INTERGOVERNMENTAL NEGOTIATING COMMITTEE FOR AN
INTERNATIONAL LEGALLY BINDING INSTRUMENT FOR
THE APPLICATION OF THE PRIOR INFORMED CONSENT
PROCEDURE FOR CERTAIN HAZARDOUS CHEMICALS AND
PESTICIDES IN INTERNATIONAL TRADE

Tenth session

Geneva, 17-21 November 2003

Item 6 (a) of the provisional agenda*

**Issues arising out of the Conference of Plenipotentiaries:
Support for implementation**

**INFORMATION ON ONGOING TECHNICAL ASSISTANCE ACTIVITIES
IN OTHER FORUMS AND RELATED CONVENTIONS**

At its ninth session, the Intergovernmental Negotiating Committee requested the Secretariat to provide information received from Governments and donor agencies, as well as information on ongoing technical assistance activities in other forums and related conventions, that could be of relevance to the Rotterdam Convention. Information on technical assistance activities undertaken by the United Nations Institute for Training and Research (UNITAR) Chemicals and Waste Management Programme and the Organization for Economic Cooperation and Development (OECD) is provided in annexes I and II to the present note. The information exchange network on capacity-building for the sound management of chemicals (INFOCAP) contains a database showing technical assistance activities for chemicals management. It is accessible at www.who.int/ifcs/infocap.

* UNEP/FAO/PIC/INC.10/1.

K0363363 111103

Annex I

UNITAR technical assistance activities of relevance to the Rotterdam Convention

Submitted by UNITAR

(1) *GHS Capacity Building Programme and WSSD Global GHS Partnership*

Article 13 of the Rotterdam Convention requires that exported chemicals are adequately labelled and take into account relevant international standards, and that exporting Parties use safety data sheets (SDS) that follow an internationally recognized format. UNEP/FAO/PIC/INC.10/23 also highlights a need to improve the control of industrial chemicals and the lack of capacity to undertake hazard assessments. The Globally Harmonized System of Classification and Labelling of Chemicals (GHS) is the latest and most comprehensive international instrument on labels and SDS for industrial chemicals, agricultural chemicals, consumer chemicals and chemicals in transport.

The UNITAR/ILO GHS Training and Capacity Building Programme assists countries to build capacities for the implementation of the GHS through national, sub-regional and regional activities, in accordance with their own capacities and capabilities and through collaboration between various government bodies as well as parties outside of government. In 2002, UNITAR, ILO and OECD initiated the WSSD Global Partnership for Capacity Building to Implement the GHS to strengthen capacities at all levels and sectors – in particular in developing countries – and to ensure a higher degree of chemical labelling and related precautionary measures.

(2) *Risk Management Decision-Making for Priority Chemicals*

The Rotterdam Convention requires countries to make import decisions for PIC chemicals. The UNITAR/IOMC Guidance Document "Developing a Risk Management Plan for Priority Chemicals" provides guidance for undertaking such decisions in a systematic way and through collaboration of affected and interested parties. The document may also be of interest for regulatory actions to ban or severely restrict a chemical on the basis of a risk or hazard evaluation.

(3) *Integrated National Programmes for Sound Chemicals Management*

Parties to the Rotterdam Convention are required to establish and strengthen national infrastructures and institutions for implementation (Art. 15), which includes establishing national registers and databases, ensuring public access to information, and cooperating with international organizations. UNEP/FAO/PIC/INC.10/23 also identifies broader chemicals management issues, such as the need for improved coordination and communication within and between relevant ministries and the need for improved coordination to implement the Rotterdam Convention and other relevant conventions. UNEP/FAO/PIC/INC.10/21 (para. 27) highlights that some issues are "better addressed at the individual country level...as part of a larger programme on chemicals management".

The UNITAR Integrated National Programme assists developing countries to establish/strengthen a collaborative framework at the national level which can provide a foundation for effective and co-ordinated action to address both national chemicals management priorities, as well as the implementation of international chemicals related agreements and initiatives. UNITAR, in collaboration with IOMC Participating Organizations, assists with the development of concrete services related to establishing a national *Inter-ministerial Co-ordinating Mechanism* (including co-ordination of national participation in relevant international meetings and negotiations) and a

National Information Exchange Mechanism. The programme builds upon the experience gained and lessons learned through pilot programmes on integrated chemicals management which were successfully implemented in seven countries since 1996.

(4) *Skills Building for Action Plan Development*

Developing and implementing the types of broader chemicals management issues as outlined in (3) above to support implementation of the Rotterdam Convention, can benefit from sound and well co-ordinated Action Plans. Such plans outline precise goals, planned activities, indicators of success, suggested implementation mechanisms, as well as financial and human resource needs, to help to address identified constraints regarding inadequate legal and regulatory infrastructures, and human and financial resource limitations. UNITAR can provide guidance and training to partner countries in the area of Action Plan development and skills building for project planning and management, with an emphasis on chemicals management subject areas. For example, UNITAR is currently working with GEF Implementing Agencies, including UNDP, UNEP and UNIDO to provide skills-building training for Action Plan development as part of National Implementation Plan development under the Stockholm Convention. Similar training could be adapted for use in the context of the Rotterdam Convention, subject to the availability of financial resources.

(5) *Thematic Workshop on Synergies for Capacity Building under International Agreements*

UNEP/FAO/PIC/INC.10/23 highlights the need for improved coordination to implement the Rotterdam Convention and other relevant conventions. UNITAR, in collaboration with its IOMC partners, OPCW and SBC, will organise a *Thematic Workshop on Synergies for Capacity Building under International Agreements Addressing Chemicals and Waste Management*, in January 2004. Country and stakeholder representatives will have an opportunity to present case studies and, through working group discussions, develop practical guidance for future country-based activities. Abstracts outlining relevant experiences for possible presentation at the workshop will be accepted by UNITAR until 20 December 2003.

Additional information about all UNITAR Programmes and Services is available at: <www.unitar.org/cwm>.

Database report containing OECD member country responses to 1996, 1998, 2000 and 2003 surveys on development assistance activities

**FOURTH SURVEY OF OECD MEMBER COUNTRY
DEVELOPMENT ASSISTANCE ACTIVITIES
FOR CAPACITY BUILDING**

This document provides a summary and analysis of the information reported by OECD Member countries concerning the development assistance they provide to developing countries, including those with economies in transition, for capacity building in the field of chemicals and pesticides management.

Eighteen OECD Member countries and the European Commission reported on 436 projects altogether during the first (1996), second (1998), third (2000) and fourth (2003) surveys. A table containing an overview of these projects is attached.

Results of the four OECD surveys are also available on the Internet site
of the OECD Environmental Health and Safety division, at:
<http://www.oecd.org/ehs/>

BACKGROUND

Context of the OECD surveys

In 1996, the Intersessional Group (ISG) of the Intergovernmental Forum on Chemical Safety (IFCS) which is responsible for overseeing the implementation of Agenda 21, Chapter 19, invited the OECD to develop an information exchange programme on 'capacity building' (Area E). The specific objectives were:

- to facilitate co-ordination of capacity building assistance provided by OECD Member countries to developing countries, including those with economies in transition, in the field of chemicals/pesticides management, and
- to enable further discussions on capacity building, in particular at the time of the IFCS/ISG meetings.

This project complemented activities conducted through the Inter-organisation Programme for the Sound Management of Chemicals (IOMC) to co-ordinate capacity building activities of multi-lateral organisations. In response, the OECD conducted:

- the first survey in 1996, with results available at the IFCS II meeting in Ottawa, in February 1997 (document IFCS/FORUM-II/97.10B),
- the second survey in 1998, with results available at the ISG 3 meeting in Yokohama, in November 1998 (document IFCS/ISG3/98.25B), and
- the third survey in 2000, with results available at the IFSC III meeting in Salvador de Bahia, Brazil, in October 2000 (document IFCS/FORUM III/20 INF).

