCENTRATE) CONTAINING PARAQUAT DICHLORIDE AT
OR ABOVE 276 g/L, CORRESPONDING TO PARAQUAT ION AT OR
ABOVE 200 g/L**

Liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L		
PARTY	PIC CIRCULAR	LINK

PART 2

**INFORMATION PROVIDED BY PARTIES ON IMPORT DECISIONS FOR
CHRYSTILE ASBESTOS AND LIQUID FORMULATIONS (EMULSIFIABLE CONCENTRATE
AND SOLUBLE CONCENTRATE) CONTAINING PARAQUAT DICHLORIDE AT OR ABOVE
276 g/L, CORRESPONDING TO PARAQUAT ION AT OR ABOVE 200 g/L**

CHRYSTILE ASBESTOS

Chrysotile asbestos (CAS number: 12001-29-5)		
PARTY	IMPORT DECISION	DATE RECEIVED
European Union	<p><u>Consent to import only subject to specified conditions:</u> The manufacture, placing on the market and use of chrysotile asbestos fibres and of articles containing these fibres added intentionally is prohibited. However, Member States may exempt the placing on the market and use of diaphragms containing chrysotile for existing electrolysis installations until they reach the end of their service life, or until suitable asbestos-free substitutes become available, whichever is the sooner. By 1 June 2011 Member States making use of this exemption shall provide a report to the Commission. The Commission shall ask the European Chemicals agency to prepare a dossier with a view to prohibit the placing on the market and use of diaphragms containing chrysotile.</p> <p><u>Administrative measure:</u> The chemical was prohibited (with the one limited derogation referred to section 5.3 above) by Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the registration, evaluation, authorisation and restriction of chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (Official Journal of the European Communities (OJ) L396 of 30 December 2006, p. 1) as amended by Commission Regulation (EC) No 552/2009 of 22 June 2009 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as regards Annex XVII (OJ L 164 of 22 June 2009, p. 7).</p>	06-10-2009

**LIQUID FORMULATIONS (EMULSIFIABLE CONCENTRATE AND
SOLUBLE CONCENTRATE) CONTAINING PARAQUAT DICHLORIDE AT
OR ABOVE 276 g/L, CORRESPONDING TO PARAQUAT ION AT OR
ABOVE 200 g/L**

Liquid formulations (emulsifiable concentrate and soluble concentrate) containing paraquat dichloride at or above 276 g/L, corresponding to paraquat ion at or above 200 g/L