As agreed in June 1997 by the OECD Joint Meeting on Chemicals, the information collected is regularly updated and the survey is undertaken every two/three years, with results available for IFCS/ISG meetings.

Fourth survey (2003)

In October 2002, in view of the IFCS IV meeting, the OECD Secretariat therefore initiated the fourth survey and contacted the Heads of Delegations to the OECD Joint Meeting, as well as all relevant sub-groups (e.g. those involved in pesticide management, in chemical accidents), and the DAC's Working Party on Development Assistance and Environment. Member countries were asked to report on new development assistance projects initiated since the first, second and third surveys and to revise 1996-1998-2000 information if necessary.

In order to update their information, countries were requested to complete a reporting form (**annex 1**). For each project, countries were to provide a listing of their ministries involved (and contact names), the collaborating parties (if any), the partner/recipient country(ies), the title of the project and when it was scheduled to begin and end. In addition, countries were asked to describe each project according to a list of terms which referred to both capacity building (e.g., "Development of Legislation/Regulations", "Education / Training / Human Resources Development", "Awareness Raising") and chemicals (e.g. "Testing", "Safe Production, Use, Control of Emissions and Disposal of Toxic Substances") terminologies. Finally, countries were given an option to report additional information including a narrative description and an Internet reference, and whether there was monetary funding and/or technical assistance provided.

The data collected during this fourth survey was added to the simple database (using Microsoft Access) created to store the information previously provided by countries. Based on all the information received in 1996, 1998, 2000 and 2003, the report in **annex 2** has been prepared. As providing all of the information for each project is not feasible, the attached report contains only those items thought to be of most interest: names of donor and recipient country, title, length and Internet address (when available), description of project, and year(s) the project was reported or updated (e.g. '1996', '1998', '2000', '2003', '1996 (2000), 1998 (2000, 2003)', the latter examples indicating that projects already reported in 1998 were updated in 2000 and in 2003). Various other reports can be produced using the database, depending on the types of interest. Upon request to the OECD Secretariat, more complete information on particular projects can be provided.

Finally, for this fourth survey, a few changes have been made to the reporting form in order to comply with the requirements of *the Information Exchange Network on Capacity Building for the Sound Management of Chemicals*, INFOCAP. This network consists of a database of services being developed under the auspices of the IFCS. Its goal is to enhance the exchange and public accessibility of information relevant to capacity-building projects. It is planned that information collected by the OECD surveys will be added to the INFOCAP database and made available at <http://www.infocap.info>.

Responses received

As of 15th April 2003, 18 OECD Member countries and the European Commission described altogether 436 projects, among which 128 new ones were reported during the fourth survey in 2003 (this is the highest number of projects ever reported in one survey round). Countries also updated data on a number of their projects previously reported in 1996, 1998 and 2000.

The countries/organisations that responded to the four surveys are listed in Table 1 below. The numbers of new projects reported each time are shown, together with, in parentheses, the number of projects that were updated (where applicable).

Table 1

<i>Countries or Organisations</i>	1st survey in 1996	2nd survey in 1998	3rd survey in 2000	4th survey in 2003	Total of projects

	115	114 (34)	79 (33)	128 (35)	436

ANALYSIS OF INFORMATION SUBMITTED

A short analysis of the information provided in 1996, 1998, 2000 and 2003 is given below, in a similar way as what was done in the past.

Preliminary comments

The range of responses varied widely from country to country; considerable descriptive information was provided for some projects, while little were provided for others. In addition, as it was recognised initially, it is not always easy to identify projects dealing specifically with chemicals and pesticides management. Some countries indicated that they had some difficulties in finding such projects while they could easily identify some larger 'environmental' activities that contained a chemical component. Therefore, in order to collect as much as relevant information as possible, the survey asked countries to report on all projects that contain a chemical management part. Finally, some countries indicated that given the length of assistance projects, i.e. often several years, they had difficulties in reporting 'new' projects every 2 or 3 years. They suggested to run this survey less frequently.

Donor and recipient countries

The reporting form first requested information on donor and recipient countries and on possible collaborating parties.

- In donor countries more than half of the projects (220) were managed by national agencies/offices for international development/co-operation, sometimes jointly with other relevant ministries/agencies. Ministries/agencies of environment ran 104 projects, while ministries/agencies for foreign affairs were responsible for 82. Most of the remaining projects were managed by ministries/agencies of agriculture, health, industry, economy, labour or trade; however, these other ministries often worked through their department/section in charge of international development. In a few cases, national institutes (e.g., research, natural resources) were in charge of the projects.
- In recipient countries, information about the partner organisations (e.g. ministries/agencies) was provided for only 279 projects. Ministries of environment, in 68 cases, and of agriculture/forestry/rural development, in 38 cases, primarily ran the projects. In 24 reported cases, various institutes (e.g., medical research, water/irrigation) and universities (e.g., of agriculture, technology) were involved in the projects. In cases where two or more countries together received assistance, a 'forum' or a 'board' gathering the governments involved sometimes administered the projects. Lastly, a number of public/private associations also participated in the projects.
- Collaborating parties that jointly administer and/or finance assistance activities were identified for almost half of the projects (206). Amongst such partners, IOMC organisations, UNDP, the World Bank, some universities, institutes, foundations, or other non-governmental organizations (e.g., industry, public-interest organizations such as CARE and PAN) were often mentioned.

Donor countries identified the recipient countries in various ways. For 308 projects, donor countries gave aid to one specific country. For 91 others, a group of countries or simply a geographic area (e.g. Central America, Southern Africa, Pacific countries) was reported. In the remaining projects, donor

countries indicated that their aid was provided to some “developing countries” within a region or “world-wide”. In all:

- 132 of the projects were aimed at helping African/Middle-East countries,
- 113 for the Asian/Pacific area,
- 95 for Central/South America and the Caribbean region,
- 58 for the Newly Independent States (of the Former Soviet Union) and the three Baltic countries, and
- 26 for Eastern Europe.

The geographic distribution of the projects has remained almost unchanged since the previous survey rounds.

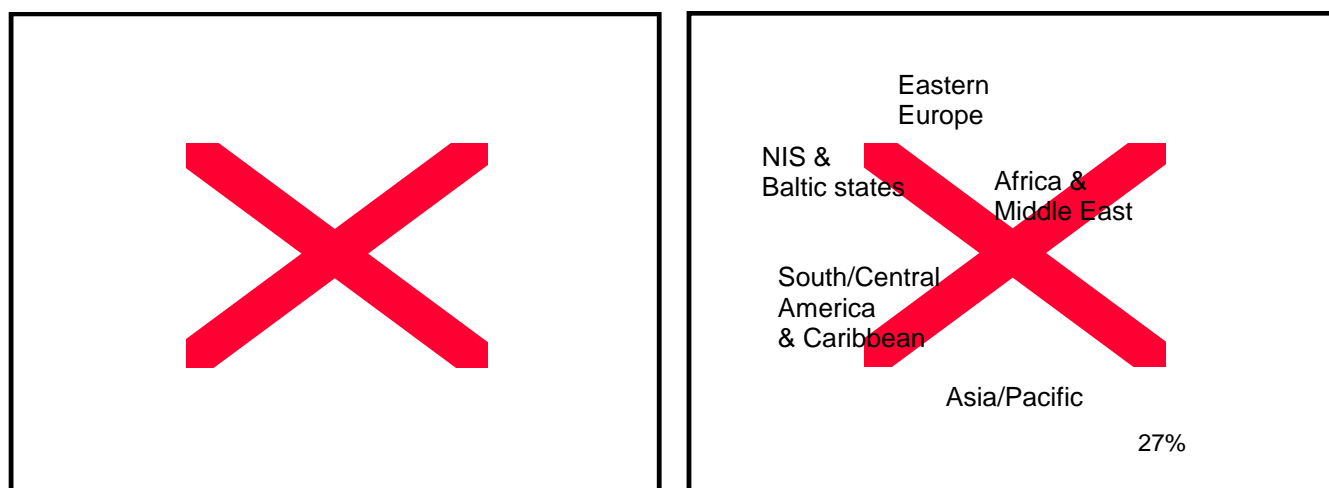

Chart 1 - Geographic distribution of assistance projects

Types of projects

The next part of the reporting form asked some more specific questions about the projects themselves. In addition to the title, which could provide a general description of the type of project, countries were also asked to describe their projects according to various parameters.

- Category - The categories most often mentioned to describe projects were (number of occurrences in brackets):
 - “Education / Training / Human Resources Development” (280),
 - “Development of Guidance Documents” (117),
 - “Information Generation, Gathering, Use and Dissemination”(106),
 - “Implementation, Enforcement, Monitoring & Compliance with Legislation or Mandatory Programmes” (89),
 - “Development of Legislation/Regulations” (84), and
 - “Encouraging Community Participation” (83).

The first category listed above originally included the component “Awareness Raising” which became for the 2003 survey, a separate category. The latter was chosen to describe 37 projects.

- Sector - Almost half of the projects (194) were described as falling within the area of assistance for pesticides management, whereas only 108 projects for chemicals management. However, an additional 77 projects fell within both areas. For 55 projects, a specific ‘sector’ was provided (e.g., lead, waste, biopesticides, POPs). For the remaining 34 projects, no sector was identified.
- Sub-sectors - The activities most often indicated were:
 - “Risk Reduction/Management” (141),
 - “Safe Production, Use Control of Emissions and Disposal of Toxic Substances” (111),
 - “Hazard/Risk Assessment” (84),
 - “Pollution Prevention, Waste Minimisation and Industrial Environmental Management”(82),
 - “Testing” (77), and
 - “GLP ” (63).

Two new categories were added for the 2003 round: “Obsolete chemicals and pesticides” (20) and “Human Health” (10).

- The duration of the projects varied considerably. Of the 361 projects for which project duration was reported:
 - 25 (7%) lasted only a few days or weeks (e.g. training, workshops),
 - 39 (11%) were 3-9 months-long,
 - 105 (29%) lasted 1-2 years,
 - 131 (36%) were for 3-5 years,
 - 54 (15%) lasted 6-9 years, and
 - 7 (2%) lasted 10 or more years.

As of 15th of April 2003, two third (294) of the reported projects are terminated. The others are still on-going, often with an indication of an end date.

Additional information (optional reporting)

In order to lessen the burden of reporting, countries were only asked to respond to a few questions regarding descriptions of their projects. However, countries had the option of providing answers to more specific questions that requested information on the type of assistance, i.e., technical and/or financial. Respondents could also complement the reporting forms by attaching any document describing their projects or providing an Internet site where more information could be found. Most responses contained answers to at least one question in the optional part of the survey.

- Countries provided information concerning the type of assistance (technical or financial) for 352 projects. Of these projects, technical assistance was provided for 148 projects, financial aid for 95 projects, and a combination of both for 109 projects. Quantification of the amount of aid, either monetary or technical (e.g., cost of project staff), was given for 301 projects.
- For 188 of the projects, an additional narrative description was provided. These descriptions varied from a few words/lines to several pages of text (e.g. project outlines, project fact sheets). When an Internet address was given, it can be found under the title and duration of the projects (third column of the table in Annex 2).

Possibilities for co-operation and co-ordination

One of the original reasons for initiating this project was to increase efficiencies in donor assistance and avoid duplication. Although the project descriptions provided by countries are not extremely detailed, they can be used to point to areas where consultation between donor countries may be worthwhile. For instance, there are countries which receive assistance on pesticides projects from three or four different donor countries. While those facts alone do not necessarily mean there is duplication, it could point to an area where the donor countries could discuss their projects amongst themselves and see if there are areas for co-operation.

Similarly, a country considering or currently providing aid could review the types of projects listed in the database to see if any country is engaged in a similar activity. Although the recipient countries for such assistance may be different, it may be worthwhile for the donor countries to exchange documents or share experiences. For instance, many countries indicated that they were “providing education and training” for the safe use of pesticides. Thus, it is possible that these countries could benefit from an exchange of any educational or training material they provide to the recipient countries.

For further information

Please contact the OECD Secretariat for obtaining more information (e.g., contact names, funding, narrative description if any) about a project listed in Annex 2. Please indicate the project OECD reference number (last column of the table in Annex 2).

DONOR COUNTRY Main Ministry	RECIPIENT COUNTRY(IES)	TITLE of the PROJECT Duration (status) / Internet	Category <i>Sector</i> <i>Sub-sector</i>	Year project Initially reported (and updated)	OECD's ref.no.
Federal Ministry for Foreign Affairs (MFA), Austrian Development Cooperation	<i>Nicaragua</i>	Promotion of Environmental Protection Programme 4 years (ongoing) www.bmaa.gv.at/wirtschaft/index.html.en	Development of partnerships with industry. Education, training, human resources development. Awareness raising. <u>Chemicals.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Pollution prevention, waste min. and industrial env. mgt.</i>	2003	328
Federal Ministry for Foreign Affairs (MFA), Austrian Development Cooperation	<i>Yugoslavia (Federal Republic of)</i>	Assistance from the Federal Environment Agency to Environment Administration in Serbia/Yugoslavia 2 years (ongoing) www.bmaa.gv.at/wirtschaft/index.html.en www.ubavie.gv.at/	Education, training, human resources development. Information generation, gathering, use and dissemination. <u>Chemicals.</u> <i>National profile development.</i>	2003	326
Federal Ministry for Foreign Affairs (MFA), Austrian Development Cooperation	<i>Cuba, Lebanon, Nicaragua, Russian Federation, South Africa, Uganda</i>	Support to the UNIDO Programme for National Cleaner Production Centres (NCP) 4 years (ongoing) www.bmaa.gv.at/wirtschaft/index.html.en	Development of legislation/regulations. Development of guidance docs. Development of partnerships with industry. <u>Chemicals.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Pollution prevention, waste min. and industrial env. mgt.</i>	2003	329
Federation of Chemical Industries	<i>No name</i>	Chemical Transport Safety (Yearly conference) 1 day per year	<u>Chemicals.</u>	1998	125

3. BELGIUM						
Ministère de l'Emploi et du Travail	Morocco	Cooperation in the Areas of Employment, Work and Equal Opportunities	Education, training, human resources development. Training for labour inspectors. <u>Manufacturing.</u> <u>Pollution prevention, waste min. and industrial env. mgt.</u>	2003	330	
Ministère de la Coopération au Développement	Senegal	Workshop on Facilitation and Implementation on the PIC Procedure for Certain Hazardous Chemicals and Pesticides in International Trade 4 days (completed)	Development of legislation/regulations. Development of guidance docs. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Information generation, gathering, use and dissemination. <u>Chemicals. Pesticides.</u> <u>Pesticide registration. Import/export of substances.</u>	2000 (2003)	243	
Ministère de l'Emploi et du Travail	Albania, Bulgaria, Poland, Romania	Bilateral Social Cooperation on Occupational Health and Safety	Education, training, human resources development. Encouraging community participation. <u>Chemicals. Asbestos.</u> <u>Hazard/risk assessment. Risk reduction/mgt.</u>	1998	130	
Ministère de l'Emploi et du Travail	Benin, Burkina Faso, Central Africa, Guinea, Niger	Training of (factory) Inspectors Permanent	Education, training, human resources development. Inspection of health and safety at the workplace. <u>Chemicals. Pesticides.</u> <u>GLP.</u>	1996	2	
Ministère des Affaires Sociales, de la Santé Publique et de l'Environnement	No name	Chemical Safety	Development of guidance docs. Creation/mgt. of databases. Design and conduct of research. Education, training, human resources development. <u>Chemicals.</u> <u>Testing. Hazard/risk communication. Import/export of substances.</u>	1996	18	
4. CANADA						
International Development Research Centre	Argentina	Ecosystem Strategy for Water Quality Monitoring at the Municipal Level (LAC) 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. Hazard/risk assessment. GLP.</u>	2000	254	
International Development Research Centre	Argentina	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. GLP.</u>	1998	230	
Natural Resources Canada	Argentina	Technology Transfer in the Minerals Sector 2 years (completed)	Establishment of an environmental laboratory. <u>Minerals.</u>	1996	82	
CIDA - Canadian International Development Agency	Bangladesh	Institutional Linkages II - Bangladesh University of Engineering and Technology and University of Alberta 5.3 years (completed)	Education, training, human resources development.	1998	216	
CIDA - Canadian International Development Agency	Bangladesh	Environmental Management Project 6.4 years (ongoing)	Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development.	1998	221	

CIDA – Canadian International Development Agency	Brazil	Institutional Development Training 4.6 years (completed)	Education, training, human resources development.	1998	214
CIDA – Canadian International Development Agency	Brazil	Canada-Brazil Technology Transfer Project 6 years (completed)	Education, training, human resources development.	1998	211
CIDA – Canadian International Development Agency	Brazil	Environmental Training in Brazilian Industry 4.2 years (completed)	Education, training, human resources development.	1998	215
International Development Research Centre	Brazil	Tobacco Growing and Ecosystem Effects 2.5 years (completed)	Education, training, human resources development. Research capacity. <u>Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. Pollution prevention, waste min. and industrial env. Mgt. Human health. Ecosystem approaches to human health.</i>	2003	342
Natural Resources Canada	Brazil	Co-operative Project for Sustainable Development in the Minerals Sector 3 years (completed)	Establishment of an acid mine drainage program. <u>Minerals.</u>	1996	81
CIDA – Canadian International Development Agency	Chile	Transfer of Technology to Improve the Management and Use of Pesticides in Chilean Agriculture (Part of the “Southern Core Technology Transfer” project) 2.5 years (completed)	<u>Pesticides.</u> <i>Pollution prevention, waste min. and industrial env. mgt.</i>	1998	210
CIDA - Canadian International Development Agency	Chile	Management and Use of Pesticides 2.5 years (completed)	Education, training, human resources development. <u>Pesticides.</u>	2000	253
CIDA - Canadian International Development Agency	Chile	International Centre for Training and Technology Transfer	Education, training, human resources development.	1998	212
International Development Research Centre	Chile	Ecosystem Strategy for Water Quality Monitoring at the Municipal Level (LAC) 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. Hazard/risk assessment. GLP.</i>	2000	255
International Development Research Centre	Chile	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. Hazard/risk assessment. GLP.</i>	1998	231
CIDA - Canadian International Development Agency	China	China-Canada Cooperation in Cleaner Production 6 years (completed)	Education, training, human resources development. <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	1998	217
CIDA - Canadian International Development Agency	China	Villages-Based Agricultural Management	Education, training, human resources development. <u>Pesticides.</u>	2000	250

International Development Research Centre	Colombia	Ecosystem Strategy for Water Quality Monitoring at the Municipal Level (LAC) 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. Hazard/risk assessment. GLP.</u>	2000	256
International Development Research Centre	Colombia	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. Hazard/risk assessment. GLP.</u>	1998	232
International Development Research Centre	Costa Rica	Ecosystem Strategy for Water Quality Monitoring at the Municipal Level (LAC) 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. Hazard/risk assessment. GLP.</u>	2000	257
International Development Research Centre	Costa Rica	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Hazard/risk assessment. GLP.</u>	1998	233
CIDA - Canadian International Development Agency	Egypt	On-Farm Water and Soil Management Project (OWSOM) 8.5 years (ongoing)	Education, training, human resources development. <u>Pesticides.</u>	1998	218
CIDA - Canadian International Development Agency	Ghana	Friends of the Earth - Global Partnership Protect Ozone	Education, training, human resources development. <u>Chemicals.</u> <u>Pollution prevention, waste min. and industrial env. mgt.</u>	2000	252
CIDA - Canadian International Development Agency	Guyana	GENCAPD: Mining Project 3.5 years (completed)	Education, training, human resources development. <u>Mines.</u>	2000	244
CIDA - Canadian International Development Agency	Haiti	SRH - Project of cooperation 6 months (completed)	Education, training, human resources development. <u>Pollution prevention, waste min. and industrial env. mgt.</u>	2000	248
CIDA - Canadian International Development Agency	India	India-Canada Environment Facility 7 years (completed)	Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development.	1998	222
International Development Research Centre	India	Integrated Approaches to Safe Drinking Water Quality - WaterTox (Phase II) 3 years (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <u>Testing. Hazard/risk assessment. GLP.</u>	1998 (2000)	234
CIDA - Canadian International Development Agency	Indonesia	Environmental Management Development - Phase 3 4.9 years (completed)	Education, training, human resources development.	1998	223
International Development Research Centre	Israel (Palestine)	Environment and Public Health 2 years (completed)	Design and conduct of research. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Chemicals. Pesticides.</u> <u>Testing. Exposure analysis.</u>	1998	227
International Development Research Centre	Ivory Coast	Quality of Human Health and of Ecosystems in Buyo area 3 years (ongoing)	Education, training, human resources development. Research capacity. <u>Testing. Exposure analysis. Hazard/risk assessment. GLP. Risk reduction/mgt. Human health. Ecosystem approaches to human health.</u>	2003	343

CIDA - Canadian International Development Agency	<i>Jamaica</i>	Green Fund Extension 5.5 years (ongoing)		2000	280
CIDA - Canadian International Development Agency	<i>Jamaica</i>	Environmental Development Program	Development of legislation/regulations. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development. Information generation, gathering, use and dissemination.	1998	220
CIDA - Canadian International Development Agency	<i>Kazakhstan</i>	Locust Impact Minimization Project 2.3 years (completed)	Education, training, human resources development. Develop and test a new approach to pest management. <u>Pesticides.</u> <i>Alternative technology to reduce and/or eliminate pesticide usage.</i>	2003	348
International Development Research Centre	<i>Kenya</i>	East Africa Pesticide Network 8 years (completed)	Development of guidance docs. Design and conduct of research. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Testing. Exposure analysis. GLP.</i>	1998	225
International Development Research Centre	<i>Mexico</i>	Ecosystem Strategy for Water Quality Monitoring at the Municipal Level (LAC) 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. Hazard/risk assessment. GLP.</i>	2000	259
International Development Research Centre	<i>Mexico</i>	DDT and Malaria Control 3 years (completed)	Education, training, human resources development. Research capacity. <u>Pesticides.</u> <i>Hazard/risk assessment. Hazard/risk communication. Risk reduction/mgt. Pollution prevention, waste min. and industrial env. Mgt. Human health. Ecosystem approaches to human health.</i>	2003	344
International Development Research Centre	<i>Mexico</i>	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. Hazard/risk assessment. GLP.</i>	1998	226
International Development Research Centre	<i>Morocco</i>	Regional IDRC / Ford Ecosystem Approaches to Human Health Competition - MENA 3 years (ongoing)	Education, training, human resources development. Research capacity. <u>Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. GLP. Pollution prevention, waste min. and industrial env. mgt. Human health. Ecosystem approaches to human health</i>	2003	345
CIDA - Canadian International Development Agency	<i>Nigeria</i>	Centre for Agrochemical Technology 2 years (completed)	Education, training, human resources development. <u>Pesticides.</u>	1998	213

CIDA - Canadian International Development Agency	<i>Pakistan</i>	Environment Program 4.2 years (completed)	Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development.	1998	224
CIDA - Canadian International Development Agency	<i>Peru</i>	Mining/Environmental Reform Project 5 years (completed)	Development of guidance docs. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development. <u>Chemicals.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Pollution prevention, waste min. and industrial env. mgt. Occupational health and safety.</i>	2003	350
CIDA - Canadian International Development Agency	<i>Peru</i>	Addressing Lead Contamination 4 years (ongoing)	Education, training, human resources development. Information generation, gathering, use and dissemination. Awareness raising. <u>Chemicals.</u> <i>Exposure analysis. Human health.</i>	2003	347
CIDA - Canadian International Development Agency	<i>Russian Federation</i>	Arctic Hydrocarbon Environmental Impact	Quality control. Education, training, human resources development.	1998 (2000)	219
International Development Research Centre	<i>Sri Lanka</i>	CG-Agro-ecosystem Management for Human Health in the Uda Walawe Irrigation Scheme 3.5 years (completed)	Education, training, human resources development. Research capacity. <u>Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. Risk reduction/mgt. Pollution prevention, waste min. and industrial env. mgt. Human health. Ecosystem approaches to human health.</i>	2003	346
CIDA - Canadian International Development Agency	<i>Tanzania</i>	Environmental Initiatives 3 years (completed)	Education, training, human resources development.	2000	324
International Development Research Centre	<i>Tanzania</i>	East Africa Pesticide Network 8 years (completed)	Design and conduct of research. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Testing. Exposure analysis. GLP.</i>	1998	228
CIDA - Canadian International Development Agency	<i>Thailand</i>	Norwest Soil Research	Development of partnerships with industry. Education, training, human resources development. <u>Pesticides.</u>	2000	251
International Development Research Centre	<i>Ukraine</i>	Integrated Approaches to Safe Drinking Water Quality - WaterTox 1 year (completed)	Design and conduct of research. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. GLP. Hazard/risk communication.</i>	1998	229
CIDA - Canadian International Development Agency	<i>Vietnam</i>	Methodology and Technology for UXO (unexploded bomb and mines) Clearance 2.5 years (ongoing)	Design and conduct of research. <u>Chemicals.</u> <i>Obsolete chemicals & pesticides. Site remediation.</i>	2003	349
CIDA - Canadian International Development Agency	<i>Argentina, Brazil, Chile, Colombia, Uruguay</i>	Southern Cone Technology Transfer Project 5 years (completed)	Education, training, human resources development.	1998	208

INTERGOVERNMENTAL FORUM ON CHEMICAL SAFETY
 Fourth SESSION – FORUM IV
 1-7 November 2003

IFCS/FORUM-IV/4 INF

CIDA - Canadian International Development Agency	<i>Costa Rica, Grenada, Mexico, Panama, Peru</i>	Shawinigan International Muni Ressources/Jeunes	Education, training, human resources development.	2000	247
CIDA - Canadian International Development Agency	<i>Leeward and Windward Regions of OECS (Organization of Eastern Caribbean States)</i>	OECS Environmental Capacity Development 5 years	Education, training, human resources development.	2000	245
CIDA - Canadian International Development Agency	<i>Multinational</i>	ICLEI Appui au programme 98/99 - 00/01 4 years	Education, training, human resources development.	2000	249

4. DENMARK					
Ministry of Foreign Affairs	<i>Bangladesh</i>	Plant Protection Programme 5 years (completed)	Development of legislation/regulations. <i>Pesticides.</i> <i>Risk reduction/mgt.</i>	1998	161
Ministry of Foreign Affairs	<i>Bangladesh</i>	Bio-Intensive Agro Forestry 7 years (completed)	Encouraging community participation. Information generation, gathering, use and dissemination. <i>Pesticides.</i>	1998	145
Danish EPA	<i>Belarus</i>	Biotechnological Pest Control in Forestry	Control program. <i>Pesticides. Biopesticides.</i> <i>Chemical emergency preparedness and response.</i>	1996	115
Danish EPA	<i>Belarus</i>	Survey, Management and Disposal of Accumulated Obsolete Pesticides 1.5 year (completed)	<i>Pesticides.</i> <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	1998	134
Danish EPA	<i>Belarus</i>	Lymantria Monacha Completed	Control program. <i>Pesticides. Biopesticides.</i> <i>Chemical emergency preparedness and response.</i>	1996 (2003)	114
Danish EPA	<i>Belarus</i>	Regulation of Pesticides - Project Formulation Mission 4 months (completed)	Development of legislation/regulations. <i>Pesticides.</i> <i>Pesticide registration.</i>	1998 (2003)	135
Ministry of Foreign Affairs	<i>Benin</i>	Improvement of Food Supply 6 years (completed)	Education, training, human resources development. <i>Pesticides.</i>	1998	166
Ministry of Foreign Affairs	<i>Bhutan</i>	Interim Storage of Pesticide Residue 1.5 year (completed)	Storage of pesticides. <i>Pesticides.</i> <i>Pesticide registration. Pollution prevention, waste min. and industrial env. mgt.</i>	2000	291
CARE Denmark	<i>Bolivia</i>	MIRNA Integrated Development of Natural Resources 8 years (ongoing)	IPM. <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	2000	303
CARE Denmark	<i>Bolivia</i>	CADENA - Development of Agriculture and Natural Resources 9 years (completed)	IPM. <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	2000	302
Ministry of Foreign Affairs	<i>Bolivia</i>	Agricultural and Natural Resource Advice, Cadena 10 years (completed)	Quality control. Education, training, human resources development. Encouraging community participation. <i>Pesticides.</i> <i>Risk reduction/mgt.</i>	1998	144
Ministry of Foreign Affairs	<i>Bolivia</i>	Agricultural Development - Yungas 2000 4 years (completed)	Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <i>Pesticides.</i> <i>Risk reduction/mgt.</i>	1998	148
Ministry of Foreign Affairs	<i>Bolivia</i>	Development of Natural Resources and Agriculture, Mirna 2 years (completed)	Education, training, human resources development. Encouraging community participation. <i>Pesticides.</i> <i>Risk reduction/mgt.</i>	1998	143

Danish EPA	<i>Botswana</i>	Support to Management of Chemical Substances 3 years (completed)	Development of legislation/regulations. Creation/mgt. of databases. Development of partnerships with industry. Education, training, human resources development. Encouraging community participation. <u>Chemicals.</u> <i>Hazard/risk assessment. Classification of products. Hazard/risk communication. Risk reduction/mgt.</i>	1998 (2000)	131
Danish EPA	<i>Bulgaria</i>	National HCFC Phase-out Program 2.5 years (completed)	Information generation, gathering, use and dissemination. Strategy for phasing out HCFC's. <u>HCFCs.</u> <i>Pollution prevention, waste min. and industrial env. mgt.</i>	2003	375
Danish EPA	<i>Bulgaria</i>	ISPA Application for a Phased Implementation of Hazardous Waste Center 10 months (ongoing)	Conduct of economic analysis. Awareness raising. <u>Hazardous waste.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Preparation of ISPA application.</i>	2003	376
Danish EPA	<i>Estonia</i>	Assistance in Implementation of the Disposal of PCB/PCT's Directive Started in 1999 (ongoing)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of inventories/registers. Education, training, human resources development. Implementation of Directives. <u>Chemicals.</u> <i>Testing.</i>	2000 (2003)	289
Danish EPA	<i>Estonia</i>	Dioxin Measurements (from two thermal power plants and one refinery) 6 months (completed)	Education, training, human resources development. Information generation, gathering, use and dissemination. <u>Dioxin.</u> <i>Measuring emissions.</i>	2003	353
Ministry of Foreign Affairs	<i>Ghana</i>	Agroforestry 8 years (completed)	Information generation, gathering, use and dissemination. <u>Pesticides.</u>	1998	165
IBIS	<i>Guatemala</i>	Local Development of San Martin Sacatepequez 3.5 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	2000	323
Ministry of Foreign Affairs	<i>Guatemala</i>	Coffee Cooperative Capacity Building 1 year (completed)	Development of guidance docs. Education, training, human resources development. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	1998	152
Ministry of Foreign Affairs	<i>India</i>	Rajasthan Development Project 6 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	1998	153
Danish EPA	<i>Latvia</i>	Consulting Services Supporting Elimination of Obsolete Pesticides 1.5 year (ongoing)	Quality control. <u>Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mgt. Obsolete chemicals & pesticides.</i>	2003	358

Danish EPA	<i>Latvia</i>	Supply of Equipment for Continuous Pesticide Emission Monitoring 8 months (completed)	Equipment. <u>Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mgt.</i>	2003	357
Danish EPA	<i>Latvia</i>	Supply and Initial Operation of Mobil/Semimobile Equipment for the Incineration of Hazardous Waste	Development of guidance docs. Quality control. Education, training, human resources development. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Testing. Exposure analysis. Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Pollution prevention, waste min. and industrial env. mgt.</i>	2000	286
Danish EPA	<i>Lithuania</i>	Integrated Control Program for Lymantria Monacha and Other Defoliators in Lithuanian Forests Completed	Control program. <u>Pesticides. Biopesticides.</u> <i>Chemical emergency preparedness and response.</i>	1996 (2003)	112
Danish EPA	<i>Lithuania</i>	Project Formulation Mission on Implementation of the EU Requirements (for disposal of PCB, waste oils and batteries) 1 year (completed)	Development of legislation/regulations. <u>Chemicals.</u>	2003	359
Danish EPA	<i>Lithuania</i>	Environmental Evaluation of Agrochemicals and Provision of a Catalogue of Regulatory Instruments and Guidelines to Ensure a Sound Use of Such Chemicals in the Future 2 years (completed)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. Education, training, human resources development. <u>Pesticides.</u> <i>Testing. Hazard/risk assessment. Pesticide registration. Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mgt.</i>	1996 (2003)	113
Danish EPA	<i>Lithuania</i>	Integrated Control Program for Lymantria and Dendrolimus Pini Completed	Control program. <u>Pesticides. Biopesticides.</u> <i>Chemical emergency preparedness and response.</i>	1996 (2003)	111
Danish EPA	<i>Lithuania</i>	Action Plan for the Management of Unused Pesticides Started in 1995 (ongoing)	Creation/mgt. of databases. Development of inventories/registers. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Pesticide registration. Classification of products. Hazard/risk communication. Risk reduction/mgt.</i>	2000 (2003)	285
Danish EPA	<i>Malaysia</i>	Technical Assistance and Training Regarding Operation and Maintenance at Kualati Alam 3 years (completed)	Development of guidance docs. Education, training, human resources development. <u>Chemicals. Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	2000	281

Ministry of Foreign Affairs	<i>Malaysia</i>	Occupational Safety and Health Programme for Malaysian Workers in the Electronics and Construction Industries 3 years (completed)	Development of legislation/regulations. Development of guidance docs. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Chemicals.</u> <i>Testing. Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Classification of products. Hazard/risk communication. Risk reduction/mgt. Pollution prevention, waste min. and industrial env. mgt.</i>	2000	299
Ministry of Foreign Affairs	<i>Mozambique</i>	Collection and Disposal of Obsolete Pesticides 3 years (completed)	Education, training, human resources development. Eliminating risks associated with obsolete pesticides and assisting Mozambique in living up to its objectives under the Basel/Bamako conventions. <u>Pesticides.</u> <i>Hazard/risk assessment. Pesticide registration. Hazard/risk communication. Risk reduction/mgt. Pollution prevention, waste min. and industrial env. mgt.</i>	2000	290
Ministry of Foreign Affairs	<i>Mozambique</i>	Strengthening the Plant Protection Sector 6 years (completed)	<u>Pesticides.</u>	1998	164
Ministry of Foreign Affairs	<i>Nepal</i>	Integration of Natural Resources and Agriculture	<u>Pesticides.</u>	1998	142
Ministry of Foreign Affairs	<i>Nepal</i>	Soil Conservation in Rasuwa Nuwakot and Dhading Districts 5 years (completed)	Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Education, training, human resources development. Encouraging community participation.	1998	237
IBIS	<i>Nicaragua</i>	Local Development in El Sauce, Phasing out 2 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	1998 (2000)	146
IBIS	<i>Nicaragua</i>	Local Development Project in Achuapa, Phase II 3 years (ongoing)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	1998 (2000)	147
IBIS	<i>Nicaragua</i>	Local Integrated Development in the Municipality of Santa Rosa del Penon 3 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	2000	300
Ministry of Foreign Affairs	<i>Nicaragua</i>	Agroforestry in El Dital 7 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	1998	141

Ministry of Foreign Affairs	Nicaragua	Sector Programme Support for Agriculture 2 years (completed)	Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Quality control. <u>Pesticides.</u> <i>Pesticide registration. Classification of products. Import/export of substances.</i>	2000	293
Ministry of Foreign Affairs	Nicaragua	UNAG Farming Development 2 years (completed)	Encouraging community participation.	1998	239
Ministry of Foreign Affairs	Niger	Management of Natural Resources, Baban Rafi 2 years (completed)	Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u>	1998	140
Ministry of Foreign Affairs	Philippines	Organic Villages 3 years (completed)	Education, training, human resources development. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Risk reduction/mgt. Life-cycle analysis.</i>	1998	150
Ministry of Foreign Affairs	Philippines	Capacity Building for Sustainable Development 3 years (completed)	Education, training, human resources development. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	1998	151
Ministry of Foreign Affairs	Philippines	Establishment of Folk High School 2 years (completed)	Education, training, human resources development. <u>Pesticides.</u>	1998	149
Danish EPA	Poland	Integrated Control of Lymantria Monacha in Polish Forests Completed	Control program. <u>Pesticides. Biopesticides.</u> <i>Chemical emergency preparedness and response.</i>	1996 (2003)	116
Danish EPA	Poland	Savings and Substitutions of Environmentally Hazardous Chemicals 3 years (completed)	Education, training, human resources development. <u>Chemicals.</u> <i>Pollution prevention, waste min. and industrial env. mgt. Substitution of problematic chemicals.</i>	1998 (2003)	137
Danish EPA	Russian Federation	Ozone Depleting Substances (ODS) Phaseout in the Sector of Refrigeration Servicing in St. Petersburg City and Leningrad Oblast Completed	Education, training, human resources development. <u>Chemicals.</u> <i>Risk reduction/mgt. Phaseout of problematic chemicals.</i>	1998 (2003)	138
Danish EPA	Russian Federation	PCB Phase-out	Development of guidance docs. Creation/mgt. of databases. Conduct of economic analysis. Development of inventories/registers. Information generation, gathering, use and dissemination. <u>PCBs.</u> <i>Pollution prevention, waste min. and industrial env. mgt.</i>	2000	288
Danish EPA	Russian Federation	Feasibility Studies for PCB phase-out 1.8 year (completed)	Feasibility studies. <u>Chemicals.</u> <i>Selection of alternatives for replacement of PCB; design of PCB collection schemes; preparation of 'Least cost' overall Russian PCB phase-out strategy.</i>	2003	352
Danish EPA	Slovak Republic	Implementation of a Laboratory Structure for Providing Analyses and Tests of Sufficient Quality for Environmental Management, Phase 2 Started in 1996 (ongoing)	Establishment of proper reference laboratory for ecotoxicological tests. <u>Chemicals. Pesticides.</u>	1998 (2003)	136

Danish EPA	<i>Slovak Republic</i>	Ecotoxicological Methods and Strategies for Environmental Impact Assessment Started in 1993 (ongoing)	Development of legislation/regulations. Design and conduct of research. <u>Chemicals.</u> <u>Testing. Exposure analysis. Classification of products.</u>	1996 (2003)	117
Danish EPA	<i>Slovak Republic</i>	Implementation of a Laboratory Structure for Analyses, Phase 1 Started in 1995 (ongoing)	Design and conduct of research. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes <u>Chemicals. Pesticides.</u> <u>Testing. Exposure analysis. Hazard/risk assessment. GLP.</u>	1996 (2003)	118
Danish EPA	<i>Slovak Republic</i>	Laboratory Project - Laboratory of Reference Started in 1996 (ongoing)	Design and conduct of research. DDT use for tsetse control.</u> <i>Risk reduction/mgt.</i>	2003	384
Department for International Development (DFID)	Zimbabwe	Improving Quality Assurance Systems for Fresh Fruits and Vegetables Produced by Peri-urban Resource Poor Farmers 3 years (completed)	Quality control. Awareness raising. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	2003	382
Department for International Development (DFID)	Zimbabwe	Environmental Risks of Insecticide-treated Cattle in Semi-arid Livestock Systems 3 years (completed)	Design and conduct of research. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Testing. Risk reduction/mgt.</i>	2003	380

Department for International Development (DFID)	Zimbabwe	Environmentally Acceptable Crop Protection Strategies based on the Improved Use of Pesticides and Adoption of IPM Strategies by Small-holder Farmers 4.3 years (completed)	Development of guidance docs. Design and conduct of research. Education, training, human resources development. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Risk reduction/mgt.</i>	2000 (2003)	316
Department for International Development (DFID)	Bangladesh, India, Nepal	Factors Affecting Uptake and Adoption of Outputs of Crop Protection Research in Vegetable Systems 6 months (completed)	Education, training, human resources development. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	2003	381
Department for International Development (DFID)	Bangladesh, India, Pakistan	Fate of Herbicide Residues in Irrigated Rice Systems 1 year (completed)	Development of legislation/regulations. Creation/mgt. of databases. Development of inventories/registers. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Risk reduction/mgt.</i>	2000 (2003)	315
Department for International Development (DFID)	Bangladesh, Ivory Coast, Vietnam	Determining the Nature and Function of Crop-associated Biodiversity for Sustainable Intensification of Rice-based Production Systems 3 years (completed)	Design and conduct of research. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Testing.</i>	2003	383
Department for International Development (DFID)	Benin, Ethiopia, Ghana, Senegal, Uganda, Regional	Reducing Pesticide Problems and Increasing Sustainable Livelihoods 2.5 years (ongoing)	Creation/mgt. of databases. Design and conduct of research. Education, training, human resources development. Awareness raising. <u>Pesticides.</u> <i>Risk reduction/mgt. Obsolete chemicals & pesticides.</i>	2003	393
Department for International Development (DFID)	Jamaica, St Lucia	Impact and Amelioration of Sediment and Agro-chemical Pollution on Caribbean Coastal Waters 3 years (completed)	Development of guidance docs. Conduct of economic analysis. Information generation, gathering, use and dissemination. Pollution monitoring systems. <u>Pesticides.</u> <i>Testing.</i>	2003	391
Overseas Development Administration	Philippines, Senegal, Zimbabwe	Methods and Techniques for Environmental impact Assessments of Agrochemicals in the Tropics 8 years (completed)	Design and conduct of research. Encouraging community participation. <u>Chemicals.</u> <i>Environmental Impact Assessment.</i>	1996	69
Department for International Development (DFID)	Tanzania, Zambia	Development of Biologically-based Control Strategies for Environmentally Sustainable Control of Red Locust in Central and Southern Africa 3 years (completed)	Development of guidance docs. Design and conduct of research. Conduct of economic analysis. Education, training, human resources development. <u>Pesticides. Mycoinsecticide.</u> <i>Pesticide registration.</i>	2003	388

Department for International Development (DFID)	<i>Uganda, Zimbabwe</i>	Weed Management in Cotton-based Systems 3 years (completed)	Design and conduct of research. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Chemicals. Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mgt.</i>	2000	319
Overseas Development Administration	<i>Africa</i>	Comparative Toxicology of Pesticide Formulations to Aquatic Fauna 3 years (completed)	Education, training, human resources development. <u>Pesticides.</u> <i>Exposure analysis.</i>	1996	64
Overseas Development Administration	<i>Africa ; Global</i>	Environmental Database, ENVIRON, Information and Advice on Side-effects of Agrochemicals in the Tropics 7 years (completed)	Creation/mgt. of databases. Education, training, human resources development. <u>Chemicals.</u> <i>Hazard/risk communication.</i>	1996	63
Department for International Development (DFID)	<i>Global</i>	Review of the Implications of Changes in EU Pesticide Legislation on the Production and Export of Fruits and Vegetables from Developing Country Suppliers 1 year (completed)	Development of guidance docs. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. <u>Pesticides.</u>	2003	385
Department for International Development (DFID)	<i>Global</i>	Ecological Monitoring Methods for the Assessment of Pesticide Impacts in the Tropics - a Handbook 6 months (completed)	Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Hazard/risk communication.</i>	2003	397
Department for International Development (DFID)	<i>Global</i>	CIRAD/FAO Workshop on Food Safety Management in Developing Countries (two-day workshop in Montpellier, France) 3 months (completed)	Information generation, gathering, use and dissemination. <u>Pesticides.</u>	2003	395
Department for International Development (DFID)	<i>Global</i>	Fipronil Briefing Document for Pesticides Trust 1.5 year (completed)	Information generation, gathering, use and dissemination. Factsheet. <u>Pesticides.</u>	2003	386
Department for International Development (DFID)	<i>Global</i>	Modelling the Performance of Barriers of Insect Growth Regulator for Locust and Grasshopper Control to Maximise their Efficiency and Minimise their Environmental Effects 2 years (completed)	Development of guidance docs. Design and conduct of research. Information generation, gathering, use and dissemination. <u>Pesticides.</u> <i>Testing. Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mg</i>	2000	313
Overseas Development Administration	<i>No name</i>	Occupational Disorders in Tropical Agriculture (Literature Review) 4 years (completed)	Literature review. <u>Pesticides.</u> <i>Occupational exposure.</i>	1996	66
Overseas Development Administration	<i>No name</i>	Ergonomic Intervention to Reduce Pesticide Poisoning	Design and conduct of research. <u>Pesticides.</u> <i>Risk reduction/mgt.</i>	1996	62
18. UNITED STATES					

U.S. EPA	<i>Argentina</i>	Training Course on Motor Vehicle Air Pollution (Control and Lead Phase-out in Gasoline)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Design and conduct of research. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. Development of inventories/registers. Education, training, human resources development. Encouraging community participation. <i>Chemicals. Lead.</i> <i>Testing. Exposure analysis. Hazard/risk assessment. GLP. Occupational exposure. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Risk reduction/mgt.</i>	1996	110
U.S. EPA	<i>Egypt</i>	Mobile Source Air Pollution Control Measure Recommendations for Cairo	Development of legislation/regulations. Development of guidance docs. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Quality control. Education, training, human resources development. Encouraging community participation. <i>Chemicals. Lead.</i> <i>Exposure analysis. Hazard/risk assessment. Risk reduction/mgt.</i>	1996	101
U.S. EPA	<i>Hungary</i>	Training Course on Motor Vehicle Air Pollution (Control and Lead phase-out in Gasoline)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Design and conduct of research. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. Development of inventories/registers. Education, training, human resources development. Encouraging community participation. <i>Chemicals. Lead.</i> <i>Testing. Exposure analysis. Hazard/risk assessment. GLP. Occupational exposure. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Risk reduction/mgt.</i>	1996 (1998)	100
U.S. EPA	<i>Indonesia</i>	Pesticide Regulatory Development Project 2 years (completed)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Education, training, human resources development. <i>Pesticides.</i> <i>Pesticide registration.</i>	1996	108

U.S. EPA	Mexico	Registro de Emisiones y Transferencias de Contaminantes (RETC)	Development of legislation/regulations. Development of guidance docs. Development of partnerships with industry. Development of inventories/registers. Education, training, human resources development. Encouraging community participation. <u>Chemicals. Pesticides.</u> Safe production, use, control of emissions and disposal of toxic substances. Chemical emergency preparedness and response.	1996 (1998)	99
U.S. EPA	Mexico	National Metals Assessment Strategy 2 years (completed)	Development of guidance docs. <u>Chemicals.</u> <u>Testing. Exposure analysis. GLP. Occupational exposure.</u>	1996 (1998)	98
U.S. EPA	Russian Federation	Training Course on Motor Vehicle Air Pollution (Control and Lead phase-out in Gasoline)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Chemicals. Lead.</u> Occupational exposure. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Risk reduction/mgt. National profile development. Pollution prevention, waste min. and industrial env. mgt.	1996 (1998)	102
U.S. EPA	Slovak Republic	Pollutant Release and Transfer Register (PRTR) 1 year (completed)	Development of inventories/registers. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Chemicals.</u>	1998	207
U.S. EPA	Ukraine	US AID Pest and Pesticide Management Project 3 years (completed)	Development of legislation/regulations. Creation/mgt. of databases. Development of partnerships with industry. . Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Quality control. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Pesticides.</u> Exposure analysis. Hazard/risk assessment. Pesticide registration. Safe production, use, control of emissions and disposal of toxic substances. Classification of products. Hazard/risk communication. Risk reduction/mgt. National profile development. Pollution prevention, waste min. and industrial env. mgt.	1998	203

U.S. EPA	<i>Antigua & Barbuda, Bahamas, Barbados, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Suriname, Trinidad & Tobago</i>	Regional Workshop for the Phaseout of Lead in Gasoline 7-8 months (completed)	Development of legislation/regulations. Development of partnerships with industry. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Development of inventories/registers. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Lead.</u> <i>Hazard/risk assessment. Risk reduction/mgt. National profile development. Pollution prevention, waste min. and industrial env. mgt.</i>	1998	206
U.S. EPA	<i>Bulgaria, Czech Republic, Hungary, Romania, Russian Federation, Slovak Republic, Slovenia</i>	Lead Risk Reduction Project	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Development of inventories/registers. Education, training, human resources development. Encouraging community participation. Information generation, gathering, use and dissemination. <u>Lead.</u> <i>Hazard/risk assessment. Risk reduction/mgt. National profile development. Pollution prevention, waste min. and industrial env. mgt.</i>	1998	205
USAID / ENRIC	<i>Czech Republic, Egypt, Estonia, Hungary, Jordan, Morocco, Poland, Slovak Republic, Tunisia, West Bank and Gaza Strip (Israel)</i>	Project in Development and the Environment (PRIDE) 6 years (completed)	Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Conduct of economic analysis. Quality control. Education, training, human resources development. <u>Chemicals. Pesticides.</u> <i>Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Chemical emergency preparedness and response. Risk reduction/mgt.</i>	1996	103
USAID / ENRIC	<i>Guatemala, Jamaica, Mali, Philippines</i>	IPM Collaborative Research Support Program (IPM-CRSP) 9 years (completed)	Development of partnerships with industry. Design and conduct of research. Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. Risk reduction/mgt.</i>	1996 (1998)	106
USAID / ENRIC	<i>Hungary, Romania, Slovak Republic</i>	Transboundary Pollution Reduction in Three Danube Tributary Basins 3 years (completed)	Quality control. <u>Chemicals. Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances. Chemical emergency preparedness and response. Risk reduction/mgt.</i>	1996 (1998)	105

USAID / ENRIC	<i>Asia and Pacific (35 nations and territories)</i>	U.S. - Asia Environmental Partnership (AEP) 10 years (completed)	Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Conduct of economic analysis. Quality control. Education, training, human resources development. <u>Chemicals. Pesticides.</u> <i>Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Hazard/risk communication. Import/export of substances. Risk reduction/mgt.</i>	1996 (1998)	104
U.S. EPA	<i>Central America</i>	Central American Regional Environmental Technical Assistance Program 4 years (completed)	Development of legislation/regulations. Development of guidance docs. Creation/mgt. of databases. Development of partnerships with industry. Implementation, enforcement, monitoring and compliance with legislation or mandatory programmes. Quality control. Encouraging community participation. <u>Chemicals. Pesticides.</u> <i>Hazard/risk assessment. Pesticide registration. Occupational exposure. Safe production, use, control of emissions and disposal of toxic substances. Classification of products. Hazard/risk communication. Import/export of substances. Risk reduction/mgt.</i>	1996 (1998)	97
U.S. EPA & USAID	<i>Central America</i>	US AID / EPA Central American Project 5 years	Education, training, human resources development. <u>Pesticides.</u> <i>Import/export of substances. Risk reduction/mgt. Pollution prevention, waste min. and industrial env. mgt.</i>	1996 (1998)	109
USAID / ENRIC	<i>Global</i>	Environmental Pollution Prevention Project (EP3) 7 years (completed)	Development of partnerships with industry. Quality control. Education, training, human resources development. <u>Chemicals.</u> <i>Hazard/risk assessment. Safe production, use, control of emissions and disposal of toxic substances. Risk reduction/mgt.</i>	1996 (1998)	107
EUROPEAN UNION					
DG I B	<i>Sri Lanka</i>	Integrated Training and Safe Use of Pesticides 5 years (completed)	Design and conduct of research. Education, training, human resources development. Encouraging community participation. Strengthening of institutional framework. <u>Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	1996 (1998)	74
DG I B	<i>Bangladesh, China, India, Pakistan, Philippines, Vietnam</i>	IPM for Cotton in Asia 5 years (completed)	Development of legislation/regulations. Development of guidance docs. Development of surveys. Creation/mgt. of databases. Design and conduct of research. Conduct of economic analysis. Education, training, human resources development. Encouraging community participation. <u>Pesticides.</u> <i>Safe production, use, control of emissions and disposal of toxic substances.</i>	1996 (1998)	75

DG VIII / A	<i>ACP countries</i>	Integrated Pest Management	Development of guidance docs. Creation/mgt. of databases. Design and conduct of research. Education, training, human resources development. Training. <u>Pesticides.</u> <i>Tendering and procurement of pesticides. pest control. Reduce reliance on hazardous pesticides and promote safer alternatives.</i>	1996 (1998)	80
DG VIII / A	<i>African and Caribbean Regions</i>	Assistance to Developing Countries in Implementing the Basel Convention and in Preparing National Hazardous Waste Management Plan	Providing technical assistance and information. Recommending priority actions. Implementing international convention. <u>Waste.</u> <i>Environmentally sound management.</i>	1996 (1998)	79
DG VIII / A	<i>Eastern, Central, Western and Southern African Regions</i>	Training Project on the Implementation of the PIC Procedure 2 years (completed)	Development of guidance docs. Education, training, human resources development. Training. Implementation of voluntary programmes. Assessing chemicals infrastructure. <u>Chemicals. Pesticides.</u> <i>Import/export of substances.</i>	1996	78
DG XI / E	<i>Various</i>	Assisting Countries to Prepare National Profiles to Assess the National Infrastructure for the Sound Management of Chemicals 15 months (completed)	<u>Chemicals. Pesticides.</u> <i>Import/export of substances. National profile development.</i>	1996	77
DG XI / E	<i>Worldwide</i>	Training Projects in Risk Assessment 1.5 year (completed)	Development of legislation/regulations. Creation/mgt. of databases. Education, training, human resources development. <u>Chemicals. Pesticides.</u> <i>Exposure analysis. Hazard/risk assessment. Classification of products. Risk reduction/mgt.</i>	1996	76
